Notes to Financial Statements

1. Description of the Plan

The following description of the Gibson Greetings, Inc. Retirement Income Plan (the Plan) provides only general information. Participants should refer to the Summary Plan Description for a more complete description.

General

The Plan is a non-contributory defined benefit plan, which covered substantially all employees of Gibson Greetings, Inc. (the Company) before it was frozen. The Plan provides for retirement, death and disability benefits.

On March 9, 2000, the Company was acquired by American Greetings Corporation (the Plan Sponsor) and all participants in the Plan as of that date became fully vested. Effective December 31, 2000, the Plan Sponsor elected to freeze the future accrual of benefits under the Plan. Effective February 28, 2007, the Company was merged into the Plan Sponsor.

The Plan Sponsor has voluntarily agreed to contribute such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to the Plan participants. The Plan administrator's present intention is to make contributions sufficient to fund the Plan pursuant to the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan has met the ERISA minimum funding requirements.

The Plan Sponsor has the right to discontinue contributions and terminate the Plan at any time and for any reason. In the event of termination, the payment of participants' vested benefits will depend at that time on the sufficiency of the Plan's net assets to provide such benefits, the priority of the benefits to be paid, and the level and type of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC). Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

Administrative expenses of the Plan are paid by the Plan, except for the fees required for the Plan's annual audit which are paid by the Plan Sponsor.

2. Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Gibson Greetings, Inc. Retirement Income Plan

2. Significant Accounting Policies, continued

Investment Valuation and Income Recognition

The Plan's investments which are comprised of investments in common/collective trusts are stated at fair value. The Plan's valuation methodology used to measure the fair values of the common/collective trust funds are derived from the net asset value (NAV) of units held by the Plan at December 31, 2016 and 2015. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value and is based on the fair value of the underlying investments held by the fund less its liabilities. Admissions to and withdrawals from a fund are made as of a valuation date. Withdrawals are processed within ten business days subsequent to the valuation date.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 4) are those estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by eligible employees through December 31, 2000 (date benefits were frozen). Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, and (b) present employees or their beneficiaries. Benefits for retired or terminated employees or their beneficiaries are based on employees' average compensation during their highest sixty months during the most recent calendar year in which they had an hour of service and the nine preceding calendar years prior to the earlier of retirement, termination or December 31, 2000. The accumulated plan benefits for active employees are based on their average compensation during the five years preceding December 31, 2000. Benefits are payable under all circumstances including retirement, death, disability, and termination of employment, to the extent they are deemed attributable to employee service rendered to the valuation date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Gibson Greetings, Inc. Retirement Income Plan

Notes to Financial Statements

Subsequent Events

The Plan's management has evaluated subsequent events through August 21, 2017, which is the date the financial statements were available to be issued.

3. Certified Information

All investment information disclosed in the accompanying financial statements and schedules, including investments and accrued income at December 31, 2016 and 2015, and interest income and net appreciation in the fair value of investments for the year ended December 31, 2016, were obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by KeyBank National Association, the trustee.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

4. Accumulated Plan Benefits

The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected dates of payment.

Significant assumptions underlying the actuarial computations are as follows:

Discount Rate	5.93% at January 1, 2016 6.14% at January 1, 2015
Funding Assumption	Unit Credit funding method as required by the Pension Protection Act of 2006
Retirement Age	Rates of retirement varying by age (age 55 to 65)
Mortality Table	RP-2000 static, non-generational Mortality Table projected by scale AA, to between 7 and 15 years beyond the year of the obligation, male and female, with different rates for annuitants and non-annuitants

Gibson Greetings, Inc. Retirement Income Plan

Notes to Financial Statements

4. Accumulated Plan Benefits, continued

The accumulated plan benefit information, as of the beginning of each Plan year, is as follows:

<i>January 1,</i>	2016	2015
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants and beneficiaries currently receiving payments	\$ 66,708,659	\$ 66,996,011
Other vested benefits	19,539,812	19,862,466
	86,248,471	86,858,477
Nonvested benefits:	21,964	18,557
	\$ 86,270,435	\$ 86,877,034

The change in actuarial present value of accumulated plan benefits for the year beginning January 1, 2016 is as follows:

Actuarial present value of accumulated plan benefits as of January 1, 2015	\$ 86,877,034
Changes during the year due to:	
Actuarial gains	399,045
Increase due to decrease in the discount period	4,937,609
Actual benefits paid	(7,329,794)
Discount rate assumption	1,386,541
Net decrease	(606,599)
Actuarial present value of accumulated plan benefits as of January 1, 2016	\$ 86,270,435

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

5. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated April 6, 2017, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code of 1986 as amended (the Code) and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Gibson Greetings, Inc. Retirement Income Plan

Notes to Financial Statements

5. Income Tax Status, continued

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and believes that as of December 31, 2016 and 2015, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress or planned audits for any tax periods.

6. Transactions with Parties-in-Interest

All of the Plan's investments are common/collective trust funds managed by KeyBank National Association. KeyBank National Association is the trustee of the Plan and therefore, these transactions qualify as party-in-interest.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are determined and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to the uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Assumptions Made In Valuing Spouse's Benefit

Sixty percent of the male and forty-five percent of the female employees included in the valuation are assumed to be married. These percentages are used as the probabilities that survivor benefits will be payable due to preretirement deaths. The wife is assumed to be three years younger than the husband.

Optional Form Election

All employees are assumed to elect the life annuity benefit.

Provision for Expenses

The expected administrative (i.e. non-investment) expenses that will be paid from plan assets, which were assumed to equal actual administrative expenses during the prior year plus PBGC premiums for the current year, were included in the Target Normal Cost for minimum contribution purposes.

Standing Elections

Gibson Greetings, Inc. has not signed an election that provides for the automatic use of the Carryover and/or Prefunding Balance if necessary at the end of the plan year to meet the minimum funding requirement.

Asset Method

Market Value of Assets plus interest adjusted accrued but unpaid contributions as of the valuation date plus an adjustment to defer full recognition of investment losses and gains over a two-year period. The investment (gain)/loss for every year equals the market value at the beginning of the year projected to the end of the year using the interest rate above, but no greater than the third segment rate for the plan year, minus the end of the year actual market value. The actuarial value of assets will be no less than 90% and no more than 110% of the market value (including interest-adjusted accrued but unpaid contributions). Note that due to the regulatory constraint on the interest rate, a characteristic of this asset valuation method is that, over time, it may be more likely to produce an actuarial value of assets that is less than the market value of assets.

Employees Valued

Only participants as of the valuation date were valued.
