10. Actuarial Asset Valuation Method:

Three-year Smoothed Market Value. Under this method, each year, an actuarial gain/(loss) is calculated by determining the difference between expected market value and actual market value. Actuarial Value of Assets is equal to market value less 2/3 of the prior year's gain/(loss) less 1/3 of second prior year's gain/(loss). The final Actuarial Value of Assets will be adjusted to be no less than 90% or no more than 110% of market value of assets.

11. Fiscal Year:

January 1, 2016 through December 31, 2016.

12. Rationale for Assumptions:

The IRS segment rates and mortality tables used to determine minimum funding and maximum deductible amounts are pursuant to IRS regulations. The discount rate for accounting liabilities was selected by the plan sponsor. The selection of other actuarial assumptions is based on the actuary's best estimate of future expectations based on an examination of historical results compared to expectations, periodic experience studies, Society of Actuaries mortality studies, and any reasonably certain information about future expected plan changes.

13. Changes Since Last Year:

The interest rates used to determine the Target Liability were updated to the tiered segment rates of 4.43 %, 5.91% and 6.65% as indicated above and as required by IRS regulations.

The mortality table used for plan liabilities was updated to the IRS 2016 Combined Static Mortality Table as required by IRS regulations.

THE LEYMAN MANUFACTURING CORPORATION PENSION PLAN

Notes to Financial Statements

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements of The Leyman Manufacturing Corporation Pension Plan (the "Plan") have been prepared on the accrual basis in accordance with U.S. generally accepted accounting principles ("GAAP").

Investment Valuation

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an ordinary transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment securities, in general, are exposed to various risks such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

The Plan pays all benefits to pensioners. Benefit payments to participants are recorded upon distribution.

Expenses

In 2016 and 2015, certain expenses and costs of administering the Plan were paid by the Leyman Manufacturing Corporation (the "Company") and, accordingly, are not reflected in the Plan's financial statements.

Related Party Transactions

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The Plan is not charged by the Company for the services of the employees of the Plan.

Estimates

The preparation of financial statements in conformity with GAAP requires the Plan and Actuary to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Accounting Changes

In July 2015, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for the year ending December 31, 2016, with early adoption permitted. Plan management had decided to early adopt Part II for the year ending December 31, 2015.

Subsequent Events

The Plan has evaluated subsequent events through July 12, 2017, which is the date these financial statements were available to be issued.

Cash and Cash Equivalents

The Plan considers all liquid investments with original maturities of three months or less to be cash equivalents.

NOTE 2 DESCRIPTION OF THE PLAN

The following description of the plan provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined benefit pension plan covering all employees of the Company employed on or before June 30, 2008. Employees who had completed one year of service, as defined in the Plan, and had attained age 21 were eligible to participate in the Plan. As discussed in Note 8, future benefit accruals ceased as of June 30, 2008. Cuni, Rust & Strenk is the Plan's actuary. The Plan is administered by the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Pension Benefits

Employees with five or more years of service are entitled to monthly pension benefits beginning at normal retirement age (65) equal to the greater of \$4.00 for each year of credited service, or 1.10% of the employee's average monthly covered compensation plus 1.70% of the employee's average monthly compensation that exceeds average monthly covered compensation, times the number of years of credited service, not to exceed 30. An employee with less than 30 years of service is entitled to receive a percentage of the normal benefits, which is based upon the number of years of service. The Plan permits early retirement at ages 55 - 64 for employees with 10 years of service.

THE LEYMAN MANUFACTURING CORPORATION PENSION PLAN

Notes to Financial Statements (Continued)

NOTE 2 DESCRIPTION OF THE PLAN (CONTINUED)

If employees terminate before rendering five years of service, they will forfeit the right to receive the portion of their accumulated Plan benefits.

Employees may elect to receive the value of their accumulated Plan benefits as a life annuity payable monthly from retirement, or they may elect a 50% or 100% joint and survivor annuity or a single life with 10 year certain annuity.

Death Benefits

If an active employee dies before normal retirement age (65) and prior to actual retirement or any other severance of employment and has a vested interest, the employee's spouse will be entitled to a death benefit equal to 50% of the amount the employee would have received under the qualified joint and survivor annuity.

Vesting Provisions

Participants become fully vested upon completion of five years of service. As discussed in Note 8, all participants became fully vested as of June 30, 2008.

Tax Status of Benefit Plan

The Plan Sponsor has adopted a prototype plan which has received a determination letter dated March 31, 2010, from the Internal Revenue Service ("IRS") which states the provider's prototype, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan itself has not received a determination letter from the IRS.

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service that employees have rendered to date and that are expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) present employees and their beneficiaries, and (c) beneficiaries of employees who have died. Benefits for retired or terminated employees or their beneficiaries are based on employees' five highest consecutive years of compensation. The accumulated plan benefits for active employees are based on their five highest years of compensation preceding the valuation date. Benefits payable under all circumstances – retirement, death and termination of employment – are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated Plan benefits is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payments (by means of decrements such as for death, withdrawal or retirement) between the valuation date and the expected dates of payment. The actuarial assumptions below are based on assumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

THE LEYMAN MANUFACTURING CORPORATION PENSION PLAN

Notes to Financial Statements (Continued)

NOTE 3 ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The components of the actuarial present value of accumulated plan benefits as of January 1, 2016 and 2015 are:

	<u>2016</u>	<u>2015</u>
Vested benefits:		
Participants currently receiving payments	\$ 2,815,173	\$ 2,718,205
Other participants	<u>2,572,830</u>	<u>2,692,777</u>
	<u>5,388,003</u>	<u>5,410,982</u>
 Total actuarial present value of accumulated plan benefits	 <u><u>\$ 5,388,003</u></u>	 <u><u>\$ 5,410,982</u></u>

The components of the changes in accumulated plan benefits for the years ended January 1, 2016 and 2015 are:

	<u>2016</u>	<u>2015</u>
Actuarial present value of accumulated plan benefits at January 1, 2015 and 2014, respectively	 \$ 5,410,982	 \$ 5,243,552
Increase (decrease) during the year attributable to:		
Benefits accumulated and experience	(135,394)	66,636
Interest due to decrease in discount period	369,909	358,192
Benefits paid for retirements and terminations	<u>(257,494)</u>	<u>(257,398)</u>
 Actuarial present value of accumulated plan benefits at January 1, 2016 and 2015, respectively	 <u><u>\$ 5,388,003</u></u>	 <u><u>\$ 5,410,982</u></u>

Due to the inherent estimates in actuarial assumptions, it is at least reasonably possible that they may change in the near term.

NOTE 4 FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities and the lowest priority to unobservable inputs.

The hierarchy is broken down into three levels base on the ability to observe inputs as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

THE LEYMAN MANUFACTURING CORPORATION PENSION PLAN

Notes to Financial Statements (Continued)

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	\$ 5,827,361	\$ -	\$ -	\$ 5,827,361
Total assets at fair value	<u>\$ 5,827,361</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,827,361</u>

NOTE 4 FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 5,083,595	\$ -	\$ -	\$ 5,083,595
Total assets at fair value	<u>\$ 5,083,595</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 5,083,595</u>

NOTE 5 PLAN TERMINATION

The Company expects the Plan to be continued indefinitely, but reserves the right to terminate the Plan and contributions thereunder, in whole or in part, at any time by action of its Trustees. If the Plan is terminated, benefits will be distributed pursuant to the terms of the Plan. Its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Generally, the Plan provides the following priorities:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired when benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Vested benefits insured by the Pension Benefit Guarantee Corporation.
3. Other noninsured vested benefits.
4. All other nonvested benefits.

Certain benefits under the Plan are insured by the Pension Benefit Guarantee Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For Plan terminations occurring during 2016 and 2015, that ceiling is \$5,011 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

THE LEYMAN MANUFACTURING CORPORATION PENSION PLAN

Notes to Financial Statements (Continued)

NOTE 5 PLAN TERMINATION (CONTINUED)

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial conditions of the Plan Sponsor and the level of benefits guaranteed by the PBGC. PBGC insurance guarantees are backed by the solvency of the PBGC – a U.S. Government agency. Should the PBGC become insolvent, additional appropriations to the agency would need to be authorized by the U.S. Government in order to pay guaranteed benefits.

NOTE 8 PLAN FREEZE

Effective June 30, 2008, the Plan sponsor amended the Plan to "freeze" all benefits under the Plan. The "freeze" of benefit accruals constitutes a partial termination and, as a result, participants shall automatically be deemed to be fully vested in their accrued benefit under the Plan. The Plan sponsor intends to keep the Plan in existence as long as necessary to pay all remaining accrued benefits.

NOTE 9 CONTINGENCY

During 2014, the Plan sponsor entered an agreement with the PBGC to meet the Plan Sponsor's funding requirements as a result of the minimum contributions not made during the prior years. The agreement specified that the Plan sponsor would make certain lump sum contributions to the Plan after completing various financing and sales transactions. The agreement also stipulated minimum monthly contributions, at fluctuating amounts, that were made by the Plan sponsor until such time that the Plan was fully funded. As of the date of this report, the Plan is fully funded for the purposes of the minimum funding requirement.

During 2014, the Plan was audited by the Internal Revenue Service (IRS) for the 2012 year end. During 2014, in conjunction with the IRS audit the Plan sponsor filed forms 5330 (Return of Excise Taxes Related to Employee Benefit Plans) for periods December 31, 2007 through December 31, 2013 relating to the non-compliance with funding requirements. Based on these filings, an amount totaling approximately \$677,000 was assessed for excise tax to the Plan sponsor and paid during 2015. This audit did not affect the Plan's tax status.
