ACCOUNTNOW SERVICES, INC. 401(k) PLAN NOTES TO FINANCIAL STATEMENTS

NOTE 1 – THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General – The following description of the AccountNow Services, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The Plan was a defined contribution plan that was established in 2008 by AccountNow Services, Inc. (the Company), to provide benefits to eligible employees, as defined in the Plan document. The Plan was designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code) and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2015, the Plan name was changed from the AccountNow 401(k) Plan to the AccountNow Services, Inc. 401(k) Plan.

In January 2015, the Company was acquired by Green Dot Corporation (Green Dot). As a result of the acquisition, the Plan was frozen in October 2015 to new participants and contributions. Employees of the Company who are hired by Green Dot became eligible to participate in the Green Dot Corporation 401(k) Retirement Savings Plan (the Green Dot Plan) at that time. The Company merged the Plan into the Green Dot Plan on April 29, 2016.

Administration – The Company contracted with State Street Bank & Trust Company (State Street) to act as the custodian and trustee, and Automatic Data Processing, Inc., Retirement Services to act as the third-party administrator to process and maintain the records of participant data. Substantially all expenses incurred for administering the Plan were paid by the Company.

Estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting – The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment valuation and income recognition – The investments are reported at fair value. The Plan's trustee, State Street, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Notes receivable from participants – Notes receivable from participants (notes receivable) are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions upon the occurrence of a distributable event based upon the terms of the Plan document.

Payment of benefits – Benefits are recorded when paid.

Income taxes – The Plan adopted a prototype plan that had received an opinion letter from the Internal Revenue Service. The Plan administrator believed that the Plan was operated in accordance with, and qualified under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, was exempt from federal income and state franchise taxes.

In accordance with guidance on accounting for uncertainty in income taxes (ASC 740-10), management evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Subsequent events – The Plan has evaluated subsequent events through August 23, 2017, which is the date the financial statements were available to be issued.

NOTE 2 – FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. The mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trusts: Units held in common/collective trusts (CCT) are valued using the NAV practical expedient of the CCT as reported by the CCT managers. The NAV practical expedient is based on the fair value of the underlying assets owned by the CCT, minus its liabilities, and then divided by the number of units outstanding. The NAV practical expedient of a CCT is calculated based on a compilation of primarily observable market information.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believed its valuation methods were appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could have resulted in a different fair value measurement at the reporting date.

NOTE 3 - RELATED PARTY TRANSACTIONS

The Plan CCTs were managed by State Street, the trustee of the Plan. Any purchases and sales of these CCTs were performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 - PARTICIPATION AND BENEFITS PRIOR TO THE PLAN MERGER

Participant contributions – Participants could have elected to have the Company contribute their eligible pre-tax compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. The Plan also permitted the automatic enrollment of eligible employees in the Plan with a contribution of 3% of eligible compensation, unless the employee affirmatively elected otherwise. Participants who had the Company contribute a portion of their compensation to the Plan agreed to accept an equivalent reduction in taxable compensation. Contributions withheld were invested in accordance with the participant's direction.

Participants were also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions were deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions – The Company was allowed to make contributions to the Plan in the form of matching contributions, as defined in the Plan and as approved by the Company. No employer contributions were made for the period ended April 29, 2016.

Vesting – Participants were immediately vested in their entire account, including employer contributions.

Participant accounts – Each participant's account was credited with the participant's contribution, Plan earnings or losses, and an allocation of the Company's contribution, if any. Allocation of the Company's contribution was based on participant contributions, as defined in the Plan.

Payment of benefits – Upon termination, the participants or beneficiaries could have elected to leave their account balance in the Plan, or receive their total benefits in a lump sum amount equal to the value of the participant's interest in their account. The Plan allowed for the automatic distribution of participant account balances that do not exceed \$5,000.

NOTES TO FINANCIAL STATEMENTS

Notes receivable from participants – The Plan allowed participants to borrow not less than \$500 and up to the lesser of \$50,000 or 50% of their account balance. The notes receivable were secured by the participant's balance. Such notes receivable bore interest at the available market financing rates and were required to be repaid to the Plan within a five-year period, unless the proceeds were used for the purchase of a principal residence in which case the maximum repayment period could have been longer. The specific terms and conditions of such notes receivable were established by the Plan administrator. There were no outstanding notes receivable at April 29, 2016.

NOTE 5 – CERTIFIED INFORMATION
