Notes to Financial Statements

December 31, 2016

1. Description of Plan

The following description of the Therapy in Motion, LLC 401K Profit Sharing Plan & Trust (the “Plan”) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan’s provisions.

General – The Plan is a defined contribution plan and was established on April 15, 2009 to cover all non-union employees of Therapy in Motion, LLC (the “Company”) who have reached the age of 21 and have completed one year of service with 1,000 hours or more. The Plan is subject to the provisions of the Employee Retirement Income Security Act (“ERISA”). Management of the Company is responsible for oversight of the Plan. The Plan Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to management.

Contributions – Each year, participants may contribute up to a maximum of 90% of annual compensation on a pre-tax basis and/or an after-tax (ROTH) basis, as defined in the Plan. Participants who have attained the age of 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make rollover contributions which are amounts representing distributions from other qualified benefit plans.

The Company may make a non-elective contribution to the Plan, although the Company is not required to do so. There were no non-elective employer contributions for the year ended December 31, 2016.

Participants direct the investments of their contributions and the employer contributions into various investment options offered by the Plan.

Contributions are subject to certain Internal Revenue Service (“IRS”) limitations.

Participants’ accounts – Each participant’s account is credited with the participant’s contributions. Participant accounts are credited (charged) with an allocation of Plan earnings (losses) and administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

1. Description of Plan *(continued)*

Vesting – Participant's contributions and earnings thereon are immediately fully vested. Company non-elective contributions are subject to a vesting schedule. The following table illustrates the percentage of any Company non-elective contributions that an employee is entitled to, based on the number of years of credited service with the Company:

<u>Years</u>	<u>Percentage</u>
Less than 2	0%
Less than 3	20%
Less than 4	40%
Less than 5	60%
Less than 6	80%
More than 6	100%

Notes receivable from participants – Participants may borrow from their fund accounts and the borrowings are payable, with interest, in installments over a specified period not to exceed five years, except for certain residential loans. The maximum amount that can be borrowed is 50% of the participants' entire vested interest, with the outstanding loan balance never exceeding \$50,000. The minimum amount of any loan is \$500. The loans are secured by the balance in the participants' accounts. The loan interest rate, effective the month of the loan, is set at 2 percent above prime rate, as defined. Principal and interest is paid ratably through payroll deductions

Payment of benefits – Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or installments over a period of time, as defined. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution. The Plan also provides for in-service distributions subject to conditions and limitations provided for in the plan documents.

Forfeited accounts – At December 31, 2016 and 2015, there were no forfeited non-vested accounts. There were no forfeitures used to reduce employer contributions or plan expenses for the year ended December 31, 2016.

2. Significant Accounting Policies

Basis of accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting.

Use of estimates – The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

THERAPY IN MOTION, LLC

Notes to Financial Statements

2. Significant Accounting Policies (*continued*)

Investment valuation and income recognition – Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. The Plan management determines the Plan's valuation policies utilizing information provided by the trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of benefits – Benefits are recorded when paid.

Expenses – Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) of fair value of investments.

Recent accounting pronouncements – In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, Fair Value Measurement (Topic 820) – Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent) ("ASU 2015-07"). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value ("NAV") per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied will continue to be included in the fair value hierarchy, along with the related required disclosures. ASU 2015-07 is effective for nonpublic entities' fiscal years beginning after December 15, 2016, and is to be applied retrospectively, with early adoption permitted. Management has elected to adopt this ASU early in 2015, via retrospective application.

Notes to Financial Statements

2. Significant Accounting Policies *(continued)*

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit – Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts II is to be applied retrospectively. Management elected to adopt Part II early in 2015, via retrospective application.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820, Fair Value Measurements and Disclosures, are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
-

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes to Financial Statements

3. Fair Value Measurements (*continued*)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds and are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable asset collective trust fund: A stable asset fund that is composed primarily of fully benefit-responsive investment contract that is valued at the NAV of units of the bank collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

Collective trust funds: Collective trust funds are valued using NAV provided by the administrator of the underlying fund. The NAV is based on the value of the underlying assets owned by the fund less its liabilities, divided by the number of units outstanding. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the funds will sell the investments for an amount different from the reported NAVs. Participant transactions (purchases and sales) may occur daily.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

For years ended December 31, 2016 and 2015, there were no significant transfer between Level 1 and Level 2 and no transfers in or out of Level 3.

Investment Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016 and 2015, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

4. Related - Party Transactions and Party-in-Interest Transactions

Certain Plan investments are managed by State Street Bank and Trust Company (“State Street”), the custodian for the Plan and, therefore, these transactions qualify as party in interest transactions. On July 1, 2016, ADP switched trustees from State Street Bank & Trust Company to Reliance Trust Company. State Street Bank remains the sub-custodian of the plan, retaining its custody of the plan assets.

Notes to Financial Statements

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subjected to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

6. Tax Status

The IRS has determined and informed the Company by a letter dated July 8, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and is tax-exempt.

GAAP requires plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

8. Information Prepared and Certified by Trustees

Investments at fair value of \$681,029 and \$554,789 at December 31, 2016 and 2015, respectively, which is included in the accompanying financial statements and supplemental schedules, was obtained from data that has been prepared and certified to as complete and accurate by the trustees. In addition, for the year ended December 31, 2016, \$30,595 in net appreciation in fair value of investments and \$10,550 in dividends has been prepared and certified to as complete and accurate by the trustees.
