Notes to Financial Statements

A. Description of Plan

The following description of the Integrated Medical Professionals, PLLC Employees' Deferred Savings and Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

1. General. The Plan is a defined contribution plan covering all employees of the Integrated Medical Professionals, PLLC (hereafter referred to as the "Company"), who have 1 year of service (1000 Hours) and are age 21 or older. The Plan was established on July 17, 2006 and is subject to the provisions of the Employment Retirement Income Security Act of 1974 (ERISA).
2. Contributions. Each year, participants may contribute a percent of pretax annual compensation as defined in the Plan to the maximum allowed by the Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants also may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan does not include an auto-enrollment provision. Eligible employees must enroll if they wish to participate in the Plan.

During 2015 and 2014, the Company provided a Safe Harbor Non-elective contribution equal to 3% of a participant's wages as defined by the Plan. The safe harbor contribution is invested as directed by the participant.

The Company may also make a discretionary contribution without regard to the Company's current or accumulated profits as determined each year by resolution of the Company's Board of Directors. Discretionary contributions were \$2,554,343 and \$2,401,720 for the years ended December 31, 2016 and 2015 respectively. Contributions are subject to limitations as provided in the Code and as defined in the Plan.

**INTEGRATED MEDICAL PROFESSIONALS, PLLC
EMPLOYEES' DEFERRED SAVINGS AND PROFIT SHARING PLAN**

Notes to Financial Statements

A. Description of Plan (continued...)

3. Participant accounts. Each participant's account is credited with the participant's contributions and the Company's safe harbor and matching contributions, as well as allocations of Plan earnings. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.
4. Vesting. Participants are vested immediately in their contributions and the Company's safe harbor contributions plus actual earnings on the contributions. Vesting in the Company's matching and discretionary contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after 6 years of credited service.
5. Notes receivable from participants. Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate shall be the Prime Lending Rate plus 1% determined as of the date of the loan request or such other rate of interest as would be charged by persons in the business of lending money for loans which would be made under similar circumstances. Principal and interest is paid ratably through payroll deductions.
6. Payment of benefits. On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account.

In the event of a participant's death, his or her designated beneficiary may request a distribution of his or her account.

Withdrawals may also be made in conjunction with IRS hardship distribution regulations.

7. Forfeited accounts. Upon termination of employment the non-vested portion of a participant's account is forfeited. Forfeitures may be used to pay plan administrative expenses or to reduce employer contributions. As of December 31, 2016 and 2015 there were forfeited account balances of \$42,926 and \$67,395.03 respectively. These balances were used to offset subsequent employer contributions.

B. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting. Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in those assets and liabilities, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016, or 2015. Delinquent participant loans are recorded as distributions on the basis of the terms of the Plan agreement.

EMPLOYEES' DEFERRED SAVINGS AND PROFIT SHARING PLAN**

Notes to Financial Statements

B. Summary of Accounting Policies (continued...)

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service are recorded as a liability with a corresponding reduction to contributions.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses incurred maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment-related expenses are included in net appreciation of fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through July 14, 2017, the date the financial statements were available to be issued.

**INTEGRATED MEDICAL PROFESSIONALS, PLLC
EMPLOYEES' DEFERRED SAVINGS AND PROFIT SHARING PLAN**

Notes to Financial Statements

C. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1	Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
---------	--

Level 2	Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as: <ul style="list-style-type: none">a. Quoted prices for similar assets or liabilities in active marketsb. Quoted prices for identical or similar assets or liabilities in inactive marketsc. Inputs other than quoted prices that are observable for the asset or liabilityd. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
---------	---

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs that are unobservable inputs for the asset or liability.
---------	---

**INTEGRATED MEDICAL PROFESSIONALS, PLLC
EMPLOYEES' DEFERRED SAVINGS AND PROFIT SHARING PLAN**

Notes to Financial Statements

C. Fair Value Measurements (continued...)

Following is a description of the valuation methodologies used for assets measured at fair value.

There have been no changes in the methodologies used at December 31, 2016, and 2015.

1. Common stocks. Valued at the closing price reported on the active market on which the individual securities are traded.
2. Self-directed brokerage accounts. Accounts primarily consist of mutual funds and common stocks that are valued on the basis of readily determinable market prices.
3. Corporate bonds. Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing the value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, those corporate bonds are valued under a discounted cash flow approach that maximizes observable inputs, such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.
4. Mutual funds. Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.
5. TD Bank Institutional Money Market Deposit Account (Institutional MMDA). The Institutional MMDA is valued at book value (principal plus accumulated earnings). Assets are protected by FDIC insurance up to the applicable limit per depositor. The account is provided by TD Bank USA N.A. ("the Bank"), a subsidiary of The Toronto-Dominion Bank. Because the Institutional MMDA is a bank account rather than an SEC-registered money market fund, it has no expense ratio or prospectus. The rate of return may vary with market conditions and is subject to adjustment periodically by TD Bank USA, N.A.
6. MetLife Stable Value Fund: Units of the Fund are valued each day on which the New York Stock Exchange ("NYSE") is open for trading in accordance with the valuation procedures established by the Trustee. The NAV per unit is calculated as of the close of trading on the NYSE. The NAV per unit is computed by dividing the total contract value of the assets of the Fund, less its liabilities, by the total number of units outstanding at the time of such computation. Investment income earned is reinvested in the Fund and included in the determination of unit values.

C. Fair Value Measurements (continued...)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016, and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

Notes to Financial Statements

D. Investments at Contract Value

The Plan did not hold any investments recorded at contract value as of December 31, 2016 and 2015.

E. Rollover Contributions

Rollovers may be accepted from all Participants who are Employees, even prior to meeting eligibility conditions to be a participant. Distributions may be made at any time from a participant's rollover account.

F. Related-Party Transactions and Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by various mutual fund companies. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of investments. Recordkeeping fees are paid to TD Ameritrade Trust Company, the custodian as defined by the Plan. Also, BlueStar Retirement Plan Services, Summit Equities, Inc., INVEST Financial Corp, and Roland Criss all provided advisory and administration services to the Plan and received administrative fees. Administrative fees include investment fees, third party administrative fees, and other professional services, and are based on customary charges as shall be agreed to from time to time. These transactions qualify as party-in-interest transactions for which there is a statutory exemption.

G. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

H. Tax Status

Although the Plan has not received a determination letter from the Internal Revenue Service, it has adopted a pre-approved Prototype Plan. The Plan has been amended and the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code and, therefore, believe that the Plan is qualified and that the related trust is tax-exempt.

Notes to Financial Statements

I. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Because of the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

J. Reconciliation of Financial Statements to Form 5500

Certain differences may exist between the recording of accruals for financial reporting purposes and IRS/Department of Labor's (DOL) Form 5500 purposes. There were no such differences as of and for the years ended December 31, 2016 and 2015.

K. Certified Investments

Other than the fair value of the guaranteed investment contract and the related adjustment from fair value to contract value for fully benefit-responsive investment contracts, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2016 and 2015 and net appreciation in fair value of investments, interest and dividends for the year ended December 31, 2016, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by TD Ameritrade Trust Company, the custodian. The contract value of the guaranteed investment contract was certified by the custodian.
