Wilwood Engineering, Inc. 401(k) Profit Sharing Plan
Notes to the Financial Statements

1. DESCRIPTION OF PLAN

The following description of the Wilwood Engineering, Inc. 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan was established on December 31, 1997 as a defined contribution plan established to provide eligible employees of Wilwood Engineering, Inc. ("the Company") with retirement, death and disability benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), and Section 401(k) of the Internal Revenue Code (the IRC).

Participant Eligibility, Contribution, and Vesting

The Plan is a defined contribution plan covering substantially all employees who have completed six months of service and 1,000 hours of service. Participants may begin deferring a portion of their compensation into the Plan on the first day of the month following eligibility. Contributions to the Plan are limited to the maximum amount allowable under the provisions of the IRC and to an annual limitation of $18,000 ($24,000 for those participants age 50 or older).

The Plan provides that the Company may make a discretionary employer contribution, which will be allocated to each eligible participant's account in the same proportion that each eligible participant's compensation bears to the compensation of all eligible participants for such year. For the years ended December 31, 2016 and 2015, the Plan Sponsor made a matching contribution in the amount of $179,887 and $160,926, respectively, net of forfeitures.

The Company contribution vests according the employee's years of service, as follows:

Years of Service	Vesting Percentage
1	15%
2	30%
3	45%
4	60%
5	75%
6 or more	100%

Participants are immediately vested with regard to his or her voluntary deferrals, matching contributions plus actual earnings thereon. In addition, the Company's contribution is fully vested when a participant reaches the age of 59-1/2, becomes totally disabled, or dies.

Participant Loans
With the Plan trustee's approval, and subject to IRS regulations and limitations, participants may borrow up to the lesser of $50,000 or 50% of their vested account balance with a minimum loan amount of $1,000. Loans are subject to approval by the Plan administrator, bear interest at prime as published in the Wall Street Journal on the 14th of each month, plus two (2) percentage points. Loans are generally repayable in terms of up to 5 years, except home mortgage loans for which the maximum maturity is 15 years. All loans are secured by the participants' account balances and must be fully repaid through payroll deductions.

Participant Accounts
Each participant's account is credited with the employee's payroll contributions; the employer's matching and profit sharing contributions, and Plan earnings and losses. Allocations to participants' accounts are based on participant compensation or account balances in accordance with the provisions of the Plan.

Investment Options
Participants exercise control over the types of investments made on their behalf, provided that such accounts are invested in investment funds designated by the Plan. Participants may invest in any one or more investment funds and change their investment options at any time.

Payment of Benefits
In the case of normal retirement (age 59-1/2), early retirement, retirement due to permanent disability, or termination of employment, participants may elect to receive the value of their vested individual account balances, in accordance with the provisions of the Plan, either in lump-sum distribution or in an alternative manner available under the Plan. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

Participants who separate from service and have vested account balances of $1,000 or less are subject to an administrative lump sum distribution at the discretion of the plan administrator. Mandatory distributions of separated participants' vested balances between $1,000 and $5,000 are subject to a direct rollover of their balance into an Individual Retirement Account (IRA) designated by the plan administrator in the name of the separated participant.

Administration
The Company is the plan administrator. The Company has engaged the services of Automatic Data Processing, Inc. ("ADP") as third party administrator. ADP (the "Administrator") manages the assets of the Plan. Reliance Trust Company acted as the trustee for the Plan (the "Trustee"). The Trustee, appointed by the Company, executes investment transactions and holds Plan investment assets. The Administrator reviews the performance of the various available investments and decides on the addition or deletion of an investment fund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Valuation of Investments
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events through September 5, 2017 the date that the financial statements were available to be issued. Management has determined that there were no subsequent events or transactions that would have a material impact on the current year financial statements.

3. INVESTMENTS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown on the statements of net assets available for benefits as of December 31, 2016 and 2015.
- Net investment activity and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2016.
- Investment information included in the footnotes and supplemental schedule of assets (held at end of year) as of December 31, 2016.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means • If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2016.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	***Level 2***	***Level 3***	***Total***
Mutual Funds	$ 6,564,941	-	-	$ 6,564,941
	$ 6,564,941	$ -	$ -	$ 6,564,941

Stock	3,228,581	-	-	3,228,581
	$ 6,007,137	$ -	$ -	$ 6,007,137

5. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Trustee of the Plan, Reliance Trust Company, and therefore, these transactions qualify as party-in-interest transactions as defined by ERISA.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, all non-vested employer contributions would become 100% vested.

7. TAX STATUS

The plan adopted a prototype non-standardized profit sharing plan with cash or deferral arrangement has received a favorable opinion letter from the IRS, which states that the Plan is designed in compliance with the applicable sections of the IRC. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and Franchise Tax Board. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for prior years.

8. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500:

Wilwood Engineering, Inc. 401(k) Profit Sharing Plan
Notes to the Financial Statements

1. DESCRIPTION OF PLAN

The following description of the Wilwood Engineering, Inc. 401(k) Profit Sharing Plan ("the Plan") provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan was established on December 31, 1997 as a defined contribution plan established to provide eligible employees of Wilwood Engineering, Inc. ("the Company") with retirement, death and disability benefits. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), and Section 401(k) of the Internal Revenue Code (the IRC).

Participant Eligibility, Contribution, and Vesting

The Plan is a defined contribution plan covering substantially all employees who have completed six months of service and 1,000 hours of service. Participants may begin deferring a portion of their compensation into the Plan on the first day of the month following eligibility. Contributions to the Plan are limited to the maximum amount allowable under the provisions of the IRC and to an annual limitation of $18,000 ($24,000 for those participants age 50 or older).

The Plan provides that the Company may make a discretionary employer contribution, which will be allocated to each eligible participant's account in the same proportion that each eligible participant's compensation bears to the compensation of all eligible participants for such year. For the years ended December 31, 2016 and 2015, the Plan Sponsor made a matching contribution in the amount of $179,887 and $160,926, respectively, net of forfeitures.

The Company contribution vests according the employee's years of service, as follows:

Years of Service	Vesting Percentage
1	15%
2	30%
3	45%
4	60%
5	75%
6 or more	100%

Participants are immediately vested with regard to his or her voluntary deferrals, matching contributions plus actual earnings thereon. In addition, the Company's contribution is fully vested when a participant reaches the age of 59-1/2, becomes totally disabled, or dies.

Participant Loans
With the Plan trustee's approval, and subject to IRS regulations and limitations, participants may borrow up to the lesser of $50,000 or 50% of their vested account balance with a minimum loan amount of $1,000. Loans are subject to approval by the Plan administrator, bear interest at prime as published in the Wall Street Journal on the 14th of each month, plus two (2) percentage points. Loans are generally repayable in terms of up to 5 years, except home mortgage loans for which the maximum maturity is 15 years. All loans are secured by the participants' account balances and must be fully repaid through payroll deductions.

Participant Accounts
Each participant's account is credited with the employee's payroll contributions; the employer's matching and profit sharing contributions, and Plan earnings and losses. Allocations to participants' accounts are based on participant compensation or account balances in accordance with the provisions of the Plan.

Investment Options
Participants exercise control over the types of investments made on their behalf, provided that such accounts are invested in investment funds designated by the Plan. Participants may invest in any one or more investment funds and change their investment options at any time.

Payment of Benefits
In the case of normal retirement (age 59-1/2), early retirement, retirement due to permanent disability, or termination of employment, participants may elect to receive the value of their vested individual account balances, in accordance with the provisions of the Plan, either in lump-sum distribution or in an alternative manner available under the Plan. Additionally, under certain circumstances of financial hardship, the participant is allowed to withdraw funds from the Plan.

Participants who separate from service and have vested account balances of $1,000 or less are subject to an administrative lump sum distribution at the discretion of the plan administrator. Mandatory distributions of separated participants' vested balances between $1,000 and $5,000 are subject to a direct rollover of their balance into an Individual Retirement Account (IRA) designated by the plan administrator in the name of the separated participant.

Administration
The Company is the plan administrator. The Company has engaged the services of Automatic Data Processing, Inc. ("ADP") as third party administrator. ADP (the "Administrator") manages the assets of the Plan. Reliance Trust Company acted as the trustee for the Plan (the "Trustee"). The Trustee, appointed by the Company, executes investment transactions and holds Plan investment assets. The Administrator reviews the performance of the various available investments and decides on the addition or deletion of an investment fund.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Valuation of Investments
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Benefits
Benefits are recorded when paid.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent Events
The Plan has evaluated subsequent events through September 5, 2017 the date that the financial statements were available to be issued. Management has determined that there were no subsequent events or transactions that would have a material impact on the current year financial statements.

3. INVESTMENTS

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments and notes receivable from participants as shown on the statements of net assets available for benefits as of December 31, 2016 and 2015.
- Net investment activity and interest income on notes receivable from participants as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2016.
- Investment information included in the footnotes and supplemental schedule of assets (held at end of year) as of December 31, 2016.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means • If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2016.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	***Level 2***	***Level 3***	***Total***

5. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by the Trustee of the Plan, Reliance Trust Company, and therefore, these transactions qualify as party-in-interest transactions as defined by ERISA.

6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate or amend the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, all non-vested employer contributions would become 100% vested.

7. TAX STATUS

The plan adopted a prototype non-standardized profit sharing plan with cash or deferral arrangement has received a favorable opinion letter from the IRS, which states that the Plan is designed in compliance with the applicable sections of the IRC. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS and Franchise Tax Board. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for prior years.

8. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
