TELESIS CORPORATION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2016

NOTE 1: DESCRIPTION OF PLAN

The following description of the Telesis Corporation 401(k) Plan (Plan) provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all employees of Telesis Corporation (Company) who have attained 18 years of age. Employees may enter into the Plan the first of the month following attaining the age requirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to 90% of pretax annual eligible compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their account balances into various investment options offered by the Plan. The Plan includes an automatic enrollment feature whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated balance fund until changed by the participant. A participant's automatic enrollment election will increase by 1% every year until he or she reaches 6% of compensation. The Company may contribute a discretionary matching contribution each year. For the plan year 2016, the Company contributed a match for a participant based on the deferral percentage. From January 1, 2016 through March 11, 2016, the schedule of match was as follows: match deferrals of .25% up to 1%, .50% up to 2%, .75% up to 3%, and 1% on deferrals of 4% and 5% or greater. On March 12, 2016, the Company changed the match to the following schedule: match deferrals of 1% up to 2%, 1.5% up to 4%, and 2% on deferrals of 5% or greater. Contributions are subject to certain IRS limitations.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's matching contribution and plan earnings, as well as charged with an allocation of administrative expenses that are paid by the Plan. Certain administrative expenses are netted against the earnings of the investment alternatives held by the participants. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings thereon. For company match contributions, participants are subject to a five-year graded vesting schedule. A participant becomes 25% vested after two years of service. The participant increases vesting by 25% each additional year of service until he/she becomes 100% vested after five years of service.

TELESIS CORPORATION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
DECEMBER 31, 2016

NOTE 1: DESCRIPTION OF PLAN - CONTINUED

Notes Receivable from Participants - Participants may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 reduced to the extent that the participant's highest outstanding loan balance during the preceding twelve-month period exceeds the current balance, or 50% of their vested account balance. Loan terms range from one to five years. Loan terms may be longer than five years for loans used for the purchase of a primary residence. Loans are secured by the balance in the participant's account and accrue interest at a rate specified in the plan document. Principal and interest are paid ratably through payroll deductions. In the event of retirement, disability, death, or termination of employment, the loan becomes payable in full.

Payment of Benefits - Upon termination of service due to death, disability, severance of employment, or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or delay withdrawal until a future date, if the account balance is at least \$5,000. The custodian will automatically distribute balances of terminated participants that do not exceed \$5,000. If the participant does not elect to have a mandatory distribution greater than \$1,000 but not exceeding \$5,000 paid directly to an eligible retirement plan or account specified by the participant in a direct rollover or to receive the distribution directly, the custodian will pay the distribution in a direct rollover to an individual retirement account designated by the plan administrator. A participant who has reached age 59½ may elect to withdraw all or a portion of his or her entire account while still employed by the Company. Upon the death of a participant, the participant's beneficiary shall be entitled to the balance of the participant's account.

Hardship Withdrawals - Participants may withdraw their elective deferral and rollover account balances in the form of a hardship withdrawal to satisfy an immediate and heavy financial need as defined by the Plan. The participant must exhaust all other assets prior to obtaining a hardship withdrawal. The minimum amount that may be taken is \$500. Employee pretax contributions to the Plan will be suspended for six months after receipt of the hardship withdrawal.

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates - The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

TELESIS CORPORATION 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS - CONTINUED
DECEMBER 31, 2016

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received for the sale of an asset or paid for the transfer of a liability in an orderly transaction between market participants as of the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. Delinquent participant loans are recorded as distributions on the basis of the terms of the plan agreement.

Payments of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Costs associated with participant-initiated transactions are paid by the respective participants' accounts. Some administrative expenses are paid from the annual operating expenses of the Plan's designated investment alternatives, which are netted against the investment earnings for the relevant participant-directed investments.

Subsequent Events - The Plan's policy is to evaluate events and transactions subsequent to its year end for potential recognition in the financial statements or disclosure in the notes to the financial statements. The Company has evaluated events and transactions through the date of the independent auditors' report, which is the date the financial statements were available to be issued.

NOTE 3: FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of fair value hierarchy are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

NOTE 3: FAIR VALUE MEASUREMENTS - CONTINUED

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2016 and 2015.

Registered Investment Companies (Mutual Funds) - Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31:

NOTE 4: INFORMATION CERTIFIED BY THE TRUSTEE

NOTE 5: RELATED-PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

The Plan does not consider normal plan operations such as participant or employer contributions to the Plan or benefits accrued or paid by the Plan for participants as party-in-interest transactions that require separate disclosure. Certain plan investments are shares of registered investment companies managed by the trustee. Fees for professional services rendered by all parties in interest are substantially absorbed by the plan sponsor. These transactions qualify as party-in-interest transactions that are exempt from the prohibited transaction rules.

NOTE 6: PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their account balances. Any unallocated assets would be allocated to participants' accounts and distributed in such a manner as the Company may determine.

NOTE 7: TAX STATUS

The underlying volume submitter profit sharing plan with a cash or deferred arrangement has received an advisory letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Company believes that the Plan is designed, and is being currently operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified, and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would be sustained upon examination by the IRS or DOL. The Company has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016 and 2015 there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan's federal Form 5500 is subject to examination by the IRS and DOL, generally for the three years after it is filed.

NOTE 8: RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investments are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

In the normal course of business, there are various commitments and contingencies outstanding which are not reflected in these financial statements. In the opinion of the Company, the outcome of such events, if any, would not have a material effect on the Plan's financial position or operations.
