1. DESCRIPTION OF THE PLAN

The following description of the StarTek 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan, which was established April 1, 2004, and most recently amended and restated effective March 16, 2015, is a defined contribution plan covering qualified employees of StarTek USA, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Trustee and Administration of the Plan

Fidelity Management Trust Company ("Trustee" or "Fidelity") is the Trustee and Fidelity Employer Services Corporation provides recordkeeping and other administrative services. The administrator of the Plan is the Company. The Trustee holds all assets of the Plan in accordance with the provisions of trust agreement and service provider contract with the Company. All assets of the Plan are in investment plan accounts of Fidelity. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

Employees are eligible immediately and can participate in the Plan on the first day of the month following their date of hire. Residents of Puerto Rico, leased, temporary employees, and union members are not eligible for the Plan.

Contributions

Participants may elect to contribute, on a pretax basis, up to 100% of their eligible compensation as defined by the Plan Agreement, subject to certain Internal Revenue Code ("IRC") limitations ($18,000 for 2016). Participants who have attained or will attain age 50 by the last day of the plan year may make catch-up contributions, as defined by the Plan, subject to IRC limitations ($6,000 for 2016). Participants may contribute rollover contributions from other qualified retirement plans. Participants may change their tax-deferred contribution percentage and investment elections as of the first day of any month.

The Company makes a Safe Harbor matching contribution, on a pay period basis, equal to 100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation contributed by participants. Participants must have one year of service, as defined in the Plan Agreement, to receive the Safe Harbor matching contributions.

Participant Accounts and Investment Options

Participant accounts are credited with (1) the participant elective deferral and rollover contributions, (2) the Company Safe Harbor matching contributions, and (3) and allocation of Plan earnings (losses), as defined in the Plan Agreement. Participant accounts are charged with withdrawals and an allocation of administrative expenses, as defined in the Plan Agreement. Earnings or losses from investment funds are allocated to each participant's account in the proportion that the balance of each participant's account bears in the total balance of all participants in each fund. Participants may direct the investment of their account balances into various investment options offered by the Plan, which are comprised of a diversified selection of registered investment companies and a collective investment trust. Participants can change their investment elections on the first day of each month. The benefit to which participants are entitled is the vested portion of their accounts.

Vesting and Forfeitures

Participants are fully and immediately vested in their elective deferral contributions, rollover contributions, Company Safe Harbor matching contributions, and earnings or losses thereon. Forfeitures can occur from excess contributions or other corrective actions taken by the Plan from time to time. At December 31, 2016 and 2015, forfeited non-vested accounts were de minimus. For the year ended December 31, 2016 forfeitures of $3,373 were used to pay plan expenses.

Payment of Benefits

A participant's entire vested interest in the Plan is payable in the event of termination, upon death of the participant, attaining normal retirement age (65), or becoming totally disabled, as defined in the Plan Agreement. Actively employed participants can begin withdrawing their vested interest without penalty at age 59½. A participant's benefits are payable in a lump-sum payment or a direct rollover to another qualified plan. Immediate lump-sum distributions are to be made to terminated participants if the participant's vested balance is $1,000 or less. Balances between $1,001 and $5,000 are rolled over to an Individual Retirement Account ("IRA"). These mandatory distributions are only applicable if the participant does not elect another form of distribution. In addition, hardship distributions are permitted if specified criteria are met.

Notes Receivable from Participants

A participant may borrow from his/her account the lesser of $50,000 or 50% of their vested account balance with a minimum loan amount of $1,000. Loans are secured by the participant's vested account and bear interest at a fixed rate as of the date of loan origination. The fixed rate is commensurate with local prevailing rates, as determined quarterly by the Plan Administrator. Outstanding borrowings at December 31, 2016 bore interest between 4.25% and 4.50%. The loans

are to be repaid over a 5-year period unless they are for the purchase of a principal residence, which allow for up to a 10-year period. Principal and interest are collected ratably through payroll deductions. Only one borrowing may be outstanding at a time.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan Agreement to terminate the Plan, subject to the provisions of ERISA. If the Plan is terminated for any reason, the Plan Administrator is to distribute each participant's interest to the participant or their beneficiary.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4, *Fair Value Measurements and Disclosures,* for discussion of fair value measurements. The Investment Committee determines the Plan's valuation policies utilizing information provided by investment advisors and trustee.

Net appreciation (depreciation) represents the difference between the aggregate fair value of investments at year-end and the values at the beginning of the year, and includes any realized gains and losses in shares that were bought and sold during the year and reinvested capital gain distributions on those investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex- dividend date.

Management fees and operating expenses (in the form of an expense ratio) charged to the Plan for investments in the registered investment companies and collective investment trust are deducted from income earned on a daily basis and reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Any accrued, but unpaid, interest was de minimus. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contributions

Participant contributions and related Company Safe Harbor matching contributions are recognized in the period during which the Company makes payroll deductions from the participant's compensation.

Payment of Benefits

Benefits are recorded when paid. As of December 31, 2016 and 2015 there were no benefit payments authorized and approved for payment, but not paid as of yearend.

Administrative Expenses

Administrative expenses of the Plan are paid by the Company and the Plan. Fees, primarily loan origination, distribution fees and asset-based fees, are charged directly to the participant's account and are included in administrative expenses or net with investment earnings. Administrative expenses of $30,054 were paid by the Plan for the year ended December 31, 2016. All other expenses of the Plan incurred during 2016 were paid by the Company and are excluded from these financial statements.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule as complete and accurate:

- Investments and notes receivable from participants as shown in the Statements of Net Assets Available for Plan Benefits as of December 31, 2016 and 2015;

- Net investment income and interest earned on participant notes receivable as reported on the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2016;

- All investment information included in the notes to financial statements and in the Supplemental Schedule – Form 5500, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) – As of December 31, 2016.

The Plan's independent auditors did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets the Plan has the ability to access for identical assets and liabilities. Level 2 inputs are inputs for quoted prices for similar assets or liabilities in active markets; inputs for quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by the observable market data by correlation or other means. Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2016 and 2015:

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trust: The Morley Stable Value Fund is a collective investment trust that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that security liquidations will be carried out in an orderly manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

As of December 31, 2016	Level 1	Level 2	Level 3	Total
Registered investment companies	**$ 9,016,487**	**$ -**	**$ -**	**$ 9,016,487**
Total assets in the fair value hierarchy	**$ 9,016,487**	**$ -**	**$ -**	**$ 9,016,487**
Investments measured at net asset value (a)				**599,392**
Total investments				**$ 9,615,879**

As of December 31, 2015	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 8,209,947	$ -	$ -	$ 8,209,947
Total assets in the fair value hierarchy	$ 8,209,947	$ -	$ -	$ 8,209,947
Investments measured at net asset value (a)				559,824
Total investments				$ 8,769,771

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Plan Benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial statements within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2016, there were no transfers in or out of levels 1, 2, or 3.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016 and 2015. There are no participant redemption restrictions for this investment; the redemption notice period is applicable only to the Plan:

Year Ended December 31,	*Investment Type*	*Fair Value*	*Unfunded Commitments*	*Redemption Frequency*	*Redemption Notice Period*
2016	**Stable Value-Collective investment trust (a)**	**$ 599,392**	**None**	**Daily with 30 day notice**	**12 months for full liquidation**
2015	Stable Value-Collective investment trust (a)	$ 559,824	None	Daily with 30 day notice	12 months for full liquidation

(a) The objective of the fund is to provide preservation of capital by investing primarily in a variety of high quality stable value investment contracts (the performance of which may be predicated on underlying fixed income securities), as well as cash and cash equivalents.

5. TAX STATUS

The Company adopted a Volume Submitter plan document sponsored by Fidelity. The Internal Revenue Service ("IRS") has determined and informed Fidelity, by a letter dated March 31, 2014, that the Volume Submitter Profit Sharing Plan with CODA qualifies under Code Section 401(a). The Plan administrator and Company management believes that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC, thus no provision for income taxes has been provided for in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. CONCENTRATIONS, RISKS AND UNCERTAINTIES

The Plan provides for various investments in registered investment companies and a collective investment trust. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in economic conditions in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits. As of December 31, 2016 and 2015 there were none and one, respectively, investments held which individually accounted for more than 10% of net assets available for plan benefits. See the supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at December 31, 2016.

7. RELATED PARTIES AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments in registered investment companies are held and managed by the Trustee of the Plan. Payments to the Trustee by the Plan consisted of administrative fees totaling $30,054 for the year ended December 31, 2016. The Trustee may also receive indirect fees from the registered investment companies. Certain participants of the Plan have outstanding loans with the Plan as of December 31, 2016 and 2015. The above transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

8. DELINQUENT PARTICIPANT CONTRIBUTIONS

During the years ended December 31, 2015 and 2014, the Company failed to timely remit participant contributions to the Plan in the amount of $2,455. The late remittances have been remitted, and lost earnings were remitted in September 2016. See the accompanying supplemental Schedule of Delinquent Participant Contributions for the year ended December 31, 2016.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Participant loans are reported as notes receivable from participants in the accompanying financial statements as required by current authoritative guidance; however, for Form 5500 purposes and reporting on the supplemental Schedule of Assets (Held at End of Year) they are shown as investments, as required.

10. SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 11, 2017, which is the date the financial statements were available for issue. There were no events or transactions discovered during this evaluation that require recognition or disclosure in the financial statements.

1. DESCRIPTION OF THE PLAN

The following description of the StarTek 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan, which was established April 1, 2004, and most recently amended and restated effective March 16, 2015, is a defined contribution plan covering qualified employees of StarTek USA, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Trustee and Administration of the Plan

Fidelity Management Trust Company ("Trustee" or "Fidelity") is the Trustee and Fidelity Employer Services Corporation provides recordkeeping and other administrative services. The administrator of the Plan is the Company. The Trustee holds all assets of the Plan in accordance with the provisions of trust agreement and service provider contract with the Company. All assets of the Plan are in investment plan accounts of Fidelity. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

Employees are eligible immediately and can participate in the Plan on the first day of the month following their date of hire. Residents of Puerto Rico, leased, temporary employees, and union members are not eligible for the Plan.

Contributions

Participants may elect to contribute, on a pretax basis, up to 100% of their eligible compensation as defined by the Plan Agreement, subject to certain Internal Revenue Code ("IRC") limitations ($18,000 for 2016). Participants who have attained or will attain age 50 by the last day of the plan year may make catch-up contributions, as defined by the Plan, subject to IRC limitations ($6,000 for 2016). Participants may contribute rollover contributions from other qualified retirement plans. Participants may change their tax-deferred contribution percentage and investment elections as of the first day of any month.

The Company makes a Safe Harbor matching contribution, on a pay period basis, equal to 100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation contributed by participants. Participants must have one year of service, as defined in the Plan Agreement, to receive the Safe Harbor matching contributions.

Participant Accounts and Investment Options

Participant accounts are credited with (1) the participant elective deferral and rollover contributions, (2) the Company Safe Harbor matching contributions, and (3) and allocation of Plan earnings (losses), as defined in the Plan Agreement. Participant accounts are charged with withdrawals and an allocation of administrative expenses, as defined in the Plan Agreement. Earnings or losses from investment funds are allocated to each participant's account in the proportion that the balance of each participant's account bears in the total balance of all participants in each fund. Participants may direct the investment of their account balances into various investment options offered by the Plan, which are comprised of a diversified selection of registered investment companies and a collective investment trust. Participants can change their investment elections on the first day of each month. The benefit to which participants are entitled is the vested portion of their accounts.

Vesting and Forfeitures

Participants are fully and immediately vested in their elective deferral contributions, rollover contributions, Company Safe Harbor matching contributions, and earnings or losses thereon. Forfeitures can occur from excess contributions or other corrective actions taken by the Plan from time to time. At December 31, 2016 and 2015, forfeited non-vested accounts were de minimus. For the year ended December 31, 2016 forfeitures of $3,373 were used to pay plan expenses.

Payment of Benefits

A participant's entire vested interest in the Plan is payable in the event of termination, upon death of the participant, attaining normal retirement age (65), or becoming totally disabled, as defined in the Plan Agreement. Actively employed participants can begin withdrawing their vested interest without penalty at age 59½. A participant's benefits are payable in a lump-sum payment or a direct rollover to another qualified plan. Immediate lump-sum distributions are to be made to terminated participants if the participant's vested balance is $1,000 or less. Balances between $1,001 and $5,000 are rolled over to an Individual Retirement Account ("IRA"). These mandatory distributions are only applicable if the participant does not elect another form of distribution. In addition, hardship distributions are permitted if specified criteria are met.

Notes Receivable from Participants

A participant may borrow from his/her account the lesser of $50,000 or 50% of their vested account balance with a minimum loan amount of $1,000. Loans are secured by the participant's vested account and bear interest at a fixed rate as of the date of loan origination. The fixed rate is commensurate with local prevailing rates, as determined quarterly by the Plan Administrator. Outstanding borrowings at December 31, 2016 bore interest between 4.25% and 4.50%. The loans

are to be repaid over a 5-year period unless they are for the purchase of a principal residence, which allow for up to a 10-year period. Principal and interest are collected ratably through payroll deductions. Only one borrowing may be outstanding at a time.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan Agreement to terminate the Plan, subject to the provisions of ERISA. If the Plan is terminated for any reason, the Plan Administrator is to distribute each participant's interest to the participant or their beneficiary.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4, *Fair Value Measurements and Disclosures,* for discussion of fair value measurements. The Investment Committee determines the Plan's valuation policies utilizing information provided by investment advisors and trustee.

Net appreciation (depreciation) represents the difference between the aggregate fair value of investments at year-end and the values at the beginning of the year, and includes any realized gains and losses in shares that were bought and sold during the year and reinvested capital gain distributions on those investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex- dividend date.

Management fees and operating expenses (in the form of an expense ratio) charged to the Plan for investments in the registered investment companies and collective investment trust are deducted from income earned on a daily basis and reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Any accrued, but unpaid, interest was de minimus. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contributions

Participant contributions and related Company Safe Harbor matching contributions are recognized in the period during which the Company makes payroll deductions from the participant's compensation.

Payment of Benefits

Benefits are recorded when paid. As of December 31, 2016 and 2015 there were no benefit payments authorized and approved for payment, but not paid as of yearend.

Administrative Expenses

Administrative expenses of the Plan are paid by the Company and the Plan. Fees, primarily loan origination, distribution fees and asset-based fees, are charged directly to the participant's account and are included in administrative expenses or net with investment earnings. Administrative expenses of $30,054 were paid by the Plan for the year ended December 31, 2016. All other expenses of the Plan incurred during 2016 were paid by the Company and are excluded from these financial statements.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule as complete and accurate:

- Investments and notes receivable from participants as shown in the Statements of Net Assets Available for Plan Benefits as of December 31, 2016 and 2015;

- Net investment income and interest earned on participant notes receivable as reported on the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2016;

- All investment information included in the notes to financial statements and in the Supplemental Schedule – Form 5500, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) – As of December 31, 2016.

The Plan's independent auditors did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets the Plan has the ability to access for identical assets and liabilities. Level 2 inputs are inputs for quoted prices for similar assets or liabilities in active markets; inputs for quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by the observable market data by correlation or other means. Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2016 and 2015:

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trust: The Morley Stable Value Fund is a collective investment trust that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that security liquidations will be carried out in an orderly manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

As of December 31, 2016	Level 1	Level 2	Level 3	Total
Registered investment companies	**$ 9,016,487**	**$ -**	**$ -**	**$ 9,016,487**
Total assets in the fair value hierarchy	**$ 9,016,487**	**$ -**	**$ -**	**$ 9,016,487**
Investments measured at net asset value (a)				**599,392**
Total investments				**$ 9,615,879**

As of December 31, 2015	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 8,209,947	$ -	$ -	$ 8,209,947
Total assets in the fair value hierarchy	$ 8,209,947	$ -	$ -	$ 8,209,947
Investments measured at net asset value (a)				559,824
Total investments				$ 8,769,771

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Plan Benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial statements within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2016, there were no transfers in or out of levels 1, 2, or 3.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016 and 2015. There are no participant redemption restrictions for this investment; the redemption notice period is applicable only to the Plan:

Year Ended December 31,	*Investment Type*	*Fair Value*	*Unfunded Commitments*	*Redemption Frequency*	*Redemption Notice Period*
2016	**Stable Value-Collective investment trust (a)**	**$ 599,392**	**None**	**Daily with 30 day notice**	**12 months for full liquidation**
2015	Stable Value-Collective investment trust (a)	$ 559,824	None	Daily with 30 day notice	12 months for full liquidation

(a) The objective of the fund is to provide preservation of capital by investing primarily in a variety of high quality stable value investment contracts (the performance of which may be predicated on underlying fixed income securities), as well as cash and cash equivalents.

5. TAX STATUS

The Company adopted a Volume Submitter plan document sponsored by Fidelity. The Internal Revenue Service ("IRS") has determined and informed Fidelity, by a letter dated March 31, 2014, that the Volume Submitter Profit Sharing Plan with CODA qualifies under Code Section 401(a). The Plan administrator and Company management believes that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC, thus no provision for income taxes has been provided for in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. CONCENTRATIONS, RISKS AND UNCERTAINTIES

The Plan provides for various investments in registered investment companies and a collective investment trust. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in economic conditions in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits. As of December 31, 2016 and 2015 there were none and one, respectively, investments held which individually accounted for more than 10% of net assets available for plan benefits. See the supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at December 31, 2016.

7. RELATED PARTIES AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments in registered investment companies are held and managed by the Trustee of the Plan. Payments to the Trustee by the Plan consisted of administrative fees totaling $30,054 for the year ended December 31, 2016. The Trustee may also receive indirect fees from the registered investment companies. Certain participants of the Plan have outstanding loans with the Plan as of December 31, 2016 and 2015. The above transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

8. DELINQUENT PARTICIPANT CONTRIBUTIONS

During the years ended December 31, 2015 and 2014, the Company failed to timely remit participant contributions to the Plan in the amount of $2,455. The late remittances have been remitted, and lost earnings were remitted in September 2016. See the accompanying supplemental Schedule of Delinquent Participant Contributions for the year ended December 31, 2016.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Participant loans are reported as notes receivable from participants in the accompanying financial statements as required by current authoritative guidance; however, for Form 5500 purposes and reporting on the supplemental Schedule of Assets (Held at End of Year) they are shown as investments, as required.

10. SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 11, 2017, which is the date the financial statements were available for issue. There were no events or transactions discovered during this evaluation that require recognition or disclosure in the financial statements.

1. DESCRIPTION OF THE PLAN

The following description of the StarTek 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan Agreement or Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan, which was established April 1, 2004, and most recently amended and restated effective March 16, 2015, is a defined contribution plan covering qualified employees of StarTek USA, Inc. (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Trustee and Administration of the Plan

Fidelity Management Trust Company ("Trustee" or "Fidelity") is the Trustee and Fidelity Employer Services Corporation provides recordkeeping and other administrative services. The administrator of the Plan is the Company. The Trustee holds all assets of the Plan in accordance with the provisions of trust agreement and service provider contract with the Company. All assets of the Plan are in investment plan accounts of Fidelity. The Plan's Investment Committee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

Employees are eligible immediately and can participate in the Plan on the first day of the month following their date of hire. Residents of Puerto Rico, leased, temporary employees, and union members are not eligible for the Plan.

Contributions

Participants may elect to contribute, on a pretax basis, up to 100% of their eligible compensation as defined by the Plan Agreement, subject to certain Internal Revenue Code ("IRC") limitations ($18,000 for 2016). Participants who have attained or will attain age 50 by the last day of the plan year may make catch-up contributions, as defined by the Plan, subject to IRC limitations ($6,000 for 2016). Participants may contribute rollover contributions from other qualified retirement plans. Participants may change their tax-deferred contribution percentage and investment elections as of the first day of any month.

The Company makes a Safe Harbor matching contribution, on a pay period basis, equal to 100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation contributed by participants. Participants must have one year of service, as defined in the Plan Agreement, to receive the Safe Harbor matching contributions.

Participant Accounts and Investment Options

Participant accounts are credited with (1) the participant elective deferral and rollover contributions, (2) the Company Safe Harbor matching contributions, and (3) and allocation of Plan earnings (losses), as defined in the Plan Agreement. Participant accounts are charged with withdrawals and an allocation of administrative expenses, as defined in the Plan Agreement. Earnings or losses from investment funds are allocated to each participant's account in the proportion that the balance of each participant's account bears in the total balance of all participants in each fund. Participants may direct the investment of their account balances into various investment options offered by the Plan, which are comprised of a diversified selection of registered investment companies and a collective investment trust. Participants can change their investment elections on the first day of each month. The benefit to which participants are entitled is the vested portion of their accounts.

Vesting and Forfeitures

Participants are fully and immediately vested in their elective deferral contributions, rollover contributions, Company Safe Harbor matching contributions, and earnings or losses thereon. Forfeitures can occur from excess contributions or other corrective actions taken by the Plan from time to time. At December 31, 2016 and 2015, forfeited non-vested accounts were de minimus. For the year ended December 31, 2016 forfeitures of $3,373 were used to pay plan expenses.

Payment of Benefits

A participant's entire vested interest in the Plan is payable in the event of termination, upon death of the participant, attaining normal retirement age (65), or becoming totally disabled, as defined in the Plan Agreement. Actively employed participants can begin withdrawing their vested interest without penalty at age 59½. A participant's benefits are payable in a lump-sum payment or a direct rollover to another qualified plan. Immediate lump-sum distributions are to be made to terminated participants if the participant's vested balance is $1,000 or less. Balances between $1,001 and $5,000 are rolled over to an Individual Retirement Account ("IRA"). These mandatory distributions are only applicable if the participant does not elect another form of distribution. In addition, hardship distributions are permitted if specified criteria are met.

Notes Receivable from Participants

A participant may borrow from his/her account the lesser of $50,000 or 50% of their vested account balance with a minimum loan amount of $1,000. Loans are secured by the participant's vested account and bear interest at a fixed rate as of the date of loan origination. The fixed rate is commensurate with local prevailing rates, as determined quarterly by the Plan Administrator. Outstanding borrowings at December 31, 2016 bore interest between 4.25% and 4.50%. The loans

are to be repaid over a 5-year period unless they are for the purchase of a principal residence, which allow for up to a 10-year period. Principal and interest are collected ratably through payroll deductions. Only one borrowing may be outstanding at a time.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan Agreement to terminate the Plan, subject to the provisions of ERISA. If the Plan is terminated for any reason, the Plan Administrator is to distribute each participant's interest to the participant or their beneficiary.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4, *Fair Value Measurements and Disclosures,* for discussion of fair value measurements. The Investment Committee determines the Plan's valuation policies utilizing information provided by investment advisors and trustee.

Net appreciation (depreciation) represents the difference between the aggregate fair value of investments at year-end and the values at the beginning of the year, and includes any realized gains and losses in shares that were bought and sold during the year and reinvested capital gain distributions on those investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex- dividend date.

Management fees and operating expenses (in the form of an expense ratio) charged to the Plan for investments in the registered investment companies and collective investment trust are deducted from income earned on a daily basis and reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance. Any accrued, but unpaid, interest was de minimus. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contributions

Participant contributions and related Company Safe Harbor matching contributions are recognized in the period during which the Company makes payroll deductions from the participant's compensation.

Payment of Benefits

Benefits are recorded when paid. As of December 31, 2016 and 2015 there were no benefit payments authorized and approved for payment, but not paid as of yearend.

Administrative Expenses

Administrative expenses of the Plan are paid by the Company and the Plan. Fees, primarily loan origination, distribution fees and asset-based fees, are charged directly to the participant's account and are included in administrative expenses or net with investment earnings. Administrative expenses of $30,054 were paid by the Plan for the year ended December 31, 2016. All other expenses of the Plan incurred during 2016 were paid by the Company and are excluded from these financial statements.

3. INFORMATION CERTIFIED BY THE TRUSTEE

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule as complete and accurate:

- Investments and notes receivable from participants as shown in the Statements of Net Assets Available for Plan Benefits as of December 31, 2016 and 2015;

- Net investment income and interest earned on participant notes receivable as reported on the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2016;

- All investment information included in the notes to financial statements and in the Supplemental Schedule – Form 5500, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) – As of December 31, 2016.

The Plan's independent auditors did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets the Plan has the ability to access for identical assets and liabilities. Level 2 inputs are inputs for quoted prices for similar assets or liabilities in active markets; inputs for quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by the observable market data by correlation or other means. Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2016 and 2015:

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective investment trust: The Morley Stable Value Fund is a collective investment trust that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of units of collective trust. The NAV is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported NAV. Participant transactions may occur daily. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require 12 months' notification in order to ensure that security liquidations will be carried out in an orderly manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumption to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

As of December 31, 2016	Level 1	Level 2	Level 3	Total
Registered investment companies	**$ 9,016,487**	**$ -**	**$ -**	**$ 9,016,487**
Total assets in the fair value hierarchy	**$ 9,016,487**	**$ -**	**$ -**	**$ 9,016,487**
Investments measured at net asset value (a)				**599,392**
Total investments				**$ 9,615,879**

As of December 31, 2015	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 8,209,947	$ -	$ -	$ 8,209,947
Total assets in the fair value hierarchy	$ 8,209,947	$ -	$ -	$ 8,209,947
Investments measured at net asset value (a)				559,824
Total investments				$ 8,769,771

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient, have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Plan Benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial statements within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2016, there were no transfers in or out of levels 1, 2, or 3.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016 and 2015. There are no participant redemption restrictions for this investment; the redemption notice period is applicable only to the Plan:

Year Ended December 31,	*Investment Type*	*Fair Value*	*Unfunded Commitments*	*Redemption Frequency*	*Redemption Notice Period*
2016	**Stable Value-Collective investment trust (a)**	**$ 599,392**	**None**	**Daily with 30 day notice**	**12 months for full liquidation**
2015	Stable Value-Collective investment trust (a)	$ 559,824	None	Daily with 30 day notice	12 months for full liquidation

(a) The objective of the fund is to provide preservation of capital by investing primarily in a variety of high quality stable value investment contracts (the performance of which may be predicated on underlying fixed income securities), as well as cash and cash equivalents.

5. TAX STATUS

The Company adopted a Volume Submitter plan document sponsored by Fidelity. The Internal Revenue Service ("IRS") has determined and informed Fidelity, by a letter dated March 31, 2014, that the Volume Submitter Profit Sharing Plan with CODA qualifies under Code Section 401(a). The Plan administrator and Company management believes that the Plan, as amended, is designed and is currently being operated in compliance with the applicable requirements of the IRC, thus no provision for income taxes has been provided for in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

6. CONCENTRATIONS, RISKS AND UNCERTAINTIES

The Plan provides for various investments in registered investment companies and a collective investment trust. Investment securities, in general, are exposed to various risks such as interest rate, credit and overall market volatility risk. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in economic conditions in interest rates. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Plan Benefits. As of December 31, 2016 and 2015 there were none and one, respectively, investments held which individually accounted for more than 10% of net assets available for plan benefits. See the supplemental Schedule of Assets (Held at End of Year) for a complete listing of investments held at December 31, 2016.

7. RELATED PARTIES AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments in registered investment companies are held and managed by the Trustee of the Plan. Payments to the Trustee by the Plan consisted of administrative fees totaling $30,054 for the year ended December 31, 2016. The Trustee may also receive indirect fees from the registered investment companies. Certain participants of the Plan have outstanding loans with the Plan as of December 31, 2016 and 2015. The above transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

8. DELINQUENT PARTICIPANT CONTRIBUTIONS

During the years ended December 31, 2015 and 2014, the Company failed to timely remit participant contributions to the Plan in the amount of $2,455. The late remittances have been remitted, and lost earnings were remitted in September 2016. See the accompanying supplemental Schedule of Delinquent Participant Contributions for the year ended December 31, 2016.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Participant loans are reported as notes receivable from participants in the accompanying financial statements as required by current authoritative guidance; however, for Form 5500 purposes and reporting on the supplemental Schedule of Assets (Held at End of Year) they are shown as investments, as required.

10. SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 11, 2017, which is the date the financial statements were available for issue. There were no events or transactions discovered during this evaluation that require recognition or disclosure in the financial statements.
