NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of **The Dayton Forging & Heat Treating Company Employees' Pension Plan** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined benefit pension plan covering substantially all employees of The Dayton Forging & Heat Treating Company (the "Company") who meet the age and service requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective May 20, 2016, an amendment was executed to freeze the Plan. The amendment effectively closed participation in the Plan after January 1, 2016, and froze additional benefit accruals after May 20, 2016. As a result of the freezing of the Plan, every participant in the Plan as of May 20, 2016 was deemed to be 100% vested in their accrued benefit.

Funding Policy - Employee contributions are not permitted under the Plan. The Plan's funding policy is to fund pension costs that at a minimum would satisfy the minimum requirements of the Employee Retirement Income Security Act of 1974 (ERISA), and would be deductible under Section 404 of the Internal Revenue Code. Contributions are intended to fund the Plan's normal cost on a current basis. The Plan has met ERISA's minimum funding requirements.

The minimum annual contribution for the 2016 and 2015 Plan years, calculated as of January 1, 2016 and 2015 was \$0 for each year. In 2016, the Plan Sponsor contributed \$225,000 to the Plan, which was recorded as a receivable at December 31, 2015. Contributions in excess of the minimum annual contribution were made in order to eliminate certain future minimum annual contributions.

Pension Benefits - The amount of an employee's monthly benefit depends upon their years of benefit service with the Company, their age at the time they receive benefits, their average salary or wages for their five highest consecutive years (for salaried employees), and the benefit multiplier (for hourly employees).

Salaried employees with five years of vested service are entitled to full annual retirement benefits, beginning at the normal retirement age of 65, calculated as the greater of:

- The sum of 1% of the average monthly compensation, plus 0.65% of average monthly compensation in excess of covered compensation multiplied by years of service (with a maximum of 35 years of service).
- The accrued benefit at July 31, 1994, under the Plan as it existed at that time.
- The result of 2% of Monthly Plan Compensation times years of Top Heavy Service at the employees' Normal Retirement Date (with a maximum of 10 years).

Hourly employees receive monthly retirement benefits of their years of benefit service multiplied by the benefit multiplier, which is currently \$18, payable for their lifetime.

EMPLOYEES' PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN - CONTINUED

Participants who have attained age 55 and completed at least 10 years of service are eligible for early retirement. The accrued retirement benefit is reduced for early retirement.

Participants may elect to receive the value of their accumulated plan benefits as a lump-sum distribution upon retirement or termination, as a life annuity payable monthly from retirement, or as a life annuity with a guaranteed number of payments payable monthly upon retirement and if the participant dies within a guaranteed time period after benefits commence, a continuing monthly payment to the beneficiary for the remainder of the guaranteed time period. Participants may elect to receive their pension benefits in the form of a joint and survivor annuity.

Death Benefits - Upon death of a vested participant, a death benefit shall be paid to the participant's spouse as long as the participant and spouse had been married for at least one year at the time of death. The amount of the death benefit will equal the amounts which would have been payable as a survivor annuity under the qualified joint and survivor annuity option allowed by the Plan.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Change in Accounting Policy - In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part II eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Plan management elected to early adopt Part II of this standard during 2015.

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Financial Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's Administrator to make estimates and assumptions that affect the reported amounts of net assets and disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**THE DAYTON FORGING & HEAT TREATING COMPANY
EMPLOYEES' PENSION PLAN**

NOTES TO FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Receivables - Due to the nature of receivables, management believes that all amounts will be collected; therefore, no allowance for doubtful accounts is considered necessary.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits - Benefit payments to participants are recorded upon distribution.

Administrative Expenses - Administrative expenses are paid directly by the Plan to the extent not paid by the Company. Investment related expenses are included in net appreciation (depreciation) in fair value of investments.

Subsequent Events - In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through August 11, 2017, the date the financial statements were available to be issued.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Actuarial Present Value of Accumulated Plan Benefits - Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died, and the present employees or their beneficiaries. Benefits under the Plan are based on the monthly average of the highest five consecutive participants' annual compensation amounts during the last ten calendar years before the participants' retirement. The accumulated plan benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (valuation date). Benefits payable under all circumstances (retirement, death, disability, and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by an actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest), and the probability of payment (by means of decrements such as death, withdrawal, retirement, or disability), between the valuation date and the expected date of payment.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS - CONTINUED

The actuarial present value of accumulated plan benefits as of January 1, 2016 and 2015 are summarized as follows:

	<u>2016</u>	<u>2015</u>
ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS		
Vested benefits		
Participants currently receiving benefits	\$ 2,893,912	\$ 3,035,804

TOTAL ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS	<u>\$ 4,670,351</u>	<u>\$ 4,697,405</u>

The changes in actuarial present value of accumulated plan benefits for the years ended January 1, 2016 and 2015 were as follows:

	<u>2016</u>	<u>2015</u>
ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS AT BEGINNING OF YEAR	<u>\$ 4,697,405</u>	<u>\$ 4,880,818</u>
DECREASE DURING THE YEAR ATTRIBUTED TO		
Benefits accumulated and other	114,581	(113,761)
Benefits paid	(461,863)	(404,358)
Interest	312,653	327,496
Change in actuarial assumptions	<u>7,575</u>	<u>7,210</u>

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS AT END OF YEAR	<u>\$ 4,670,351</u>	<u>\$ 4,697,405</u>

The significant actuarial assumptions used in the valuations were as follows:

- Investment return at an average rate of 7.00% as of January 1, 2016 and 2015.
- Discount rate of 7.00% as of January 1, 2016 and 2015.
- Life expectancy of participants (using the blended annuitant/non-annuitant mortality table applicable to small plans mandated by PPA as specified by IRS Regulation 1.430(h)(3)-1).
- Average rate of future salary increases of 2% as of January 1, 2016 and 2015.
- Normal retirement age of 65.
- A lump sum assumption was added as of January 1, 2011 for participants who retire on or after age 65.
- Retirement rates were added as of January 1, 2011. The prior assumption was that all participants retired at the normal retirement age.

**THE DAYTON FORGING & HEAT TREATING COMPANY
EMPLOYEES' PENSION PLAN**

NOTES TO FINANCIAL STATEMENTS

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS - CONTINUED

The actuarial present value of accumulated plan benefits does not take into account the amendment to freeze the plan effective May 20, 2016.

The net decrease in the actuarial present value of accumulated benefits is the result of benefits paid, discounts for interest, changes in participant mix, actuarial experience gain and losses, and changes in actuarial assumptions.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors will be applicable in determining the actuarial present value of accumulated Plan benefits.

NOTE 4 - SUMMARY OF INFORMATION CERTIFIED BY PLAN TRUSTEES

Effective December 6, 2016, all investments with the exception of \$1,447 in a money market fund were transferred from Huntington Bank to PNC Bank. The fair value of investments held by the Trustees at December 31, 2016 was \$4,703,400 and the fair value of investments held by Huntington Bank at December 31, 2015 was \$5,344,601. The Trustees of the Plan have supplied the Plan Administrator with a certification as to the completeness and accuracy of the following information at December 31, 2016 and 2015:

- Investments
- Interest and dividend income
- Net appreciation (depreciation) in fair value of investments

NOTE 5 - FAIR VALUE MEASUREMENTS

Accounting standards provide a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under the accounting standards are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

**THE DAYTON FORGING & HEAT TREATING COMPANY
EMPLOYEES' PENSION PLAN**

NOTES TO FINANCIAL STATEMENTS

NOTE 5 - FAIR VALUE MEASUREMENTS - CONTINUED

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs, and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016.

Money market funds: Valued based on the contractual terms of the underlying money market account; provides a daily mil-rate for income accretion.

Mutual funds: Valued at the daily closing price as reported by the fund.

Common stocks: Valued at the daily closing price of the stock.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>
Money market funds	\$ 172,240	\$ -	\$ -	\$ 172,240
Common stocks	4,049,840	-	-	4,049,840

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

NOTE 6 - RELATED PARTY TRANSACTIONS

Certain Plan assets are invested with PNC Bank. Thus, PNC Bank, as Trustee defined by the Plan, qualifies as a party-in-interest. Fees incurred by the Plan for PNC Bank's Trustee services for the year 2016 totaled \$1,982.

Certain Plan assets are invested with Huntington Bank. Thus, Huntington Bank, as Trustee defined by the Plan, qualifies as a party-in-interest. Fees incurred by the Plan for Huntington Bank's Trustee services for the years 2016 and 2015 totaled \$16,219 and \$34,262.

Fees incurred during the year for legal, accounting, actuarial and investment management services rendered by parties-in-interest totaled \$39,350 and \$32,325 for the years 2016 and 2015.

The Plan Sponsor provides certain accounting, record keeping, and administrative services to the Plan, for which it receives no compensation.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the Plan provides that the plan administrator shall allocate the assets of the Plan in accordance with Title IV of ERISA.

Under ERISA, certain benefits would be guaranteed by the Pension Benefit Guaranty Corporation (PBGC). Generally, the PBGC guarantees most vested, normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the Plan's termination, subject to a statutory ceiling on the amount of the individual's monthly benefit.

Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty while other benefits may not be provided for at all. Reference should be made to the Plan document for further details.

NOTE 8 - TAX STATUS

The Plan adopted a Prototype Non-Standardized Defined Benefit Pension Plan, which received a favorable determination letter on March 31, 2010, in which the Internal Revenue Service stated that the Plan, and the related trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

**THE DAYTON FORGING & HEAT TREATING COMPANY
EMPLOYEES' PENSION PLAN**

NOTES TO FINANCIAL STATEMENTS

NOTE 8 - TAX STATUS - CONTINUED

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 10 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

For the years 2016 and 2015, the Form 5500 reported realized gains (losses) from the sale of investments separate from the unrealized gains (losses). The financial statements reported the realized and unrealized gains as one combined number. Additionally in 2016 and 2015, the Form 5500 reported interest and dividends separately, whereas the financial statements report interest and dividends as one combined number. There was no change in total income based on these differences.
