BETTER BUSINESS FORMS, INC. 401(K) PLAN

Notes to Financial Statements

December 31, 2016 and 2015

NOTE A – DESCRIPTION OF THE PLAN

The following description of Better Business Forms, Inc. 401(k) Plan (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Better Business Forms, Inc. (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan covers all employees who have one year of service and are age twenty-one or older.

On December 31, 2016, the Plan was merged with the Essentra USA Deferred Savings Plan. Participant accounts in the amount of \$5,589,313 were transferred to the Essentra USA Deferred Savings Plan. The table below provides details of the participant accounts transferred.

Investments	\$ 5,512,180
Notes receivable - participant loans	<u>77,133</u>
Total	<u><u>\$ 5,589,313</u></u>

Contributions

Employee basic salary deferral contributions are limited to the maximum contribution permitted by the Internal Revenue Code, which was \$18,000 for the years ended December 31, 2016 and 2015. In addition, participants may contribute rollover contributions from other qualified retirement plans. Discretionary matching contributions may be made by the Company. The exact amount is determined each year by the Company. Additional amounts may be contributed at the option of the Company. Company contributions are subject to certain limitations. The Company’s contribution to the Plan during the year ended December 31, 2015 was \$41,635. There was no Company contribution to the Plan during the year ended December 31, 2016.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant’s vested interest in his or her account, or periodic payments, as elected by the participant. If the participant does not make an election prior to the designated time period, payment of any benefits provided shall be made in the form of a single sum payment to the participant. For termination of service due to other reasons, a participant may elect to receive the value of the vested interest in his or her account as a lump-sum distribution, according to provisions of the plan document. In addition, hardship withdrawals are permitted if certain criteria are met.

NOTE A – DESCRIPTION OF THE PLAN (Continued)

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of service. A participant is 100% vested after six years of credited service.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and allocations of plan earnings and charged with allocations of plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment Options

A participant can choose to allocate any portion or all of their account balance between the investment options.

Participants Loans

Participants may borrow from their accounts up to a maximum of \$50,000 or 50% of their account balance, whichever is less. Loan transactions are treated as a transfer between the investment fund and the loan fund. The loans are secured by the balance in the participant's account and bear interest ranging from 4.25% - 4.5%. This rate is felt to be commensurate with local prevailing rates. Principal and interest are paid ratably through payroll deductions.

Forfeited Accounts

There were no forfeited amounts as of December 31, 2016, and 2015. During the year ended December 31, 2015, \$2,950 of forfeitures were used to pay administrative expenses of the Plan. No forfeitures were used during the year ended December 31, 2016. Forfeitures are available to reduce future employer contributions or to pay administrative expenses of the Plan.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the valuation policies utilizing information provided by the trustee.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

In accordance with the policy of stating investments at fair market value, net appreciation as reflected in the statements of changes in net assets available for benefits represents realized and unrealized gains (losses) for investments bought, sold and held during the year.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

Payment of Benefits

Benefit payments to participants are recorded when paid.

NOTE B – SIGNIFICANT ACCOUNTING POLICIES (Continued)

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (“FASB”) issued ASU No. 2015-07, *“Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or its Equivalent).”* This ASU removes the requirement to make certain disclosures and to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments in ASU 2015-07 are effective for periods beginning after December 15, 2016. The amendment is required to be applied retrospectively and early adoption is permitted. The Company has early adopted and applied the amendments for the year ended December 31, 2016. Other than requiring a change to the disclosures, the adoption of this standard did not have a material impact on the financial statements.

In July 2015, the FASB issued ASU No. 2015-12, *“Plan Accounting: Defined Benefit Pension Plans (Topic 965): (Part I) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient,”* which is part of the FASB’s Simplification Initiative for employee benefit plans. Part I of this ASU clarifies that contract value is the only required measurement for Fully Benefit Responsive Investment Contracts (“FBRICs”) and clarifies that indirect investments in FBRICs should no longer be reflected as FBRICs and therefore, should be reported at fair value. Part II of this ASU eliminates the current GAAP requirements for plans to disclose individual investments that represent five percent or more of the net assets available for benefits, and the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant directed investments. It also allows investments to be disaggregated by general type and eliminates the requirement to disaggregate investments by class. Further, significant investment strategies for an investment in a fund that files a U. S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as direct filing entity when the plan measures that investment using the net asset value practical expedient are no longer required. The provisions of this ASU are effective for financial statements issued for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively and early adoption is permitted. The Company has adopted and applied the amendments for the year ended December 31, 2016. Other than requiring a change to the disclosures, the adoption of Parts I and II of this standard did not have a material impact on the financial statements.

The common collective trust (“CCT”) investment, which is further described in Note D, invests in FBRICs. Accordingly, under the new accounting pronouncements adopted in 2016, the CCT is considered an indirect investment in FBRICs which is carried at fair value using net asset value practical expedient. Therefore, it is no longer carried at contract value in the statement of net assets and is not categorized within the fair value hierarchy. This accounting and financial reporting has been applied retroactively to 2015.

NOTE C – NOTES RECEIVABLE

Participant loans are valued at the amortized cost of the loans which is felt to approximate fair value. Interest income is recorded when received. The Plan currently does not have an allowance for doubtful accounts as all amounts are considered collectible. Delinquent notes receivable from participants are recorded as a distribution based upon terms of the plan document.

NOTE D – FAIR VALUE MEASUREMENTS

The Plan defines fair value as the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date and utilizes a three-level hierarchy under which individual fair value estimates are ranked based on the relative reliability of the inputs used in the valuation. Fair values determined using level 1 inputs rely on active and observable markets to price identical assets or liabilities. In situations where identical assets and liabilities are not traded in active markets, fair values may be determined based on level 2 inputs, which exist when observable data exists for similar assets and liabilities. Fair values for assets and liabilities that are not actively traded in observable markets are based on level 3 inputs, which are considered to be unobservable.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize use of observable inputs and minimize the use of unobservable inputs.

The following table provides fair value information of the Plan as of December 31, 2016:

	<u>Total</u>	<u>(Level 1)</u>
Mutual Funds	\$ -	\$ -
Common Collective Trust Fund, not classified in fair value hierarchy	-	-
Total	<u>\$ -</u>	<u>\$ -</u>

The following table provides fair value information of the Plan as of December 31, 2015:

	<u>Total</u>	<u>(Level 1)</u>
Mutual Funds	\$ 4,740,468	\$ 4,740,468
Common Collective Trust Fund, not classified in fair value hierarchy	707,028	-
Total	<u>\$ 5,447,496</u>	<u>\$ 4,740,468</u>

NOTE D – FAIR VALUE MEASUREMENTS (continued)

Level 1 Fair Value Measurements

Fair value of mutual funds is based on quoted market prices, which represents the net asset value (NAV) of shares held by the Plan at year end.

Common Collective Trust Fund

Reported at fair value using net asset value per share (or its equivalent) as a practical expedient and not classified in the fair value hierarchy in accordance with Subtopic 82010. The fair values presented in the hierarchy tables are intended to permit reconciliation of the fair value hierarchy to the investments at fair value as presented in the Statements of Net Assets Available for Benefits.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE E – INCOME TAX STATUS

On January 31, 2006, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself. However, the Plan administrator believes that the Plan was designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. The Plan administrator has reviewed and evaluated its tax positions taken in its previously filed annual reports and returns with the Internal Revenue Service and/or the Department of Labor, and those expected to be filed in the future, and has concluded that in the event of a future examination by regulatory authorities, the Plan's positions would prevail based upon the technical merit of such positions. Therefore, the Plan has concluded that no further benefits or liabilities are required to be recognized or disclosed in the financial statements.

The Plan is generally subject to routine audits by the Internal Revenue Service and/or Department of Labor for three years, including 2013, 2014 and 2015. There are currently no audits for any periods in progress.

NOTE F – INVESTMENT CONTRACT

The Plan has entered into a benefit-responsive investment contract with Federated Investors Trust Company. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described above, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawals or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Contract value of the investment contract at December 31, 2016 and 2015 was \$-0- and \$707,028, respectively. The crediting interest rate is based on a formula agreed upon with the issuer and may be reset during the plan year.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but are not limited to the following: (1) The complete or partial termination of the Plan; (2) The establishment or activation of, or material change in, any plan investment fund, or an amendment to the Plan or change in the administration or operation of the Plan, including the removal of a group of employees from plan coverage as a result of the sale or liquidation of a subsidiary or division or as a result of group layoffs or early retirement programs. The plan administrator does not believe that any events, which would limit the Plan's ability to transact at contract value with participants, are probable of occurring. The guaranteed investment contract does not permit the trust company to terminate the agreement prior to the scheduled maturity date.

NOTE G – TRUSTEE CERTIFICATION (UNAUDITED)

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by SunTrust Banks Inc., the trustee of the plan, except for comparing such information certified by the trustee to information included in the Plan's financial statements.

Investments	\$ -	\$ 5,447,496

NOTE H – RISKS AND UNCERTAINTIES

The Plan utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

NOTE I – PARTY-IN-INTEREST TRANSACTIONS

Certain investments held by the Plan are managed by SunTrust Banks Inc., trustee of the Plan. Accordingly, the transactions in such investments qualify as party-in-interest transactions as defined by ERISA.

NOTE J – SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through June 19, 2017 (the issuance date of the financial statements) and has determined that there were no subsequent events to recognize or disclose in these financial statements.
