Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Report of Independent Auditors

To the Administrator of Raytheon Bargaining Retirement Plan

We have audited the accompanying financial statements of Raytheon Bargaining Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of November 30, 2016 and November 30, 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, information regarding the Plan's net assets available for benefits as of November 30, 2016 and changes therein for the year then ended and its financial status as of November 30, 2015, and changes therein for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Raytheon Bargaining Retirement Plan

Notes to Financial Statements

November 30, 2016 and 2015

1. Plan Description

The following description of the Raytheon Bargaining Retirement Plan (the "Plan") is for general purposes only. Participants should refer to the Summary Plan Description or the Plan Document for a complete description of the Plan's provisions.

General

The Plan was established on December 18, 1997 to provide retirement benefits to eligible employees in represented units as part of Raytheon Company's (the "Company") merger with the Defense Business of Hughes Electronics on December 17, 1997. A proportionate allocation of the liabilities of the preexisting Hughes Electronics Bargaining Retirement Plan (the "Hughes Plan") was transferred to the Plan at that time. Effective December 31, 2002, the Pension and Retirement Plan Local 6-0254 of Paper Allied-Industrial Energy International Union (PACE "Local 6-0254 Plan") was merged into the Raytheon Bargaining Retirement Plan.

Investments are held in the Raytheon Master Pension Trust ("Master Trust"). The Plan is administered by the Plan Administrator appointed by the Company's Vice President of Human Resources and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Benefits, Eligibility and Vesting

The Plan is a defined benefit plan covering certain employees of the Company. The Plan provides specified benefits to be paid from the net assets available for benefits. Each employee who was a participant in the Hughes Plan on December 17, 1997, continued as a participant in the Plan with all prior service maintained. Other represented employees working in a bargaining unit in the defense business formerly operated by Hughes Electronics generally become eligible following completion of a year of service. The level of benefits depends upon the status of each participant as either in the contributory portion or the noncontributory portion of the Plan.

Benefits are based principally upon years of service and compensation. Annual earnings in excess of the limit provided for that year by Section 401(a) (17) of the Internal Revenue Code, are not used in determining benefits under the Plan.

Effective January 1, 2007, employees who are either hired or rehired (after the period of eligible recall) subject to any applicable collective bargaining agreement are not eligible to participate in the Plan. In addition, former employees who are rehired on or after March 1, 2007, or as of a negotiated date, if different and have received or are receiving payment from a Company-sponsored pension plan are not eligible to participate in the Plan, subject to applicable collective bargaining agreements.

Non-Contributory Benefit Structure

A bargaining employee hired or rehired by Hughes or Raytheon after the date specified by the applicable collective bargaining unit (all of which were by the end of 1991) participates in the non-contributory benefit structure.

After completing 5 years of service under the Plan, participants are entitled to monthly pension benefits defined as a percentage of their final average monthly compensation multiplied by their years of service beginning at their Social Security Retirement Date. In addition, certain unions are provided a minimum guarantee benefit based upon years of service. The non-contributory portion of the plan provides for normal retirement, early retirement, deferred vested and death benefits. The standard form of retirement benefit to unmarried participants is a monthly payment beginning the month following retirement and continuing until death. The standard form of benefit to married participants is a reduced monthly payment for the participant's life and one-half of that payment for

Raytheon Bargaining Retirement Plan

Notes to Financial Statements

November 30, 2016 and 2015

the life of the participant's surviving spouse. Other optional forms of benefits are also available including a 10 Year Certain and Continuous Benefit, a 10 or 15 Year Period Certain Benefit, and 66 2/3%, 75% or 100% Contingent Annuity.

Contributory Benefit Structure

A bargaining employee hired or rehired by Hughes before the applicable bargaining unit switched to the non-contributing benefit structure is eligible to participate in the contributory benefit structure. All bargaining units switched to the non-contributing benefit structure before 1992. Employees, who are eligible to participate and choose to do so, contribute 3% of their pay to the Plan. Participants are always vested in their contributions and interest in the Plan.

After completing 5 years of service as a Hughes or Raytheon employee, a participant in the contributory benefit structure is entitled to monthly pension benefits beginning at their normal retirement date based upon the greater of three formulas (a career average formula, a minimum benefit formula and a final average compensation formula). The pension under the contributory benefit is adjusted annually to reflect changes in the cost of living (maximum increase or decrease of 4% per year). The contributory portion of the plan provides for normal retirement, early retirement, deferred vested and death benefits. The early retirement pension is unreduced for a participant who is at least 55 at termination and whose age plus continuous service (at termination) is at least 75. The standard form of retirement benefit to unmarried participants is a monthly payment beginning the month following retirement and continuing until death. The standard form of benefit to married participants is a reduced monthly payment for the participant's life and one-half of that payment for the life of the participant's surviving spouse. Other optional forms of benefits are also available including a 5, 10 or 15 Year Certain and Continuous Benefit, a 5, 10 or 15 Year Period Certain Benefit, 5, 10, or 15 Year Temporary Modified Cash Refund Annuity, 66 2/3%, 75%, or 100% Contingent Annuity and Social Security Leveling Options.

Contributions

The Company makes contributions to the Plan to ensure assets are sufficient to pay the benefits of the Plan. Participants in the contributory portion of the Plan, except those on inactive status, are required to contribute to the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is stated at fair value. Net investment income/ (loss) from the Master Trust is allocated proportionately on a monthly basis based on the Plan's interest in the Master Trust. See Note 5 for additional information.

Contributions

Employer contributions are funded and recorded as determined by actuarial computation. Participants in the contributory portion of the Plan contribute 3% of pay as defined under the Plan. See Note 4 for additional information.

Benefit Payments

Benefit payments to participants are recorded when paid.

Administrative Expenses

All expenses of the Plan, which primarily consist of professional and administrative fees, are paid by the Plan. Expenses specifically related to the Plan are included in the Statements of Changes in

Raytheon Bargaining Retirement Plan

Notes to Financial Statements

November 30, 2016 and 2015

Net Assets Available for Benefits under "Administrative expenses." Additionally, expenses paid directly by the Master Trust, which primarily consist of investment management fees, are allocated proportionally on a monthly basis based on the Plan's interest in the Master Trust and are included in the Statements of Changes in Net Assets Available for Benefits under "Raytheon Master Pension Trust investment income."

Use of Estimates

The Plan's financial statements have been prepared in conformity with U.S. Generally Accepted Accounting Principles ("GAAP") and require the Plan Administrator to make significant estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the actuarial present value of accumulated plan benefits as of the benefit information date, the changes in net assets available for benefits during the reporting period and, when applicable, the disclosures of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

New Accounting Pronouncements

In February 2017, FASB issued Accounting Standards Update (ASU) No. 2017-06, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - Employee Benefit Plan Master Trust Reporting. ASU No. 2017-06 amends the master trust disclosure to require additional disclosures related to the Plan's interest in the master trust.

This ASU is effective for fiscal years beginning after December 15, 2018 and is required to be applied retrospectively for all comparative periods presented. Management does not expect the adoption of this ASU to have a significant impact on the Plan's financial statements.

3. Actuarial Present Value of Accumulated Pension Plan Benefits

Accumulated plan benefits are those future periodic payments that are attributable, under the Plan's provisions, to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of deceased employees, and (c) active employees or their beneficiaries. The level of benefits depends upon the status of each participant as either in the contributory portion or the noncontributory portion of the Plan. Benefits are based principally upon years of service and compensation. Benefits payable under all circumstances - retirement, termination of employment and death - are included to the extent that they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits is determined by the Company's consulting actuary, Mercer, and is the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements for retirement, death or withdrawal) between the valuation date and the expected date of payment.

Raytheon Bargaining Retirement Plan

Notes to Financial Statements

November 30, 2016 and 2015

The significant actuarial assumptions used in the valuation as of November 30, 2015 and 2014, are as follows:

Assumed rate of return on investments for accumulated benefits	8.00%
Mortality basis	
Healthy & disabled participants	Modified version of the RP-2014 employee/retiree no collar tables, which has the projection scale backed off to 2007 and projected future generational mortality improvement based on a modified version of the MP-2014 scale, which reflects a 10-year downgrade period and an ultimate improvement rate of 0.75%
Retirement	Several rates, varying by age from 55 to 70
Post-retirement cost-of-living adjustment	2.5% for contributory participants

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Assumption Changes

There have been changes in the actuarial assumptions since the prior valuation of the Plan as follows:

- The form of payment for contributing participants retiring in the 2016 plan years was updated from 20% Single Life and 80% 5-year Certain Only to 10% Single Life and 90% 5-year Certain Only based on past experience and future payment elections by contributing participants.
- The PBGC interest basis for conversion to certain only form of payment was changed from 1.75% to 1.25% for 2015 and from 2.75% to 2.00% for 2016. The assumption for 2017 and thereafter remained at 2.75%
- Segmented interest rates of changed from 4.50% for 5 years, 5.00% for the next 15 years and 6.00% thereafter to 1.50% for 5 years, 3.50% for the next 15 years and 5.00% thereafter for 2015; 3.25% for 5 years, 4.50% for the next 15 years and 5.25% for 2016; 5.00% for 5 years, 5.25% for the next 15 years and 5.50% thereafter for 2017 and beyond. Also 417 (e) mortality was updated from 2014 to 2015.

The above changes were made to better reflect anticipated demographic experience.

Raytheon Bargaining Retirement Plan

Notes to Financial Statements

November 30, 2016 and 2015

As of November 30, 2015, the most recent valuation date, the actuarial present value of accumulated plan benefits is as follows:

Vested benefits	
Participants receiving benefits	\$ 279,806,946
Participants with deferred benefits	45,605,719
Active participants	132,621,824
Total vested benefits	458,034,489
Nonvested benefits	33,179,128
Total actuarial present value of accumulated plan benefits	<u>\$ 491,213,617</u>
Employee contributions with interest as of November 30, 2015 (2.01% interest rate)	<u>\$ 38,255,000</u>

The following is an analysis of changes in the present value of accumulated benefits:

Actuarial present value of accumulated plan benefits as of November 30, 2014	\$ 517,408,612
Benefits accumulated and non-investment (gains)/losses	12,626,491
Increase for interest due to decrease in discount period	37,860,980
Benefits paid	(81,500,965)
Change in actuarial assumptions	4,016,742
Change in plan provisions	801,757
Actuarial present value of accumulated plan benefits as of November 30, 2015	<u>\$ 491,213,617</u>

4. Funding Policy

The employer's contributions are actuarially determined to fund the Plan's current normal costs on a current basis and to generally fund the existing unfunded liability on account of qualified service prior to the valuation date in accordance with the amortization schedules prescribed by ERISA minimum funding requirements (as amended by the Pension Protection Act). At the Company's discretion, and to the extent allowable under maximum tax deductibility regulations, contributions above the ERISA minimum requirements may be made to the Plan. Contributions for the year ended November 30, 2016 and 2015 met the minimum funding requirements of ERISA.

Participants, who choose the option to participate in the Contributory Benefit feature of the plan, contribute 3% of their eligible compensation. Employee contributions are placed into a trust fund. If a participant does not earn a benefit under the Plan, any contributions made to the Plan plus interest, will be returned to the participant or designated beneficiary.

Participants are always vested in their contributions and interest in the Plan.

5. Master Trust

Summary Financial Information

The Plan's assets are held in the Master Trust, which was established for the investment of assets of the Plan and several other Company sponsored retirement plans. The assets of the Master Trust are held by the Bank of New York Mellon ("BNY Mellon"), the Trustee. The Investment Committee, appointed by the Chairman and CEO of the Company, periodically reviews the asset allocation and performance of the investments held in the Master Trust. The investment policy, as approved by the Investment Committee, permits asset diversification to include a combination of cash and cash equivalents, publicly traded equity securities, private equity funds, fixed-income securities, private real estate funds, commingled funds and other investments such as insurance contracts and derivatives.

Investment securities are exposed to various risks, such as interest rate, market, currency and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Raytheon Bargaining Retirement Plan

Notes to Financial Statements

November 30, 2016 and 2015

At November 30, 2016 and 2015, the Plan owned approximately 3% of the fair value of the Master Trust net assets. The total net assets of the Master Trust at November 30, 2016 and 2015 were:

Fair Value Measurements

The accounting standard for fair value measurements provides a framework for measuring fair value and requires expanded disclosures regarding fair value measurements. Fair value is defined as the price that would be received for an asset or the exit price that would be paid to transfer a liability in the principal or most advantageous market in an orderly transaction between market participants on the measurement date. The accounting standard established a fair value hierarchy which requires an entity to maximize the use of observable inputs, where available. The following summarizes the three levels of inputs required as well as the assets and liabilities that we value using those levels of inputs.

- | | |
|-----------------|---|
| Level 1: | Unadjusted quoted prices in active markets for identical assets or liabilities. |
| Level 2: | Observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs which are observable or have been corroborated by observable market data for substantially the full term of the related assets or liabilities. |
| Level 3: | Unobservable inputs supported by little or no market activity that are significant to the fair value of the assets or liabilities. |

A financial instrument's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. Certain investments that are measured at fair value using the net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. See valuation policy section for further information.

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

For the years ended November 30, 2016 and November 30, 2015, there were no material transfers in or out of Levels 1, 2 or 3.

Valuation Policy

The Plan's interest in the Master Trust is stated at fair value. The Trustee values Master Trust investments as follows:

Cash and cash equivalents are valued at amortized cost, which approximates fair value.

Investments in equity securities (common and preferred) and equity securities sold short, if any, are valued at the exchange traded closing price if available.

Investments in fixed income securities (U.S. Government, domestic and foreign bonds, asset backed securities and term loans) are valued by a pricing service which determines valuations for normal institutional-size trading units of such securities using methods based upon market transactions for comparable securities and various relationships between securities which are generally recognized by institutional traders, or at fair value as determined in good faith by the Trustee of the Master Trust and management.

Investments denominated in foreign currencies are translated into U.S. Dollars using the last reported exchange rate.

Investments in registered investment companies are valued at their last reported net asset value.

Investments in commingled funds, private equity fund and private real estate funds are estimated at fair market value, which primarily utilizes net asset values reported by the investment manager or fund administrator. Management reviews additional valuation and pricing information from fund managers, including audited financial statements, to evaluate the net asset values.

Unallocated insurance contracts are valued at their contract price which approximates fair value.

Securities and other assets for which market quotations are not readily available or for which the above valuation procedures are deemed not to reflect fair value are valued in a manner that is intended to reflect their fair value.

Valuation policies for derivative investments are disclosed in the Derivative Policy paragraph.

Investment Income (Loss)

The Trustee maintains separate records of each plan's proportionate share in the Master Trust's investment accounts. The Plan's share of investment income (loss) and net appreciation (depreciation) in the fair value of investments of the Master Trust is included in the Statements of Changes in Net Assets Available for Benefits as Master Trust investment income (loss). The net appreciation (depreciation) in the fair value of investments consists of the realized gains (losses) and the change in unrealized appreciation (depreciation) on those investments.

Under the Master Trust Agreement, each plan's assets are jointly invested. The Plan uses the unit participation method to calculate the Plan's interest in the Master Trust. Under this method, contributions made to and benefits paid from the Master Trust result in increases or decreases in units of participation. All Master Trust income or loss results in a change in unit value.

Dividends are recorded on the ex-dividend date and interest income is accrued as earned. All security transactions are recorded on the trade date. Premiums and discounts on debt securities are amortized to maturity. Gains or losses on sales of securities are based on average cost.

Derivatives Policy

The Master Trust enters into contractual arrangements classified as derivatives in carrying out its investment strategy, principally to: (1) hedge a portion of the Master Trust's portfolio to limit or minimize exposure to certain risks, (2) gain exposure to a market more rapidly or less expensively than could be accomplished through the use of the cash markets, and (3) increase investment returns by reducing the cost of structuring the portfolio or capturing value disparities between financial instruments. The Master Trust may utilize both exchange traded investment instruments such as equity and fixed income futures and options contracts and over-the-counter derivatives such as forward contracts and swaps. Select major financial institutions are used in derivatives transactions. When engaging in over the counter derivatives and forward foreign exchange contracts, there is exposure to credit loss in the event of nonperformance by the counterparties to these transactions. As needed for material exposures, the Master Trust manages these exposures through credit approvals, limits, monitoring procedures, and to the extent possible, by restricting the period over which unpaid balances are allowed to accumulate. The Master Trust does not anticipate nonperformance by counterparties to these contracts.

The following tables present the values of derivatives (not accounted for as hedging instruments) carried on the Statement of Net Assets and the Statement of Changes in Net Assets of the Master Trust as of and for the year ended November 30, 2016:

Effect of Derivative Instruments on the Statement of Net Assets:

	<u>\$ (14,574,394)</u>	<u>9,275</u>

* Number of contracts represents volume of derivative activity and is based on a quarterly average.

The following is a summary of the significant accounting policies associated with the Master Trust's use of derivatives:

Forward Foreign Currency Exchange Contracts

A forward foreign currency exchange contract ("forward currency contract") is a commitment to purchase or sell a foreign currency at a future settlement date and at a negotiated rate.

Forward currency contracts are utilized to hedge a portion of the currency exposure that results from the Master Trust's holdings of equity and fixed income securities denominated in foreign currencies.

Forward currency contracts are marked-to-market at the prevailing forward exchange rate of the underlying currencies and the difference between contract value and market value is recorded as unrealized appreciation (depreciation) on Master Trust net assets. When the forward exchange contract is closed, the Master Trust transfers the unrealized appreciation (depreciation) to a realized gain (loss) equal to the change in the value of the forward exchange contract when it was opened and the value at the time it was closed or offset. Sales and purchases of forward currency contracts having the same settlement date and broker are offset and any gain (loss) is realized on the date of offset.

Raytheon Bargaining Retirement Plan

Notes to Financial Statements

November 30, 2016 and 2015

Certain risks may arise upon entering into a forward currency contract from the potential inability of counterparties to meet the terms of their contracts. Additionally, when utilizing forward currency contracts to hedge, the Master Trust gives up the opportunity to profit from favorable exchange rate movements during the term of the contract.

As of November 30, 2016 and 2015, the total aggregate face value of the open forward currency contracts in the Master Trust was (\$8,152,218) and (\$11,075,741)

Futures Contracts

A futures contract is a contractual agreement to make or take delivery of a standardized quantity of a specified grade or type of commodity or financial instrument at a specified future date in accordance with terms specified by a regulated futures exchange.

The Master Trust may use equity index, fixed income, cash and cash equivalents and commodities futures contracts to manage exposure to the market. Buying futures increases the Master Trust's exposure to the underlying instrument. Selling futures decreases the Master Trust's exposure to the underlying instrument held, or hedge the fair value of other fund investments.

Futures contracts are valued at the last settlement price at the end of each day on the exchange upon which they are traded. Upon entering into a futures contract, the Master Trust is required to deposit either in cash or securities an amount equal to a certain percentage of the nominal value of the contract ("initial margin"). Pursuant to the futures contract, the Master Trust agrees to receive from, or pay to, the broker an amount of cash equal to the daily fluctuation in the value of the futures contract. Such receipts or payments are recorded as "margin flows," and the accumulated balances resulting from those flows are included within "cash held at broker due to variation margin" on the balance sheet. The Master Trust will also record an unrealized gain or loss on futures, which is calculated as the difference between the notional cost and the notional market value of open futures contracts.

Futures contracts involve, to varying degrees, credit and market risks. The Master Trust enters into futures contracts on exchanges where the exchange acts as the counterparty to the transaction. Thus, credit risk on such transactions is limited to the failure of the exchange. The daily settlement on the futures contracts serves to greatly reduce credit risk. Losses in value may arise from changes in the value of the underlying instrument or if there is an illiquid secondary market for the contracts. In addition, there is the risk that there may not be an exact correlation between a futures contract and the underlying index or security.

At November 30, 2016, U.S. Government Bonds with a par value of \$16,146,000 (\$15,960,720 fair value) were pledged as collateral for open fixed income, equity and cash and cash equivalents futures positions. These bonds are restricted from trading until the futures positions for which they are pledged as collateral are settled. A cash balance of \$8,167,886 was posted to cover margin requirements for open futures.

At November 30, 2015, U.S. Government Bonds with a par value of \$18,010,000 (\$17,896,227 fair value) were pledged as collateral for open fixed income, equity and cash and cash equivalents futures positions. These bonds are restricted from trading until the futures positions for which they are pledged as collateral are settled. A cash balance of \$6,337,391 was pledged to cover margin requirements for open futures.

6. Termination Policies

The Company has not expressed any intent to terminate the Plan or discontinue its contributions. However, in the event the Plan is discontinued:

- The assets comprising the Plan, including the net income/ (loss) of the Plan shall be revalued at market by the Trustee.
- The Plan provides that the net assets of the Plan shall be allocated among the participants and beneficiaries of the Plan in the order provided by ERISA.
- To the extent unfunded vested benefits exist, ERISA provides that such benefits are payable by the Pension Benefit Guaranty Corporation (the "PBGC") to participants, up to specified limitations, as described in ERISA.

Whether all participants receive their full or partial benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

The Company may terminate the Plan in whole or in part at any time. This summary of termination priorities is provided for general information purposes only. Participants should refer to the Plan Document for more information.

7. Certain Transactions Involving Related Parties and Parties-in-Interest

BNY Mellon is the Trustee and Custodian of the Plan, and is therefore a party-in-interest with respect to the Plan. Certain investments within the Master Trust were advised by or affiliated with

November 30, 2016 and 2015

BNY Mellon. The Plan Sponsor, Raytheon Company, is a party-in interest with respect to the Plan and incurs expenses in connection with the administration of the Plan and the Master Trust.

The following table is a summary of expenses paid to parties-in-interest for the years ended November 30, 2016 and 2015:

	<u>Year Ended 2016</u>	<u>Year Ended 2015</u>
Expenses specifically related to the Plan (included in "Administrative expenses")	\$ 116,286	\$ 109,712
Plan allocation of expenses paid directly by the Master Trust (included in "Raytheon Master Pension Trust investment income")	176,895	115,962
	<u>As of November 30, 2016</u>	<u>As of November 30, 2015</u>
Accrued expenses (included in "Accrued administrative expenses" and "Other liabilities")	\$ 41,349	\$ (21,400)

All of these transactions either fall outside the scope of, or are exempt from, ERISA's prohibited transaction rules.

8. Tax Status

The Internal Revenue Service (the "IRS") has determined and informed the Company by letter dated October 29, 2013, that the design of the Plan meets the requirements for qualification under Code section 401(a), on which the tax exemption of the Trust under Code section 501(a) is based. The Plan has been amended since receiving the determination letter. The Plan Administrator and the Company's benefits counsel believe that the current design and operation of the Plan are consistent with continued qualification of the Plan and exemption of the Trust in the context of applicable IRS procedures. The Company, on behalf of the Plan, applied for a new determination letter on January 29, 2016.

The Plan adopted the provisions of uncertain tax positions that provide criteria for the recognition, measurement, presentation and disclosure of uncertain tax positions. The Plan may from time to time hold investments that give rise to certain tax liabilities. Based upon management's assessment, the Plan has not recognized any tax liabilities at November 30, 2016 and 2015, respectively. The Plan is subject to examinations by taxing jurisdictions; however, there are currently no audits for any tax period in progress. The Plan Administrator believes the Plan is no longer subject to federal tax examination for years prior to 2013.

9. Risks and Uncertainties

The Plan financial statements are based on the application of U.S. GAAP, which require the Plan to make estimates and assumptions about future events that affect the amounts reported in financial statements and the accompanying notes.

Contributions to the Plan are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee

compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements. The investments of the Plan, which are held in the Master Trust, are exposed to various risks, such as interest rate, currency, market and credit risks. See Note 5 for additional information with respect to investment risk.

10. Subsequent Events

The Plan has evaluated subsequent events and transactions subsequent to November 30, 2016 through the date the Plan's financial statements were available to be issued, September 11, 2017.

• Social Security wage base	3.75% per year Rationale: Reflects long-term view of inflation and the average real wage increases for the U.S. economy as a whole.																						
• Inflation	3.00% per year Rationale: Based on the inflation assumption periodically published by Mercer Investment Consulting in their <i>Capital Markets Outlook</i> .																						
• Cost-of-living adjustment (post-retirement)	2.50% per year Rationale: Based on the long-term view of increases in the Consumer Price Index for Urban Wage Earners and Clerical Workers (CPI-W) and reflecting analysis of historical cumulative retiree cost-of-living adjustments that has shown there is at least a 50 basis points difference between the retiree cost-of-living adjustment and the long-term inflation assumption.																						

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- Interest accumulation on employee contributions 5.00% per year
- Expected investment return The expected investment return is 8.00% per year but not greater than the third segment rate in effect for each year
Rationale: The expected long-term return on assets assumption was developed based on the plan's current target investment allocation and a building block approach, which looked at the weighted average expected return for each asset class based on long-term capital market assumptions. The expected return for each asset class is composed of inflation plus a risk free rate of return, plus an expected risk premium for each asset class. The resulting return was then adjusted for administrative, investment management and trading expenses as well as recognition of alpha for active management.
- Expenses \$2,500,000 (added to current year normal cost)
Rationale: Based on an estimate of administrative expenses expected to be incurred in the current plan year.
- Actuarial equivalence for conversion to certain only forms of payment The basis for valuation is based on whichever of the following bases that yields a greater lump sum value:
 - PBGC interest rates of 1.25% for plan year 2015, 2.00% for 2016, 2.75% thereafter and 1971 GAM Table (blended 80% males, 20% females) or
 - Segmented interest rates of 1.50% for 5 years, 3.50% for the next 15 years and 5.00% thereafter for 2015; 3.25% for 5 years, 4.50% for the next 15 years and 5.25% thereafter for 2016; 5.00% for 5 years, 5.25% for the next 15 years and 5.50% thereafter for 2017 and beyond. Current year 417(e) unisex mortality was used.

Rationale (PBGC interest rates): Based on long-term historical trends in the PBGC rate which suggests a range of 40 to 200 basis points below the long government bond. The assumption for long government bond is periodically published by Mercer Investment Consulting's *Capital Markets Outlook*.

Rationale (Segmented interest rates): Based on a long-term view of the three segment rates extrapolated by bootstrapping the forward rates from the current year's PPA full yield curve.

Demographic assumptions

- Withdrawal See table of sample rates.
Rationale: Based on experience studies undertaken from 2010 to 2013 using data from 2002 – 2012 and the expectation that future withdrawal patterns and circumstances of the employer will not differ significantly from the period studied.
- Disability incidence
Former Pension and Retirement Plan for Local 6-0254 of PACE 1985 Pension Disability Table for Class 3 Occupations for males and females (see table of sample rates)
Rationale: These assumptions are based on the benefit structure under the plan and the actuary's experience with similar plans. Annual review of the experience has shown that these assumptions provide similar results to the actual experience under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Methods for Funding

Asset Methods

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The Xerox HR Solutions, LLP provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:**
 - No actuarial liability is included for nonvested participants who terminated prior to the valuation date.
 - It is assumed that 100% of participants with deferred benefits over age 66 will not be located and will not commence benefits, as described in Section 5.12 of the plan document.
 - In addition, for retirees who have elected a contingent annuitant form of payment, one-third of future beneficiaries are assumed to decease prior to receiving benefits.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Early retirement	
• Eligibility	Age 55 and 5 years of Vesting service.
• Benefit	<p>Contributing participants: Actuarial equivalent of Normal Retirement benefit unless eligible for unreduced benefit under Rule of 75 (the sum of attained age and continuous service is at least 75.). Actuarial equivalence for this purpose is based on the interest rate used by the PBGC for valuing immediate annuities on the October 1st preceding the plan year (or on the first day of the plan year, if less) including the annuity start date and the 1971 Group Annuity Mortality Table blended 80% males, 20% females.</p> <p>Noncontributing participants: Accrued Benefit determined as of Normal Retirement, reduced 6% per year prior to Social Security Normal Retirement Age. Unreduced early retirement available for a participant who at the time of separation from service is within three years of their Social Security Normal Retirement Age or older and has at least ten years of continuous service.</p> <p>General Dynamics employees: If eligible, unreduced benefit (later of age 62 and 10 years of continuous service or satisfaction of required 85 points based on sum of attained age and continuous service). If not eligible for unreduced benefit, accrued benefit reduced by the lesser of 3% times excess of required over actual points and 3% per year prior to Normal Retirement.</p>
Postponed retirement	
• Benefit	Normal Retirement Benefit determined as of actual retirement date.
Termination with Deferred vested Benefit	
• Eligibility	Termination for reasons other than death or retirement after completing five years of Vesting service.
• Benefit	Benefit accrued to date of termination payable at age 65 or the actuarial equivalent as described in the “Early Retirement” section above, reduced for commencement after age 55 and prior to age 65.
Death benefits	
• Eligibility	5 years of Vesting service.
• Benefit	Benefit accrued to date of death, calculated as if the participant had retired at the earliest retirement age and elected the 50% contingent annuitant option or, if already eligible for early retirement, elected to retire and had elected the 100% contingent annuitant option on the day before death. The benefit is actuarially reduced with benefit payments to the spouse commencing on the date when the participant would have become eligible for retirement benefits.

Schedule SB, Part V — Summary of Plan Provisions

Form of benefits	
• Automatic form for unmarried participants	Single Life Annuity
• Automatic form for married participants	50% contingent annuitant option
• Optional forms	The participant may elect another actuarially equivalent optional form offered by the plan if the spouse consents, or if the participant has no spouse as of the date payment begins. Optional forms are a 50%, 66-2/3%, 75%, or 100% contingent annuity, a 5-, 10-, or 15-year period and continuous, 5-, 10-, or 15- year period certain only, temporary modified cash refund options, Social Security leveling options or (for married Participants) a life annuity.
Cost of living	Automatic cost-of-living adjustments of up to 4.0% are payable on retirement benefits after age 55 for contributing participants.
Unpredictable contingent event benefits	Not applicable
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2015, the limit is \$265,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2015, the limit is \$210,000.

· Credited Service	Prior to September 1, 1967, elapsed time from date of hire according to the following table:	
	Months of Employment in Calendar Year	<i>Credited Service</i>
	1	0.1 year
	2	0.2 year
	3	0.3 year
	4	0.4 year
	5-6	0.5 year
	7-8	0.6 year
	9	0.7 year
	10	0.8 year
	11	0.9 year
	12	1.0 year
	Subsequent to September 1, 1967, for plan years ending prior to January 1, 1982, 1 full year of credited service for each plan year of 1,680 or more hours; and a fractional year for each plan year of less than 1,680 hours on the basis of 1/10 of a year for each unit of 168 hours. For plan years beginning on or after January 1, 1982, 1 full year of credited service for each plan year of 1,640 or more hours; and a fractional year for each plan year of less than 1,640 hours on the basis of 1/10 of a year for each unit of 164 hours. Hours worked include overtime hours. Credited service is frozen effective April 14, 1997.	
Magnavox Plan	The Magnavox Company and the Magnavox Government and Industrial Electronics Company Hourly Pension and Retirement Plan covering Local 254A of the Allied Industrial Workers of America.

Normal Retirement		
· Eligibility	Age 65 and 5 years of service.	
· Benefit	A monthly benefit of \$22 for each year of credited service less the Actuarial Equivalent of the normal retirement benefit accrued under the Magnavox Plan through October 21, 1993. Effective April 14, 1997, credited service is frozen. The Actuarial Equivalent amount of offset benefit is calculated as if payments under the Magnavox Plan commenced on the earlier of the date of actual commencement under the Magnavox Plan or the date payments commenced under this plan.	
Early Retirement		

Schedule SB, Part V — Summary of Plan Provisions

· Eligibility	Age 55 and 5 years of service.
· Benefit	The accrued retirement benefit reduced by 3/10 of 1% for each month that retirement precedes age 65. This benefit is unreduced if the sum of age and years of credited service is at least 85.
Deferred Vested Retirement	
· Eligibility	5 years of service.
· Benefit	Computed in the same manner as the early retirement benefit, payable at age 65 or reduced and payable after age 55 as an early retirement benefit.
Disability	
· Eligibility	Total and permanent disability and 10 years of service.
· Benefit	A monthly benefit equal to the normal retirement benefit, payable immediately with no reduction for early commencement.
Pre-Retirement death benefit	
· Eligibility	Vested participant who dies prior to annuity start date.
· Benefit	A monthly benefit payable to the surviving spouse equal to the amount the spouse would have received if the participant had retired on the date of death and elected a 50% joint and survivor annuity. Benefit payments commence when the participant would have attained age 55.
Post-Retirement death benefit	
· Eligibility	Death while receiving normal, early, or disability retirement benefits.
· Benefit	\$4,000
Form of Benefits	
· Automatic form for unmarried participants	Single Life Annuity
· Automatic form for married participants	50% Joint and Survivor annuity equivalent to the Single Life Annuity.
· Optional forms	Participants may also take their benefit as a 10-year Certain and Continuous Annuity determined based on the actuarial equivalence stated above.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated effective January 16, 2015, are included in this valuation.

- **Most recent plan amendments included:** November 16, 2015.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.

Schedule SB, Part V — Summary of Plan Provisions

- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Plan Provisions Specific to Funding***Additional Benefits Included or Excluded***

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan Provision Changes Since Prior Valuation**Funding and ASC 960**

- IAM 933 (Missile Systems, Tucson) increased the monthly benefit to \$43 per month per year of service.
- Maximum compensation and maximum benefits were updated from 2014 to 2015.

Schedule SB, line 24 — Change in Actuarial Assumptions

- Mortality and interest rates were updated from 2014 to 2015 in accordance with PPA.
- Expense load on the normal cost increased from \$1,331,257 to \$2,500,000 to reflect our estimate of the current plan year's expenses.
- The form of payment for contributing participants retiring in the 2016 plan year was updated from 20% single life and 80% 5-year certain only to 10% single life and 90% 5-year certain only based on past experience and future payment elections by contributing participants.
- The PBGC interest basis for conversion to certain only form of payment was changed from 1.75% to 1.25% for 2015, from 2.75% to 2.00% for 2016. The assumption for 2017 and thereafter remained at 2.75%.
- Segmented interest rates of changed from 4.50% for 5 years, 5.00% for the next 15 years and 6.00% thereafter to 1.50% for 5 years, 3.50% for the next 15 years and 5.00% thereafter for 2015; 3.25% for 5 years, 4.50% for the next 15 years and 5.25% for 2016; 5.00% for 5 years, 5.25% for the next 15 years and 5.50% thereafter for 2017 and beyond. Also, 417(e) mortality was updated from 2014 to 2015.
