Software Guidance 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Software Guidance 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by John Hancock Life Insurance Company of New York, the trustee of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The Plan administrator has obtained a certification from the trustee as of December 31, 2016 and 2015, and for the year ended December 31, 2016, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule H, line 4i - assets (held at end of year) as of December 31, 2016, is required by the DOL's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of Software Guidance 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan and was established on January 1, 1995, by Software Guidance & Assistance, Inc. (the "Company" or "Plan Sponsor"). The Plan covers all employees who have six months of service and are not covered by a collective bargaining agreement. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Participant Contributions

Participants are permitted to make contributions of up to 50% of their annual base salary. Participants are also permitted to make Roth 401(k) contributions. The amount deferred in any calendar year may not exceed the limits specified under Internal Revenue Code ("IRC") Sections 401(k), 404 and 415.

Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions.

A participant may, with the consent of the Plan administrator, make a rollover contribution to the Plan at any time. Rollover contributions are assets transferred to the Plan from a qualified savings plan in which employees participated prior to their employment by the Company.

Employer Contributions

Employer profit sharing contributions are permitted to the Plan at the discretion of the Company. Profit sharing contributions will be allocated to all employees eligible to participate in the Plan. There were no employer profit sharing contributions made for the years ended December 31, 2016 and 2015.

Investment Options

The Plan's assets are held by John Hancock Life Insurance Company of New York ("John Hancock"). Contributions by or on behalf of participants have been invested at their election in the pooled separate accounts and stable value fund administered by John Hancock.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (if any) and (b) Plan earnings, and charged with transaction fees, if any and, an allocation of other administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. In addition, the Plan provides for participant withdrawals in the event of hardships, as defined in the Plan document.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at the prime rate at the inception of the loan plus 2%. The maximum term for loans is generally five years unless the loan is used for the purchase of participant's primary residence. Loans used to purchase a primary residence may be repaid within a period of no more than 30 years. Principal and interest are paid ratably through payroll deductions.

If a participant fails to make a payment when a loan is due under the terms of the loan, that participant will be in default. In the event of default, the loan shall become due and payable immediately, and interest will continue to accrue until the entire loan balance is repaid. The Plan will take all reasonable actions to collect the balance owed on the loan. Under certain circumstances, the loan in default could be considered a distribution from the Plan and could be considered income to the participant. In any event, failure to repay a loan will reduce the benefit to which a participant would otherwise be entitled to from the Plan.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. All participants entering the Plan will have a nonforfeitable right to 100% of the non-elective contributions.

Participant Distributions

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the participant's vested interest in his or her account or annual installments over a period of not more than their assumed life expectancy as determined at the time of distribution. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared using the accrual basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 10 for a discussion of fair value measurements.

The investment in pooled separate accounts are valued at the net asset value (the "NAV") per unit, as determined by John Hancock (the "Trustee") at year end. The NAV is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities, and then divided by the number of shares outstanding. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, such management fees and operating expenses are reflected in the net appreciation or depreciation in the fair value of such investments.

Investment Alternatives

Pooled Separate Accounts

The Plan has an investment contract with the Trustee. Under the terms of the contract, the Trustee maintains the contributions in a pooled separate account. Each participant establishes his or her own separate investment accounts within the pooled separate account. Investment accounts are sub-accounts within the pooled separate account, which primarily consists of mutual funds. The pooled account is entirely segregated from the general funds of the Trustee and is subject to the investment direction of the participants. Contributions into a participant's investment account purchase units of the sub-accounts. An investment in a fund will fluctuate in value to reflect the investment results of the fund's holding. The value of an account is determined by the value of the sub-account multiplied by the number of units in the account. Any income, gains or losses, whether realized or unrealized, will be credited to or charged against the account without regard to the other income, gains or losses of the Trustee. The sub-accounts are subject to an annual investment charge. The Plan allows inter-account transfers.

Stable Value Fund

Participants may also invest in a stable value fund account ("SVF"). Because the SVF is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the SVF. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The actual weighted-average crediting interest rate was 2.03% and 2.09% in December 31, 2016 and 2015, respectively. The average yields were approximately 2.11% and 2.02% for December 31, 2016 and 2015, respectively. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Alternatives (Continued)

Stable Value Fund (Continued)

The SVF earns a return expected to equal the gross crediting rate. The gross crediting rate is primarily based on the current yield-to-maturity of the covered investments, plus or minus amortization of the difference between the market value and contract value of the covered investments over the duration of the covered investments at the time of computation. The gross crediting rate is most impacted by the change in the annual effective yield to maturity of the underlying securities, but is also affected by the differential between the contract value and the market value of the covered investments. Depending on the change in duration from each reset period, the magnitude of the impact to the crediting rate of the contract to market difference is heightened or lessened. The gross crediting rate can be adjusted periodically and is usually adjusted either monthly or quarterly, but in no event is the gross crediting rate less than zero. The gross crediting rate may be impacted amongst other things, by volatility and illiquidity in the fixed-income securities market. If the market value of the underlying investments is lower than their contract value, the gross crediting rate may be lower than the return on the underlying investments.

With respect to the SVF, certain events limit the ability of the Plan to transact at contract value with the issuers. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). Categorization within the valuation hierarchy is based upon the lowest level of input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Under this standard, fair value is defined as the exit price, or the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants as of the measurement date.

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

> Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Fair Value Measurements (Continued)

Level 2 inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and, inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The administrative expenses of the Plan, other than transaction fees and other certain costs, are paid by the Plan Sponsor.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Company has evaluated subsequent events through August 16, 2017, the date on which these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

4. EXCESS CONTRIBUTIONS PAYABLE

Excess contributions payable represent payments due to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan. These amounts are included in the Plan's statement of changes in net assets available for benefits as "Benefits paid to participants".

5. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants are entitled to the entire amount of their employer contributions.

6. TAX STATUS

The Plan uses a prototype plan document sponsored by Paychex, Inc. Retirement Services ("Paychex"). Paychex received an opinion letter from the Internal Revenue Service (the "IRS") dated April 10, 2014, which states that the prototype document satisfied the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress for any tax periods. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2013.

7. RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain administrative functions are performed by officers or employees of the Plan Sponsor. No such officer or employee receives compensation from the Plan.

Certain assets of the Plan are held by a co-advisor of the trustee; as such, these transactions qualify as party-in-interest transactions.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 as of December 31, 2016 and 2015:

	2016	2015
Net assets available for benefits per the financial statements	$ 7,330,224	$ 6,157,245
Adjustment from contract value to fair value for fully benefit-responsive investment contract	-	-

The fair values of the investments have been estimated using the NAV of the investments:

(a) The retirement funds seek high total return through a target retirement date, with a greater focus on income beyond the date. Under normal market conditions, the portfolio will invest primarily in an array of underlying funds. This asset allocation strategy is designed for investors who expect to retire at a certain time and remain invested in the portfolio throughout their retirement years.

11. NET ASSET VALUE PER SHARE (CONTINUED)

(b) The lifestyle funds portfolio seeks long-term growth of capital. Current income is also a consideration. To pursue this goal, the portfolio, which is a fund of funds, normally invests approximately 80% of its assets in underlying funds that invest primarily in equity securities, and approximately 20% in underlying funds that invest primarily in fixed-income securities. The portfolio offers instant and broad diversification with exposure to a wide range of asset classes and investment styles.

(c) The growth funds portfolio seeks long-term growth of capital. Current income is a consideration. To pursue this goal, the portfolio, which is a fund of funds, normally invests its assets in underlying funds that invest primarily in the common stocks of large and medium-sized companies (U.S. and foreign). The portfolio offers instant and broad diversification with exposure to a wide range of asset classes and investment styles.

(d) The fixed-income funds portfolio seeks a high level of current income by primarily investing in foreign debt securities of developed and emerging markets, U.S. government and agency securities, and U.S. high yield bonds. The funds may also invest in preferred stock and other types of debt securities.

(e) The aggressive funds portfolio seeks long-term growth of capital. Current income is not a consideration. To pursue this goal, the portfolio, which is a fund of funds, normally invests approximately 100% of its assets in underlying funds that invest primarily in equity securities. The portfolio offers instant and broad diversification with exposure to a wide range of asset classes and investment styles.

(f) The balanced funds portfolio seeks current income, long-term growth of capital and income, and preservation of capital. To pursue these goals, the funds allocate their investments among a diversified mix of debt and equity securities. With regard to the funds' equity securities, the managers look for companies that appear to be undervalued compared to their historical valuations relative to the market. The funds' debt securities are used to enhance current income and provide some stability.
