## **NOTES TO FINANCIAL STATEMENTS**

**November 30, 2016 And 2015**

### **1. Description Of The Plan**

The following description of CIC Group, Inc. Employees Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for more complete description of the Plan's provisions.

#### **General**

The Plan is a defined benefit pension plan extended to all employees, which includes salaried employees (aged 18 or over and having 1,000 hours of service in a 12-month period) of CIC Group, Inc. (the Company) and its participating subsidiaries, St. Louis Metallizing Company, Wyatt Field Service Company, Nooter/Eriksen, Nooter Construction, Nooter Corporation, Superior Corporate Travel, Pressline Services, Megamet Solid Metals, Inc., RMF Nooter, Delta Nooter, CIC Group, and SPSI. As of September 1, 2003, Nooter Construction Company acquired the assets of RMF Nooter, Inc. and Delta Nooter, Inc. Employees of these entities were eligible to participate, effective October 1, 2003.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The pension benefits under the Plan were frozen effective November 30, 2007. There will be no future benefit accruals in the Plan and employees will not earn any additional benefits after November 30, 2007. There will be no pension plan benefits available to employees who have not met the participation requirements of the Plan on or before December 1, 2007.

Effective July 1, 2015, The Plan was amended to allow a permanent option of the lump-sum payment upon retirement. Participants are now able to elect a lump sum distribution as an optional form of pension that may be distributed following termination of employment. The amount of the lump sum payment shall be equal to the Actuarial Equivalent of the normal form of pension. Distribution of the participant's benefits will commence on the first day of the month coinciding with or next following the later of the date the Company receives properly completed distribution forms or the date 30 days after the date of the distribution notice, although the actual payment may be delayed for administrative purposes.

### Notes To Financial Statements *(Continued)*

#### **Administration**

The Company is designated as the administrator of the Plan. The Board of Directors appointed a Retirement Committee, consisting of three persons, to assist and advise in the administration of the Plan. The Retirement Committee has discretionary and final authority to determine eligibility for benefits, actual coverage, and payment of benefits and final authority to construe all terms of the Plan. The members of the Retirement Committee also serve as trustees for the Plan and are responsible for maintaining Plan assets in a trust fund. The assets of the Plan are held by BNY Mellon (BNY), which collects investment income and executes trust asset transactions as directed by the Retirement Committee. Substantially all administrative expenses are paid by the Plan. Certain expenses are paid by the Company.

#### **Pension Benefits**

Participants become fully vested after five years of vesting service or reach age 62, as defined by the Plan. A participant whose employment by the Company terminates prior to his or her normal retirement date and prior to the completion of five years of vesting service shall not be entitled to any benefits under the Plan. The Plan provides for normal retirement benefits upon reaching age 65 and has provisions for disability, early and postponed benefits for those participants who are eligible to receive such benefits. Normal retirement benefits are based upon average monthly basic salary and years of credited service as defined by Plan provisions and are in the form of an annuity or lump-sum payment. All pension benefits were frozen as of 2007.

#### **Vesting**

For an employee as of November 30, 1976, the period of continuous employment with an employer as of such date shall be counted as vesting service. However, any period of employment prior to the 18th birthday of the employee shall be excluded. Vesting service determined under this paragraph shall be computed as the number of completed years of continuous employment, provided, however, that if a remaining partial year exceeds 5 months, it shall be considered as a completed year.

For employees hired after November 30, 1976, each employee shall accrue one year of vesting service for each Plan year after the Plan year ending November 29, 1976 in which he has 1,000 or more hours of service regardless of his employment classification. However, hours of service accrued for employment prior to the 18th birthday of the employee shall be disregarded.

#### **Administrative Expenses**

Significant professional and administrative fees were paid by the Plan during 2016.

## **2. Summary Of Significant Accounting Policies**

### **Basis Of Accounting**

The financial statements of the Plan are prepared on the accrual method of accounting.

### **Estimates And Assumptions**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; disclosure of contingent assets and liabilities; and the actuarial present value of accumulated plan benefits at the date of the financial statements, and changes therein. Actual results could differ from those estimates.

### **Valuation Of Investments And Income Recognition**

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion regarding fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### **Payment Of Benefits**

Benefit payments to participants are recorded upon distribution. During the current year, the Plan paid \$3,256,387 of pensions and also \$514,592 to seventeen participants in lump sum payments. In the prior year, the Plan paid \$3,190,241 of pensions and also \$466,346 to four participants in lump sum payments.

#### **Actuarial Present Value Of Accumulated Plan Benefits**

Accumulated benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on employees' compensation during their last five years of credited service. The accumulated benefits for active employees are based on their average compensation during the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances- retirement, death, disability, and termination of employment- are included, to the extent they are deemed attributable to employee service rendered to the valuation date.

The more significant assumptions underlying the actuarial computations as of December 1, 2015 are as follows:

#### **Recent Accounting Pronouncements**

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820) - Disclosures For Investments in Certain Entities That Calculate Net Asset Value Per Share (or Its Equivalent)*. ASU 2015-07 removes the requirement to include within the fair value hierarchy leveling table those investments that measure fair value using the practical expedient available for investments that calculate a net asset value (NAV) per share. Instead, an entity would be required to include those investments as a reconciling item so that the total fair value amount of investments in the disclosure is consistent with the fair value investment balance on the statement of net assets available for benefits. Even though these investments are removed from the fair value hierarchy, plans should provide or disclose the total amount of investments measured using the NAV per share (or its equivalent) practical expedient in order to permit reconciliation of the fair value of investments included in the fair value hierarchy to the line items presented in the statement of net assets available for benefits. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. ASU 2015-07 is to be applied retrospectively. Management has adopted ASU 2015-07.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Parts I and III are not applicable to the Plan. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of Plan asset. Additionally, Part II permits plans to eliminate the disclosure of significant investment strategies for any investment measured using the net asset value per share (or its equivalent) practical expedient, provided that the investment fund files an annual report on Form 5500 as a direct filing entity. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management has early adopted Part II.

There were no impacts on the statement of net assets available for benefits or the statement of changes in net assets available for benefits as of or for the years ended November 30, 2016 or 2015.

#### **Subsequent Events**

Management evaluates subsequent events through the date the financial statements are available for issue, which is the date of the Independent Auditors' Report.

### **3. Funding Policy**

The Plan is a defined benefit plan to which the Company contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the benefits to be paid to Plan participants. No contributions are allowed by employees.

Contributions by the Company are designed to fund the Plan's current service costs on a current basis. The yield on investments serves to reduce further contributions that would otherwise be required to provide for the defined level of benefits under the Plan.

Contributions to provide benefits under the Plan are made by the Company and its subsidiaries. The Company's funding policy is to make an annual contribution to the Plan based on actuarial valuations and recommendations as to the amounts required to fund benefits under the Plan. The Company has met the ERISA minimum funding requirements in 2016 and 2015.

### **4. Certified Financial Information**

Financial information related to the assets and earnings from investments as of November 30, 2016 and for the period April 1, 2016 to November 31, 2016 are included in the accompanying financial statements and are based on information provided by BNY. This information for 2016, which has not been audited by the Plan's independent auditors, has been certified as complete and accurate by BNY.

**5. Fair Value Measurements**

The Plan utilizes an established framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1      Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2      Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3      Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

### Notes To Financial Statements (*Continued*)

The following is a description of the valuation methodologies used for assets measured at fair value:

#### **Equity Funds And Bond Funds**

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

#### **Collective Trust Funds, 103-12 Investment Entity, and Cash Equivalent**

Valued at the NAV, as provided by the Trustee. NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

As of November 30, 2016, investments in collective trust funds, 103-12 investment entity and cash equivalent are measured at fair value using the net asset value per share (or its equivalent) practical expedient, and therefore, have not been classified in the fair value hierarchy.

#### Fair Value Of Investments In Entities That Use NAV

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30, 2016:

| Investment Type        | Fair Value           | Unfunded Commitments | Redemption Frequency                   | Redemption Notice Period |
|------------------------|----------------------|----------------------|----------------------------------------|--------------------------|
| Collective trust funds | \$ 53,703,787        | None                 | Daily                                  | None                     |
| Hedge fund (1)         | 6,396,099            | None                 | Quarter, after one-year lock-up period | 65 days                  |
| Cash equivalent (2)    | 578,877              | None                 | Daily                                  | None                     |
|                        | <u>\$ 60,678,763</u> |                      |                                        |                          |

(1) The investment objective is to generate consistent long-term capital appreciation with diversification of risk through the use of a "multi-manager, multi-strategy" global investment approach.

(2) The investment objective is to seek as high a level of current income as is consistent with the preservation of capital and the maintenance of liquidity.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of November 30, 2015:

#### November 30, 2015

|                            | Level 1              | Level 2     | Level 3     | Total                |

| Equity funds               | \$ 41,082,330        | \$ —        | \$ —        | \$ 41,082,330        |
| Bond funds                 | 20,241,666           | —           | —           | 20,241,666           |
| Total assets at fair value | <u>\$ 61,323,996</u> | <u>\$ —</u> | <u>\$ —</u> | <u>\$ 61,323,996</u> |

**6. Plan Termination**

Although the Company has not expressed any intent to do so, it has the right to terminate the Plan. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits, to the extent described in the Plan after provision for the expenses of liquidation, in the order indicated:

- Pensions that became payable or could have become payable under provisions of the Plan three or more years before the effective date of plan termination.
- Pensions for those participants who were not covered under the above whose employment either terminated prior to the effective date of the plan termination or, had their employment terminated prior to this date, who would have been eligible for any immediate or deferred pension benefits as provided under the Plan.
- Other vested benefits not provided for above.
- Other benefits not provided for above.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward. Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

#### 7. Present Value Of Accumulated Benefits

The present value of accumulated benefits has been determined by an actuary from Aon Hewitt, and is that amount which results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The present value of accumulated benefits as of December 1, 2015 and 2014 is as follows:

|                                                                   | December 1,          |                      |

## **8. Risks And Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

## **9. Income Tax Status**

The Plan received its latest determination letter dated July 16, 2012 in which the Internal Revenue Service (IRS) stated that the Plan and related trust, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the Code). The Plan has been amended since receiving the determination letter. However, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Code. Therefore, the Plan Administrator believes that the Plan was qualified and the related trust was tax-exempt and that the termination of the Plan does not adversely affect its qualification for federal tax purposes.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan's federal tax returns for tax years 2013 and later remain subject to examination by taxing authorities.

## **10. Party In Interest Transactions**

Plan investments consist of collective trust funds and a 103-12 investment entity managed by Aon Hewitt Investment Consulting, Inc. These transactions qualify as party in interest transactions allowable under ERISA.

| Surviving Spouse Benefit                      | It is assumed that 80% of males and 80% of females have an eligible spouse, and that males are two years older than their spouses.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Benefit Limits                                | Projected benefits are limited by the current IRC section 415 maximum benefit of \$210,000.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Valuation of Plan Assets                      | <p>Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p> |

The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.</p> <p>A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).</p> |
