The Thomas & Betts Pension Plan:

Report on the financial statements

We were engaged to audit the accompanying financial statements of **The Thomas & Betts Pension Plan** (the "Plan"), which comprise the statements of net assets available for benefits as of November 30, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years ended November 30, 2016 and 2015, and the related notes to the financial statements.

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for disclaimer of opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified information described in Note 3, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the certifying entity meets the requirements of 29 CFR 2520.103-8. The Plan administrator obtained certifications from this entity as of November 30, 2016 and 2015, and for the years ended November 30, 2016 and 2015, stating that the certified information provided to the Plan administrator is complete and accurate.

Disclaimer of opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on form and content in compliance with DOL rules and regulations

The form and content of the information included in the financial statements other than that derived from the certified information described in Note 3, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1 Plan Description and Benefits

The following summary discussion of The Thomas & Betts Pension Plan (Plan) is provided for informational purposes only. Participants should refer to the Plan document for information regarding eligibility, vesting and the determination of Plan benefits.

The Plan is a defined benefit pension plan sponsored by Thomas & Betts Corporation (the Corporation and Plan Sponsor). Participants in this Plan include substantially all U.S. employees of the Corporation hired before January 2008 and not covered by a collective bargaining agreement. The Board of Directors of the Corporation has delegated responsibility for the administration of the Plan to the ABB Pension and Benefit Committee. It is the responsibility of the Plan administrator to maintain records of Plan participants, authorize benefit payments and determine employee eligibility and benefit amounts.

The Corporation was acquired by ABB, Ltd. on May 16, 2012. Effective February 3, 2014, the Plan's investment assets were transferred to the ABB Master Trust (Master Trust) with Bank of New York Mellon (BNY Mellon) as trustee.

The Plan is divided into seven parts (Parts A through G). Part A of the Plan covers active employees hired before 2008. Part B (Elastimold division hourly), Part C (Amerace Corporation), Part D (Augat Inc.) and Parts E, F and G (LMS) represent merged plans. There are no active participants in Parts B, C, D, F and G. Part E was closed to new entrants effective January 1, 2003.

The Plan was amended effective December 31, 2010 to preclude the future accrual of benefits for any participant in the Plan after December 31, 2010.

2 Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in conformity with United States generally accepted accounting principles (US GAAP). The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Use of Estimates in Preparation of Financial Statements

The preparation of financial statements in conformity with US GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

The Master Trust invests in various types of investment securities and in various companies and/or funds within various markets. The Plan's interest in the Master Trust is exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments in the Master Trust, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The actuarial present value of accumulated plan benefits is reported based on certain assumptions including interest rates and employee demographics, which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Recent Accounting Pronouncements

In May 2015, the FASB issued ASU 2015-07, *“Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent),”* which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, *“Fair Value Measurement,”* from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted and management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in the removal of the investments for which fair value is measured using the NAV per share practical expedient from the fair value hierarchy. The amount of investments measured at NAV (or its equivalent) is disclosed so that total investments in the fair value hierarchy can be reconciled to total investments measured at fair value.

In July 2015, the FASB issued ASU 2015-12, *“Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient.”* This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Part I and Part II are effective for fiscal years beginning after December 15, 2015, and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015, and should be applied prospectively, with early application permitted.

Management adopted Part II in these financial statements and determined Parts I and III are not applicable to the Plan. Accordingly, the amendments were retrospectively applied, resulting in the elimination of disclosures of individual investments that represent 5% or more of net assets available for benefits, and the net appreciation or depreciation in fair value of investments by investment type, and the level of disaggregation of investments that are measured at fair value has been simplified by disaggregating investments by general type versus disaggregating by nature, characteristics and risks.

Master Trust

Investment managers have been granted discretionary authority concerning all purchases and sales of investments in the Master Trust within the investment guidelines established by the ABB Investments Committee. The Plan's interest in the Master Trust and the interest in the net investment income or loss of the Master Trust has been reported to the Plan administrator by BNY Mellon. Fair values of investments are allocated to the participating plans based upon each plan's proportionate interest in the Master Trust.

The Plan's interest in the Master Trust is stated at fair value as described in Note 4. Purchases and sales of securities by the Master Trust are recorded on a trade date basis. Dividend income is recorded on the ex-dividend date.

Investment income is recorded when earned. Net appreciation (depreciation) includes the Master Trust's gains and losses on investments bought, sold, and held during the year.

Funding Policy

The Corporation generally contributes such amounts as are necessary on an actuarial basis to provide the Plan with assets sufficient to meet the minimum funding requirements of ERISA.

It is the Company's intention to only make contributions that are tax deductible. For each of the years ended November 30, 2016 and 2015, the Plan has satisfied the minimum funding requirements of ERISA.

Payment of Pension Benefits

Benefit payments to participants are recorded upon distribution.

Securities Lending

As of and for the years ended November 30, 2016 and 2015, the Master Trust participated in the BNY Mellon's securities lending program for securities held in custody at the trustee. These securities are lent to certain unrelated third-party brokers in exchange for collateral, usually in the form of cash. Collateralization levels are equal to a percentage of the market value of the borrowed securities. For U.S. securities, collateral shall not be less than 102% of the fair value of the loaned securities, and for non-U.S. securities, collateral shall not be less than 105% of the fair value of the loaned securities unless it is denominated in the same currency as the collateral, in which case it will be 102% of the fair value. Collateral received is invested in a short-term collateral reinvestment fund consisting of high quality short-term investments managed by BNY Mellon. The value of loaned securities in the Master Trust amounted to \$10,950 and \$45,609 at November 30, 2016 and 2015, respectively. The obligation to return collateral is included net in the balance for each respective investment type with loaned securities with the majority being included in corporate bonds.

Derivatives

The Plan (through the Master Trust) may enter into foreign currency forward exchange contracts primarily to hedge against foreign currency exchange rate risks on its non-U.S dollar denominated investment securities. When entering into a forward currency contract, the Plan agrees to receive or deliver a fixed quantity of foreign currency for an agreed-upon price on an agreed future date. The Plan's net equity therein, representing unrealized gain or loss on the contracts, as measured by the difference between the forward foreign exchanges rates at the dates of entry in the contracts and the forward rates at the reporting date is included in the Master Trust's net assets. Realized and unrealized gains and losses are included in the Master Trust's net investment gain (loss). These instruments involve market risk, credit risk or both kinds of risks in excess of the amount recognized in the statement of net assets. Risks arise from the possible inability of counterparties to meet the terms of their contracts and movement in currency and securities values and interest rates. The values of such derivative contracts are included net in the balance for each respective investment type with derivative contracts with the majority being included in the state and foreign bonds.

At November 30, 2016 and 2015, the Master Trust had the following foreign currency forward exchange contracts:

The fair value of the foreign currency forward exchange contracts, none of which are accounted for as hedge instruments under FASB ASC 815, “*Derivatives and Hedging*,” are included in the Master Trust’s net assets under unrealized gain on foreign currency contract.

The Master Trust may be required to post collateral on derivatives if the Master Trust is in a net liability position with the counterparty exceeding certain amounts. Additionally, counterparties may immediately terminate derivatives contracts if the Master Trust fails to maintain sufficient asset coverage for its contracts or its net assets decline by stated percentages.

Master Netting Agreements

The Master Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at pre-arranged exposure levels. Since different types of transactions have different mechanics and are sometimes traded out of different legal entities of a particular counterparty organization, each type of transaction may be covered by a different master netting arrangement, possibly resulting in the need for multiple agreements with a single counterparty. Master netting agreements are specific to each different asset type; therefore, they allow the company to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions governed under a single agreement with the counterparty.

The following is a summary by counterparty of the Master Trust’s net exposure to derivative assets and liabilities, by financial instrument type, available for offset and net of collateral under a netting agreement at November 30, 2016 and 2015.

3 Financial Information Certified by Trustee

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator has obtained certifications from BNY Mellon that all information relating to the Plan's and Master Trust's investments and related investment income (loss) as of and for the years ended November 30, 2016 and 2015 are complete and accurate. Information as to the Plan's interest in the Master Trust and the Plan's interest in the net investment income or loss of the Master Trust was also certified.

4 Interest in the Master Trust

The Plan's investment assets are held in the ABB Master Trust, established for the investment of the assets of the Plan and other retirement plans sponsored by ABB, Ltd. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among the participating plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among all plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust.

At November 30, 2016, the Plan had a 23.4% interest in the net assets of the Master Trust and at November 30, 2015, the Plan had a 23.4% interest in the Master Trust.

The following information presents the net assets of the Master Trust as of November 30, 2016 and 2015:

5 Fair Value Measurements

Investments held by the Master Trust are stated at fair value. Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *"Fair Value Measurements and Disclosures,"* requires enhanced disclosures about investments that are measured and reported at fair value. ASC 820 clarifies the definition of fair value for financial reporting, establishes a framework for measuring fair value and requires additional disclosures about the use of fair value measurements.

The hierarchy established under ASC 820 gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). As required by ASC 820, the Master Trust investments are classified within the fair value hierarchy based on the lowest level of input that is significant to the fair value measurement. The three levels of the fair value hierarchy under ASC 820, and its applicability to the Master Trust investments, are described below:

Level 1: Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

Level 2: Quoted prices for similar assets or liabilities, or inputs that are observable, either directly or indirectly, for substantially the full term through corroboration with observable market data. Level 2 includes investments valued at quoted prices adjusted for legal and contractual restrictions specific to the security.

Level 3: Pricing inputs are unobservable for the asset or liability, that is, inputs that reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Level 3 includes private investments that are supported by little or no market activity.

The determination of where an asset falls in the hierarchy requires significant judgment. The Plan evaluates its hierarchy disclosures each year and changes in economic conditions or valuation techniques may require the transfer of financial instruments from one fair value level to another. However, the Plan expects changes in classifications between levels will be rare. In such instances, the transfer is reported at the beginning of the reporting period.

The methods used to measure the fair value calculation may not be indicative of net realizable value or reflective of future fair values. Furthermore, while management believes the valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets and liabilities measured at fair value. There have been no changes in the methodologies used at November 30, 2016 and 2015:

- Corporate bonds and state and foreign bonds are valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable section of issuers with similar credit ratings.
- U.S. government securities valued at Level 1 are valued at the closing price reported on the active markets on which the individual securities are traded and securities valued at Level 2 are valued using pricing models maximizing the use of observable inputs for similar securities.
- Corporate stocks are valued at the closing price reported on the active market on which the individual securities are traded.
- Registered investment companies are valued at the net asset value, based on quoted market prices in active markets, of shares held by the Plan at year-end.
- Collective trusts are valued at net asset value as determined by the Trustee. Partnership/joint venture interests and 103-12 investment entities are valued at net asset value as reported by the respective fund managers based upon the fair value of the underlying investments less liabilities.

- Short investments primarily consists of interest rate swaps which are valued using the income approach which takes into account contract terms as well as multiple inputs which may be observed in the marketplace.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's financial instruments at fair value as of November 30, 2016:

In accordance with ASC 820, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

There were no significant transfers among investment levels during the years ended November 30, 2016 and 2015, except for the removal of certain investments that were measured at NAV from the fair value hierarchy in accordance with ASU 2015-07.

The following table summarizes investments measured at fair value based on the NAV per share practical expedient as of November 30, 2016:

	Fair Value (in thousands)	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

- a) The partnership/joint venture interests investments are invested within alternative investments such as private equity and fund of funds. The investment objective of these investments is to achieve longer term growth of capital, which does so with limited liquidity. Within the limited partnerships, there is also a limited partnership that has an investment objective of seeking to outperform the S&P 500. This fund does require monthly notice to provide liquidity.
- b) The collective trust investments include an international equity fund and emerging market fixed income bond fund. The investment objective of the international equity fund is to seek capital appreciation through investments in a portfolio of securities issued by companies predominantly in companies contained in The MSCI EAFE Index. The investment objective of the emerging market fixed income fund is to seek long-term total return through investment in a diversified portfolio of emerging markets debt securities and currency instruments.
- c) The 103-12 investment entities are invested in alternative investments with specific requirements under ERISA. The investment objective of these investments is to achieve longer term growth of capital, which does so with limited liquidity.

6 Actuarial Present Value of Accumulated Plan Benefits

Accumulated Plan benefits are those periodic payments, including lump sum distributions, that are expected to be made in the future pursuant to the Plan's provisions for the years of service employees have rendered through the valuation date.

Willis Towers Watson & Company performs consulting and actuarial functions for the Plan. The actuarial present value of the accumulated Plan benefits as determined by Willis Towers Watson & Company is that amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations for the Plan year beginning December 1, 2015 were: (a) mortality rates based on the Combined Collar RP-2006 Mortality Tables with Scale MP-2016 generational projection; (b) moderate rate of employee withdrawal; (c) assumed rate of return on investments of 5.7% and (d) a weighted average assumed retirement age at 60. Assumption changes totaling \$2,683, were primarily the result of the change in the discount rate from 6.0% to 5.70% and the change in the mortality table used to determine the present value of accumulated benefits as of November 30, 2015.

The foregoing actuarial assumptions were based on the presumption that the Plan will continue. If the Plan is terminated, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated Plan benefits.

The actuarial present values of accumulated Plan benefits as of the beginning of the Plan year, which is the Plan's measurement date, are presented below.

7 Plan Termination

Although the Corporation has not expressed any intent to terminate the Plan, it may do so at any time, subject to the provisions set forth in ERISA. Upon termination of the Plan, each affected participant's accrued benefit as of the date of termination becomes fully vested to the extent funded. Under provisions of ERISA, if the Plan is terminated, the Corporation may be obligated to make termination payments to the Plan, and participants may be eligible for continuation of benefits under insurance provided by the Pension Benefit Guaranty Corporation (PBGC).

Refer to the Plan document for a detailed description of the order of allocation of Plan net assets among participants and beneficiaries of the Plan in the event of the termination of the Plan.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions. However, the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees that is adjusted periodically. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or Plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

8 Federal Income Taxes

The IRS has determined and informed the Corporation by a letter dated February 25, 2014, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and therefore, believes that the Plan is qualified and the related trust is tax-exempt. The Commonwealth of Puerto Rico has issued a determination letter dated February 24, 2014 stating that the Plan is a qualified plan in accordance with applicable sections of the Puerto Rico Internal Revenue Code.

Accounting principles general accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. As of November 30, 2016 and 2015, there were no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9 Party-in-Interest Transactions

Certain of the Plan's assets are invested in funds managed by BNY Mellon. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

10 Subsequent Events

Plan management evaluated subsequent events through September 14, 2017, which is the date the Plan financial statements were available to be issued, and has concluded that, there were no subsequent events requiring recognition or disclosure in these financial statements.

11 Plan Corrections

The Plan determined certain benefit payments were incorrectly paid out of the Plan during 2015 instead of the Thomas & Betts Corporation Pension Plan for Bargaining Unit Employees, a participating plan in the Master Trust. As a result of this correction, the Plan recorded a receivable of \$586 from Thomas & Betts Corporation Pension Plan for Bargaining Unit Employees as of November 30, 2015. The amount was received by the Plan in fiscal year 2016.

Assumptions Rationale - Significant Economic Assumptions

Discount Rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.

Assumptions Rationale - Significant Demographic Assumptions

Mortality (Healthy & Disabled)	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	This assumption was selected based on plan sponsor expectations of future experience. In addition, this assumption has not been a significant source of actuarial gain/loss in recent years.
Disability	This assumption was selected based on plan sponsor expectations of future experience. In addition, this assumption has not been a significant source of actuarial gain/loss in recent years.
Retirement	This assumption was selected based on plan sponsor expectations of future experience. In addition, this assumption has not been a significant source of actuarial gain/loss in recent years.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in Appendix A, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.

Statement by Enrolled Actuary
 To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan

Thomas & Betts Pension Plan

Structures

The following represent the various distinct points of the Plan.

- Part A contains the main provisions for the Thomas & Betts Pension Plan and the provisions are detailed below in the Part A section.
- Part B contains the provisions for hourly participants of the Elastimold Division prior to February 1, 2005. The benefits for these participants for service on or after February 1, 2005 are based on Part A. The accrued benefits prior to February 1, 2005 are being valued using the participants' previously determined accrued benefits (or actual benefits being paid). The early retirement provisions for these previously accrued benefits are described below.
- Part C contains the provisions of the pension plan formerly known as the Amerace Corporation Merged Pension Plan prior to March 1, 1996. The benefits for these participants for service on or after March 1, 1996 are based on Part A of the plan and are described below. The accrued benefits prior to March 1, 1996 are being valued using the participants' previously determined accrued benefits (or actual benefits being paid).
- Part D contains the provisions of the pension plan formerly known as the Augat Inc. Retirement Plan prior to December 1, 1997. The benefits for these participants for service on or after December 1, 1997 are based on Part A. The accrued benefits prior to December 1, 1997 are being valued using the participants' previously determined accrued benefits (or actual benefits being paid). The early retirement provisions for these previously accrued benefits are described in the Previously Accrued Benefit section.
- Part E contains provisions of the former Lamson & Sessions Co. Salaried Employees' Retirement Plan, which was merged into the plan December 1, 2008. The provisions for this plan are described in the Previously Accrued Benefit section.

B. BENEFIT PROVISIONS

1. **Retirement Benefit Formula:** Monthly benefit, frozen on December 31, 2010, equal to the greater of:
 - a. \$10 per year of Credited Service; and
 - b. 1.50% of Average Monthly Compensation multiplied by years of Credited Service (up to a maximum of 35 years) less 50% of the primary Social Security benefit (proportionately reduced for less than 35 years of Credited Service).

No future accruals occur after December 31, 2010.

Participants with a FL Industries frozen benefit receive such benefit in addition to the amount described above for service under the Part A formula.

2. **Credited Service:** One year of Credited Service is earned for each calendar year in which the participant completes 1,000 or more hours of service. Partial years of Credited Service are granted when the participant works less than 1,000 hours in the year of termination only. No credited service will be earned after December 31, 2010.
3. **Vesting Service:** One year of service is credited for each calendar year during which the participant works at least 1,000 hours.
4. **Compensation (Prior to December 31, 2010):** Base pay plus Section 401(k) and Section 125 contributions plus 60% of the following items:
 - Sales commissions;
 - Executive Profit Sharing bonuses; and
 - Management Incentive Plan bonuses.

Deferrals under the Supplemental Executive Investment Plan are excluded.

5. **Average Monthly Compensation:** An average of the highest consecutive 60 months of compensation during the last 120 months. If the employee has less than 60 consecutive months of compensation, the average will be computed over the number of consecutive months. Average Monthly Compensation has been frozen on December 31, 2010

6. Payment of Benefits:

- a. **Early Retirement:** Monthly benefit equal to the monthly accrued benefit calculated above, reduced by 0.3% for each month by which commencement of benefits precedes normal retirement date.

FL Industries participants have frozen accrued benefits as of December 31, 1990 reduced by 0.4167% for each month by which commencement of benefits precedes normal retirement date.

- b. **Disability Retirement:** The monthly accrued Normal Retirement or Early Retirement benefit assuming the employee continued in active service at the same rate of compensation as of the date of disability. No additional service will accrue after December 31, 2010.

- c. **Vested Termination:** The monthly accrued benefit as of the date of termination with payments beginning at age 65.

For participants who terminated prior to retirement eligibility, the benefit accrued after November 30, 1997 is actuarially reduced for Early Retirement using 7% interest and the UP84 mortality table. The benefit accrued prior to December 1, 1997 is reduced 0.3% per month by which commencement of benefit precedes normal retirement date.

- d. **Death:** The eligible spouse will be entitled to a monthly lifetime pension equal to 100% of the pension the participant would have received had he retired the day prior to his death and elected a joint and survivor annuity with 100% continuation to his or her spouse. If the participant was not at early retirement age at the time of his death, the pre-retirement survivor annuity will be deferred until the date on which he would have qualified for early retirement had he lived.

7. **Normal Form of Benefit:** The benefit formula is based on a 10 year certain and life annuity form of payment. The normal form of payment for married participants is an actuarially reduced 100% joint & survivor annuity with a 10 year period certain.

5. Payment of Benefits:

- a. **Early Retirement:** The pension is equal to either:
 - i. a deferred pension payable at age 65 equal to the accrued normal retirement pension (using Credited Service and average monthly compensation at time of early retirement and assuming the employee continued to receive compensation until age 65 at the same rate as on his retirement date to calculate his PIA) or
 - ii. for employees with less than 30 years of service an immediate pension equal to (i) but further reduced by 3% per year for the first 5 years and 7% per year in excess of 5 years, that early retirement precedes normal retirement or
 - iii. for employees with 30 or more years of service an immediate pension equal to (i) but further reduced by 8% for the first year and 7% per year for each additional year that early retirement precedes age 62.
- b. **Disability Retirement:** The normal retirement pension payable at age 65, or if the employee has 10 years of vesting service, he may elect an early retirement pension at or after age 55. The pension is based on credited service earned before and during disability and average monthly compensation at time of disability. No future accruals occur after December 31, 2010.
- c. **Vested Termination:** The accrued normal retirement pension payable at age 65 or, alternatively for an employee who has completed 10 years of Vesting Service, an actuarially reduced pension payable as early as age 55.
- d. **Death:** The surviving spouse will receive the benefit which would have been paid if the employee had terminated on the day of his death if not yet terminated, survived to his earliest possible retirement age, retired, elected a 50% Joint and Survivor option and then died.

6. **Normal Form of Benefit:** Straight Life Annuity. For married participants eligible for Normal, Early, or Disability retirement, the normal form is a subsidized 100% Joint & Survivor Annuity.

7. **Optional Forms of Retirement Income in Lieu of Normal Form:** An employee may elect to receive his benefit on an actuarially equivalent Joint and Survivor basis. A lump sum is available for six months following termination of employment.

8. **Changes Since the Prior Valuation:** None.
