Notes to Financial Statements

Note 1. Plan Description

The following description of Acurian, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all U.S. employees of Acurian, Inc. (the Sponsor), a wholly owned subsidiary of Pharmaceutical Product Development, LLC. The Benefits Administrative Committee is responsible for oversight of the Plan. The Benefits Administrative Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Sponsor's Board of Directors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On August 26, 2013, Acurian, Inc. was acquired by Pharmaceutical Product Development, LLC. The Acurian, Inc. 401(k) Plan was frozen effective December 31, 2014 and the Pharmaceutical Product Development, LLC Retirement Savings Plan was subsequently extended to eligible employees covered by the Acurian, Inc. 401(k) Plan on January 1, 2015. The Board of Directors of the Pharmaceutical Product Development, LLC Retirement Savings Plan voted to merge in the Acurian, Inc. 401(k) Plan on November 7, 2016 and the assets were merged effective December 30, 2016.

Contributions: Effective December 31, 2014, the Plan was frozen and participant's contributions to the Plan ceased.

Investment options: Participants may change their investment options daily among the investments made available and determined by the Plan Administrator.

Participant accounts: Each participant's account is credited with Plan earnings and losses and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their previous contributions plus actual earnings thereon.

Payment of benefits: The Plan permits withdrawals when a participant terminates employment, retires or becomes disabled or deceased. In-service withdrawals are also permitted for certain financial hardships or when a participant attains age 65. Benefits are payable in lump-sum payments with certain exceptions allowed.

Notes receivable from participants: Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of 50% of their vested account balance or \$50,000. Loan terms range up to five years or over a reasonable period of time for the purchase of a primary residence, as established by the Plan Administrator at the time of the loan. The loans are collateralized by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. Principal and interest are paid ratably through semi-monthly payroll deductions.

Acurian, Inc. 401(k) Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Benefits Administrative Committee determines the Plan's valuation policies utilizing information provided by the investment advisor. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near-term and such changes could materially affect participant account balances and the amounts reported in the statements of net assets available for benefits.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. Delinquent participant loans are recorded as distributions based on the terms of the Plan agreement.

Payment of benefits: Benefits are recorded when paid.

Expenses: Certain expenses of maintaining the Plan are paid directly by the Sponsor and are excluded from these financial statements. Administrative expenses include fees related to the administration of notes receivable that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Subsequent events: The Plan has evaluated subsequent events (events occurring after December 30, 2016) through August 9, 2017, the date the financial statements were available to be issued.

Acurian, Inc. 401(k) Plan

Notes to Financial Statements

Note 3. Information Certified or Provided by Reliance Trust Company (Trustee)

The following is a summary of the Plan's asset information as of December 30, 2016 and December 31, 2015, and for the year ended December 30, 2016, included throughout the Plan's financial statements that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements related to the following assets:

	December 30, 2016	December 31, 2015
Cash, non-interest-bearing	\$ -	\$ 31,615
Investments at fair value:		
Registered investment companies	\$ -	\$ 2,565,212
Notes receivable from participants	\$ -	\$ 86,479

Reliance Trust Company also certified to the completeness and accuracy of \$85,698 of net appreciation in fair value of investments and \$101,727 of interest and dividends related to the aforementioned plan assets for the year ended December 30, 2016.

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Acurian, Inc. 401(k) Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the best level of input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 30, 2016 and December 31, 2015.

Registered investment companies (mutual funds): Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015. No table is presented as of December 30, 2016 as all investments were transferred to the Pharmaceutical Product Development, LLC Retirement Savings Plan.

Description	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 2,565,212	\$ -	\$ -	\$ 2,565,212

Note 5. Related Party Transactions and Parties-in-Interest Transactions

Reliance Trust Company is the trustee of the Plan; therefore, transactions with the trustee qualify as parties-in-interest transactions. Fees paid by the Plan to the trustee totaled \$688 for the year ended December 30, 2016. The Sponsor also paid certain administrative expenses of the Plan.

Note 6. Tax Status

Effective January 1, 2010, the Plan adopted a non-standardized form of a prototype plan sponsored by Siegel Benefit Consultants, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any significant uncertain tax positions that more-likely-than-not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
