1. DESCRIPTION OF PLAN:

The following description of the Cincinnati Sub-Zero Products, LLC Profit Sharing 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established September 1, 1998, and amended and restated as of January 1, 2009, covering eligible employees of Cincinnati Sub-Zero Products, LLC (the "Company" or "Employer"). Effective April 1, 2016, the Company was purchased by Gentherm, Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and the Internal Revenue Code of 1986 (the "Code"), as amended.

To be eligible to participate in the Plan, an individual must be an employee of the Company who has attained at least age 18 and has completed at least three months of service for the 401(k) features of the Plan, or one year of service for the profit sharing features of the Plan.

Contributions

Participants may elect to contribute to the Plan, on a pre-tax basis, 401(k) contributions and catch-up contributions (up to limits set by the Plan and the Code). Participants are automatically enrolled in the Plan at a 3% deferral rate unless they opt-out. Participants are also permitted to deposit into the Plan rollover distributions from other qualified plans. The Company may, in its discretion, match participants' 401(k) contributions, up to the limit determined by the Company. The Company matching contribution was \$252,151 for the year ended December 31, 2016. The Company may also make discretionary contributions to the Plan. The Company profit sharing contribution was \$7,677 for the year ended December 31, 2016.

Participant accounts

Each participant's account is credited with the contributions made to the Plan on behalf of the participant and adjusted for earnings and losses thereon. Allocations of Plan earnings are based on the investment options selected by the participant and their related account balance. The benefit to which a participant is entitled is the vested amount that is in such participant's account at any given time.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based on years of continuous service. A participant is 100% vested after 6 years of credited service.

Notes receivable from participants

Participant loans are not permitted under the provisions of the Plan.

Payment of benefits

Distributions may generally be made to a participant upon the participant's retirement (including early retirement), death, disability, or termination of employment with the Company, or upon incurring a financial hardship. Benefits shall be paid to participants in an amount equal to the value of the participant's vested interest in his or her account. If the participant's vested interest is greater than \$5,000, he or she may elect a single lump sum payment or partial withdrawals. If the vested interest is less than \$5,000, benefits will be paid in a single lump sum payment.

Forfeitures

Forfeited matching contributions may be used to reduce future matching contributions, or to pay the Plan's administrative expenses. Forfeitures available to offset future matching contributions or to pay Plan administrative expenses were \$17,690 and \$22,514 at December 31, 2016 and 2015, respectively. During the year ended December 31, 2016, \$8,475 was used to pay Plan administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amount of net assets available for benefits as of the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurement.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Operating expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments. Fees related to the payment of benefits are charged directly to the participant's account and are included in administrative expenses.

Accounting changes

The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. The Plan elected to early adopt Part II in 2015 and adopt Part I in 2016. These changes had no impact on net assets available for benefits. Part III is not applicable to the Plan.

Additionally, the FASB issued ASU 2015-07, "Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or Its Equivalent)." ASU 2015-07 simplifies disclosures and reporting on investments valued at net asset value as a practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with earlier adoption permitted. The Plan has elected to early adopt ASU 2015-07, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassification

Certain amounts in the 2015 financial statements have been reclassified to conform to the 2016 presentation.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- | | |
|---------|---|
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |
|---------|---|

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These mutual funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust: Valued at the NAV of units of the collective trust. The NAV, as provided by the trustee of the fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. There are no restrictions on redemptions from these funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement:

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2016 and 2015, respectively. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

4. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, MG Trust Company, LLC, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015, the supplemental schedule of assets (held at end of year) as of December 31, 2016, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2016.

5. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. If the Plan is terminated, participants will become 100% vested in their accounts, to the extent they are not already vested.

6. INCOME TAX STATUS:

On March 31, 2014, the Internal Revenue Service stated that the prototype adopted by the Plan, as then designed, qualifies under Code Section 401(a). The Plan has not received a determination letter specific to the Plan itself. Although the Plan has since been amended, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and therefore believe that the Plan is qualified and the related trust is tax-exempt.

7. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. RELATED PARTY TRANSACTIONS:

Several employees of the Company provide administrative services to the Plan. These services include Plan oversight and day-to-day Plan administration. The plan is not charged by the Company for the services of the employees to the Plan.
