(1) Description of Plan

The following brief description of the University Hospitals Health System 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan became effective June 1, 1999, and is a matched defined contribution plan sponsored by University Hospitals Health System, Inc. (UHHS) (the Company or Plan Sponsor), covering substantially all employees of University Compcare, University Primary Care Practices, Inc., and University Hospitals Management Services Organization, Inc. There are no service or age requirements of employees to participate in the Plan. Participation in the Plan for newly enrolled employees begins the first day of each month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2015, eligible employees of Comprehensive Health Care of Ohio, Inc. and certain of its subsidiaries and of Parma Community General Hospital, Powers Professional Corporation and certain of its subsidiaries began participation in the Plan.

Effective January 1, 2016, eligible employees of Portage Medical Center and certain of its subsidiaries began participation in the Plan.

The Board of Directors of University Hospitals, as permitted by the plan document, adopted and approved an amendment and instrument of merger to transfer the University Hospitals Medical Group Retirement Plan (UHMG Plan), Comprehensive Health Care of Ohio, Inc. 401(k) Plus Savings and Retirement Plan (Comprehensive Health Care 401(k) Plus Plan) and Comprehensive Health Care of Ohio, Inc. 401(k) Savings and Retirement Plan (Comprehensive Health Care 401(k) Plan) into the Plan effective December 31, 2015.

Effective January 1, 2017, eligible employees of St. John Medical Center and certain of its subsidiaries, Samaritan Regional Health System and certain of its subsidiaries, and Health Design Plus, Inc. will begin participation in the Plan.

The Company plans to transfer the assets of St. John Medical Center Retirement Savings Plan, University Hospitals Portage Medical Center 401(k) Plan, and Health Design Plus 401(k) Plan into the Plan during the year ending December 31, 2017.

(b) Employee Contributions

Each year participants may defer and contribute up to 75% of pretax annual compensation as defined in the Plan, up to the maximum allowed under the Internal Revenue Code (IRC).

**UNIVERSITY HOSPITALS HEALTH SYSTEM
401(k) RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

December 31, 2016 and 2015

(c) Employer Contributions

The Plan Sponsor matches 50% of an eligible participant's contribution to the Plan, up to 6% of the participant's compensation. Matching employer contributions commence after the participant completes one year of service and has reached the age of 18. Participants that are employees of University Primary Care Practices, Inc. are not eligible for employer contributions.

(d) Participant Rollovers

The Plan permits rollover contributions, which represent distributions from another qualified retirement plan or a plan established under IRC Section 457(b) of a former employer.

(e) Participant Accounts

Each participant's account is credited with the employee's contributions, investment earnings, and appreciation or depreciation in the fair value of assets. The investment balances are participant directed, including the self directed brokerage account, which allows participants to direct their contributions into investments of their choice. Participants may change their investment options at any time, as well as their deferral percentage. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(f) Vesting

Participants are immediately 100% vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contribution to the participant's account is based on a three-year cliff-vesting schedule (i.e., a participant vests in full after three years of service).

(g) Payment of Benefits

Upon termination of service, a participant will be entitled to receive the vested portion of his or her account.

(h) Forfeitures

The forfeited balances of terminated participants' nonvested accounts are used to reduce future plan expenses and employer matching contributions. Forfeitures were \$22,941 and \$27,427 for the plan years ended December 31, 2016 and 2015, respectively.

(i) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 9.00%, which are commensurate with local prevailing rates as determined by the plan administrator. The loans have maturities of various dates through 2036. Principal and interest are paid ratably through payroll deductions. Participant loans are valued at amortized cost, which represents the unpaid principal.

(j) Expenses

Certain administrative expenses are paid by the Plan and other administrative expenses are paid by the Plan Sponsor.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

(b) Use of Estimates

The preparation of financial statements, in conformity with the accounting principles generally accepted in the United States of America, requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investment Valuation and Income Recognition

Investments of the Plan are valued at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note 5 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date and interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses in investments bought and sold, as well as held during the year.

In 2015, investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value was the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common/collective trust. Contract value for this common/collective trust is based on the net asset value of the fund as reported by the investment advisor. The statements of net assets available for benefits present the fair value of the investment in the common/collective trust as well as the adjustment of the investment in the common/collective trust from fair value to contract value relating to the investment contracts. The statements of changes in net assets available for benefits are prepared on a contract value basis. The Plan is not invested in the common/collective trust as of December 31, 2016.

(d) Payment of Benefits

Benefits are recorded when paid.

(e) Recently Issued Accounting Standards

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive contracts. Part II eliminates the requirements to disclose

Notes to Financial Statements

individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of asset. Part III permits plan sponsors with a fiscal year-end that does not fall on a month-end to measure defined benefit pension plan assets and obligations as of month-end that is closest to the entity's fiscal year-end. Parts I and III are not applicable to the Plan. The ASU is effective for the fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively. Management has adopted Part II to reduce complexity of reporting investments. During the year ended December 31, 2016, the adoption resulted in the elimination of certain investment disclosures.

(3) Investments

During the years ended December 31, 2016 and 2015, the investment income and net appreciation (depreciation) in the Plan's investments (including investments bought, sold, and held during the year), as certified by the trustee of the Plan were as follows:

	<u>2016</u>	<u>2015</u>
Interest and dividend income:		
Cash and cash equivalents	\$ 26,076	6,765
Mutual funds	6,390,695	5,303,682
	<u>6,416,771</u>	<u>5,310,447</u>
Notes receivable from participants interest income	185,590	66,112
Total interest and dividend income	6,602,361	5,376,559
Net appreciation (depreciation) in investments at fair value as determined by quoted market price for mutual funds	15,065,936	(5,104,576)
Total investment income	<u>\$ 21,668,297</u>	<u>271,983</u>

(4) Information Prepared and Certified by the Trustee

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments, at fair value
- Investments in fully benefit-responsive investment contracts, at contract value

**UNIVERSITY HOSPITALS HEALTH SYSTEM

Notes to Financial Statements

December 31, 2016 and 2015

- Net appreciation (depreciation) in fair value of investments
- Interest and dividends
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily Net Asset Value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies

or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

		Investments at fair value			
		Total	Level 1	Level 2	Level 3

For the years ended December 31, 2016 and 2015, there were no transfers in or out of Level 1, 2 or 3.

(6) Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA. Participants will become 100% vested in their accounts if the Plan is terminated.

(7) Tax Status

The Company adopted a prototype nonstandardized profit sharing plan with a cash or deferral arrangement that received a favorable determination letter from the Internal Revenue Service (IRS) dated July 10, 2012, which stated that the Plan and related trust are designed in accordance with applicable sections of IRC. The Plan has been amended since receiving the determination letter and the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and that, therefore, the Plan qualifies under Section 401(a) of the IRC, and the related trust is tax exempt as of December 31, 2016.

**UNIVERSITY HOSPITALS HEALTH SYSTEM
401(k) RETIREMENT SAVINGS PLAN**

Notes to Financial Statements

December 31, 2016 and 2015

The Company is required to evaluate tax positions taken by the Plan and recognize a tax liability or asset if the organization has taken an uncertain position that more likely than not would be sustained upon examination by the IRS. The Company has concluded that as of December 31, 2016 and 2015, there are no uncertain tax positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Company believes the Plan is no longer subject to income tax examinations for years prior to 2013.

(8) Party-in-Interest Transactions

Certain plan investments and shares of mutual funds are managed by the Trustee of the Plan. Therefore, transactions in these mutual funds qualify as party-in-interest transactions.

(9) Risks and Uncertainties

The Plan invests in various investment securities, which are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

(10) Investment Contract with Insurance Company

The Fidelity Managed Income Portfolio (MIP) fund's purpose is to preserve principal while earning interest income. The MIP is a commingled pool and its investments may be comprised of conventional and synthetic investment contracts issued by insurance companies, banks and other financial institutions, short-term bonds and other fixed income securities, including U.S. Treasury bonds, mortgage-backed securities, commercial mortgage-backed securities, asset backed securities and derivative instruments such as futures, swaps and options. Third-party wrap contracts are purchased to permit the use of book value accounting to maintain a constant net asset value and to provide for payment of participant-directed withdrawals and exchanges at book value. Interest is credited under wrap contracts.

As described in note 2(c), because the MIP is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Participants may ordinarily direct the withdrawal or transfer all or a portion of the investment at contract value.

The MIP is valued daily and it is the policy of the Trustee to use its best efforts to maintain a stable net asset value of \$1.00 per unit. The MIP uses independent pricing services to value its investments. The Plan was not invested in the MIP as of December 31, 2016. The market value spot yield for plan year ended December 31, 2015 was 1.93%.
