HILL-ROM, INC. SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS December 31, 2016 and 2015

NOTE 1 - DESCRIPTION OF PLAN

The following description of Hill-Rom, Inc. Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General: The Plan was organized effective July 1, 1987, as a defined contribution retirement savings plan covering all eligible employees of Hill-Rom Holdings, Inc. and its affiliated participating employers (collectively, the Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Pension Finance and Administration Committees are responsible for oversight of the Plan. The Pension Finance and Administration Committees determine the appropriateness of the Plan's investment offerings, monitor investment performance and report to the Board of Directors of the Employer.

Plan Merger: Effective December 30, 2016, the Board of Directors and the Pension Finance and Administration Committees of Hill-Rom Holdings, Inc. approved a resolution and amendment to merge the Welch Allyn 401(k) Savings Plan into and with the Hill-Rom, Inc. Savings Plan. Net assets totaling \$347,224,099 were transferred to the Plan to complete the Welch Allyn 401(k) Savings Plan's merger. The transferred amount included investments of \$343,495,654 and notes receivable from participants of \$3,728,445. See Note 7.

Contributions: Each year, a bargaining participant may authorize the Employer to contribute to the Plan a salary reduction amount not to exceed 40% of the participant's annual compensation, as defined by the Plan Agreement, subject to the maximum amount permitted under the Internal Revenue Code (IRC). The Employer contributes to certain bargaining participant's accounts an amount equal to 50% of the first 6% of the participant's salary reduction contributions. Each year, a non-bargaining participant may authorize the Employer to contribute up to 40% of the participant's compensation. The Employer contributes 3% or 4% of each eligible nonbargaining participant's compensation, depending on the classification of the participant.

Participants who attain age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make rollover contributions from amounts representing distributions from other qualified plans.

The Employer has previously amended the Plan for certain non-bargaining participants. Under the terms of the Plan amendment, employees hired after July 1, 2003, are no longer eligible to participate in the Hill-Rom, Inc. Pension Plan (the Pension Plan). Employees hired prior to July 1, 2003, made an election to continue to participate in the Pension Plan or to freeze their Pension Plan accruals effective December 31, 2003. Continuing Plan participants (those who did not elect to freeze their Pension Plan benefit accruals) and commissioned participants receive 3% Employer contributions to the Plan. Participants with a hire date on or after July 1, 2003, and frozen Pension Plan participants receive 4% Employer contributions and Employer matching contributions of \$.50 up to 6% of eligible participant compensation. The benefits of Pension Plan frozen participants will be paid in accordance with the Pension Plan provisions.

The Plan includes an auto-enrollment provision whereby all newly eligible non-bargaining participants are automatically enrolled in the Plan unless an affirmative election not to participate in the Plan or participation at a different deferral rate is executed. Automatically enrolled participants have their contribution rate set at 6% of eligible compensation and their contributions are invested in a designated fund until changed by the participant.

NOTE 1 - DESCRIPTION OF PLAN (CONTINUED)

Participants direct the investment of their contributions, as well as those made by the Employer, into various investment options offered by the Plan and/or through a self-directed brokerage account subject to guidelines established by the Employer.

Participant Accounts: Each participant's account is credited with the participant's contributions and the Employer's matching contributions, as well as allocations of the Employer's contributions and Plan earnings. Participant accounts may also be charged with an allocation of certain administrative expenses of the Plan. Allocations are based on participant earnings or account balances, or specific participant transactions, as defined in the Plan Agreement. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Forfeitures: Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Employer's matching contribution portion of their account is based on years of service. Employer matching contributions are generally 100% vested after three years of credited service. Employer 3% or 4% contributions are immediately 100% vested. The Plan Agreement provides for additional vesting schedules for certain accounts related to other plans that have been subsequently merged into the Plan.

At December 31, 2016 and 2015, forfeited nonvested accounts of terminated participants totaled \$26,744 and \$100,487, respectively. These accounts will be used to reduce future Employer contributions or pay Plan expenses. In 2016, forfeited nonvested accounts of \$473,336 were used to reduce Employer contributions.

Notes Receivable from Participants: Participants may borrow from their account a minimum of \$1,000 up to a maximum amount equal to the lesser of \$50,000 or 50% of their vested account balance. The repayment terms of the notes cannot exceed five years except for the purchase of the participant's principal residence, for which the terms may exceed five years per the Plan Agreement. The notes are secured by the balance in the participant's account and bear interest at rates which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through regular payroll deductions or by self-payment by terminated participants.

Benefits: Upon the occurrence of a distributable event due to separation from service by termination, death, disability, or retirement, as defined by the Plan Agreement, a participant may elect to receive a lump-sum cash distribution equal to the value of the participant's vested interest in his or her account. Certain account balances merged in which were subject to annuity provisions retain those provisions. Certain account balances are also subject to installment payments in accordance with pre-merger provisions. Hardship and in-service withdrawals, as defined in the Plan Agreement, are also permitted from a participant's account.

Plan Termination: Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the participants will become 100% vested in their accounts.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared on the modified cash basis of accounting. This method of accounting differs from accounting principles generally accepted in the United States of America in that contributions and income are recorded when received, rather than when earned and expenses are recorded when paid rather than when the obligation is incurred. Although the modified cash basis of accounting represents a departure from accounting principles generally accepted in the United States of America, it is an acceptable method of accounting for employee benefit plans under the requirements of ERISA.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates: The preparation of financial statements in accordance with the modified cash basis of accounting requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and the disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition: The Hill-Rom Holdings, Inc. Master Trust (Master Trust) was established on April 1, 2008, to hold the investment assets of the following plans sponsored by Hill-Rom Holdings, Inc.: Hill-Rom, Inc. Savings Plan and Hill-Rom, Inc. Retirement Account Program. Prior to December 31, 2016, investments and the income therefrom, were based on segregated investment portfolios within the Master Trust. Accordingly, the Plan's net investment income (loss) from the Master Trust includes only its segregated share of the Master Trust's interest and dividends and net appreciation (depreciation) in fair value of its investments. On December 30, 2016, the Plan adopted a separate trust agreement and ceased participation in the Master Trust. See Note 4.

The Plan's investments are reported at fair value, except fully benefit-responsive investment contracts are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Pension Finance and Administration Committees determine the Plan's valuation policies utilizing information provided by the Plan's investment advisor and trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants: The Plan's notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded when received. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make repayments and the Plan Administrator deems the note receivable from the participant to be in default, the balance of the note receivable from the participant is reduced and a benefit payment is recorded per the Plan Agreement.

Payment of Benefits: Benefits are recorded when paid.

Expenses: Administrative expenses for maintaining the Plan may be paid by the Employer or the Plan, at the Employer's discretion. Certain administration fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation (depreciation) in fair value of investments, which is included in net investment income from the Hill-Rom Holdings, Inc. Master Trust on the statement of changes in net assets available for benefits.

Tax Status: The Plan has adopted a volume submitter plan document whose sponsor has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2014, stating that the volume submitter plan document was designed in accordance with the applicable sections of the IRC. Although the Plan and the volume submitter plan document have been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and to recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other taxing authorities.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in process. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2013.

Subsequent Events: The Plan Administrator has evaluated the financial statements for subsequent events occurring through September 18, 2017, the date the financial statements were available to be issued. See Note 10.

NOTE 3 - FAIR VALUE MEASUREMENTS

The Plan has categorized its assets and liabilities that are measured at fair value into a three-level fair value hierarchy. The hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement. In situations where there is little or no market activity for the asset or liability, the Plan makes estimates and assumptions related to the pricing of the asset or liability including assumptions regarding risk.

Following is a description of the valuation methodologies used by the Plan for assets that are measured at fair value on a recurring basis. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Registered Investment Companies and Money Market Fund Shares: Valued at the daily closing price as reported by the funds. These funds are required to publish their daily net asset value (NAV) and to transact at that price. These funds held by the Plan are deemed to be actively traded.

Collective Trust Fund: Valued at the unit price reported by the sponsoring trust company. The fund invests in benefit-responsive investment contracts issued by insurance companies and other financial institutions, fixed income securities, and money market funds. Under the terms of the contracts, the assets of the fund are invested in fixed income securities which may include, but are not limited to U.S. Treasury and agency bonds, corporate bonds, mortgage-backed securities, commercial mortgage-backed securities, asset-backed securities, and collective investment vehicles and shares of investment companies that invest primarily in fixed income securities and shares of money market funds. The unit price is based on the fair value of these underlying investments owned, less any accrual of fees and expenses borne by the fund, and divided by the number of units outstanding. The unit price is readily determinable and quoted on the active private market on which participants can transact daily with no redemption restrictions on these investments.

Common and Preferred Stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Corporate Bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing the value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, those corporate bonds are valued under a discounted cash flow approach that maximizes observable inputs, such as current yields or similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

U.S. Government Securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

Certificates of Deposit: Valued by discounting cash flows based on interest rates of similar instruments with similar credit ratings and duration.

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan's management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain assets could result in a different fair value measurement at the reporting date.

Following is a summary, within each level of the fair value hierarchy, of the Plan's assets that are measured at fair value on a recurring basis as of December 31, 2016 and 2015:

NOTE 5 - INVESTMENT INFORMATION CERTIFIED BY TRUSTEE

All investment information disclosed in the accompanying financial statements, related notes and supplemental schedule has not been audited, but was obtained or derived from information provided to the Plan Administrator by the Plan's trustee. The following is a summary of the Plan's investment information held by the Plan as of December 31, 2016, and held by the Hill-Rom Holdings, Inc. Master Trust as of December 31, 2015, which has been prepared and certified as complete and accurate as of December 31, 2016 and 2015, and for the year ended December 31, 2016, by Fidelity Management Trust Company, the Trustee, in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

	2016	2015
Investments at Fair Value:		
Registered investment companies	\$799,711,007	\$422,166,360
Money market fund shares	108,676	136,871
Collective trust fund	13,710,393	
Self-directed brokerage accounts	<u>11,090,459</u>	
Total Investments at Fair Value	824,620,535	422,303,231
Investment at Contract Value	<u>18,144,267</u>	<u>44,151,141</u>
Total Investments held by Trustee	<u>\$842,764,802</u>	<u>\$466,454,372</u>
	2016	
Net appreciation in fair value of investments	\$12,652,598	
Interest and dividends	<u>15,907,706</u>	
Net Investment Income	<u>\$28,560,304</u>	
Other income	<u>\$ 168,209</u>	

All of the Plan's net investment income (net appreciation in fair value of investments and interest and dividends) and other income for the year ended December 31, 2016, was earned by the Master Trust for which the Plan ceased participation on December 30, 2016.

NOTE 6 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

Prior to December 30, 2016, the Plan's investment in the Master Trust included a synthetic investment contract that was subsequently transferred into the Plan's individual trust. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for a fully benefit-responsive investment contract because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses.

In a synthetic investment contract, the Plan owns the underlying assets of the contract. A synthetic investment contract includes a wrapper contract, which is an agreement for the wrap issuer, such as a bank or insurance company, to make payments to the Plan in certain circumstances. The wrapper contract typically includes certain conditions and limitations on the underlying assets owned by the Plan. With traditional investment contracts, the Plan only owns the contract itself. Synthetic investment contracts are designed to accrue interest based on crediting rates established by the contract issuer.

The synthetic investment contract held by the Plan includes a wrapper contract that provides a guarantee that the credit rate will not fall below 0%. Cash flow volatility (for example, timing of benefit payments) as well as asset underperformance can be passed through to the Plan through adjustments to future contract crediting rates.

NOTE 6 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT (CONTINUED)

Formulas are provided in the contract that adjust renewal crediting rates to recognize the difference between the fair value and the book value of the underlying assets. Crediting rates are reviewed periodically for resetting.

The Plan's ability to receive amounts due in accordance with the fully benefit-responsive investment contract is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Examples of such events include the following:

1. The Plan's failure to qualify under Section 401(a) of the IRC or the failure of the trust to be tax-exempt under Section 501(a) of the IRC
2. Premature termination of the contract
3. Plan termination or merger
4. Changes to the Plan's prohibition on competing investment options
5. Bankruptcy of the plan sponsor or other plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuer and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include the following:

1. An uncured violation of the Plan's investment guidelines
2. A breach of material obligation under the contract
3. A material misrepresentation
4. A material amendment to the agreements without the consent of the issuer

NOTE 7 - PLAN AMENDMENTS

The Plan Agreement was amended, effective January 1, 2016, to update the Plan's definitions of Bargaining Employee, Bargaining Participant and Bargaining Member and to revise and clarify the Plan's use of forfeitures. The Plan Agreement was also amended, effective January 19, 2016, to update the Plan's definitions of Enhanced Match Bargaining Participant and Basic Savings Contributions under the Plan. In addition, the Plan Agreement was amended, effective June 9, 2016, to update the Plan's provisions relating to participant and Employer contribution limits on behalf of the Plan's bargaining and non-bargaining employees.

Effective December 30, 2016, the Plan Agreement was amended and restated in its entirety to a volume submitter plan document. The restatement of the Plan Agreement included the following updates and/or changes in the Plan's provisions: 1) to effectuate the merger of the Welch Allyn 401(k) Savings Plan into and with the Plan; 2) to recognize Welch Allyn, Inc. as an affiliated participating employer in the Plan and to recognize previous service with Welch Allyn, Inc. for eligibility, vesting and allocation purposes; 3) to update various Plan provisions affected by the merger plan including the Plan's vesting schedules and benefit distribution options; and 4) to permit Plan participants to direct the investment of their account balances through a self-directed brokerage account.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS

Party-in-interest transactions include those with fiduciaries or employees of the Plan, any person who provides services to the Plan, an employer whose employees are covered by the Plan, an employee organization whose members are covered by the Plan, a person who owns 50% or more of such an employer or employee association, or relatives of such persons.

NOTE 8 - PARTY-IN-INTEREST TRANSACTIONS (CONTINUED)

Certain Plan investments are managed by Fidelity Management Trust Company, the trustee of the Plan and/or its affiliates; therefore, transactions in these investments qualify as exempt party-in-interest transactions under ERISA. The Trustee and/or its affiliates also receive indirect fees from investments which are deducted from investment returns. Direct fees paid by the Plan to the Trustee and/or its affiliates totaled \$186,134 in 2016.

The Employer provides certain accounting, administrative and investment management services to the Plan for which it receives no compensation.

Notes receivable from participants are permitted party-in-interest transactions.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan's investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Plan's financial statements.

NOTE 10 - SUBSEQUENT EVENTS

Effective April 1, 2017, the Plan Agreement was amended to update the Plan's eligibility service requirement and the compensation definition for former participants in the Welch Allyn 401(k) Savings Plan and to update the Plan's automatic enrollment provisions.
