## NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the **UNIVERSAL ELECTRIC CORPORATION 401(K) PROFIT SHARING PLAN** provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

### General

The Plan is a defined contribution plan covering all employees of Universal Electric Corporation (the Company) except members of a union, leased, or temporary employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. An employee shall become eligible upon completion of a quarter of a year of service as defined in the plan document.

### Contributions

Contributions to the Plan consist of employees' deferrals, including catch-up deferrals as permitted by the applicable guidelines established within the Internal Revenue Code (IRC), and a Company matching contribution up to 4% of employees' compensation. The Company may also contribute an additional profit sharing amount at the option of the Company's board of directors. These amounts are not to exceed the limits as defined within the IRC. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover).

### Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching contribution and the Company's discretionary contribution and, (b) plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

### Vesting

Participants are immediately vested in their contributions and the Company's matching contribution plus actual earnings thereon. Participants gradually vest in the Company's profit sharing contribution portion of their accounts, plus actual earnings, thereon, in equal increments based on years of continuous service. A participant is 100% vested after six years of credited service.

**NOTE 1 – CONTINUED**

**Payment of Benefits**

Upon termination of service due to death, disability, retirement or other reasons, a participant may receive a lump sum amount equal to the value of the participant's vested interest in his or her account. In-service distributions may be made to a participant provided the participant has attained normal retirement age as defined in the plan document.

**Forfeited Accounts**

At December 31, 2016 and 2015, forfeited nonvested accounts totaled $47,372 and $27,321, respectively. These accounts will be allocated to participants in accordance with the applicable formula elected by the Company. Forfeitures are invested and held for a period of five years before being allocated. Participants that are reemployed and fulfill certain requirements, as defined in the Plan, will have their forfeited accounts reinstated. During 2016 and 2015, forfeited nonvested accounts of $27,311 and $0, respectively, were allocated among remaining participants.

**NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**Basis of Accounting**

The financial statements have been prepared using the accrual method of accounting.

**Use of Estimates**

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

**Investment Valuation and Income Recognition**

The Plan's investments are stated at fair value, except for fully benefit responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributed to fully benefit responsive investment contracts because contract value is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the plan. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

**NOTE 2 – CONTINUED**

**Payment of Benefits**

Benefits are recorded when paid.

**Operating Expenses**

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Investment related expenses are included in net appreciation in fair value of investments.

**Subsequent Events**

In preparing these financial statements, the Plan has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2016 through August 15, 2017, the date the financial statements were available to be issued. No such significant events or transactions were identified.

**Accounting Standards Adopted in 2015**

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-12, Plan Accounting. This ASU simplifies the presentation of certain fully benefit-responsive investment contracts by eliminating the requirement to present the investment at fair value with reconciliation to contract value. This ASU also simplifies the presentation of investments by eliminating the requirement to identify individual investments that represent 5% of more of net assets and eliminates the disclosure of the net appreciation (depreciation) in fair value by type of investment. The amendments in this ASU are effective for fiscal years beginning after December 31, 2015, with early adoption permitted. The Company elected to early adopt this ASU and retroactively recast all periods presented. Adoption of this ASU did not have a material impact on the financial position and results of operating of the Plan.

In May 2015, the FASB issued ASU No 2015-07, Fair Value Measurement. This ASU simplifies the disclosure requirements for certain investments measured at net asset value per share (or its equivalent) by removing the requirement to categorize the investment within the fair value hierarchy. The amendments in this ASU are effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The Company elected to early adopt this ASU and retroactively recast all periods presented. Adoption of this ASU did not have a material impact on the financial position and results of operations of the Plan.

**NOTE 3 – INVESTMENTS**

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following investment information was certified by Bank of America, N.A. (BOA), the trustee of the plan, and was not subjected to any auditing procedures performed by the independent public accountants:

**NOTE 3 – CONTINUED**

a. Investments held as of December 31,:

| | 2016 | 2015 |
|---|---|---|
| Investments certified by trustee | $ 16,979,358 | $ 15,800,034 |
| Adjustment to contract value | 196 | 863 |
| Total investments as shown in the accompanying statements of net assets available for benefits | $ 16,979,554 | $ 15,800,897 |

b. Net increase in net assets available for benefits for the year ended December 31, 2016:

| | |
|---|---|
| Certified by trustee | $ 1,179,324 |
| Adjustments for: | |
| Contributions receivable | 241,944 |
| Contract value | ( 667) |
| Net increase as shown in the accompanying statement of changes in net assets available for benefits | $ 1,420,601 |

c. All investment related information in the accompanying supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2016.

During 2016, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, appreciated in value by $764,527 as follows:

| | |
|---|---|
| Common Collective Trust | $ 5,139 |
| Contract Value Adjustment | ( 667) |
| Mutual Fund | 760,055 |
| Net Appreciation in Value | $ 764,527 |

**NOTE 4 – FAIR VALUE MEASUREMENTS**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

Quoted prices for similar assets or liabilities in active markets;

**NOTE 4 – CONTINUED**

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than the quoted prices that are observable for the asset or liability;

Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following sections describe the valuation methodologies used by the Plan to measure investments at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

**Mutual Funds** – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

**Common Collective Trusts (CCT)** – Valued at the NAV of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair value. Furthermore, although the plan administrator believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

**NOTE 4 – CONTINUED**

| | Assets at Fair Value as of December 31, 2016 | | | |
|---|---|---|---|---|
| | Level 1 | Level 2 | Level 3 | Total |
| Mutual Funds | $16,450,777 | $ 0 | $ 0 | $16,450,777 |

| Investments measured at net asset value | 0 | 0 | 0 | 528,777 |

| | Level 1 | Level 2 | Level 3 | Total |

| | $15,360,842 | $ 0 | $ 0 | $15,800,897 |

**NOTE 5 – INVESTMENT CONTRACTS**

The Plan invests in a fully-benefit responsive investment fund through an investment contract with Federated Capital Preservation Fund (the Fund) which is a stable value fund. The Fund's underlying investments include various guaranteed investment contracts (GICs), money market funds and other stable value products that can be carried at contract value. The Fund seeks to provide current and stable income, while maintaining a stable unit value of $10. The expectation is that each unit of the Fund will maintain a constant net asset value of $10, but there is no assurance that this will be the case. The fair value of the investment contract at December 31, 2016 and 2015 was $528,581 and $439,192, respectively.

Because the Fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Fund. The Fund is presented at contract value on the face of the statement of net assets available for benefits. Contract value, as reported to the Plan by Federated Capital Preservation Trust at December 31, 2016 and 2015, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

**NOTE 5 – CONTINUED**

The interest rate of the Fund (also known as the crediting rate) is initially based on the yield of the underlying securities and changes based on the experience of the cash flow and market value of the underlying fixed-income securities. Because changes in market interest rates affect the yield to maturity and the market value of the underlying investments, they may have a material impact on the contract's interest crediting rate. In addition, participant withdrawals and transfers from the Fund are paid at contract value but funded through the market value liquidation of the underlying investments, which also impacts the interest crediting rate.

The key factors that influence future interest crediting rates for the Fund's various GICs include: the level of market interest rates, the amount and timing of participant contributions, transfers and withdrawals into and out of the GIC, the investment returns generated by the fixed-income securities underlying the GIC, and the duration of the fixed-income securities underlying the GIC. The GICs in the Fund provide for a minimum interest crediting rate of zero percent, which is intended to protect participant's principal and accrued interest. The Fund's weighted average gross crediting interest rate was 2.04% and 1.77% as of December 31, 2016 and 2015, respectively. The average yields of the Fund were as follows:

| | 2016 | 2015 |
|---|---|---|
| Ratio of year end market value yield to investments (at fair value): | 1.55% | 1.23% |
| Ratio of year end crediting rate to investments (at fair value): | 1.44% | 1.21% |

Interest rates are reviewed on a monthly or quarterly basis according to the underlying guaranteed investment contracts.

The Plan has no unfunded commitments to the Fund which provides for daily redemptions by the Plan at reported net asset value per share, with no advance notification requirement for the purpose of funding a bona fide benefit payment, making a participant loan, honoring an employee-directed transfer of the employee's interest in the plan to another investment election, or paying trust fees. Withdrawals from the Fund for any other purpose generally require 12 months advance written notice. Certain events limit the ability of the Fund to transact at contract value. These events may include, but are not limited to the following: mergers, mass layoffs, plan terminations, implementation of early retirement incentive programs or other events within the control of the Fund or the plan sponsor resulting in a material and adverse financial impact on the Fund's obligations under the GIC. The plan administrator does not believe that any events have occurred that would prevent participants from transacting at contract value.

The contracts into which the Fund has entered limit the circumstances under which the issuer may unilaterally terminate the contracts on short notice. These circumstances may include, but are not limited to, the following: (a) the Fund loses its qualified status under the Internal Revenue Code or is otherwise terminated; (b) the trustee fails to meet its material obligations under the GIC, attempts to assign the GIC or engages in fraud or misrepresentation that materially affects the risk profile of the GIC; or (c) if the fixed-income securities underlying the separate account or synthetic GIC fail to meet certain criteria as specified in each GIC. If one of these events were to occur, the issuer could terminate the separate account or synthetic GIC at the market value of the underlying fixed-income securities (or in the case of a traditional GIC, at the hypothetical market value based upon a contractual formula).

**NOTE 6 – INVESTMENT OPTIONS**

Participants direct the investment of their account balances into various investment options of the Plan. The Plan offers mutual funds and a common collective trust as investment options for participants.

**NOTE 7 – RELATED PARTY TRANSACTIONS**

The Company provides certain accounting, administrative, and investment management services to the Plan for which no fees are charged.

Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Such transactions, while considered party-in-interest transactions are specifically exempt as prohibited transactions under ERISA.

**NOTE 8 – AMENDMENT AND TERMINATION**

The plan agreement may be amended or terminated by the Company at any time. No such termination is contemplated, but if it should occur, the assets of the Plan shall be used to pay or provide for the payment of any and all obligations hereunder, in accordance with the provisions of the Plan and the directions of management. No portion of the assets of the Plan, directly or indirectly, shall revert to or accrue to the benefit of the Company. In addition, in the event of the termination or partial termination of the Plan, all participants shall have a fully vested interest in all accrued benefits.

**NOTE 9 – TAX STATUS**

The Company adopted a prototype standardized profit sharing plan with a cash or deferral arrangement. The prototype plan sponsor has obtained an opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the restated prototype plan document was in compliance with applicable requirements of the Internal Revenue Code. The plan administrator timely adopted the restated prototype plan. The plan administrator believes that the Plan currently is designed and being operated in accordance with IRC and therefore, believes the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

**NOTE 10 - RISKS AND UNCERTAINTIES**

The Plan invests in a variety of investment funds. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

**NOTE 11 – RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500**

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2016 and 2015 to Form 5500:
