Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Access Management Services, LLC 401(k) Retirement Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1995 and most recently restated and amended on January 1, 2015. The Plan is available to all employees of Access Management Services, LLC (the "Company") who have completed three months of service and are age 18 or older. Participants are automatically enrolled in the Plan at an initial contribution rate of 4%, unless they elect to opt out or adjust their contribution rate, on the first date of the Plan quarter following the date the eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Company administers the Plan. Through January 31, 2016, American United Life Insurance Company ("AUL") served as the trustee, managed Plan assets, and maintained the Plan's records. Effective February 1, 2016, Fidelity Management Trust ("Fidelity") was appointed to serve as trustee, manage Plan assets, and maintain the Plan's records. Fidelity offers Plan participants a variety of investment options. Participant accounts pertaining to participant and employer contributions, including allocated earnings and losses thereon, are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Contributions

Participants may make before-tax and after-tax Roth contributions up to 75% of their annual eligible compensation, not to exceed $18,000 as limited by the IRS, which is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. The Plan also permits rollover contributions from other qualified retirement plans. Employees who are age 50 years or older during the Plan year may make additional catch-up contributions. Employee contributions to the Plan are made through regular payroll deductions. The Company will make a matching contribution of 25% of elective deferrals up to 4% of eligible compensation on a payroll basis, totaling $128,302 in 2016. The Company has the right to designate all or a portion of the matching contributions as qualified. To the extent matching contributions are so designated, they are non-forfeitable and may not be withdrawn from the Plan prior to separation from service or attainment of age 59½.

The Company may make a discretionary matching and/or profit sharing contribution to be determined annually by the Company. During 2016, the Company made a discretionary matching contribution of 3%, totaling $508,680.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or charged with the participant's contributions, Company contributions, investment earnings and losses, and forfeitures. The investment earnings and losses are allocated daily to each participant's account in the proportion that each participant's balance bears to the total balance of all participants' accounts in each investment. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are immediately vested at 100% in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

All other Company contributions, including forfeitures and the earnings or losses thereon, vest as follows:

Years of Service	Vested Interest
Less than 1	0.0%
1	33.3%
2	66.7%
3	100.0%

A year of service, as defined in the Plan document, is equal to a 12-month period commencing with the date of employment.

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65), retirement due to disability, or if the Plan is terminated.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued and unpaid interest. The Plan provides that participants may be granted loans subject to certain terms and may borrow from their vested account balance a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance. Loan terms range from one to five years, except loans used to acquire real estate that serves as the participant's primary residence, which may be paid over a period up to 30 years. Participants may not have more than one loan outstanding at any time. The loans are secured by up to half of the participant's vested account balance and bear interest at a rate commensurate with local prevailing rates at loan inception. Principal and interest are paid ratably through payroll deductions. Interest income on notes receivable from participants is recorded when it is earned. The interest rates on loans outstanding as of December 31, 2016 ranged from 4.25% to 5.25%, and maturity dates range from January 2017 through January 2044. No allowance for credit losses on participant loans has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Payment of Benefits

Upon termination of service, death, disability, or retirement, a participant may elect to receive payment in the form of a lump-sum amount equal to the value of the participant's vested account balance, substantially equal installments, or an annuity. Participants subject to lifetime required minimum distributions ("RMD") may receive installments, payable monthly, quarterly, or annually, equal to or exceeding the annual RMD amount at age 70½. If an employee's vested balance is greater than $1,000 but less than $5,000, the Plan will transfer the vested balance into an individual retirement account established for the benefit of the participant. Accounts with balances less than $1,000 will be immediately distributed.

Participants also may make certain voluntary in-service withdrawals after age 59½ and hardship withdrawals without being subject to certain restrictions and penalties. Participants receiving a hardship withdrawal will be suspended from making elective deferral contributions for a period of six months beginning after receipt of the hardship withdrawal. Benefits are recorded to participants when paid.

Participant Termination and Forfeitures

Upon termination of employment, participants forfeit their non-vested balances. If a participant is rehired within a five-year period, the forfeited contributions are reinstated. Forfeited balances of terminated participants' non-vested accounts are used to reduce future employer contributions. Unallocated forfeited balances as of December 31, 2016 and 2015 were approximately $34,000 and $2,100, respectively, and forfeitures used to reduce employer contributions for 2016 were approximately $182,000.

Administrative Expenses

The Plan's administrative expenses are paid by either the Plan or the Company, as provided by the Plan's provisions. Administrative expenses paid by the Plan include recordkeeping and trustee fees. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate. All other administrative expenses of the Plan are paid by the Company.

Valuation of Investments and Income Recognition

The Plan's investments (other than fully benefit-responsive investment contracts) are stated at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Valuation of Investments and Income Recognition (continued)

As of December 31, 2016, the investments of the Plan are comprised of mutual fund accounts and a common/collective trust. As of December 31, 2015, the Plan investments were comprised of mutual fund accounts and a guaranteed investment contract. Plan investments in mutual funds are based upon quoted market prices at the last reported sales date. Plan investments in common/collective trusts are valued on a net asset value ("NAV") per unit market basis as determined by the Plan trustee, which reflects the fair value of the investments based on quoted market prices. The NAV is used as a practical expedient to estimate fair value.

Fully benefit-responsive contracts held by a defined contribution plan are required to be reported at contract value. At December 31, 2015, the Plan was invested in fully benefit-responsive investment contracts through a guaranteed investment contract. The Plan has adopted Accounting Standards Update No. 2015-12, which requires fully benefit-responsive investment contracts to be measured, presented, and disclosed at contract value only.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and the fair value at the end of the year (or selling price if sold during the year). Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the trustee are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 2 - Assets Certified by Trustees

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information and notes receivable from participants certified by both AUL (as of December 31, 2015 and for the period January 1, 2016 to January 31, 2016) and Fidelity (for the period February 1, 2016 through December 31, 2016), except for comparing the information contained therein to information included in the financial statements and supplemental schedule of assets (held at end of year).

Fidelity has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant loans at amortized cost as of December 31, 2016 and the income earned or the losses incurred on the investments and loans for the period from February 1, 2016 through December 31, 2016, as reflected in the accompanying financial statements and supplemental schedule of assets (held at end of year), are complete and accurate.

AUL has certified in writing to the Plan administrator that the stated amounts for investments at fair value and contract value and participant loans at amortized cost as of December 31, 2015 and the income earned or the losses incurred on the investments and loans for the period from January 1, 2016 through January 31, 2016, as reflected in the accompanying financial statements and supplemental schedule of assets (held at end of year), are complete and accurate.

Note 3 - Fair Value Accounting

U.S. GAAP requires disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Note 3 - Fair Value Accounting (continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis as of December 31, 2016 and 2015.

	December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds, at fair value	$ 11,607,000	$ -	$ -	$ 11,607,000
Common/collective trust, at NAV				310,487
Total				$ 11,917,487

	December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds, at fair value	$ 11,494,255	$ -	$ -	$ 11,494,255

There were no changes to the valuation techniques used during the periods presented.

Note 4 - Investment Contract with Insurance Company

Prior to February 1, 2016, the Plan was entered into a fully benefit-responsive guaranteed interest contract with AUL. AUL maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits at contract value as reported to the Plan by AUL. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. These events may be different under each contract. Examples of such events include the following:

(1) The Plan's failure to qualify under Section 401(a) of the Internal Revenue Code or the failure of the trust to be tax-exempt under Section 501(a) of the Internal Revenue Code,

(2) Premature termination of the contracts,

(3) Plan termination or merger,

(4) Changes to the Plan's prohibition on competing investment options, or

(5) Bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spinoffs of a subsidiary) that significantly affect the Plan's normal operations.

Note 4 - Investment Contract with Insurance Company (continued)

No events are probable of occurring that might limit the ability of the Plan to transact at contract value with the contract issuers and that also would limit the ability of the Plan to transact at contract value with the participants.

In addition, certain events allow the issuer to terminate the contracts with the Plan and settle at an amount different from contract value. Those events may be different under each contract. Examples of such events include the following:

(1) An uncured violation of the Plan's investment guidelines,

(2) A breach of material obligation under the contract,

(3) A material misrepresentation, or

(4) A material amendment to the agreements without the consent of the issuer.

Note 5 - Income Taxes

The Plan did not obtain a Plan-specific determination letter, as it operates with Fidelity's opinion letter from the IRS dated March 31, 2008, which states that the form of the Plan is qualified under Section 401(a) of the Internal Revenue Code; therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2013-6 and 2011-49, the Plan administrator has determined that it is eligible to, and has chosen to, rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code to maintain its qualified status. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Internal Revenue Code and, therefore, believes the Plan is qualified and the related trust is tax exempt. Accordingly, no provision for income taxes has been recorded in the financial statements.

Plan management is required to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2016 and 2015, there were no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 7 - Related Party and Party-in-Interest Transactions

Certain Plan investments include mutual funds managed by Fidelity (for the period February 1, 2016 through December 31, 2016) and AUL (as of December 31, 2015 and for the period January 1, 2016 through January 31, 2016). Fidelity and AUL were the asset trustees, as defined by the Plan; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. In addition, the Plan offers loans to participants, which also qualify as party-in-interest transactions and are also exempt from the prohibited transaction rules.

Note 8 - Reconciliation to Form 5500

Distributions for financial reporting purposes differ from amounts shown on the Plan's Form 5500 for the year ended December 31, 2016 due to the accrual of excess contributions payable in the financial statements for the year ended December 31, 2016.

Note 9 - Subsequent Events

Subsequent to December 31, 2016, the Company discovered the Plan failed the discrimination test as of December 31, 2015. The Company took corrective action and made a corrective distribution subsequent to year-end.

Management evaluated subsequent events for the Plan through the auditors' report date, which is the date the financial statements were available to be issued. There were no additional subsequent events requiring recognition or disclosure in the financial statements.
