PROFIT SHARING RETIREMENT PLAN

Notes to Financial Statements

December 31, 2016

(1) Description of Plan

The following description of the Modern Plating Corporation 401(K) Profit Sharing Retirement Plan provides only general information. Participants should refer to the Plan document and *Summary Plan Description* which are available from the plan administrator for a more complete description of the Plan's provisions.

(a) General

The Plan is a defined contribution 401(k) plan covering substantially all employees of Modern Plating Corporation (the Company) who become eligible to participate upon commencing employment. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

(b) Contributions

Eligible participants may elect to defer a portion of their pretax and/or post-tax annual compensation, as defined by the Plan, not to exceed the amounts allowed by law. As of January 1, 2010, employees are automatically enrolled in the plan the first day of the quarter following commencement of employment at a 3% deferral rate of eligible compensation. Participants may also contribute rollover distributions from other qualified benefit plans. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions up to a maximum annual amount allowed by the Internal Revenue Service. With respect to discretionary matching contributions and discretionary profit sharing contributions, individuals will be eligible upon completion of one year of service (1,000 hours).

The Company may make a discretionary matching contribution equal to a discretionary percentage of the participant's salary deferrals. Participants must be employed on the last day of the Plan year to be eligible for an allocation of the matching contribution. For the year ended December 31, 2016, the Company made a discretionary matching contribution equal to 20% of participant's salary deferrals.

The Company also may fund the Plan by a discretionary profit sharing contribution. Participants must be employed on the last day of the Plan year to be eligible for an allocation of the profit sharing contribution. For the 2016 Plan year, the Company made no discretionary profit sharing contribution to the plan.

(c) Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution, the Company's profit sharing contribution and an allocation of Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

(d) Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in their account, or annual installments for required minimum distributions only. For termination of service for other reasons, a participant may receive the value of the vested interest in their account as a lump sum distribution. Vested account balances which do not exceed $1,000 upon termination of employment will be paid in a lump sum as soon as administratively practicable following termination.

(e) Vesting

Participants are immediately vested in their voluntary contributions plus earnings thereon. Vesting in the Company's contributions is based on years of continuous service. A participant begins to vest at 20% after two years of credited service. Participants become 100% vested after six years of credited service. In addition, there is full vesting upon normal retirement at age 65, death, or disability.

(f) Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the vested balance in the participant's account and bear interest at a rate which is commensurate with local prevailing rates as determined by the Trustee. Loans which are not repaid in accordance with the loan terms or following termination of employment are treated as deemed distributions.

(g) Forfeited Accounts

At December 31, 2016, forfeited non-vested accounts totaled $1,797. These accounts may be used to reduce future Company contributions or for payment of Plan expenses. For the Plan year ending December 31, 2016, $711 was used to pay Plan expenses

(h) Plan Expenses

Certain administrative expenses including functions performed by officers or employees of the Company are incurred by the Company at no charge to the Plan. Broker and trust fees are charged to the investment fund which incurred the expense. Loan administration fees are charged directly to the participant's account and are included in administrative expenses.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

(b) Date of Management's Review

Subsequent events were evaluated through September 14, 2017, which is the date the financial statements were available to be issued.

(c) Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

(d) Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

(e) Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

(f) Collective Investment Trust Fund

The Plan holds investments in a collective investment trust fund – the Federated Capital Preservation Fund.

In determining the assets available for benefits, the Federated Capital Preservation Fund is recorded at contract value, which represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are currently no reserves against contract values for credit risk of the contract issuers or otherwise. Investment contracts that are fully benefit-responsive are valued at contract value.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (i) amendments to the plan documents (including complete or partial plan termination or merger with another plan); (ii) changes to plan's prohibition on competing investment options or deletion of equity wash provisions; (iii) bankruptcy of the plan sponsor or other plan sponsor events (e.g. divestitures or spin-offs of a subsidiary) which cause a significant withdrawal from the Plan or (iv) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

(g) Payment of Benefits

Benefits are recorded when paid.

(3) Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurements authoritative literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available. The Plan did not have any Level 2 or Level 3 investments at December 31, 2016.

Level 1 Fair Value Measurements

Mutual funds are classified as Level 1 ($2,213,022 at December 31, 2016) since they are traded in an active market for which closing prices are readily available.

(4) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contributions.

(5) Income Tax

The Plan utilizes a standardized form of prototype plan which has received a tax determination letter from the Internal Revenue Service dated March 31, 2014 indicating that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC).

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

(6) Information Certified by the Trustee

Midland States Bank, Trustee, has certified the completeness and accuracy of certain information which management used in preparing the financial statements, supplemental schedule and accompanying notes. Accordingly, this information is not audited. The following is a summary of information, which the trustee furnished:

- Investments as reported in the Statement of Net Assets Available for Benefits at December 31, 2016.
- Investment income from participants as reported in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2016.
- Investments as reported in the supplemental Schedule of Assets Held for Investment Purposes, December 31, 2016.

(7) Related Party Transactions

Certain Plan investments are managed by Midland States Bank, the Trustee, and therefore, these transactions qualify as party-in-interest. The Company provides certain administrative services for the Plan at no cost to the Plan.

(8) Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

(9) Reconciliation of Financial Statements to Schedule H Form 5500

The financial statements have been prepared using the accrual method of accounting while the Plan's Form 5500 has been prepared on the modified cash-basis method of accounting. The reconciliation between the financial statements and Form 5500 are as follows:

		2016
Net increase in net assets available for plan benefits per the accompanying financial statements		295,067
Adjustments:		
Change in company contributions receivable		32,122
Net income as reported on Form 5500	$	327,189
