CARE & COMFORT 401(K) PLAN

December 31, 2016 and 2015

NOTE A--DESCRIPTION OF PLAN

The following brief description of the Care & Comfort 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 2012 that covers all employees of Care & Comfort (the "Company"). It is subject to the provisions of the Employee Retirement Security Act of 1974 (ERISA).

Eligibility

Employees are eligible to participate in the Plan after completing 12 months of service and 1,000 hours of service and attaining age 21. Eligible employees can begin participating on the first day of each calendar quarter.

Contributions

Participants may contribute annual compensation to the Plan on a pre-income tax basis or Roth elective deferrals, up to the maximum deferral amount allowed by law ($18,000 in 2016). In addition, employees who are age 50 or older may defer an additional "catch up" contribution ($6,000 in 2016). Participants direct the investment of their contributions into various investment options offered by the Plan. Participants may also contribute amounts representing distributions from other qualified plans (rollovers).

The Company makes safe harbor matching contributions to each participant's account, in an amount equal to 100% of the amount deferred by each participant up to 4% of the participant's compensation. Safe harbor contributions are recorded in the same period as the corresponding participant elective contributions and are invested in the same funds as the participant contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution, employer contributions, and an allocation of plan earnings and expenses and charged with an allocation of administrative expenses. Allocations are based on participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and employer matching contributions plus actual earnings thereon.

NOTE A--DESCRIPTION OF PLAN--Continued

Participant Notes Receivable

Participants may borrow from their account balance a minimum of $1,000 up to a maximum of $50,000 or 50 percent of their vested balance, whichever is less. Loans are secured by the balance in the participant's account and bear interest at current market rates. Principal and interest are paid through bi-weekly payroll deductions.

Payment of Benefits

Participants are entitled to a distribution of their vested benefits upon obtaining age 59 1/2, retirement, termination of employment, death or permanent and total disability. The plan also allows participants to make hardship withdrawals. Benefits are recorded when paid. The Company retains the right under the Plan to discontinue contributions and terminate the Plan. In the event of Plan termination, the interest of each participant shall be determined as of the termination date.

Administrative Expenses

Certain administrative expenses of the Plan, including custodial fees, recordkeeping fees and accounting fees, have been paid by the Plan. Third party administrator fees have been paid by the Company. Fees related to the administration of notes receivable from participants are charged directly to the participant’s account and are included in administrative expenses. Investment related expenses are included in net depreciation in fair value of investments.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared on an accrual basis and present the net assets available for benefits and changes in those net assets. At December 31, 2016 and 2015, the Plan holds guaranteed investment contracts that are not fully benefit responsive and are reported at fair value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period and, when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note C for discussion on fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Dividends and interest are immediately reinvested in the individual investments. Net appreciation includes the plan's gains and losses on investments bought and sold as well as held during the year. Cost of securities sold is determined based upon specific identification of the asset.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

Participant Notes Receivable

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Contributions

Contributions to the Plan are recorded in the Plan year to which the contribution relates. Employee rollover contributions are recorded when received.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Recent Accounting Pronouncements

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient.* This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively, with early application permitted. Management has adopted parts I and II for the year ended December 31, 2016 and has been retrospectively applied. Part III is not applicable to the Plan.

Subsequent Events

The Plan has evaluated subsequent events through August 4, 2017, the date the financial statements were available to be issued.

NOTE C--FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Registered investment companies: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Investment contract with insurance company: Valued at the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. Fair value represents contract value adjusted to reflect current market interest rates only to the extent such market rates exceed crediting rates.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE C--FAIR VALUE MEASUREMENTS--Continued

The following table sets forth by level, within fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total

Total assets at fair value	$ 1,223,971	$ 17,867	$ -	$ 1,241,838

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Registered investment companies	$ 1,109,821	$ -	$ -	$ 1,109,821
Investment contract	-	8,565	-	8,565
Total assets at fair value	$ 1,109,821	$ 8,565	$ -	$ 1,118,386

NOTE D--CUSTODIAN CERTIFICATION

Certain information included in the financial statements regarding investments, interest and dividend income and the net appreciation in the fair value of investments and the information contained in the supplemental schedule was submitted to the plan administrator and certified to be complete and accurate by Great-West Life & Annuity Assurance Company for the years ended December 31, 2016 and 2015. Assets held by Great-West Life & Annuity Assurance Company as custodian as of December 31, 2016 include mutual funds of $1,223,971 and investment contracts with insurance company of $17,867. The certification also covers participant notes receivable of $48,897.

NOTE E--INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

Great-West Life & Annuity Assurance Company Investment Contracts

At December 31, 2016, the Plan holds an investment contract with Great-West Life & Annuity Assurance Company (Great-West). Great-West maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and specified interest rate that is guaranteed to the Plan.

As described in Note B, the guaranteed investment contract is not fully benefit-responsive. Fair value of the investment contract, prior to contract termination, equals contract value. Fair value of the investment contract is calculated using a discounted cash flow valuation methodology where the interest rate for the portfolio investment contract is reset at least as frequently as annually. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. Interest crediting rate is reset quarterly.

NOTE E--INVESTMENT CONTRACTS WITH INSURANCE COMPANIES--Continued

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan's prohibition on completing investment options, (3) bankruptcy of the plan sponsor or other plan sponsor events that cause a significant withdrawal from the Plan, or (4) the failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The average yield earned by the Plan for the benefit responsive fund can be derived by averaging the quarterly gross interest rates for the fund over the year. The average yield for the year ended December 31, 2016 was 1.16%.

The actual average yield earned by the Plan for the benefit responsive fund can be derived by averaging the Plan's quarterly interest rates. The actual average yield earned for the year ended December 31, 2016 was 1.16%.

NOTE F--INCOME TAX STATUS

Care & Comfort has adopted a volume submitter 401(k) profit sharing plan sponsored by Downeast Pension Services, Inc. The Internal Revenue Service issued an opinion letter for the non-standardized plan on March 31, 2014 stating that the plan is acceptable under Section 401(a) of the Internal Revenue Code. The plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

NOTE G--PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

NOTE H--PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by Great-West Life & Annuity Assurance Company. Great-West Life & Annuity Assurance Company is the custodian as defined by the Plan. Downeast Pension Services, Inc. is the third party administrator of the Plan. These transactions qualify as exempt party-in-interest transactions.

Certain employees and officers of the Company, who may also be participants in the Plan, perform administrative services to the Plan at no cost to the Plan.

NOTE I--DIFFERENCES WITH FORM 5500

Certain amounts included in the Statement of Changes in Net Assets Available for Benefits are classified differently in the financial statements than in the Form 5500.
