SGI, INC.
401(K) PROFIT SHARING PLAN

Notes to Financial Statements
For the Year Ended December 31, 2016

1. Plan Description

The following description of the SGI, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1997 as a defined-contribution plan covering substantially all employees of SGI, Inc. and its subsidiaries: A-Mark Precious Metals, Inc., Bowers and Merena Auctions, LLC, HR Harmer Nutmeg Auctions, Inc., Greg Martin Auctions, Inc., Spectrum Auction Services, Spectrum Numismatics International, Inc., Collateral Finance Corporation, Teletrade, Inc., and Spectrum Wine Auctions, LLC (collectively, the "Plan Sponsor" or the "Company"), and has been amended and restated effective March 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was most recently amended effective January 1, 2012 to exclude certain types of payments to employees from the definition of compensation.

Eligibility

Substantially all employees of the Company who reach the age of 21 and complete three months of service become eligible to participate in the Plan. Employees covered by a collective bargaining agreement are excluded from participation in the Plan if the agreement was subject to negotiations through which retirement benefits were the subject of good faith bargaining. However, if the agreement provides for participation in the Plan, employees covered by the agreement are eligible to participate in the Plan.

Contributions

Participants may contribute up to 90 percent of eligible compensation for the year up to the statutory limit. In addition, if the individual's age is 50 or over during the calendar year, then the employee may be permitted to make an additional catch-up contribution of 100 percent of the participant's compensation up to the statutory limit. Eligible participants are automatically enrolled in the Plan and begin contributing at 3 percent of eligible compensation as defined in the Plan. During each pay period, the Company contributes a matching contribution of 30 percent on the first 60 percent of a participant's compensation, which is contributed as an elective deferral. For the year ended December 31, 2016, the Company made matching contributions totaling $114,650 to the Plan. The Company may also contribute an additional profit sharing amount annually, subject to certain statutory limits, which the Company determines at its discretion. No such contributions were made to the Plan for the year ended December 31, 2016.

1. Plan Description (continued)

Participant Investment Options

Participants must direct their contributions from salary deferrals and their allocated share of employer contributions into investment options as made available and determined by the Plan Sponsor, which are more fully described in the Plan's literature.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, investment earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Effective March 1, 2010, participants are immediately vested in their voluntary contributions, Company matching contributions and nonelective contributions. Previously, Company matching contributions and nonelective contributions became fully vested after completion of one year of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts in amounts ranging from $500 to $50,000, but not in excess of 50 percent of the vested account balance. Notes are repaid at a reasonable rate of interest through payroll deductions within five years or, in the event the note is used to acquire a principal residence, at a term not to exceed 30 years from the date of the note. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of Benefits

Upon termination of service, a participant may elect to receive benefits in a lump-sum distribution on an installment basis, receive a rollover of the vested interest into another qualified plan, or defer receipt to a date no later than that prescribed by government regulation. Account withdrawals are permitted by participants who suffer certain financial hardships and meet criteria established by the IRC. Terminated participants with vested account balances of $5,000 or less can be paid in a lump-sum cash amount.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States ("GAAP").

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lower priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification ("ASC") 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

2. Summary of Accounting Policies (continued)

Fair Value Measurements (continued)

The Plan's valuation methodology used to measure the fair value of registered investment companies (mutual funds) is based on quoted market prices. The investment in money market fund is stated at estimated fair value, as determined by the Plan Sponsor. The common collective trust funds are valued based primarily on the net asset value ("NAV") of underlying securities that have observable inputs, including quoted prices for similar assets in active or inactive markets. There have been no changes in the methodology used at December 31, 2016 and 2015.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income Recognition

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued daily. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

2. Summary of Accounting Policies (continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The plan administrator has evaluated subsequent events through September 12, 2017, the date the financial statements were available to be issued.

Recent Accounting Pronouncements

The Plan early adopted ASU No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities* during 2015. The amendment removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendment also removed the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The adoption did not have any material effect on the Plan's financial statements.

The Plan early adopted ASU No. 2015-12, *Plan Accounting* during 2015. The amendment eliminated certain requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. The adoption did not have any material effect on the Plan's financial statements.

3. Assets and Information Certified or Provided by Reliance Trust Company and Reliance Financial Corporation and State Street Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Reliance Trust Company and Reliance Financial Corporation ("Reliance") or State Street Bank and Trust Company ("State Street") and furnished to the plan administrator. During the year ended December 31, 2016, the Plan changed trustees from State Street to Reliance. The plan administrator has obtained certification from Reliance and State Street that information provided to the plan administrator by Reliance and State Street related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule. Additionally, the following sets forth, by level in the fair value hierarchy, the Plan's assets at fair value at December 31, 2016 and 2015.

	December 31, 2016			
	Total	**Level 1**	**Level 2**	**Level 3**
Money market	$ 460,621	$ 460,621	$ -	$ -
Registered investment companies	4,132,148	4,132,148	-	-
Total investments, at fair value	4,592,769	$ 4,592,769	$ -	$ -
Common/collective trusts	694,415			
Total investments	$ 5,287,184			

	December 31, 2015			
	Total	**Level 1**	**Level 2**	**Level 3**
Money market	$ 389,949	$ 389,949	$ -	$ -
Registered investment companies	3,863,680	3,863,680	-	-
Total investments, at fair value	4,253,629	$ 4,253,629	$ -	$ -
Common/collective trusts	536,507			
Total investments	$ 4,790,136			

There were no transfers in or out of Level 1, 2 or 3 during the years ended December 31, 2016 or 2015. The nature, risks and investment objectives of the investment categories described in the tables above can be found in the Plan's enrollment literature.

3. Assets and Information Certified or Provided by Reliance Trust Company and Reliance Financial Corporation and State Street Bank and Trust Company (continued)

Reliance also certified the completeness and accuracy of $222,692 of net appreciation on registered investment companies, $108,888 of net investment income from common/collective trusts, $129,106 of interest and dividends related to the Plan assets and $4,747 of interest from notes receivable from participants for the year ended December 31, 2016.

4. Tax Status

Effective March 1, 2010, the Plan adopted a nonstandardized form of a prototype plan sponsored by Automatic Data Processing. The prototype plan has received an opinion letter from the Internal Revenue Service, dated March 31, 2008, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has since been amended; however, the plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan administrator believes that the Plan has taken no uncertain tax positions that require adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2013.

5. Related-Party Activity

Certain administrative functions are performed by employees of the Company. No such officer or employee receives compensation from the Plan. The majority of the administrative expenses are paid by the Plan Sponsor. Notes receivable from participants and the related interest income of $4,747 are also considered related-party transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA and discontinue its contributions at any time. In the event of Plan termination, participants would become 100 percent vested in their accounts.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31, 2016	December 31, 2015

SGI, INC.
401(K) PROFIT SHARING PLAN

Notes to Financial Statements
For the Year Ended December 31, 2016

1. Plan Description

The following description of the SGI, Inc. 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General

The Plan was adopted on January 1, 1997 as a defined-contribution plan covering substantially all employees of SGI, Inc. and its subsidiaries: A-Mark Precious Metals, Inc., Bowers and Merena Auctions, LLC, HR Harmer Nutmeg Auctions, Inc., Greg Martin Auctions, Inc., Spectrum Auction Services, Spectrum Numismatics International, Inc., Collateral Finance Corporation, Teletrade, Inc., and Spectrum Wine Auctions, LLC (collectively, the "Plan Sponsor" or the "Company"), and has been amended and restated effective March 1, 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was most recently amended effective January 1, 2012 to exclude certain types of payments to employees from the definition of compensation.

Eligibility

Substantially all employees of the Company who reach the age of 21 and complete three months of service become eligible to participate in the Plan. Employees covered by a collective bargaining agreement are excluded from participation in the Plan if the agreement was subject to negotiations through which retirement benefits were the subject of good faith bargaining. However, if the agreement provides for participation in the Plan, employees covered by the agreement are eligible to participate in the Plan.

Contributions

Participants may contribute up to 90 percent of eligible compensation for the year up to the statutory limit. In addition, if the individual's age is 50 or over during the calendar year, then the employee may be permitted to make an additional catch-up contribution of 100 percent of the participant's compensation up to the statutory limit. Eligible participants are automatically enrolled in the Plan and begin contributing at 3 percent of eligible compensation as defined in the Plan. During each pay period, the Company contributes a matching contribution of 30 percent on the first 60 percent of a participant's compensation, which is contributed as an elective deferral. For the year ended December 31, 2016, the Company made matching contributions totaling $114,650 to the Plan. The Company may also contribute an additional profit sharing amount annually, subject to certain statutory limits, which the Company determines at its discretion. No such contributions were made to the Plan for the year ended December 31, 2016.

1. Plan Description (continued)

Participant Investment Options

Participants must direct their contributions from salary deferrals and their allocated share of employer contributions into investment options as made available and determined by the Plan Sponsor, which are more fully described in the Plan's literature.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, investment earnings and administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Effective March 1, 2010, participants are immediately vested in their voluntary contributions, Company matching contributions and nonelective contributions. Previously, Company matching contributions and nonelective contributions became fully vested after completion of one year of service.

Notes Receivable from Participants

Participants may borrow from their fund accounts in amounts ranging from $500 to $50,000, but not in excess of 50 percent of the vested account balance. Notes are repaid at a reasonable rate of interest through payroll deductions within five years or, in the event the note is used to acquire a principal residence, at a term not to exceed 30 years from the date of the note. Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document.

Payment of Benefits

Upon termination of service, a participant may elect to receive benefits in a lump-sum distribution on an installment basis, receive a rollover of the vested interest into another qualified plan, or defer receipt to a date no later than that prescribed by government regulation. Account withdrawals are permitted by participants who suffer certain financial hardships and meet criteria established by the IRC. Terminated participants with vested account balances of $5,000 or less can be paid in a lump-sum cash amount.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in conformity with accounting principles generally accepted in the United States ("GAAP").

Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lower priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under Accounting Standards Codification ("ASC") 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

2. Summary of Accounting Policies (continued)

Fair Value Measurements (continued)

The Plan's valuation methodology used to measure the fair value of registered investment companies (mutual funds) is based on quoted market prices. The investment in money market fund is stated at estimated fair value, as determined by the Plan Sponsor. The common collective trust funds are valued based primarily on the net asset value ("NAV") of underlying securities that have observable inputs, including quoted prices for similar assets in active or inactive markets. There have been no changes in the methodology used at December 31, 2016 and 2015.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Income Recognition

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued daily. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported on the average cost method. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

2. Summary of Accounting Policies (continued)

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The plan administrator has evaluated subsequent events through September 12, 2017, the date the financial statements were available to be issued.

Recent Accounting Pronouncements

The Plan early adopted ASU No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities* during 2015. The amendment removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendment also removed the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The adoption did not have any material effect on the Plan's financial statements.

The Plan early adopted ASU No. 2015-12, *Plan Accounting* during 2015. The amendment eliminated certain requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation for investments by general type. The adoption did not have any material effect on the Plan's financial statements.

3. Assets and Information Certified or Provided by Reliance Trust Company and Reliance Financial Corporation and State Street Bank and Trust Company

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by Reliance Trust Company and Reliance Financial Corporation ("Reliance") or State Street Bank and Trust Company ("State Street") and furnished to the plan administrator. During the year ended December 31, 2016, the Plan changed trustees from State Street to Reliance. The plan administrator has obtained certification from Reliance and State Street that information provided to the plan administrator by Reliance and State Street related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule. Additionally, the following sets forth, by level in the fair value hierarchy, the Plan's assets at fair value at December 31, 2016 and 2015.

	December 31, 2016			
	Total	**Level 1**	**Level 2**	**Level 3**
Money market	$ 460,621	$ 460,621	$ -	$ -
Registered investment companies	4,132,148	4,132,148	-	-
Total investments, at fair value	4,592,769	$ 4,592,769	$ -	$ -
Common/collective trusts	694,415			
Total investments	$ 5,287,184			

	December 31, 2015			
	Total	**Level 1**	**Level 2**	**Level 3**
Money market	$ 389,949	$ 389,949	$ -	$ -
Registered investment companies	3,863,680	3,863,680	-	-
Total investments, at fair value	4,253,629	$ 4,253,629	$ -	$ -
Common/collective trusts	536,507			
Total investments	$ 4,790,136			

There were no transfers in or out of Level 1, 2 or 3 during the years ended December 31, 2016 or 2015. The nature, risks and investment objectives of the investment categories described in the tables above can be found in the Plan's enrollment literature.

3. Assets and Information Certified or Provided by Reliance Trust Company and Reliance Financial Corporation and State Street Bank and Trust Company (continued)

Reliance also certified the completeness and accuracy of $222,692 of net appreciation on registered investment companies, $108,888 of net investment income from common/collective trusts, $129,106 of interest and dividends related to the Plan assets and $4,747 of interest from notes receivable from participants for the year ended December 31, 2016.

4. Tax Status

Effective March 1, 2010, the Plan adopted a nonstandardized form of a prototype plan sponsored by Automatic Data Processing. The prototype plan has received an opinion letter from the Internal Revenue Service, dated March 31, 2008, as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan has since been amended; however, the plan administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the applicable authorities. The Plan administrator believes that the Plan has taken no uncertain tax positions that require adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2013.

5. Related-Party Activity

Certain administrative functions are performed by employees of the Company. No such officer or employee receives compensation from the Plan. The majority of the administrative expenses are paid by the Plan Sponsor. Notes receivable from participants and the related interest income of $4,747 are also considered related-party transactions.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA and discontinue its contributions at any time. In the event of Plan termination, participants would become 100 percent vested in their accounts.

7. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31, 2016	December 31, 2015
