1. DESCRIPTION OF THE PLAN:

The following description of the PNG Telecommunications, Inc. 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan documents for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees of PNG Telecommunications, Inc. (the Company or Employer). To be eligible to participate in the Plan an individual must have completed two months of service with the Company and attained the age of eighteen. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Trustees.

Contributions

Participants may elect to contribute pre-tax elective and Roth deferrals up to the maximum amounts allowed by law. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 2% of eligible compensation and their contributions invested in a designated balanced fund until changed by the participant. Effective January 1, 2016, the Company matching contribution was 25% on the first 6% of eligible compensation. The match is discretionary. The Company may also make additional discretionary profit sharing contributions. The Company made no discretionary profit sharing contributions for 2016. Contributions are subject to certain IRS limitations.

Participant accounts

A participant's account is credited with the participant's contributions and Company matching contributions as well as Plan earnings. Participant accounts may also be charged with an allocation of certain administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the vested amount that is in such participant's account at any given time.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. A participant is 100% vested after five years of credited service.

Notes receivable from participants

A participant may borrow from their account a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate similar to commercial loans. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the vested value of his or her account or installments over a period of time. Upon termination of employment for other reasons, participants may elect to rollover the vested balance to another qualified plan or take a lump sum.

Upon termination, participants whose accounts that do not exceed \$5,000 will be rolled over to an Individual Retirement Account (IRA) if a distribution is not requested. Those with balances greater than \$5,000 may elect to leave their funds in the Plan or choose other options.

In-service distributions are permissible from the Plan for participants that have obtained the age of 59 1/2. Participants electing in-service distributions may elect to receive all or a portion of their vested benefits in a lump sum payment.

In conditions of "financial hardship", a participant may apply to the plan administrator for approval to withdraw that portion of their elective deferrals necessary to meet the financial hardship, subject to the limitations of the Plan and the Code.

Forfeited accounts

At December 31, 2016 and 2015, forfeited non-vested accounts totaled \$1,533 and \$1,547, respectively. These accounts may first be used to offset future employer contributions and next to pay Plan expenses. In 2016, forfeitures in the amount of \$10,488 were used to reduce employer contributions and \$2,290 was used to reduce expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the plan.

Use of estimates

The presentation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures of contingent assets and liabilities. Actual results may differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded on the basis of the terms of the Plan agreement.

Payment of benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly to the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payment of benefits are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Accounting changes

Recently issued accounting pronouncements—The Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-12, "Plan Accounting: Defined Contribution Pension Plans (Topic 962): (Part 1) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, and (Part III) Measurement Date – Practical Expedient." ASU 2015-12 simplifies disclosures and reporting by employee benefit plans. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with earlier adoption permitted. The Plan elected to early adopt Part II of ASU 2015-12 in 2015; in 2016, the Plan adopted Part I of the ASU applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Additionally, the FASB issued ASU 2015-07, "Disclosures for Investments in Certain Entities that Calculate Net Asset Value Per Share (or Its Equivalent)." ASU 2015-07 simplifies disclosures and reporting on investments valued at net asset value as a practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2016, with earlier adoption permitted. The Plan has elected to early adopt ASU 2015-07, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Reclassification

Certain amounts in the 2015 financial statements have been reclassified to conform to the 2016 presentation.

Subsequent events

The Plan has evaluated subsequent events through the report date, the date the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN:

The Plan management has elected the method of compliance permitted by 29 CFR2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Reliance Trust Company, the custodian, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2016 and 2015, and the supplemental schedule of assets (held at end of year) as of December 31, 2016; the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2016.

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There has been no change in the methodology used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015.

Assets at fair value measurements as of December 31, 2016

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Assets at NAV</u>	<u>Total</u>
Investments at fair value					
Mutual funds	\$ 4,380,811	-	-	-	4,380,811

Assets at fair value measurements as of December 31, 2015

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Assets at NAV</u>	<u>Total</u>
Investments at fair value					
Mutual funds	\$ 4,164,222	-	-	-	4,164,222

5. GUARANTEED INTEREST CONTRACT WITH STANDARD INSURANCE COMPANY:

The Plan maintains an investment in a traditional fully benefit-responsive guaranteed interest contract with Standard Insurance Company (Standard) totaling \$234,689 at December 31, 2016 and \$236,605 at December 31, 2015. The Standard maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The crediting rate is reviewed on a quarterly basis for resetting. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Standard, represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, (5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at contract value with participants.

In addition, certain events allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Such events include (1) an uncured violation of the Plan's investment guidelines, (2) a breach of material obligation under the contract, (3) a material misrepresentation, (4) a material amendment to the agreement without consent of the issuer.

6. RELATED PARTY TRANSACTIONS:

Certain Plan investments are managed by The Standard. The Standard is the Plan's record keeper and Reliance Trust is the custodian as defined by the Plan; therefore these transactions qualify as party in interest transactions. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Company provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan. If the Plan is terminated, participants will become 100 percent vested in their accounts, to the extent they are not already vested.

8. INCOME TAX STATUS:

The sponsor of the prototype plan document for the Plan obtained its latest opinion letter from the Internal Revenue Service (IRS) on March 31, 2014, stating that the Plan and related trust, as then designed, was in accordance with applicable sections of the Code. The Plan has been amended since receiving the opinion letter. The Plan itself has not received a determination letter from the IRS. However, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

9. RISK AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
