NOTE A - DESCRIPTION OF PLAN

The following description of the Abercrombie and Kent USA, LLC 401(k) Savings & Benefit Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of Abercrombie and Kent USA, LLC (the Company) who have completed 30 days of service. Employees are allowed to enter the Plan after completion of 30 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

BMO Financial Group (BMO) was the trustee as defined by the Plan until September 30, 2016. Great-West Trust Company LLC (Great West) became the asset custodian effective October 1, 2016. Empower Retirement (an affiliated entity of Great West) was designated as recordkeeper on October 1, 2016.

Contributions

Participants may contribute a percentage of their pretax annual compensation, as defined in the Plan agreement. Participants who have reached age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Effective April 1, 2015, the Plan was amended to begin auto enrollment. Entrants into the Plan begin deferring at 6% unless an election is made to modify this election.

The Company will make a matching contribution in an amount equal to $0.50 for each $1.00 contributed by a participant, up to a maximum of 6% of the participant's eligible compensation, as defined. The Company may also make discretionary non-elective contributions. The Company contributions are invested as directed by the participant. The Company made no discretionary non-elective contributions in 2016 and 2015. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's and the Company's matching contributions and an allocation of the Company's discretionary non-elective contributions, if any, and Plan earnings. Earnings are allocated by fund based on the ratio of a participant's account invested in a particular fund to all participants' investments in that fund. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the Company's contribution portion of participants' accounts is based on years of service. A participant becomes 0% vested after one year of service, 40% after two years of service, 60% after three years of service, 80% after

four years of service and 100% vested after five years of service. However, if an active participant dies prior to attaining the normal retirement age, the participant's account becomes 100% vested.

Benefit Payments

Upon termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the vested portion of his or her account, a distribution in the form of an annuity or installment payments.

Notes Receivable from Participants

Participants may borrow up to a maximum of $50,000 or 50% of the vested portion of their account balances, whichever is less. Loans are calculated on a fully amortized basis. A loan is collateralized by the balance in the participant's account and bears interest at a rate commensurate with market rates for similar loans, as defined. Principal and interest are paid ratably through payroll deductions.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

In general, the investments provided by the Plan are exposed to various risks, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan agreement.

Benefit Payments

Benefit payments are recorded when paid.

Forfeited Accounts

Forfeitures result from non-vested Company contributions remaining in the Plan from terminated employees in accordance with the Plan agreement. Forfeitures are available to pay Plan expenses, which would be otherwise payable by the Company, or to offset Company contributions. At December 31, 2016 and 2015, there was a forfeiture balance of approximately $5,800 and $21,000, respectively. During 2016, $15,200 of forfeitures were used by the Company to offset Company contributions.

Administrative Expenses

The Plan pays for management, loan, distribution and consulting fees. All other fees are paid by the Company.

NOTE C – GROUP ANNUITY CONTRACT

The Plan has a group annuity contract with Great-West Life & Annuity Insurance Company (Great-West) that invests contributions in the Key Guaranteed Portfolio Fund. The Key Guaranteed Portfolio Fund is a general account product. The methodology for calculating the interest crediting rate is based on the earnings of the underlying assets in the entire medium-long term new portfolio compared to the minimum interest crediting rate, as stated in the contract, and prevailing market conditions. The interest crediting rate is reset quarterly. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses.

Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest is based on a formula agreed upon with the issuer but may not be less than 0%. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following:

- Amendments to the Plan document (including complete or partial Plan termination or merger with another plan),
- Changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions,
- Bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan or
- The failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

NOTE D - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures,* provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The valuation inputs for the three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

However, the determination of what constitutes observable requires judgment by the Plan's management. Plan management considers observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by multiple independent sources that are actively involved in the relevant market.

The categorization of an investment within the fair value hierarchy is based on the transparency of the investment and does not necessarily correspond to Plan management's perceived risk of that investment. The following is a description of the valuation methodologies used to measure assets at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds - Mutual funds are traded in active markets and are valued based on quoted NAV of shares held by the Trust investment accounts

Collective trust - Valued at the NAV provided by the administrator of the fund. The NAV is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying asset held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Redemptions are permitted daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31:

	2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$12,767,232	$ -	$ -	$12,767,232
Total assets in fair value hierarchy	$12,767,232	$ -	$ -	$12,767,232

	2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$11,441,058	$ -	$ -	$11,441,058
Total assets in fair value hierarchy	$11,441,058	$ -	$ -	11,441,058
Investments valued at NAV				1,634,343
Investments at fair value				$13,075,401

NOTE E - RELATED-PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by BMO until September 30, 2016, and Great-West thereafter. BMO was the trustee and Great-West is the current custodian as defined by the Plan; therefore, these transactions qualify as related-party transactions under ERISA.

NOTE F - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTE G - TAX STATUS

The Plan is a Prototype Nonstandardized Profit Sharing/Thrift Plan with a 401(k) Feature (Prototype Plan) sponsored by Great West. The Prototype Plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service (IRS) stated that the Prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has not requested its own determination letter from the IRS. The Plan administrator believes that the Plan is currently designed and being operated in compliance in all material respects with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was qualified and that the related trust was tax-exempt as of the financial statement dates.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the U.S. federal, state and local taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE H - INFORMATION PROVIDED BY THE TRUSTEE/CUSTODIAN

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, BMO and Great-West has certified that the following information included in the financial statements and supplemental schedules is complete and accurate:

- Investments, notes receivable from participants, and accrued interest, as shown in the statements of net assets available for benefits as of December 31, 2016 and 2015.

- Investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2016.

- Schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2016.

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

NOTE I - SUBSEQUENT EVENTS

Plan management evaluated the Plan's December 31, 2016, financial statements for subsequent events through July 14, 2017, the date the financial statements were available to be issued. There are no subsequent events that require recognition or additional disclosure in these financial statements.
