Behr Dayton Retirement Savings Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description

The following description of Behr Dayton Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan covering all eligible full-time and part-time employees of MAHLE Behr Dayton, LLC (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective as of July 1, 2015, the Plan was amended and restated to include the former employees of Delphi Thermal Systems who belong to Local 87L of The United Steel, Paper and Forestry, Rubber, Manufacturing, Energy, Allied Industrial and Service Workers International Unions (Local 87L).

Contributions - The Plan provides for employee salary 401(k) contributions up to a maximum of 60 percent of the annual compensation subject to maximum tax-deferred limitations established by the Internal Revenue Code (the "Code"). Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Employer matching contributions for certain qualified participants are calculated as 100 percent of employee contributions up to 2 percent of a participant's eligible compensation. Participants must be employed by the Company on the last day of the plan year, a member of a qualified union, and enrolled in the Plan to be credited with any employer contributions.

Effective July 1, 2015, the Plan was restated to include nonelective employer contributions for eligible employees of Local 87L, regardless of whether they choose to contribute to the Plan. Members of Local 87L hired on or after January 1, 2015 with at least six months of service receive an employer contribution calculated as 7 percent of compensation. In addition, certain Local 87L employees that were active at Delphi Thermal Systems Vandalia Operations as of January 2, 2005 are eligible to receive an additional fixed contribution of \$0.18 for each hour worked during the contribution period.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Behr Dayton Retirement Savings Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in employee salary, income savings nonelective contribution, and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in employer matching contributions 20 percent after two years of service, 40 percent after three years of service, and 66 percent after four years of service until they become fully vested after five years of service. Participants become fully vested in the 7 percent nonelective contribution after three years of service.

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. In-service distributions can be received while a participant is still actively employed if the participant has either reached age 59½ or is eligible to receive a hardship distribution.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, subject to provisions of the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited upon distribution or after five years of break in service. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of 50 percent of their vested account balance, not to exceed \$50,000. Notes receivable are collateralized by the participant's account balance and bear interest at a reasonable interest rate.

Transfers - Participants in the Behr Retirement Savings Plan (a related plan) who become an employee of the Company may have their account balance transferred to the Plan. Participants in the Plan who become an employee of MAHLE Behr USA, Inc. (f/k/a Behr America, Inc.) may have their participant account balance transferred to the Behr Retirement Savings Plan. In 2016 and 2015, the Plan had \$2,802,397 and \$94,343, respectively, in transfers out to the Behr Retirement Savings Plan.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Behr Dayton Retirement Savings Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company (Fidelity) or its affiliates. Fidelity is the custodian of the Plan; therefore, these transactions, as well as participant notes receivable, qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 25, 2017, which is the date the financial statements were available to be issued.

Behr Dayton Retirement Savings Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 3 - Unaudited Information

In 2016, the Plan changed trustees, from T. Rowe Price Trust Company to Fidelity Management Trust Company (collectively, the "Trustees"). The Trustees of the Plan held the Plan's investments and participant notes receivable and executed all related transactions during the periods under audit. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustees.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2016 and 2015.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Behr Dayton Retirement Savings Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 4 - Fair Value Measurements (Continued)

Common Collective Trust Fund - The common collective trust funds are valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. There were no unfunded commitments or redemption restrictions on these investments.

Pooled Separate Account - The pooled separate account is valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the fund's underlying assets. There were no unfunded commitments or redemption restrictions on the investment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2016

	Investments (at Fair Value)	Level I
Mutual funds	\$ 10,598,382	<u>\$ 10,598,382</u>
Investments measured at NAV - Pooled separate account - Stable value fund	<u>1,350,695</u>	
Total investments at fair value	<u>\$ 11,949,077</u>	

Assets Measured at Fair Value on a Recurring Basis at December 31, 2015

	Investments (at Fair Value)	Level I
Mutual funds	\$ 12,440,688	<u>\$ 12,440,688</u>
Investments measured at NAV - Common collective trust fund - Stable value fund	<u>1,882,346</u>	
Total investments at fair value	<u>\$ 14,323,034</u>	

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of end of the reporting period. There were no transfers between levels in the hierarchy in 2016 and 2015.

Behr Dayton Retirement Savings Plan

Notes to Financial Statements December 31, 2016 and 2015

Note 5 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 6 - Reconciliation to Form 5500

Members of Local 87L hired on or after January 1, 2015 with at least six months of service receive an employer contribution calculated as 7 percent of compensation. In addition, certain Local 87L employees that were active at Delphi Thermal Systems Vandalia Operations as of January 2, 2005 are eligible to receive an additional fixed contribution of \$0.18 for each hour worked during the contribution period.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Notes to Financial Statements December 31, 2016 and 2015

Note I - Plan Description (Continued)

Vesting - Participants are immediately 100 percent vested in employee salary, income savings nonelective contribution, and rollover contributions and any income or loss thereon. Vesting in the Company's contribution portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in employer matching contributions 20 percent after two years of service, 40 percent after three years of service, and 66 percent after four years of service until they become fully vested after five years of service. Participants become fully vested in the 7 percent nonelective contribution after three years of service.

Benefit Payments - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account. In-service distributions can be received while a participant is still actively employed if the participant has either reached age 59½ or is eligible to receive a hardship distribution.

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, subject to provisions of the plan document. The Company must approve any such hardship withdrawals.

Forfeitures - If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited upon distribution or after five years of break in service. Forfeitures are used to reduce future company contributions or to pay administrative expenses of the Plan.

Participant Notes Receivable - Participants may borrow from their accounts a minimum of \$1,000 up to a maximum of 50 percent of their vested account balance, not to exceed \$50,000. Notes receivable are collateralized by the participant's account balance and bear interest at a reasonable interest rate.

Transfers - Participants in the Behr Retirement Savings Plan (a related plan) who become an employee of the Company may have their account balance transferred to the Plan. Participants in the Plan who become an employee of MAHLE Behr USA, Inc. (f/k/a Behr America, Inc.) may have their participant account balance transferred to the Behr Retirement Savings Plan. In 2016 and 2015, the Plan had \$2,802,397 and \$94,343, respectively, in transfers out to the Behr Retirement Savings Plan.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100 percent vested in their account balances.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Fidelity Management Trust Company (Fidelity) or its affiliates. Fidelity is the custodian of the Plan; therefore, these transactions, as well as participant notes receivable, qualify as party-in-interest transactions as defined under ERISA guidelines.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Participant Notes Receivable - Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Benefit Payments - Benefits are recorded when paid.

Administrative Expenses - Various administrative costs are paid by the Company.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including August 25, 2017, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

In 2016, the Plan changed trustees, from T. Rowe Price Trust Company to Fidelity Management Trust Company (collectively, the "Trustees"). The Trustees of the Plan held the Plan's investments and participant notes receivable and executed all related transactions during the periods under audit. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by the Trustees.

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2016 and 2015.

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Note 4 - Fair Value Measurements (Continued)

Common Collective Trust Fund - The common collective trust funds are valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. There were no unfunded commitments or redemption restrictions on these investments.

Pooled Separate Account - The pooled separate account is valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the fund's underlying assets. There were no unfunded commitments or redemption restrictions on the investment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2016

	Investments (at Fair Value)	Level I
Mutual funds	\$ 10,598,382	<u>\$ 10,598,382</u>
Investments measured at NAV - Pooled separate account - Stable value fund	<u>1,350,695</u>	
Total investments at fair value	<u>\$ 11,949,077</u>	

Assets Measured at Fair Value on a Recurring Basis at December 31, 2015

	Investments (at Fair Value)	Level I
Mutual funds	\$ 12,440,688	<u>\$ 12,440,688</u>
Investments measured at NAV - Common collective trust fund - Stable value fund	<u>1,882,346</u>	
Total investments at fair value	<u>\$ 14,323,034</u>	

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of end of the reporting period. There were no transfers between levels in the hierarchy in 2016 and 2015.
