Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the certified investment information described in Note 7, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the entity that certified the investment information meets the requirements of 29 CFR 2520.103-8. The plan administrator has obtained certifications as of December 31, 2016 and 2015, and for the years then ended, stating that the investment information provided to the plan administrator is complete and accurate.

Disclaimer of Opinion on Financial Statements

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Compliance of Form and Content With Department of Labor's Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the certified investment information, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

December 31, 2016

1. Description of the Plan

The following description of the Schneider Electric USA, Inc. Coordinated Bargaining Employees' Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the plan document for more complete information.

General

The Plan, established on January 1, 1996, is a non-contributory, defined benefit pension plan that provides retirement benefits for hourly paid employees of Schneider Electric USA, Inc. (the Company) under certain collective bargaining units. The Plan was closed to new hires on or after October 3, 2011.

The Schneider Electric Benefits Committee of the Company controls and manages the operation and administration of the Plan. State Street Bank and Trust Company (the Trustee) serves as trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

The Plan's investment assets are held in a trust account and consist of an undivided interest in an investment account of the Schneider Electric USA, Inc. Common Trust (the Master Trust), a master trust established by the Company and administered by the Trustee.

Effective September 15, 2014, the Plan was amended such that no participant will accrue additional benefit service after December 31, 2015 (the Freeze Date).

On August 2, 2016, the Plan was amended and began notifying certain eligible participants of an offer to pay those individuals' pension benefits in a lump sum or immediate annuity. Individuals eligible for this voluntary payment option were generally participants who terminated employment on or prior to May 31, 2016, were entitled to a future benefit, and had not commenced receipt of their pension benefit as of October 31, 2016. The 2016 lump-sum payments amounted to approximately \$20 million. The accumulated benefit obligation disclosed in Note 5 does not reflect the impact of this amendment.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Pension Benefits

Under the Plan, employees retiring at their normal retirement date are entitled to defined retirement benefits as specified in the plan document. Covered employees with five or more years of vesting service become fully vested in the Plan and are eligible for pension benefits upon attainment of retirement age or any time after age 55 with 10 or more years of vesting service.

The amount of benefits to be provided at the time of retirement depends upon an employee's years of benefit service and the pension rate in effect on the date of termination. The Plan provides for normal retirement, early retirement, disability retirement, family death benefits, deferred retirement, and spouse's death benefits.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Valuation of Investments and Income Recognition

The Plan's investments are held in the Master Trust and are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (exit price). See Note 8 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Administrative Expenses

The Plan pays most of its administrative expenses. All other administrative expenses of the Plan are paid by the Company. The Plan's sponsor provides accounting and other administrative services to the Plan at no charge.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 5) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to services rendered by the employees to the Freeze Date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries. Benefits payable under all circumstances — retirement, death, disability, and termination of employment — are included to the extent they are deemed attributable to employee services rendered to the valuation date.

New Accounting Pronouncement

In February 2017, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) 2017-06, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): Employee Benefit Plan Master Trust Reporting*. ASU 2017-06 requires a plan to present its interest in a master trust and the change in that interest in separate line items on the statement of net assets available for benefits and on the statement of changes in net assets available for benefits, respectively. It also requires a plan to disclose the master trust's investments and other assets and liabilities, as well as the dollar amount of its interest in these balances. ASU 2017-06 eliminates the requirement for a health and welfare plan to provide investment disclosures for 401(h) account assets. ASU 2017-06 is effective for entities for fiscal years beginning after December 15, 2018, with retrospective application to all periods presented. Early application is permitted. Management has elected not to adopt ASU 2017-06 early.

Schneider Electric USA, Inc.
Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

3. Funding Policy

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts as determined by the Plan's independent actuary. The Company met the minimum funding requirements of ERISA for the years ended December 31, 2016 and 2015. The Company made contributions of \$13,650,000 and \$12,000,000 for 2016 and 2015, respectively.

4. Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances and subject to bargaining with the collective bargaining units representing employees covered by the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

Should the Plan terminate at some future time, its net assets generally will not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Schneider Electric USA, Inc.
Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

5. Accumulated Plan Benefits

An independent actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The accumulated plan benefit information is as follows:

	December 31, 2015
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants and beneficiaries currently receiving payments	\$ 225,777,923
Other participants	90,977,712
Non-vested benefits	5,724,232
	<u>\$ 322,479,867</u>

The changes in accumulated plan benefits are as follows:

Accumulated plan benefits – December 31, 2014	\$ 323,584,770
Changes during the year attributable to:	
Benefits accumulated and actuarial gains	322,855
Benefits paid	(21,959,513)
Increase for interest	19,361,356
Assumptions	1,170,399
Net decrease	<u>(1,104,903)</u>
Accumulated plan benefits – December 31, 2015	<u>\$ 322,479,867</u>

Schneider Electric USA, Inc.
Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

5. Accumulated Plan Benefits (continued)

The significant actuarial assumptions used in the valuations were as follows:

Assumed rate of return	6.00%
Retirement age	Various rates ranging from 2.5% at age 55 to 100.0% at age 70
Life expectancy of participants	Conduent Modified MP – 2016 2014 – RP-2014, Buck Modified – MP-2016

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (the IRS) dated September 1, 2015, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. Subsequent to this determination by the IRS, the plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Schneider Electric USA, Inc.
Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

7. Master Trust

The investment in the Master Trust represents the Plan's undivided ownership of the net assets of the Master Trust, which have been accumulated through the Company's contributions and investment activity of the Master Trust, less benefit payments. Use of the Master Trust permits the commingling of trust assets with the assets of other defined benefit pension plans sponsored by the Company. Although assets of all plans are commingled in the Master Trust, the Trustee maintains supporting records for the purpose of allocating the net gain or loss of the investment account to the participating plans. The net investment income of the investment assets is allocated by the Trustee to each participating plan based on the relationship of the interest of each plan to the total of the interests of the participating plans.

All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2016 and 2015, and net appreciation (depreciation) in fair value of investments, interest, dividends, and investment expenses for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee.

At December 31, the investments of the Master Trust are summarized as follows:

	2016	2015
Investments, at fair value:		
Short-term investment funds	\$ 38,121,765	\$ 32,113,307
Private equity investment funds	54,931,012	63,695,595
Common/collective trust funds	1,050,186,832	1,103,865,667

Schneider Electric USA, Inc.
Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

7. Master Trust (continued)

The net investment gain of the Master Trust for the years ended December 31 is summarized as follows:

	<u>2016</u>	<u>2015</u>
Dividend and interest income	\$ 24,441,324	\$ 20,720,483
Net appreciation (depreciation) in fair value of investments	65,585,679	(16,191,209)
Other income	237,888	167,320
Net investment gain	<u>\$ 90,264,891</u>	<u>\$ 4,696,594</u>

8. Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in markets that are not active.
- Observable inputs other than quoted prices that are used in the valuation of the assets or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals).
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Schneider Electric USA, Inc.
Coordinated Bargaining Employees' Pension Plan

Notes to Financial Statements (continued)

8. Fair Value Measurements (continued)

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The following is a description of the valuation techniques and inputs used for each general type of investment measured at fair value:

Private equity investment funds: Valued at the net asset value (NAV) provided by the investment fund managers. The NAV is calculated using valuation models developed by the investment fund managers and independent third-party appraisals.

Common/collective trust funds: Valued at the NAV provided by the administrators of the funds. The NAV is based on underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding.

Short-term investment fund: Valued at cost, which represents fair value. This investment is a Level 1 investment for both years presented.

^(a) This category includes common/collective trust funds that are designed to produce a relatively high level of current income combined with moderate appreciation potential. This fund is primarily invested in real estate investments owned directly or through partnership interests and mortgage loans or income-producing real estate. A 45-day redemption notice is required to liquidate the fund. This category also includes a common/collective trust fund that is designed to generate a high level of total return through above-average current income while maintaining the potential for capital appreciation. This fund is primarily invested in equity securities of issuers whose value is derived from development, management, and market pricing of underlying real estate properties. There are no redemption restrictions to liquidate this fund.

^(b) This category includes common/collective trust funds that are designed to provide total return through investments in a diversified portfolio of investment-grade, fixed-income securities. This category also includes common/collective trust funds that are designed to provide total return through investments in a diversified portfolio of debt securities that are rated below investment grade or unrated. The redemption notice period is 15 business days (or such shorter period agreed to by the Trustee) for these funds. In normal functioning capital markets, generally there are no redemption restrictions to liquidate these funds.

^(c) This category includes common/collective trust funds that are designed to provide a diversified profile of equity securities and emphasis on capital appreciation over an extended period of time. The redemption notice period is 15 business days (or such shorter period agreed to by the Trustee) for these funds. In normal functioning capital markets, generally there are no redemption restrictions to liquidate these funds.

Notes to Financial Statements (continued)

8. Fair Value Measurements (continued)

- ^(d) This category includes limited partnership investments, which offer portfolio diversification along with higher expected long-term market returns. These investments are 7 to 19 years old. The private equity investments generally cannot be liquidated until the funds are fully terminated and distributed.

9. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities will occur in the near term and that such changes could materially affect the amounts reported on the statements of net assets available for benefits.

The Plan's contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

10. Party-in-Interest Transactions

The Master Trust holds units of common/collective trust funds in which State Street Bank and Trust Company, the Trustee, is a subadvisor or manager of these funds. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

11. Subsequent Events

Management has evaluated subsequent events through September 20, 2017, the date the accompanying financial statements were available to be issued.

EIN/PN: 36-2440683 / 203

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods

Prescribed Funding Assumptions and Methods

The following assumptions and methods are prescribed by ERISA, as amended by PPA, MAP-21, and HATFA.

Funding interest rates

For 2016 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.34%	4.43%
Second Segment Rate	4.03%	5.91%
Third Segment Rate	5.06%	6.65%
Effective Interest Rate Based on constrained rates		6.01%

For 2015 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.15%	4.72%
Second Segment Rate	4.06%	6.11%
Third Segment Rate	5.15%	6.81%
Effective Interest Rate Based on constrained rates		6.21%

* Used for maximum tax-deduction purposes

** Used for minimum funding and benefit restriction purposes.

Mortality

Mortality tables for non-disabled participants mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants. For disabled participants, mortality is based on Rev. Rule 96-97 Post 1994 Disabled Mortality.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative expenses to be paid from plan assets during the year.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (Continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan’s enrolled actuary. The asset valuation method was selected by the plan sponsor and is an acceptable method under PPA

Expenses

Expected plan administrative expenses of \$2,545,422 were added to the Target Normal Cost. The amount is based on the prior year’s administrative expenses (without PBGC premium) adjusted with an inflation rate of 2.0%, plus this year’s expected PBGC premiums payable from the plan.

Frequency of optional payment forms

The underlying assumption is that 55% of future retirees will choose the life only option, while the remaining future retirees will choose a Joint and Survivor option.

Marital percentage

80% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (Continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by decreasing fractions, 2/3 and 1/3, of the gain/(loss) in each of the prior 2-years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2016 Expected Return	6.00%	6.65%	6.00%
2015 Expected Return	6.00%	6.81%	6.00%
2014 Expected Return	6.00%	6.99%	6.00%

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Census and Assets

The valuation was based on data as of January 1, 2016 and does not take into account future participants. All census data was supplied by the Plan Administrator, Aon Hewitt, and was subject to reasonable consistency checks. Asset data was supplied by State Street Bank and was accepted unaudited.

Basis for Non-Prescribed Assumptions

The non-prescribed demographic assumptions were set based on an experience study performed in 2013 reflecting plan experience for the five-year period 2008-2012. Demographic assumptions include rates of termination, disability and retirement, as well as assumed frequency of optional forms of payment and marital percentage. Anticipated future experience is assumed to be similar to the results of that study.

Prescribed Funding Assumptions and Methods

The following assumptions and methods are prescribed by ERISA, as amended by PPA, MAP-21, and HATFA.

Funding interest rates

For 2016 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.34%	4.43%
Second Segment Rate	4.03%	5.91%
Third Segment Rate	5.06%	6.65%
Effective Interest Rate Based on constrained rates		6.01%

For 2015 Plan Year: Segment Rates with four-month lookback, constrained in accordance with relevant legislation as follows:

	Unconstrained Rates*	Rates Reflecting Corridor**
First Segment Rate	1.15%	4.72%
Second Segment Rate	4.06%	6.11%
Third Segment Rate	5.15%	6.81%
Effective Interest Rate Based on constrained rates		6.21%

* Used for maximum tax-deduction purposes

** Used for minimum funding and benefit restriction purposes.

Mortality

Mortality tables for non-disabled participants mandated by PPA as specified in IRS Regulation 1.430(h)(3)-1, applied on a static basis, projected 7 years from the valuation date for annuitants and 15 years for non-annuitants. For disabled participants, mortality is based on Rev. Rule 96-97 Post 1994 Disabled Mortality.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan administrative expenses to be paid from plan assets during the year.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (Continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan’s enrolled actuary. The asset valuation method was selected by the plan sponsor and is an acceptable method under PPA

Expenses

Expected plan administrative expenses of \$2,545,422 were added to the Target Normal Cost. The amount is based on the prior year’s administrative expenses (without PBGC premium) adjusted with an inflation rate of 2.0%, plus this year’s expected PBGC premiums payable from the plan.

Frequency of optional payment forms

The underlying assumption is that 55% of future retirees will choose the life only option, while the remaining future retirees will choose a Joint and Survivor option.

Marital percentage

80% of participants are assumed to be married at death. Husbands are assumed to be 3 years older than their wives.

Schedule SB, Part V – Statement of Actuarial Assumptions/Methods (Continued)

Non-Prescribed Funding Assumptions and Methods (continued)

Asset valuation method

The Actuarial Value of Assets is market value as of the valuation date, including discounted receivable contributions, reduced by decreasing fractions, 2/3 and 1/3, of the gain/(loss) in each of the prior 2-years, respectively. The gain/(loss) for each period is determined as the actual return on market value during the period less the expected return on market value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third Segment Rate. The resulting value is constrained to be within a corridor of 90% to 110% of market value, including discounted receivable contributions.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2016 Expected Return	6.00%	6.65%	6.00%
2015 Expected Return	6.00%	6.81%	6.00%
2014 Expected Return	6.00%	6.99%	6.00%

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.

Census and Assets

The valuation was based on data as of January 1, 2016 and does not take into account future participants. All census data was supplied by the Plan Administrator, Aon Hewitt, and was subject to reasonable consistency checks. Asset data was supplied by State Street Bank and was accepted unaudited.

Basis for Non-Prescribed Assumptions

The non-prescribed demographic assumptions were set based on an experience study performed in 2013 reflecting plan experience for the five-year period 2008-2012. Demographic assumptions include rates of termination, disability and retirement, as well as assumed frequency of optional forms of payment and marital percentage. Anticipated future experience is assumed to be similar to the results of that study.

Oxford employees hired on or after October 31, 2004 are not eligible. All other employees hired on or after October 3, 2011 are not eligible.

Benefits

Effective December 31, 2015, accrued benefits are frozen for all participants based on benefit service and the benefit rate on that date or termination date if earlier.

Normal Retirement Benefit

Eligibility

Age 65 with 5 years of vesting service.

Amount

Effective October 1, 2008, \$44 multiplied by years of benefit service for Non-Oxford employees hired before September 12, 2005; the rate increased to \$46 effective November 1, 2011.

Oxford employees and employees hired on or after September 12, 2005 are eligible for pension plan multipliers of \$41 and \$35, respectively; the rates increased to \$43 and \$37, respectively, effective November 1, 2011.

For participants in the Middletown and Milwaukee 68 Plans, the benefit is offset by the purchased annuity.

Early Retirement Benefit

Eligibility

Age 55 with 10 years of vesting service.

Amount

Accrued benefit payable at normal retirement age. If payment commences prior to normal retirement age, amount is reduced ½% for each month prior to normal retirement age. If age plus benefit service is at least 90, the benefit is the greater of the reduced early retirement benefit or the accrued benefit based on benefit service limited to 30 years unreduced for early commencement.

Deferred Vested Benefit

Eligibility

5 years of vesting service.

Amount

Accrued benefit payable at normal retirement age. If the participant has 10 years of service, a reduced benefit may commence as early as age 55. The reduction is ½% for each month prior to normal retirement age.

Disability Benefit

Eligibility

10 years of vesting service and totally and permanently disabled.

Amount

Accrued benefit payable immediately. If the participant is not eligible for Social Security benefits, an additional amount equal to the accrued benefit is payable until normal retirement date.

Surviving Family Term Benefit

Eligibility

Death in active employment after completion of 10 years of benefit service.

Amount

50% of the accrued benefit unreduced for early retirement and payable for 5 years.

Spouse's Benefit

Eligibility

Death after completion of 5 years of vesting service.

Amount

50% of the accrued benefit had the participant elected a joint and 50% survivor annuity. If the participant had 10 years of service at death, payment may begin on the first day of the month the participant could have retired. The benefit is offset by any surviving family term benefit.

Normal Form

For unmarried participants, benefits are payable for life. For unmarried participants in the Cedar Rapids 20, Cedar Rapids 22, and Middletown unions, benefits are payable for 5 years certain and life. For married participants, an actuarially reduced benefit is payable, which provides 50% of the benefit payable to the spouse if the participant predeceases the spouse. Optional forms are available on an actuarial equivalent basis. For terminations on or after October 1, 2002, joint & survivor benefits provide a pop-up feature that is fully subsidized by the employer. In the event the retiree's beneficiary dies in the first five years of retirement, the retiree's benefit will increase, or pop up, to the life only benefit amount.
