A. DESCRIPTION OF PLAN

The following description of the Anderson Automotive Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. Participating employers include Anderson Nissan, Inc., Anderson Dealerships, Inc. and Anderson Automotive, Inc. (the "Companies").

1. *General.* The Plan is a defined contribution salary deferral plan which provides an individual account for each participant and provides benefits upon retirement that are based on the amounts contributed by the employee and employer plus earnings on those contributions less any plan administrative expenses. The Plan was established on January 1, 1985. The amended and restated provisions of the Plan became effective on December 1, 2016. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Board of Trustees is responsible for oversight of the Plan. The Plan covers all employees of the Companies except for those deemed as excluded employees which include: employees whose employment is governed by a collective bargaining agreement under which retirement benefits were the subject of good faith bargaining, unless such agreement expressly provides for participation in the Plan, non-resident aliens who received no earned income from the Employer constituting U.S. source income, leased employees. A participant becomes eligible on the earlier of (1) the first day of the Plan year (January 1) or (2) the first day of the seventh month (July 1), after completion of one year of eligible service and having attained age 21 as defined in the Plan document. A year of eligible service begins on the date the employee first performs an hour of service and is completed after 1,000 service hours within the next twelve months.

   Effective January 1, 2016, the record keeping and trustee functions of the Plan Administrator, BMO Harris Bank was transferred to Alpine Bank. All plan assets were liquidated and converted to cash in order to transfer assets to Alpine Bank on January 1, 2016.

2. *Contributions.* Each year, participants may contribute a percentage of their compensation as pre-tax contributions as defined in the Plan from 1% of compensation up to 75% of plan compensation each payroll period. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans at the discretion of the Plan administrator. Participants direct the investment of their contributions into various investment options offered by the Plan. All employer contributions are discretionary. For the 2016 Plan Year, The Companies contributed matching contributions equal to 50% of the first 6% of base compensation that a participant contributes to the Plan if the participant is employed on the last day of the plan year quarter.

   Total contributions, both participant and employer, including discretionary, are subject to the limits of the Internal Revenue Code (the "IRC") Section 415(c). Participant contributions and employer matching contributions of certain highly compensated participants may also be limited based on contribution nondiscrimination tests described in IRC Section 401(k) and 401(m). Employer discretionary contributions are allocated to all participants who are actively employed on the last day of the plan year quarter. The allocation is based on a ratio of each individual participant's compensation to all participants' compensation.

A. DESCRIPTION OF PLAN (CONTINUED)

3. *Participant Accounts.* Each participant's account is credited with the participant's contribution, the employer's contribution and an allocation of the Plan's earnings. The participants can then direct their investments to any of the available funds in the Plan. Participants may change their investment option specification with respect to contributions to be made in the future and with respect to amounts already in the account by calling an interactive voice-response system or accessing the account on the Internet with the use of a personal identification number.

4. *Vesting.* Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Companies' matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service. One year of service is 1,000 hours within a consecutive twelve-month period. Vesting is based on the following schedule:

Years of Credited Service	Percent Vested
Less than 1	0%
1	10%
2	20%
3	40%
4	60%
5	80%
6 or more	100%

Participant accounts become fully vested upon attainment of the normal retirement age of 65 or in the event of death or total disability.

5. *Notes Receivable from Participants*

The Plan does not permit participant loans.

6. *Payment of Benefits.* On termination of service, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account or can elect to receive the account balance in installments. If the value of the vested benefit does not exceed $5,000, the participant may elect to receive a lump sum distribution. A participant may withdraw any part of his or her rollover account balance at any time.

In certain hardship situations, as described in the Plan Agreement, participants may withdraw part of their vested account balances while actively employed, but such withdrawals are limited to the amount of hardship. Participants' withdrawals are limited to deferred account balances and may not include any earnings accrued thereon.

A. DESCRIPTION OF PLAN (CONTINUED)

7. *Forfeited Accounts.* Forfeited non-vested accounts are used to reduce employer matching contributions in the plan year following the Plan Year in which the forfeiture occurs. In 2016 and 2015, employer contributions were reduced by $2,504 and $3,173 respectively from forfeited non-vested accounts. At December 31, 2016 and 2015, forfeited non-vested accounts totaled $4,749 and $4,097.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Alpine Trust & Investment Group, the trustee of the Plan, determines the Plan's valuation policies. See note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Trustee has certified as to the completeness and accuracy of all investment balances and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2016 and 2015, all of the investment activity and interest income from notes receivable from participants reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2016, and all investment information in the supplemental schedule, which is summarized as follows:

	2015	2015
Investments, at fair value	$ 14,298,438	$ 0
Net appreciation in fair value of investments	1,179,329	(166,824)
Interest and Dividends	425,096	149,605

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Notes Receivable from Participants

Participant loans are not permitted by the Plan at this time.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

The employer is the sponsor of the Plan. Personnel within the employer organization perform certain administrative services for the Plan, including maintenance of participant records. The payroll and related overhead costs associated with these services are not included as plan expenses. The Plan permits the payment of plan expenses to be made from the Plan's assets. If the expenses are not paid from employer assets, then the expenses paid using the Plan's assets will generally be allocated among the accounts of all participants in the Plan. The expenses will be allocated either proportionately based on the value of the account balances or as an equal dollar amount based on the number of participants in the Plan.

Subsequent events

The Plan has evaluated subsequent events through August 7, 2017, which is the date the financial statements were available to be issued.

C. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access

Level 2 — Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

C. FAIR VALUE MEASUREMENTS (CONTINUED)

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2016 and 2015.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be activity traded.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015.

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total

D. RELATED PARTY TRANSACTIONS

The Plan's investments include shares of mutual funds managed by Alpine Trust & Investment Group. Alpine Trust & Investment Group is the trustee of the Plan; therefore, these transactions qualify as party-in-interest transactions.

E. PLAN TERMINATION

Although it has not expressed any intent to do so, the Companies have the right under the Plan to discontinue its contribution at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

F. TAX STATUS

The Professional Capital Services, LLC. Volume Submitter Profit Sharing Plan with CODA documents were amended to comply with the statutory requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001 and received favorable opinion letters from the Internal Revenue Service on November 30, 2014. Each plan adopting a Professional Capital Services, LLC Volume Submitter Profit Sharing Plan with CODA plan document has been restated to reflect the EGTRRA plan changes. In accordance with Revenue Procedure 2002-6, the Plan administrator has chosen to rely on the current opinion letter that has been issued to the Volume Submitter Profit Sharing Plan. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

Accounting principles generally accepted in the United States of American require the Plan administrator to evaluate tax positions taken by the Plan and recognizes a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2013.

G. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
