1. PLAN DESCRIPTION

The following description of the G2 Software Systems, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1992 as a defined contribution plan for all employees of G2 Software Systems, Inc. ("Company" or "Plan Sponsor") under the provisions of Section 401(k) of the Internal Revenue Code ("IRC"). All employees having attained the age of 21 and having three months of service are eligible to participate in the Plan the first day of the month following three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2013, the Plan was amended to allow for immediate eligibility of employees receiving nonelective contributions made by Plan Sponsor in connection with prevailing wage contribution obligations.

Contributions

Participants may contribute up to 100% of annual compensation, as defined by the Plan, limited to the maximum amount permitted under federal law. For employees who elect to participate, such deferrals shall not exceed the IRC limitations, up to a maximum amount of $18,000 for the 2016 Plan year. Participants who are 50 years of age or older who have met the annual IRC deferral limit or the specified plan limit of the deferral, may contribute catch-up deferral contributions of up to $6,000 for 2016. Contributions can be made either on a pre-tax basis, or participants may elect to designate some or all of their contributions as "Roth Contributions" which are made on an after-tax basis. Participants may also contribute amounts representing distributions (rollover contributions) from other qualified defined benefit or defined contribution plans. Participants may choose to direct the investment of their contributions and earnings thereon among several funds offered by the Plan. Participants may change their investment options at any time.

The Plan Sponsor may make matching contributions or discretionary nonelective contributions on behalf of each eligible participant. During 2016, the Plan Sponsor did not make any matching contributions or discretionary nonelective contributions to the Plan.

Notes Receivable from Participants

Participants may borrow a maximum equal to the lesser of $50,000 or 50% of their vested balances in the Plan, subject to certain restrictions and limitations set forth in the Plan document and the IRC.

1. PLAN DESCRIPTION (continued)

Notes Receivable from Participants (continued)

The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator. The Plan permits loans by all participants except those participants that are deemed highly compensated employees. The maximum term of the loan is five years unless the loan is used for the purchase of a participant's primary residence. If a participant has an outstanding loan balance at the time their employment terminates, the entire outstanding principal and accrued interest shall be immediately due and payable.

The interest rate on all outstanding loans at December 31, 2016 and 2015 is 4.25%. Principal and interest are paid monthly through payroll deductions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Plan earnings. Investment income is allocated among eligible participants in the ratio which the dollar value of the respective participant's interest in the specific investment bears to the dollar value of all participants' interest in that investment.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount equal to the value of the participant's vested interest in his account. Participants with account balances of $5,000 or less receive a lump-sum distribution upon termination of service with the Company. In-service withdrawals are permitted for hardship or financial reasons limited to the participant's elective deferrals and earnings thereon, rollover contributions or vested portion of employer discretionary contributions. These withdrawals are included with benefits paid and cannot exceed the participant's voluntary contributions and their vested portion of employer contributions and earnings. In-service withdrawals are also permitted for disability at an amount equal to the value of the participant's vested interest in his or her account.

Hardship distributions of account balances are permitted under certain financial hardship conditions as defined in the provisions of the Plan provided the participant has obtained all other distributions and loans available under the Plan. Following receipt of a hardship distribution, the participant is restricted from making further salary deferrals or voluntary after-tax contributions for a minimum of six months.

Vesting

Participants are vested immediately in their contributions and employer nonelective discretionary contributions, plus actual earnings thereon.

1. PLAN DESCRIPTION (continued)

Vesting (continued)

Vesting in the Plan Sponsor's matching or discretionary contribution portion of their accounts, if any, is based on the number of years of continuous service. Plan Sponsor contributions vest at a rate of 20% per year and a participant is 100% vested after five years of credited service. Any amount not vested upon a participant's separation from service is forfeited and may be used by the Plan Sponsor to reduce future matching contributions or to pay current Plan expenses.

Forfeitures

Forfeitures of terminated participants' nonvested accounts may be used to pay administrative costs of the Plan or may be applied to reduce the employer's discretionary or matching contributions to the Plan. During the year ended December 31, 2016, no forfeitures were used to pay administrative costs or to reduce employer discretionary or matching contributions. Plan assets at December 31, 2016 and 2015 include $34,006 and $34,096 of forfeitures, respectively, that are expected to be used in future periods to reduce plan sponsors discretionary or matching contributions or to pay administrative expenses of the Plan.

Plan Termination

It is the intention and expectation of the Plan Sponsor that the Plan will be continued indefinitely; however, continuation of the Plan is not assumed as an obligation of the Plan Sponsor. The Plan may be amended, terminated or employer contributions may be discontinued at any time. If the Plan is terminated, participants will become fully vested in the entire balance of their accounts, regardless of their years of service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting with generally accepted accounting principles in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan incurs certain expenses including charges associated with distribution, loan processing and other transaction charges, investment management and advisory fees and audit and recordkeeping fees. Distribution, loan and other transaction charges are included in administrative expenses in the accompanying statement of changes in net assets available for benefits. Investment related expenses are netted with investment income in the accompanying statement of changes in net assets available for benefits. Other administrative expenses are paid by the Plan Sponsor and accordingly are not reflected in the accompanying financial statements of the Plan.

Recently Adopted Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-07). ASU 2015-07 seeks to eliminate diversity in practice surrounding how investments measured at net asset value under the practical expedient with future redemption dates have been categorized in the fair value hierarchy. This new guidance is effective for annual reporting periods beginning after December 15, 2015 and requires retrospective adoption

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

New Accounting Pronouncements (continued)

for all periods presented. The adoption of the updated guidance during the plan year ended December 31, 2016 had no impact on the Plan's financial statements.

In July 2015, the Financial Accounting Standards ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* ("ASU 2015-12"). Part I of ASU 2015-12 eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of ASU 2015-12 eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of ASU 2015-12 allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. Parts I and II will be applied on a retrospective basis. Part III may be applied on a prospective basis. Plans may early adopt any of the Parts of ASU 2015-12 without early adopting the other Parts. In 2015, the Plan adopted Part II of ASU 2015-12. Parts I and III of ASU 2015-12 are not currently applicable to the Plan.

Subsequent Events

The Plan has evaluated subsequent events through September 25, 2017, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY CUSTODIAN

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by Nationwide Financial Services, Inc. and was not subjected to any auditing procedures performed by the independent public accountants, except for comparing such information certified by the asset custodian to information included in the Plan's financial statements and supplemental schedule:

3. INFORMATION CERTIFIED BY CUSTODIAN (continued)

a) Investments, at fair value, shown in the accompanying statements of net assets available for benefits of $12,915,704 and $12,142,497 as of December 31, 2016 and 2015, respectively.

c) Notes receivable from participants as shown in the accompanying statements of net assets available for benefits of $175,380 and $114,639 as of December 31, 2016 and 2015, respectively.

e) Investment-related information in the accompanying supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year), as of December 31, 2016.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosure*, is the framework for measuring fair value. ASC 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability;

4. FAIR VALUE MEASUREMENTS (continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used in December 31, 2016 and 2015.

Mutual funds: These investments represent mutual funds that are registered with the Securities and Exchange Commission. Mutual funds are valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Valued based on contract provisions of underlying group fixed annuity contract which approximates fair value.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth the Plan's investment assets at fair value by level within the valuation hierarchy as of December 31, 2016 and 2015:

	Fair Value Measurements at December 31, 2016			
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual Funds	$ 12,915,704	$ –	$ –	$ 12,915,704
Guaranteed Investment Contract	–	–	208,141	208,141
Total	$ 12,915,704	$ –	$ 208,141	$ 13,123,845

4. FAIR VALUE MEASUREMENTS (continued)

	Fair Value Measurements at December 31, 2015			
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual Funds	$ 12,142,497	$ –	$ –	$ 12,142,497
Guaranteed Investment Contract	–	–	200,136	200,136
Total	$ 12,142,497	$ –	$ 200,136	$ 12,342,633

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2016:

	Guaranteed Interest Accounts
Balance, beginning of year	$ 200,136
Total interest included in Statement of Changes in Net Assets Available for Benefits	8,005
Balance, end of year	$ 208,141
Interest included in Statement of Changes in Net Assets Available for Benefits relating to positions still held	$ 8,005

Quantitative Information about Significant Unobservable Inputs used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2016 and 2015:

December 31, 2016:

Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
Guaranteed Investment Contract	$ 208,141	Market value adjustment	Minimum guaranteed rate	4%
			Current annual rate	4%

4. FAIR VALUE MEASUREMENTS (continued)

Quantitative Information about Significant Unobservable Inputs used in Level 3 Fair Value Measurements (continued)

December 31, 2015:

Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
Guaranteed Investment Contract	$ 200,136	Market value adjustment	Minimum guaranteed rate	4%
			Current annual rate	4%

5. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

Plan investments include a guaranteed investment contract with Transamerica Life Insurance Company ("Transamerica"). Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a minimum interest rate that is guaranteed to the Plan. Since there is a possible market value adjustment when funds are withdrawn prior to their maturity, loan withdrawal or elect to transfer among other interest earning strategies, this account is not considered to be fully benefit responsive. The contract is included in the accompanying statements of net assets available for benefits as of December 31, 2016 at its estimated fair value. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 4%. Such interest rates are reviewed on a quarterly basis for resetting. The actual average yield and crediting interest rate was approximately 4% for the year ended December 31, 2016. There is no guaranteed rate of return on future resets of this contract.

6. TAX STATUS

The Plan has obtained its latest determination letter from the Internal Revenue Service ("IRS") dated March 31, 2008, as part of a volume submitter plan, in which the Internal Revenue Service stated that the Plan complied with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in accordance with the Internal Revenue Code.

6. TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and the Plan could be subject to income tax if certain issues were found by the IRS that could result in the disqualification of the Plan's tax-exempt status; however, there are currently no audits for any tax periods in progress.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

1. PLAN DESCRIPTION

The following description of the G2 Software Systems, Inc. Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 1992 as a defined contribution plan for all employees of G2 Software Systems, Inc. ("Company" or "Plan Sponsor") under the provisions of Section 401(k) of the Internal Revenue Code ("IRC"). All employees having attained the age of 21 and having three months of service are eligible to participate in the Plan the first day of the month following three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Effective January 1, 2013, the Plan was amended to allow for immediate eligibility of employees receiving nonelective contributions made by Plan Sponsor in connection with prevailing wage contribution obligations.

Contributions

Participants may contribute up to 100% of annual compensation, as defined by the Plan, limited to the maximum amount permitted under federal law. For employees who elect to participate, such deferrals shall not exceed the IRC limitations, up to a maximum amount of $18,000 for the 2016 Plan year. Participants who are 50 years of age or older who have met the annual IRC deferral limit or the specified plan limit of the deferral, may contribute catch-up deferral contributions of up to $6,000 for 2016. Contributions can be made either on a pre-tax basis, or participants may elect to designate some or all of their contributions as "Roth Contributions" which are made on an after-tax basis. Participants may also contribute amounts representing distributions (rollover contributions) from other qualified defined benefit or defined contribution plans. Participants may choose to direct the investment of their contributions and earnings thereon among several funds offered by the Plan. Participants may change their investment options at any time.

The Plan Sponsor may make matching contributions or discretionary nonelective contributions on behalf of each eligible participant. During 2016, the Plan Sponsor did not make any matching contributions or discretionary nonelective contributions to the Plan.

Notes Receivable from Participants

Participants may borrow a maximum equal to the lesser of $50,000 or 50% of their vested balances in the Plan, subject to certain restrictions and limitations set forth in the Plan document and the IRC.

1. PLAN DESCRIPTION (continued)

Notes Receivable from Participants (continued)

The loans are secured by the vested balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the plan administrator. The Plan permits loans by all participants except those participants that are deemed highly compensated employees. The maximum term of the loan is five years unless the loan is used for the purchase of a participant's primary residence. If a participant has an outstanding loan balance at the time their employment terminates, the entire outstanding principal and accrued interest shall be immediately due and payable.

The interest rate on all outstanding loans at December 31, 2016 and 2015 is 4.25%. Principal and interest are paid monthly through payroll deductions.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Plan earnings. Investment income is allocated among eligible participants in the ratio which the dollar value of the respective participant's interest in the specific investment bears to the dollar value of all participants' interest in that investment.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in a lump-sum amount equal to the value of the participant's vested interest in his account. Participants with account balances of $5,000 or less receive a lump-sum distribution upon termination of service with the Company. In-service withdrawals are permitted for hardship or financial reasons limited to the participant's elective deferrals and earnings thereon, rollover contributions or vested portion of employer discretionary contributions. These withdrawals are included with benefits paid and cannot exceed the participant's voluntary contributions and their vested portion of employer contributions and earnings. In-service withdrawals are also permitted for disability at an amount equal to the value of the participant's vested interest in his or her account.

Hardship distributions of account balances are permitted under certain financial hardship conditions as defined in the provisions of the Plan provided the participant has obtained all other distributions and loans available under the Plan. Following receipt of a hardship distribution, the participant is restricted from making further salary deferrals or voluntary after-tax contributions for a minimum of six months.

Vesting

Participants are vested immediately in their contributions and employer nonelective discretionary contributions, plus actual earnings thereon.

1. PLAN DESCRIPTION (continued)

Vesting (continued)

Vesting in the Plan Sponsor's matching or discretionary contribution portion of their accounts, if any, is based on the number of years of continuous service. Plan Sponsor contributions vest at a rate of 20% per year and a participant is 100% vested after five years of credited service. Any amount not vested upon a participant's separation from service is forfeited and may be used by the Plan Sponsor to reduce future matching contributions or to pay current Plan expenses.

Forfeitures

Forfeitures of terminated participants' nonvested accounts may be used to pay administrative costs of the Plan or may be applied to reduce the employer's discretionary or matching contributions to the Plan. During the year ended December 31, 2016, no forfeitures were used to pay administrative costs or to reduce employer discretionary or matching contributions. Plan assets at December 31, 2016 and 2015 include $34,006 and $34,096 of forfeitures, respectively, that are expected to be used in future periods to reduce plan sponsors discretionary or matching contributions or to pay administrative expenses of the Plan.

Plan Termination

It is the intention and expectation of the Plan Sponsor that the Plan will be continued indefinitely; however, continuation of the Plan is not assumed as an obligation of the Plan Sponsor. The Plan may be amended, terminated or employer contributions may be discontinued at any time. If the Plan is terminated, participants will become fully vested in the entire balance of their accounts, regardless of their years of service.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting with generally accepted accounting principles in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on the trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments purchased and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The Plan incurs certain expenses including charges associated with distribution, loan processing and other transaction charges, investment management and advisory fees and audit and recordkeeping fees. Distribution, loan and other transaction charges are included in administrative expenses in the accompanying statement of changes in net assets available for benefits. Investment related expenses are netted with investment income in the accompanying statement of changes in net assets available for benefits. Other administrative expenses are paid by the Plan Sponsor and accordingly are not reflected in the accompanying financial statements of the Plan.

Recently Adopted Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* (ASU 2015-07). ASU 2015-07 seeks to eliminate diversity in practice surrounding how investments measured at net asset value under the practical expedient with future redemption dates have been categorized in the fair value hierarchy. This new guidance is effective for annual reporting periods beginning after December 15, 2015 and requires retrospective adoption

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

New Accounting Pronouncements (continued)

for all periods presented. The adoption of the updated guidance during the plan year ended December 31, 2016 had no impact on the Plan's financial statements.

In July 2015, the Financial Accounting Standards ("FASB") issued Accounting Standards Update ("ASU") No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient* ("ASU 2015-12"). Part I of ASU 2015-12 eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of ASU 2015-12 eliminates the requirements to disclose individual investments that represent five percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of ASU 2015-12 allows a plan with a fiscal year end that does not coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. Parts I and II will be applied on a retrospective basis. Part III may be applied on a prospective basis. Plans may early adopt any of the Parts of ASU 2015-12 without early adopting the other Parts. In 2015, the Plan adopted Part II of ASU 2015-12. Parts I and III of ASU 2015-12 are not currently applicable to the Plan.

Subsequent Events

The Plan has evaluated subsequent events through September 25, 2017, the date the financial statements were available to be issued.

3. INFORMATION CERTIFIED BY CUSTODIAN

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by Nationwide Financial Services, Inc. and was not subjected to any auditing procedures performed by the independent public accountants, except for comparing such information certified by the asset custodian to information included in the Plan's financial statements and supplemental schedule:

3. INFORMATION CERTIFIED BY CUSTODIAN (continued)

a) Investments, at fair value, shown in the accompanying statements of net assets available for benefits of $12,915,704 and $12,142,497 as of December 31, 2016 and 2015, respectively.

c) Notes receivable from participants as shown in the accompanying statements of net assets available for benefits of $175,380 and $114,639 as of December 31, 2016 and 2015, respectively.

e) Investment-related information in the accompanying supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year), as of December 31, 2016.

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosure*, is the framework for measuring fair value. ASC 820 provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 – Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- Level 2 – Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
    - Quoted prices for similar assets or liabilities in active markets;
    - Quoted prices for identical or similar assets or liabilities in inactive markets;
    - Inputs other than quoted prices that are observable for the asset or liability;

4. FAIR VALUE MEASUREMENTS (continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 – Inputs that are unobservable inputs for the asset or liability.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used in December 31, 2016 and 2015.

Mutual funds: These investments represent mutual funds that are registered with the Securities and Exchange Commission. Mutual funds are valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Guaranteed investment contract: Valued based on contract provisions of underlying group fixed annuity contract which approximates fair value.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth the Plan's investment assets at fair value by level within the valuation hierarchy as of December 31, 2016 and 2015:

	Fair Value Measurements at December 31, 2016			
	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual Funds	$ 12,915,704	$ –	$ –	$ 12,915,704
Guaranteed Investment Contract	–	–	208,141	208,141
Total	$ 12,915,704	$ –	$ 208,141	$ 13,123,845

4. FAIR VALUE MEASUREMENTS (continued)

	Fair Value Measurements at December 31, 2015

Total	$ 12,142,497	$ –	$ 200,136	$ 12,342,633

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2016:

	Guaranteed Interest Accounts
Balance, beginning of year	$ 200,136
Total interest included in Statement of Changes in Net Assets Available for Benefits	8,005
Balance, end of year	$ 208,141

Quantitative Information about Significant Unobservable Inputs used in Level 3 Fair Value Measurements

The following table represents the Plan's Level 3 financial instruments, the valuation techniques used to measure the fair value of those financial instruments, and the significant unobservable inputs and the ranges of values for those inputs as of December 31, 2016 and 2015:

December 31, 2016:

Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
Guaranteed Investment Contract	$ 208,141	Market value adjustment	Minimum guaranteed rate	4%
			Current annual rate	4%

4. FAIR VALUE MEASUREMENTS (continued)

Quantitative Information about Significant Unobservable Inputs used in Level 3 Fair Value Measurements (continued)

Instrument	Fair Value	Principal Valuation Technique	Significant Unobservable Inputs	Range of Significant Input Values
Guaranteed Investment Contract	$ 200,136	Market value adjustment	Minimum guaranteed rate	4%
			Current annual rate	4%

5. GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

Plan investments include a guaranteed investment contract with Transamerica Life Insurance Company ("Transamerica"). Transamerica maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay principal and a minimum interest rate that is guaranteed to the Plan. Since there is a possible market value adjustment when funds are withdrawn prior to their maturity, loan withdrawal or elect to transfer among other interest earning strategies, this account is not considered to be fully benefit responsive. The contract is included in the accompanying statements of net assets available for benefits as of December 31, 2016 at its estimated fair value. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 4%. Such interest rates are reviewed on a quarterly basis for resetting. The actual average yield and crediting interest rate was approximately 4% for the year ended December 31, 2016. There is no guaranteed rate of return on future resets of this contract.

6. TAX STATUS

The Plan has obtained its latest determination letter from the Internal Revenue Service ("IRS") dated March 31, 2008, as part of a volume submitter plan, in which the Internal Revenue Service stated that the Plan complied with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in accordance with the Internal Revenue Code.

6. TAX STATUS (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of the liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions and the Plan could be subject to income tax if certain issues were found by the IRS that could result in the disqualification of the Plan's tax-exempt status; however, there are currently no audits for any tax periods in progress.

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
