NOTE 1 – DESCRIPTION OF PLAN

Date of Management's Review

Management has evaluated subsequent events through August 29, 2017, the date which the financial statements were available to be issued.

Nature of the Plan

The following description of Diatherix Laboratories 401(k) Plan provides only general information. Participants should refer to the Plan's Summary Plan Description for a more complete description of the Plan's provisions.

General

The Plan was established January 1, 2010, to provide retirement benefits for the eligible employees of Diatherix Laboratories, Inc. (the Company). The Plan is a defined contribution plan covering substantially all employees, as defined by the Plan, upon completion of three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Change in Trustee

The Plan changed its trustee from Principal Life Insurance Company to Principal Trust Company (the trustee) effective June 16, 2016.

Eligibility

Participation in the Plan is available to all employees of the Company who have completed three months of service and are age 21 or older.

Contributions

Participant Salary Deferral – Each year, participants may contribute up to 100% of pretax annual compensation, as defined by the Plan, up to maximum amounts established by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan.

Employer Qualified Nonelective Safe Harbor Contributions – Each payroll period the Company contributes a nonelective safe harbor contribution to all eligible employees in an amount equal to 3 percent of compensation as defined by the Plan. Contributions are subject to certain limitations. The total safe harbor nonelective contribution in 2016 was $306,190.

Participant Accounts

Each participant's account is credited with the participant's contribution, an allocation of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately 100% vested in their individual participant account.

NOTE 1 – DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

On termination of service due to death, disability, retirement or other reasons, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeitures

Forfeitures are retained in the Plan and may first be used to pay administrative expense or to reduce employer contributions. Any remaining amounts shall be allocated as of the last day of the Plan year and deemed to be employer contributions. The Plan had no forfeitures during the Plan year ended December 31, 2016.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Investment Valuation and Income Recognition

Investments are reported at fair value (except for fully benefit-responsive investment contracts, which are reported at contract value) as determined and certified by Principal Life Insurance Company and Principal Trust Company. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Investment Risk

The Plan provides for investments that are exposed to risk, such as interest rate, credit and market volatility risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of investment securities may occur in the near term and those changes could materially affect Participants' account balances and the amount reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Administrative Fees

The Company absorbs significant costs of compliance and plan administration. Certain expenses related to the administration of the Plan were paid directly by the assets of the Plan. Administrative fees paid directly by the Plan totaled $6,870 for the year ended December 31, 2016.

Accounting for Uncertainty in Income Taxes

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Recent Accounting Pronouncements

In July 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force). The purpose of this Update is to simplify plan accounting.

- The amendments in Part I of this Update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly, there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this Update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, Annual Return/Report of Employee Benefit Plan, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (CONTINUED)

Recent Accounting Pronouncements (Continued)

- The amendments in Part III of this Update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The Update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this Update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. The Plan adopted amendments in Part I and II of this Update for the 2015 and 2016 plan years. The impact of adopting these amendments is reflected in the financial statements. Part III is not applicable to this Plan.

In May 2015, the FASB issued ASU No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value (NAV) per Share (or Its Equivalent). ASU No. 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the NAV per share practical expedient. It also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the NAV per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. Plan management adopted this update for the 2016 Plan year, and it was retrospectively applied to December 31, 2015, resulting in the common collective trust funds and pooled separate accounts being recorded at NAV. The impact of adopting this Update is reflected in Notes 3 and 4.

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following is a summary of the Plan's asset information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information in Notes 3, 4, and 5 which appears throughout the financial statements and supplemental schedules related to the following assets:

	2016	(Compiled) 2015
Investments at fair value:		
Mutual funds	$ 27,930	$ -
Collective trust fund	3,273,891	-
Pooled separate accounts	1,177,436	3,468,963
Guaranteed interest accounts	211,982	78,721
Total investments at fair value	$ 4,691,239	$ 3,547,684
Guaranteed investment contract, at contract value	$ 2,418	$ -

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED) (CONTINUED)

Principal Trust Company also certified to the completeness and accuracy of $247,363 of net appreciation in fair value of investments and $230 of interest and dividends related to the aforementioned assets for the year ended December 31, 2016.

NOTE 4 – FAIR VALUE MEASURMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 for financial assets and financial liabilities are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016, and 2015.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common/collective trust funds: The Collective investment trusts (CIT) invest in a collective trust funds as well as a variety of separate accounts and mutual funds. The fair value of the collective investment trust and the separate accounts are not publicly quoted pricing inputs. The fair value of mutual funds are publicly quoted pricing inputs (level 1). The fair value of all these investments are used in determining the NAV of the CIT, which is not publicly quoted. Thus, the CITs are valued at NAV based on the fair value of the underlying investments held by the fund less its liabilities.

Pooled separate accounts: The pooled separate accounts ("PSA") invest in single mutual funds. The fair value of each mutual fund is a publicly quoted pricing input used in determining the NAV of the pooled separate account, which is not publicly quoted. Thus, the PSAs are valued at NAV based on the fair value of the underlying investments held by the fund less its liabilities.

NOTE 4 – FAIR VALUE MEASURMENTS (CONTINUED)

Guaranteed interest accounts: The guaranteed interest accounts cannot be sold to a third party; thus, the only option to exit the guaranteed interest accounts is to withdraw or transfer the funds prior to maturity for an event other than death, disability, termination, or retirement. The fair value represents guaranteed interest account values adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates. This value represents contributions allocated to the guaranteed interest accounts, plus interest at the contractually guaranteed rate, less funds used to pay Plan benefits and Principal Life's administrative expenses. The fair value of the guaranteed interest accounts is reflected in Level 3.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015.

Investment Level	2016	(Compiled) 2015
Level 1 Investments		
Mutual funds	$ 27,930	$ -
Total Level 1 Investments	27,930	-
Level 2 Investments	-	-
Level 3 Investments		
Guaranteed interest accounts	211,982	78,721
Total Level 3 Investments	211,982	78,721
Total assets in the fair value hierarchy	239,912	78,721

Total investments measured at net asset value*	4,451,327	3,468,963
Investments at fair value	$ 4,691,239	$ 3,547,684

* Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statements of Net Assets Available for Benefits.

Transfers Between Levels

For years ended December 31, 2016, and 2015, there were no significant transfers between Levels 1 and 2 and no transfers in or out of Level 3.

NOTE 4 – FAIR VALUE MEASURMENTS (CONTINUED)

NOTE 5 – FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT

The Plan holds an investment contract that comprises a traditional investment contract with Principal Life Insurance Company. This contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under each contract, plus earnings, less participant withdrawals, and administrative expenses. Total contract value of the traditional investment contract as of December 31, 2016 is $2,418.

NOTE 5 – FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACT (CONTINUED)

The traditional investment contract held by the Plan is a guaranteed investment contract. The contract issuer is contractually obligated to repay the principal and interest at a specified interest rate that is guaranteed to the Plan. The crediting rate is based on a formula established by the contract issuer but may not be less than 1.05 percent. The crediting rate is reviewed on a quarterly basis for resetting. The contract cannot be terminated before the scheduled maturity date. The Plan's ability to receive amounts due in accordance with fully benefit responsive investment contracts is dependent on the third-party issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at contract value with the contract issuer. Such events include retirement, death, disability, plan termination, and bankruptcy. Refer to subsequent event in Note 9 regarding plan merger.

NOTE 6 – RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Principal Life Insurance Company as of December 31, 2015 until June 16, 2016 and Principal Trust Company thereafter. Principal Life Insurance Company and Principal Trust Company are the trustees as defined by the Plan, and therefore, these investment transactions qualify as party-in-interest transactions. Fees paid by the Plan to the trustees totaled $6,870 for the year ended December 31, 2016. The Plan Sponsor pays directly any other fees related to the Plan's operations.

NOTE 7 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 8 – TAX STATUS

The IRS has determined and informed the Company by an opinion letter dated March 31, 2014, that the prototype adopted by the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not received a determination letter specific to the Plan itself. Although the Plan has been amended since receiving the opinion letter, the Plan's Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan is qualified and the related trust is tax-exempt as of the financial statement date.

NOTE 9 – SUBSEQUENT EVENTS

On July 1, 2015, Diatherix Laboratories, LLC was acquired by Eurofins Scientific SE (Eurofins), and the plan was merged with the Eurofins defined contribution plan. As a result, net assets of $5,128,377 were transferred to the control of the Eurofins plan on July 1, 2017. The merger does not impact participant benefits as the benefit provisions were incorporated in the Eurofins plan.
