Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Spectra Logic 401(k) Profit Sharing Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1994. The Plan adoption agreement was amended and restated effective January 1, 2016 and is available to employees age 18 years or older on the first day of the month following employment, except for certain employees subject to collective bargaining agreements, interns, and non-resident aliens. All eligible employees are automatically enrolled in the Plan unless the employee opts out. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Management of Spectra Logic Corporation (the "Company") administers the Plan. Executives of the Company serve as trustees for the Plan. Great-West Trust Company, LLC ("GW Trust") serves as custodian for the Plan's insurance products. Great-West Life & Annuity Insurance Company ("GW Life") serves as custodian for all other Plan investments, manages Plan assets, and maintains the Plan's records. GW Life offers Plan participants a variety of investment options through various mutual funds, collective investment trusts, self-directed funds, and a guaranteed insurance contract. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make contributions of up to 100% of their annual eligible compensation, designated as pre-tax or after-tax Roth 401(k) contributions, not to exceed annual limits established by the IRS. The limit is adjusted annually by the Secretary of the Treasury for inflation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. Automatic enrollment in the Plan sets the pre-tax deferrals at 6%. Participants have the right to elect a different deferral percentage or to opt out of the automatic enrollment.

The Company may elect, at its sole discretion, to make matching contributions funded on a pay-period basis to the Plan. The employer match for the year ended December 31, 2016 was 50% of employee deferrals for the first 6% of contributions to the Plan, with a $3,000 annual cap on matching contributions. The Plan further allows for a discretionary annual contribution to be made to participants who are employed on the last day of the Plan year or who are deceased or disabled during the Plan year. No such contribution was made during the Plan year ended December 31, 2016.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participants' Accounts

Each participant's account is credited or debited with the participant's contribution and an allocation of the Company's contribution, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon, and any qualified matching contributions.

Any employer contributions and earnings or losses thereon made prior to January 1, 2016 shall be 100% vested. Participants with at least three years of service as of January 1, 2016 shall be 100% vested at all times. Participants with less than three years of service as of January 1, 2016, for employer contributions made after January 1, 2016, will vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	25%
2	50%
3	75%
4	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 59½), retirement due to disability, or if the Plan is terminated.

Notes Receivable from Participants

Participants with a minimum vested account balance of $2,000 may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balances. Participants may have no more than two notes outstanding at any one time. The notes are secured by the balances in the participants' accounts and bear interest at the prime rate plus 1.00% (rates range from 4.25% to 9.25% at December 31, 2016). Notes receivable mature within 60 months, excepting principal residence loans, which may mature on a schedule up to 180 months. Outstanding notes receivable as of December 31, 2016 mature at various dates through October 2031. Principal and interest are paid ratably through payroll deductions. Participant notes receivable are recorded in the financial statements at amortized cost plus accrued interest.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Payment of Benefits

Upon termination of service, death, disability, or attaining retirement, a participant may receive a lump-sum amount equal to the value of the participant's vested account balance. Benefits are made in the form of a lump-sum mandatory distribution if less than $1,000. If the vested account balance, excluding rollover contributions, is greater than $1,000 but less than $5,000, and the participant has not made an election to the contrary, the Plan will distribute the account in a direct rollover to an individual retirement account. The Plan also provides for in-service withdrawals of employee contributions after attaining age 59½ and for certain financial hardships as defined by the Plan. The Plan must make required minimum distributions to participants beginning in the later of the year after the participant attains age 70½ or the year in which the participant retires. Benefits are recorded when paid.

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay Plan expenses or applied to reduce employer contributions. The balance of this account at December 31, 2016 and 2015 was $26,048 and $3,790, respectively. For the year ended December 31, 2016, the Company used $606 of forfeitures to offset Plan expenses.

Valuation of Investments and Income Recognition

Investments are recorded at fair value and contract value as reported to the Plan by GW Life and GW Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (Note 4). Contract value is the amount participants normally would receive if they were to initiate permitted transactions.

The Plan also invests in a guaranteed insurance contract. The guaranteed insurance contract is a fully benefit-responsive investment contract and is stated at contract value in the statements of net assets available for benefits (Note 3).

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the year ended December 31, 2016, three investments accounted for 46% of investment income. At December 31, 2016 and 2015, one and two investments accounted for 16% and 24%, respectively, of total investments.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available to be issued. There were no material subsequent events that required recognition or disclosure in the financial statements.

Note 2 - Information Certified and Provided by the Custodians

GW Life and GW Trust have certified in writing to the Plan administrator that the stated amounts for investments at fair value and contract value and notes receivable from participants at amortized cost as of December 31, 2016 and 2015 and the income earned or losses incurred on the investments and notes receivable from participants for the year ended December 31, 2016, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by GW Life and GW Trust, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Investment Contracts with Insurance Company

The Plan holds a benefit-responsive guaranteed insurance contract with GW Life. GW Life maintains the contributions in a general account. The account is credited with earnings on the underlying investments and is charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by GW Life. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield and crediting interest rate are based on formulas agreed upon with the issuer and were approximately 1.16% and 1.20%, respectively, for the year ended December 31, 2016. Under the terms of the contract, the effective interest rate will never be less than 0%.

The Plan's ability to receive amounts due is dependent on the issuer's ability to meet its financial obligations. The issuer's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events might limit the ability of the Plan to transact at fair value or contract value with the issuer. Such events include 1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), 2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, 3) bankruptcy of the Plan sponsor or other Plan sponsor events, 4) failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or 5) premature termination of the contract. No events are probable of occurring that might limit the ability of the Plan to transact at fair value with the contract issuers and that also would limit the ability of the Plan to transact at fair value with the participants.

Note 4 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 4 - Fair Value Accounting (continued)

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets measured at fair value on a recurring basis.

Assets at fair value as of December 31, 2016 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 19,592,701	$ -	$ -	$ 19,592,701
Self-directed brokerage accounts	968,452	-	-	968,452
	$ 20,561,153	$ -	$ -	20,561,153
Investments measured at net asset value ("NAV") (a)				4,304,508
Total				$ 24,865,661

Assets at fair value as of December 31, 2015 are as follows:

Description	Level 1	Level 2	Level 3	Total
Mutual funds	$ 17,958,375	$ -	$ -	$ 17,958,375
Self-directed brokerage accounts	848,296	-	-	848,296
	$ 18,806,671	$ -	$ -	18,806,671
Investments measured at NAV (a)				3,011,735
Total				$ 21,818,406

The fair value of mutual funds and self-directed brokerage accounts was based on quoted market prices in active markets as of the measurement date.

Collective investment trusts are valued at the NAV of shares held by the Plan at year-end. Share price/NAVs for collective investment trusts are calculated daily by the fund administrator. Collective investment trusts are excluded from the fair value hierarchy in accordance with Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820: Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*.

Note 4 - Fair Value Accounting (continued)

(a) In accordance with Accounting Standards Codification Subtopic 820-10, *Fair Value Measurements and Disclosures*, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits. At December 31, 2016 and 2015, these funds had no unrestricted commitments and no redemption restrictions, with the exception of 30-day trade-in restrictions if a participant violates certain Plan policies restricting frequent trading. Participants may redeem investments in the funds daily with no minimum notice period.

There were no changes to the valuation techniques used during the period.

Note 5 - Income Taxes

The Plan administrator relies on the March 31, 2014 IRS tax opinion letter, which was issued on the basic Plan document. The Plan was amended and restated effective January 1, 2016. The Plan administrator and the Plan's tax counsel believe that the Plan is designed and continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code, and, therefore, believe that the Plan is qualified and the related trust is tax-exempt.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 6 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan. The Plan also has expense offset arrangements that consist of fees being paid to third-party service providers directly through the use of investment fee rebates made available by the Plan's third-party investment manager. Investment rebates of $9,498 were received by the Plan and utilized to reduce Plan expenses during the year ended December 31, 2016. The Company also pays the cost of certain outside services for the Plan.

Note 7 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or the participant's beneficiary.

Note 8 - Related Party and Party-in-Interest Transactions

Certain Plan investments are managed by GW Life and GW Trust; therefore, these transactions qualify as party-in-interest and are exempt from the prohibited transaction rules. In addition, the Plan provides for loans to participants, which are also party-in-interest transactions that are exempt from the prohibited transaction rules.
