Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Navajo Manufacturing Company, Inc. 401(k) Retirement Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established January 1, 1994 and most recently amended and restated effective March 1, 2016. The Plan is available to employees of Navajo Manufacturing Company, Inc. (the "Company") who are age 21 years or older upon date of hire, with entry into the Plan on the first day of the following quarter. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of the Company administers the Plan. Reliance Trust Company served as trustee as of and for the year ended December 31, 2016. T. Rowe Price manages Plan assets and maintains the Plan's records. State Street Bank and Trust Company served as trustee as of December 31, 2015. T. Rowe Price offers Plan participants a variety of investment options through various mutual funds and a money market fund. Individual accounts are invested in the various investment options at the direction of the participants.

Contributions

Participants may make before-tax contributions up to 50% of their annual compensation, subject to limitations by the IRS, which are adjusted annually by the Secretary of the Treasury for inflation ($18,000 for the year ended December 31, 2016). Employee contributions to the Plan are made through regular payroll deductions. An additional catch-up contribution is allowed for employees age 50 and over of up to $6,000 for 2016. The Plan also permits rollover contributions from other qualified retirement plans. The Company may contribute to the Plan a discretionary matching contribution based on a percentage of the participant's compensation, subject to certain limitations. In addition, the Company may contribute a discretionary profit sharing contribution based on each participant's compensation. There were no discretionary matching or profit sharing contributions to the Plan for 2016.

Participants' Accounts

Each participant's account is credited or charged with the participant's contribution and an allocation of the Company's contribution, if any, Plan earnings and losses, and Plan expenses and forfeitures. The Plan allows participants to direct the trustee as to the investment of their individual account balances. Allocations of Plan earnings and losses are based upon daily account balances, as defined. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, rollovers, and allocated earnings or losses thereon.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Vesting (continued)

Any employer contributions (including forfeitures) and the earnings or losses thereon not fully vested when contributed will vest as follows:

Years of Service	Vested Interest
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age (the age of 65 or, if later, the sixth anniversary date of the first day of the Plan year during which the participant entered the Plan), retirement due to disability, or if the Plan is terminated. A year of service is defined as completing more than 500 hours of service within the Plan year.

Participant Notes Receivable

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balances. The term of the loan may not exceed five years, except when used for the purchase of a primary residence. The loans are collateralized by the balances in the participants' accounts and bear interest at rates that range from 4.25% to 4.50%, which are commensurate with local prevailing rates as determined quarterly by the Plan administrator at loan origination, and mature at various dates between March 2017 and December 2019. Principal and interest are paid ratably through payroll deductions. Participant loans are recorded in the financial statements at amortized cost plus accrued interest.

Payment of Benefits

Upon termination of service, death, disability, in-service distribution at age 59½, or attaining normal retirement age, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested account balance or installment payments. Participants may also roll over the balance to an IRA or another retirement plan or leave the assets in the Plan if the balance is greater than $1,000. Benefit payments are automatically made in the form of a lump-sum payment if less than $1,000. Benefits are recorded as distributions to participants when paid.

The Plan allows participants to receive hardship withdrawals to satisfy certain immediate and heavy financial needs. Hardship withdrawals may only be made from fully vested accounts and are subject to a $1,000 minimum. Participant contributions will be suspended for a minimum period of six months after the receipt of a hardship withdrawal.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

Forfeitures arising from termination of employment prior to full vesting are used to offset subsequent Plan expenses or reduce future employer contributions. There were no forfeitures utilized during the year ended December 31, 2016. There were no forfeited account balances for the Plan years ended December 31, 2016 or 2015.

Valuation of Investments and Income Recognition

The assets of the Plan are reported at fair value as reported by the trustees. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Administrative Expenses

The Company has elected to pay for certain administrative and accounting expenses of the Plan. All other expenses are paid from Plan assets.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks and Uncertainties (continued)

Additionally, some investments are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

At December 31, 2016 and 2015, three investments accounted for 46% and 48% of total investments, respectively. During the year ended December 31, 2016, six investments accounted for 69% of investment income.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with GAAP.

Note 2 - Assets Certified

Reliance Trust Company has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant notes receivable at amortized cost as of December 31, 2016 and the income earned for the year then ended, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

State Street Bank and Trust Company has certified in writing to the Plan administrator that the stated amounts for investments at fair value and participant notes receivable at amortized cost as of December 31, 2015 are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the information certified by the trustees, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

GAAP requires disclosure about how fair value is determined and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investment assets that are carried at fair value, and whose valuation is performed on a recurring basis, as of December 31, 2016 and 2015.

Note 4 - Income Taxes

The Plan has not obtained a Plan-specific advisory letter as it operates with the trustee's opinion letter dated March 31, 2008, which was issued on the basic prototype plan document. The Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the accompanying financial statements.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated for any reason, all participants become 100% vested, and the Plan administrator is to distribute each participant's interest to the participant or his or her beneficiary.

Note 6 - Party-in-Interest and Related Party Transactions

Certain Plan investments are mutual funds and a money market fund managed by T. Rowe Price. Reliance Trust Company is the asset trustee, as defined by the Plan. Therefore, transactions with these entities qualify as transactions with parties-in-interest. In addition, participant notes receivable qualify as party-in-interest transactions. These transactions are exempt from prohibited transaction rules.

Note 7 - Subsequent Events

The Plan has evaluated all subsequent events through the auditors' report date, which is the date the financial statements were available to be issued. There were no subsequent events requiring recognition or additional disclosure based upon this evaluation.
