# GPM Home Office Employees' Retirement Plan

## Notes to Financial Statements

December 31, 2016

### 1. Significant Accounting Policies

#### Basis of Accounting

The accompanying financial statements of the GPM Home Office Employees' Retirement Plan (the Plan) are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States (U.S. GAAP). Benefits are recorded when paid.

#### Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates that affect the amounts reported in the financial statements, supplemental schedule, and accompanying notes. Actual results could differ from those estimates.

#### Notes Receivable From Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are recorded when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

#### Investment Valuation and Income Recognition

The Plan's investments are stated at fair value except for the fully benefit-responsive investment contract discussed below. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (the exit price). The fair value of the pooled separate accounts owned by the Plan is based on the net asset value of each investment on the last business day of the plan year as determined by the issuer. Shares of mutual funds are based on quoted market prices, which represent the net asset value of shares held by the Plan at the Plan's year-end. See Note 3 for further discussion and disclosures related to fair value measurements.

## 1. Significant Accounting Policies (continued)

The Plan provides for investments in a fully benefit-responsive group fixed unallocated annuity contract (Guaranteed Interest Account – 1) with Massachusetts Mutual Life Insurance Company (MMLIC). These investment contracts are recorded at contract value. Contract value is the relevant measurement attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Guaranteed Interest Account – 1 is supported by the general assets of MMLIC and has no maturity date. The contract value represents contributions plus earnings, less participant withdrawals and administrative expenses.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

### Risks and Uncertainties

The Plan provides for investments in various investment securities, which in general are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported on the statements of net assets available for benefits and participant account balances.

### Subsequent Events

Management evaluated subsequent events for the Plan through September 25, 2017, the date the accompanying financial statements were available to be issued.

## 2. Description of the Plan

The following description of the Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

## 2. Description of the Plan (continued)

### General

The Plan is a defined contribution plan covering virtually all employees of Government Personnel Mutual Life Insurance Company (GPM). An employee becomes eligible to participate in the Plan after completing three months of service (during which time the employee must complete 250 hours of service) and attaining age 18. If the employee does not complete 250 hours of service in the three-month time period, the employee is subject to the year of service requirement (must complete 1,000 hours of service) to become eligible for the Plan. Entry dates are the first day of the month following completion of eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

### Contributions

Participants may contribute on a pretax basis an amount not to exceed the limits of Internal Revenue Code (the Code) Sections 401(k), 402(g), 404, and 415 pursuant to a salary deferral agreement. Upon becoming eligible to make a salary deferral contribution, an employee will be deemed to have entered into a salary deferral election of 6% of compensation. For those employees continuing with the 6% deferral, there is an annual auto increase of 1% until a maximum of 15% of compensation is reached. An employee may choose to opt out of any of these automatic features or may elect a lower or higher deferral percentage. Participants may also make Roth contributions. Participants may convert all or part of their accounts into Roths.

GPM makes a matching contribution of 62.5% of a participant's contribution up to 6% of compensation. In addition, GPM also makes a safe harbor employer contribution of 3% of a participant's compensation as approved annually by the Board of Directors.

### Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of GPM's contributions and plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Additional amounts may be contributed at the option of GPM's Board of Directors. All contributions to the Plan are participant-directed. Contributions are subject to certain limitations.

**2. Description of the Plan (continued)**

**Administrative Expenses**

GPM pays certain administrative expenses for the Plan.

**Vesting**

Participants are immediately vested in their contributions and safe harbor qualified non-elective contributions. Participants become vested in matching contributions made by GPM and earnings thereon as follows:

| Years of Service | Vested Percentage |
|---|---|
| Less than 1 year | –% |
| 1 year (but less than 2) | 10 |
| 2 years (but less than 3) | 20 |
| 3 years (but less than 4) | 40 |
| 4 years (but less than 5) | 60 |
| 5 years or more | 100 |

**Forfeited Accounts**

At December 31, 2016 and 2015, forfeited non-vested accounts totaled $6,265 and $10,553, respectively. These accounts will be used to reduce future employer contributions. Approximately $17,500 was used to reduce employer contributions during 2016.

**Payment of Benefits**

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or payment in installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

## 2. Description of the Plan (continued)

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. Hardship withdrawals are allowed for participants incurring an immediate financial need, as defined by the Plan. Hardship withdrawals are strictly regulated by the Internal Revenue Service (IRS) and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

### Participant Loans

Participants may borrow from their fund accounts up to a maximum amount equal to the lesser of $50,000 or 50% of their account balance. Effective January 1, 2010, the Plan was amended to reduce the maximum loans allowed from three to two loans. Loan terms may not exceed five years, even for the purchase of a principal residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates.

## 3. Fair Value Measurements

The fair value framework establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The fair value hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below.

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

**3. Fair Value Measurements (continued)**

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value:

| | **Assets at Fair Value as of December 31, 2016** | | | |
|---|---|---|---|---|
| | **Level 1** | **Level 2** | **Level 3** | **Total** |

**3. Fair Value Measurements (continued)**

The following are additional disclosures related to plan assets measured at net asset value:

| Investments Category<br>Subcategory | Fair Value | Unfunded Commitments | Redemption Frequency | Redemption Notice Period |
|---|---|---|---|---|
| **December 31, 2016** | | | | |
| Pooled separate accounts: | | | | |

| International/global funds[6] | **1,566,488** | **–** | Daily | None |

| Investments Category<br>Subcategory | Fair Value | Unfunded Commitments | Redemption Frequency | Redemption Notice Period |
|---|---|---|---|---|
| **December 31, 2015** | | | | |
| Pooled separate accounts: | | | | |
| Intermediate-term bonds[1] | $ 703,434 | $ – | Daily | None |
| Asset allocation/lifecycle[2] | 1,197,809 | – | Daily | None |
| Large cap funds[3] | 2,476,874 | – | Daily | None |

| International/global funds[6] | 1,464,830 | – | Daily | None |
| | $ 7,818,252 | $ – | | |

[1] This category includes pooled separate accounts that invest in intermediate-term bond investments, which typically range between four years to ten years to maturity, from companies, governments, or government agencies. These investments are typically less volatile and less sensitive to interest rate movements than bond investments with longer terms to maturity.

**3. Fair Value Measurements (continued)**

[2] Asset allocation/lifestyle pooled separate account investments are date-based and blend investments from among stocks, bonds, and cash into one investment option that serves as one choice in a series. Investments in a series will feature a "roll down" strategy in which the portfolio becomes more conservative over time. In general, the further the target date of the investment is from the present, the more aggressive the portfolio is.

[3] Large cap pooled separate account funds invest in stocks of well-established, large companies that typically have capitalization exceeding $12 billion. They include core funds that include a mixture of value and growth stocks. These include value funds that invest in stocks selling at prices that are low relative to their perceived market value and potential for appreciation. Also included are growth funds that invest in the stock of companies experiencing above-average revenue and/or earnings growth. Growth stock price movements may be more volatile than those of other types of stock.

[4] Mid cap pooled separate account funds invest in stocks of midsize companies that typically have capitalization ranging from approximately $2 billion to $12 billion. These include value funds that invest in stocks selling at prices that are low relative to their perceived market value and potential for appreciation. They also include growth funds that invest in the stock of companies experiencing above-average revenue and/or earnings growth. Growth stock price movements may be more volatile than those of other types of stock.

[5] Small cap pooled separate account funds invest in stocks of smaller companies that typically have capitalization of less than $2 billion. These include value funds that invest in stocks selling at prices that are low relative to their perceived market value and potential for appreciation. They include core funds that include a mixture of value and growth stocks. Also included are growth funds that invest in the stock of midsize companies experiencing above-average revenue and/or earnings growth. Growth stock price movements may be more volatile than those of other types of stock.

[6] International/global pooled separate account funds invest in stocks of larger companies in developed markets, including Japan, Great Britain, France, and Germany. They may also invest in emerging markets, such as Hong Kong, Brazil, Mexico, and Thailand. Some may invest a portion of their assets in U.S. stock. These include value funds that invest in stocks selling at prices that are low relative to their perceived market value and potential for appreciation. They also include growth funds that invest in the stock of companies experiencing above-average revenue and/or earnings growth. Growth stock price movements may be more volatile than those of other types of stock.

**4. Investments at Contract Value**

Investments at contract value include the Guaranteed Interest Account – 1. The crediting interest rate for the Guaranteed Interest Account – 1 may be reset on a semiannual basis in advance of the period to which it relates and will be at least 3% per year. The crediting interest rate applies to the entire contract value. Crediting rates are set in response to several factors: (1) the cash flows in and out of the account during the calendar year, (2) the overall investment results of the custodian's general investment account for the year, (3) projected levels of cash flows within the current interest rate environment, (4) projected maturity of the underlying investments and (5) interest rates that may be applied to the reinvestment of assets in maturing investments. The Guaranteed Interest Account – 1 does not specify any events that would limit the ability of the Plan to transact at contract value with the issuer or any events that would allow the issuer to terminate the contract and settle for an amount different from the contract value. The Guaranteed Interest Account – 1 provides payment options of the contract value for surrendering the account; however, GPM does not intend to surrender the account. GPM may refuse to accept the offer of guaranteed interest rates at the January renewal date. If GPM refuses the offer, the account would be liquidated.

**5. Investments and Notes Receivable**

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held and notes receivable from participants at December 31, 2016 and 2015, and net appreciation in fair value of investments, interest income, and interest income on notes receivable from participants for the year ended December 31, 2016, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by MMLIC, the custodian of the Plan.

**6. Plan Termination**

Although it has not expressed intent to do so, GPM has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

## 7. Income Tax Status

The underlying volume submitter plan has received an advisory letter from the IRS dated March 31, 2014, stating that the form of the Plan is qualified under Section 401 of the Code and that the related trust is tax-exempt. In accordance with Revenue Procedures 2016-6 and 2015-36, the plan sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions.

## 8. Related-Party and Party-in-Interest Transactions

The investments of the Plan are managed by MMLIC. MMLIC is the custodian of the Plan and therefore these transactions qualify as party-in-interest transactions. These transactions are exempt from the prohibited transaction rules.

## 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.

## 10. Plan Amendments

Effective January 1, 2016, all employees of GPM's wholly owned subsidiary, GPM Health and Life Insurance Company (formerly North Coast Life), became employees of GPM. Those employees became eligible to participate in the Plan.

**10. Plan Amendments (continued)**

The Plan was amended effective March 16, 2016, to reflect the merger of North Coast Life 401(k) Retirement Plan into the Plan. The amendment contains additional protected benefits for provisions existing in the North Coast Life 401(k) Plan. Such benefits include a different vesting schedule for participants in that plan. However, all participants were 100% vested at the time of the merger. Assets in the amount of $376,712 were transferred to the Plan.
