1. DESCRIPTION OF THE PLAN

The following description of the Trustmark Services Company Investment and Savings Plan (the "Plan") provides only general information. Participants of the Plan should refer to the summary plan description for a more complete description of the Plan's provisions.

General—The Plan was authorized by the Board of Directors of Trustmark Insurance Company ("Trustmark Insurance"). Trustmark Insurance is wholly owned by Trustmark Insurance Group, Inc., which, in turn, is a wholly owned subsidiary of Trustmark Group, Inc. Effective July 1, 2003, the sponsorship of the Plan was transferred to Trustmark Services Company (the "Company"), another wholly owned subsidiary of Trustmark Group, Inc. Employees of affiliates who transfer to the Company have their participant accounts added to the Plan and retain their eligibility and their vesting. Plan participants who transfer to an affiliate have their participant accounts transferred to the plan of the affiliate.

The Plan is a defined contribution 401(k) profit-sharing plan and is subject to, and is designed to comply with, the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended, applicable to defined contribution profit-sharing plans.

Eligibility and Participants—Participation in the Plan is limited to employees of the Company immediately upon hire who are scheduled to work at least 1,000 hours and certain part-time employees who have completed 1,000 cumulative hours of service.

Contributions—Participant contributions are made by means of regular payroll deductions. Participants can contribute up to 50% of their eligible compensation on a pre-tax basis. Participants who are 50 years of age or older who are contributing at the Plan's maximum or who are scheduled to reach the annual Internal Revenue Service (IRS) contribution limit are eligible for a catch-up contribution up to 25% of their eligible compensation. Participant contributions are limited to the maximum amount allowed by the Internal Revenue Code (the "Code"), and for highly compensated employees, contributions are limited by the Plan.

The Company may elect to match an amount not in excess of 6% of the participant's eligible compensation on a dollar-for-dollar basis. The Benefits Committee has the ability to change the percentage contribution matched on an annual basis.

Effective January 1, 1999, Trustmark Insurance adopted amendments resulting in a partial termination of its Employees' Retirement Plan and Trust (the "Retirement Plan"). As a result of these amendments, certain employees became eligible for an employer contribution under the Plan. The Company may also contribute an additional 1% based on the Company's performance. Other employees were given the option to begin to receive the employer contribution under the Plan and no longer earn benefits under the Retirement Plan or, alternatively, continue accruing benefits under the Retirement Plan.

Effective January 1, 2005, the Plan was amended to allow participants in the Retirement Plan as of the Retirement Plan's termination date (December 31, 2004) to be participants in the Plan and receive a special company retirement contribution ("Special Contribution"). This Special Contribution is 10%-

13% of the participants' eligible compensation based on the participant's age. Additionally, the Company may elect to match an amount not in excess of 4% of the participant's eligible compensation on a dollar-for-dollar basis in addition to the Special Contribution.

The Company matched up to 4% or 6% of participant's eligible compensation for the year ended December 31, 2016 (based on their eligibility), or $4,444,045. The maximum annual addition, including employer and employee contributions, to a participant's account is limited to the lesser of $53,000 in 2016 or 100% of eligible annual compensation.

Investment Provisions—Participants may direct the investment of their contributions into various investment options offered by the Plan or to a self-directed brokerage account. These investment funds and the self-directed brokerage accounts are administered and, in some cases, managed by Fidelity Management Trust Company (the "trustee").

Participant Accounts and Vesting—Individual accounts are maintained for each participant of the plan. Each participant's account is credited with the participant's and the Company's contributions, an allocation of the Plan's earnings, losses and administration expenses, and charged with withdrawals. Investment earnings are allocated daily based on participant account balances.

Participants are fully vested in their contributions plus actual earnings thereon. Participants become 100% vested in the remainder of their account balance graduated over six years of plan service (graduated over seven years of service for pre-2007 employer retirement contributions and pre-2002 employer matching contributions).

The following table summarizes the Plan's vesting schedule for post-2001 employer matching contributions and post-2006 employer non-discretionary retirement contributions:

Years of Vesting Service	Vested Percentage
Less than 2 years	- %
2 years	20
3 years	40
4 years	60
5 years	80
6 or more years	100 %

Notes Receivable from Participants—Participants may borrow from their accounts a minimum of $1,000 up to a maximum of the lesser of one-half of the vested account balance or $50,000. The loans are secured by an assignment of a participant's vested interest in the Plan, and bear interest at a rate commensurate with local prevailing rates at the time funds are borrowed as determined by the Plan administrator. Principal and interest are paid ratably through payroll deductions or as a lump sum for the outstanding loan balance. Loan terms range from 1 to 5 years; however, terms may exceed 5 years for the purchase of a primary residence.

Benefit Payments—Upon termination of service with the Company, a participant may elect to receive the value of their vested account interest. Benefit payments may be paid in a lump sum. Minimum required distributions can be made in installment payments. Participant account balances less than $1,000 must be paid out in one lump sum after termination. Participants may withdraw their vested contributions prior to termination of service in the event of hardship, as defined by the Plan.

Forfeited Accounts—Upon termination of employment, participants forfeit their nonvested balances. If a participant is rehired within a five-year period, the forfeited contributions may be reinstated. Forfeitures may be used for the following purposes: reinstatement of previously forfeited account balances of former participants, reduction of future Company contributions, to pay plan expenses, to make restorative payments to former participants, or to reduce any additional amounts the Company is responsible for under the Plan. During the year ended December 31, 2016, $277,152 of forfeitures were used to reduce the Company's contributions. At December 31, 2016 and 2015, the amount of forfeitures that were not allocated was $49,030 and $114,205, respectively. The unallocated forfeitures are retained in the Fidelity Managed Income Portfolio II Fund.

Plan Termination—Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, participants will become 100% vested in their accounts and the net assets of the Plan will be distributed to participants in an order of priority determined in accordance with ERISA and its regulations and with the Plan document.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting—The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP).

Payment of Benefits—Benefit payments to participants are recorded upon distribution.

Use of Estimates—The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from these estimates.

Risks and Uncertainties—The Plan invests in various investments. Investments, in general, are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Notes Receivable from Participants—Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance, plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Investment Valuation and Income Recognition—Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Interest income is recorded as earned. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year. Purchases and sales of securities are recorded on the trade date. Management fees and operating expenses of investment funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Transfers—"Net Transfers into Plan" or "Net Transfers out of Plan" in the statement of changes in net assets available for benefits is used when an employee is transferred from one business entity to another affiliated entity. The employee ends eligibility in the former entity's 401(k) plan and starts eligibility in the new entity's 401(k) plan. The balance of the participant's account is transferred to the new plan, prior vesting credit is recognized, and the participant is allowed to continue to earn vesting credit on prior contributions. The net total transferred out of the Plan for the year ended December 31, 2016 was $51,433.

Administrative Expenses—Administrative expenses of the Plan are paid by the Plan Sponsor as provided in the plan document. All investment management and transaction fees directly related to the Plan investments are paid by the Plan. Management fees and operating expenses charged to the Plan for investments are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Subsequent Events—Management evaluated subsequent events for the Plan through September 29, 2017, the date the financial statements were available to be issued. No additional material events were identified that would require recognition or disclosure in the financial statements.

New Accounting Standards Updates—During 2016, the Plan adopted Accounting Standards Update (ASU) Nos. 2015-07, *Disclosures for Investments In Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent)* and 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965)—I. Fully Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. ASU No. 2015-07 amended ASC 820, *Fair Value Measurements*, and removed the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as a practical expedient. Part II of ASU No. 2015-12 was applicable to the Plan and modified the investment disclosures under ASC 820 and 962. The standards were adopted retrospectively and had no impact on the Plan's net assets or changes in net assets.

As a result of the adoption of ASU 2015-12 Part 1 and ASU 2015-07, the presentation of the Plan's investment in a stable value common collective trust fund retrospectively presents the investment at fair value using net asset value (NAV) as a practical expedient. The amount previously presented at contract value is now presented at fair value. This change had no effect on total net assets available for benefits or the change in net assets available for benefits.

3. FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1—Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities

Level 2—Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

Level 3—Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. There have been no changes in the valuation methodologies used at December 31, 2016 and 2015.

The Plan's assets carried at fair value as of December 31, 2016 and 2015, set forth by level, within the fair value hierarchy, are as follows:

2016	**Balance**	**Level 1**	**Level 2**	**Level 3**
Mutual Funds	$ 148,611,582	$ 148,611,582	$ -	$ -
Self Directed Brokerage Accounts	8,193,596	8,193,596		
Total	156,805,178	$ 156,805,178	$ -	$ -
Investments measured at NAV				
Stable Value Fund	14,612,746			
Total investments at fair value	$ 171,417,924			

2015	**Balance**	**Level 1**	**Level 2**	**Level 3**
Mutual Funds	$ 140,808,110	$ 140,808,110	$ -	$ -
Self Directed Brokerage Accounts	7,779,388	7,769,358	10,030	
Total	148,587,498	$ 148,577,468	$10,030	$ -
Investments measured at NAV				
Stable Value Fund	14,075,328			
Total investments at fair value	$ 162,662,826			

The Plan's policy is to recognize transfers between levels at the actual date of the event or change in circumstances that caused the transfer. For the years ended December 31, 2016 and 2015, there were no significant transfers in or out of Levels 1, 2, or 3.

The following is a description of the valuation methodologies used for major categories of assets measured at fair value by the Plan:

Self-Directed Brokerage Accounts—Self-directed brokerage accounts invest in interest-bearing cash accounts, common stocks, mutual funds, and corporate bonds. The common stocks and mutual funds are valued at closing quoted market prices in active markets. The corporate bonds are valued using bid evaluation, an estimated price at which a dealer would pay for a security. These evaluations are based on proprietary models that pricing vendors establish for these purposes. The interest-bearing cash accounts are valued at their net asset value based on quoted prices.

Mutual Funds— Valued at closing quoted market prices in active markets.

Stable Value Fund—Fund that invests in fully benefit-responsive investment contracts and is reported at fair value using net asset value (NAV) as a practical expedient. The stable value fund calculates NAV per share in a manner consistent with the measurement principles in FASB Accounting Standards Codification Topic 946 Financial Services—Investment Companies. Those measurement principles indicate that, in the determination of a stable value fund's NAV, the relevant measurement is net assets which include the fully benefit investment contracts held by the fund at contract value. This NAV represents the Plan's fair value since this is the NAV at which the Plan transacts with the fund. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported net asset value

4. STABLE VALUE FUND

The Plan holds the Fidelity Managed Income Portfolio II a stable value fund. The fund has certain limitations on withdrawals and exchanges as follows:

- Participant-directed—Withdrawals made in order to accommodate distributions to participants or transfers to non-competing investments may be made on any business day. Transferred amounts must be held in a non-competing investment option for 90 days before subsequent transfers to a competing fund can occur.

- Non-participant-directed—Withdrawals directed by a plan sponsor must be preceded by a twelve month written notice to Fidelity Management Trust Company (Fidelity). Fidelity, however, may, in its discretion complete any such plan-level withdrawal before the expiration of such twelve month period. No such notice has been given to Fidelity.

There are no unfunded commitments or other redemption notice requirements related to this investment.

5. INFORMATION CERTIFIED BY THE TRUSTEE

Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances within the statements of net assets available for benefits and supplemental schedule of assets as well as the investment income and interest income on note receivable from participants amounts included in the statement of changes in net assets available for benefits are based solely on information certified by the Trustee.

6. RELATED-PARTY TRANSACTIONS

The Plan holds units of a stable value fund and shares of mutual funds managed by the trustee of the Plan. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transactions rules under ERISA.

The employer and participants have also all been identified as parties-in-interest. Certain expenses, including salaries and expenses required for Internal Revenue Service reporting, related to the administration of the Plan are paid by the employer. The employer is the sponsor of the Plan, and, therefore, these transactions qualify as party-in-interest transactions. The Plan allows participants to borrow from their individual accounts as described in Note 1. These transactions would qualify as party-in-interest transactions.

7. INCOME TAX STATUS

The Plan has received a determination letter from the IRS dated March 25, 2013, stating that the Plan, as then designed, was qualified under Section 401(a) of the Code, and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

8. VOLUNTARY COMPLIANCE RESOLUTION

During 2017, the Company determined that certain plan operational failures occurred with respect to pre-age 59-1/2 in-service withdrawals that did not comply with the plan document, resulting in overpayments to affected participants. These failures occurred at various times over the last several years. The Company is in the process of working with outside benefits counsel to correct these failures. The Company anticipates self-correcting these failures in accordance with applicable IRS correction procedures and will not need to file with the IRS under its Voluntary Correction Program (VCP). Self-correction of these failures is not expected to have a material impact on the plan's financial statements.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the amounts included in the Form 5500 as of December 31 2016, and amount per the filed Form 5500 as of December 31, 2015:
