Report on the Financial Statements

We have audited the accompanying financial statements of The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan (the Plan), which comprise the statement of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan as of December 31, 2016 and 2015, and the changes in its net assets available for benefits for the year ended December 31, 2016, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our 2016 audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets held at end of year is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN

The following description of the Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is sponsored by The Great Lakes Construction Co., a subsidiary of the Great Lakes Companies, Inc. (the Company). The Plan was adopted so that all members of The Great Lakes Construction Co. controlled group of companies (the controlled group) could participate in the Plan, if the employees of the controlled group met the eligibility provisions of the Plan. The Plan, as amended, operates as an employee stock ownership plan (ESOP), is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code (IRC), as amended, and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. The Plan is administered by the ESOP Committee comprised of five or more persons, including at least three non-management members of the Board of Directors of the Company and two Company management members, one of which is the Chief Executive Officer. ESOP committee members serve one-year terms.

Prior to January 1, 2016, employees of the controlled group were eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during the Plan year. Effective January 1, 2016, the Plan was amended to remove the 1,000 hour requirement and employees of the controlled group are eligible to participate in the Plan upon hire. Participants who are not employed by the controlled group on the last working day of the Plan year due to termination, are generally not eligible for an allocation of Company contributions. Employees whose employment is governed by a collective bargaining agreement and independent contractors are excluded from participation in the Plan.

Contributions

Each year, the Company may make discretionary contributions to the Plan solely at the discretion of the Company's Board of Directors. Contributions are subject to the limitations imposed under the IRC Section 404(a)(3)(A). Employee contributions are not permitted.

Contributions authorized by the Company's Board of Directors for the year ended December 31, 2016, amounted to \$1,805,945.

Diversification

Diversification is offered to participants close to retirement age so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their accounts by taking a distribution of a portion of their account and either rolling the distribution into the Company 401(k) Plan or into an individual retirement account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the Company stock allocated to their account, less any shares previously diversified. In the sixth year, the percentage increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Participant Accounts

A separate account is maintained for each participant. Each participant's account is credited as of the last day of the Plan year with an allocation of the Company's discretionary contribution and Plan earnings or losses as defined by the Plan agreement. Contributions to the Plan are allocated to each eligible participant based upon the participant's eligible compensation for the Plan year, as defined by the Plan. Plan earnings or losses are allocated annually based on each participant's account balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account, as defined.

Vesting

Vesting in the participant's account is based upon continuous years of service. Participants are subject to a vesting schedule, as defined, with the participant being 100% vested after five years of credited service. A participant will be fully vested in their account balance if employment ends due to retirement, permanent disability, or death.

Payment of Benefits

Upon termination of service due to death, disability or retirement, a participant or beneficiary may elect to receive either a lump-sum distribution equal to his or her account balance or annual installments over a future period not longer than the life of the participant or participant's beneficiary. Payment of benefits will be in the form of cash or Company stock, or both. A participant may designate that the entire payment be in the form of Company stock. If cash is required for distributions, the Company may make additional contributions or the Plan has the ability to obtain a loan collateralized by the Company stock.

If the participant's account balance is less than \$1,000, the Plan may make an automatic lump-sum distribution to the participant equal to the participant's vested interest in his or her account. The Plan requires the mandatory repurchase by the Company of terminated participants' holdings of the Company stock. The repurchase schedule is based on a participant's continuous years of service prior to termination. The repurchase period ranges from one lump-sum repurchase in the first year following separation to installment repurchases over a five-year period, as defined. The mandatory repurchase period begins on the last day of the Plan year following the Plan year in which a participant's termination occurs. Proceeds from the sale of Company stock for terminated participants that did not elect a distribution from the Plan are transferred into a Qualified Default Investment Account which is currently held in a mutual fund.

Forfeitures

Forfeitures of non-vested balances may be used to pay any administrative expenses of the Plan. The remaining forfeitures, if any, shall be allocated each year to the Plan participants based on the same formula used to allocate Company contributions. During 2016, approximately \$45,700 was forfeited into the suspense account and redistributed to eligible participant accounts.

NOTES TO THE FINANCIAL STATEMENTS

1. DESCRIPTION OF PLAN (Continued)

Put Option

Under federal income tax regulations, Company stock that is held by a Plan and its participants and is not readily tradeable on an established market or subject to trading limitations, must include a put option. The put option provided by the Company allows participants and beneficiaries to require the Company to repurchase any shares distributed to them within a sixty-day period from the date of distribution at the most recent annual fair market value as reported by an independent third party appraiser. If the put option is not exercised within the initial sixty-day period it may be exercised within an additional sixty-day period in the following Plan year. If the put option is not exercised in either period, the mandatory repurchase of terminated participants' holdings of Company stock will occur over a one to five year period, as defined.

Voting Rights

The trustee, a designated individual at the Plan sponsor, votes on behalf of the Plan and is required to vote on behalf of the collective best interest of Plan participants and beneficiaries. Plan participants may vote directly on issues related to the merger, sale or liquidation of the Company.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Accounting Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amount of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when stock is distributed or cash is paid.

NOTES TO THE FINANCIAL STATEMENTS

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Plan Expenses

The Plan's administrative expenses are paid either by the Plan or the Company as provided by the Plan agreement. Expenses that are paid by the Company are excluded from these financial statements.

Income Taxes

The Plan recognizes and discloses uncertain tax positions in accordance with GAAP. As of December 31, 2016 and 2015, and for the year ended December 31, 2016, the Plan did not have a liability for unrecognized tax benefits.

Subsequent Events

Plan management has evaluated subsequent events through September 8, 2017, the date the financial statements were available to be issued.

3. ADMINISTRATION OF PLAN ASSETS

The Plan's assets, which consist principally of Company stock, are held by the trustee of the Plan.

Company contributions are held and managed by the trustee, who invests cash received and interest and dividend income and makes distributions to participants.

Certain administrative functions are performed by officers or employees of the Company or the controlled group. No such officer or employee receives compensation from the Plan. Trustee's fees are paid directly by the Company.

4. INVESTMENTS

At December 31, 2016 and 2015, the investments in Company stock are as follows:

	<u>2016</u>	<u>2015</u>
The Great Lakes Companies, Inc. common stock:		
Number of shares	675,956	718,385
Cost	<u>\$ 8,127,238</u>	<u>\$ 7,767,913</u>
Estimated fair value	<u>\$ 48,229,522</u>	<u>\$ 39,290,192</u>

The fair value of the Company stock is determined annually as of December 31, by an independent third-party appraiser. The Plan's investment in the Company stock constitutes approximately 96% of the Plan's total assets, as of December 31, 2016 and 2015. As of December 31, 2016 and 2015, the Plan owned 100% of the outstanding stock of The Great Lakes Companies, Inc.

NOTES TO THE FINANCIAL STATEMENTS

5. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access
- Level 2 Other significant observable inputs including: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 Inputs are significant and unobservable (including the Plan's own assumptions used to determine value)

The assets' fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2016 and 2015.

Sponsor company common stock: Valued at fair value based upon an annual independent appraisal. This appraisal was based on the market valuation method consistent with prior years. The appraiser took into account historical cash flow and net income, return on assets, return on equity, revenue multiples, EBIT multiples, EBITDA multiples, and public company comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability.

Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which the ESOP Committee, along with the Board of Directors of the Company, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Plan.

Mutual fund: Valued at the daily closing price as reported by the fund. The mutual fund held by the Plan is an open-end mutual fund that is registered with the U.S. Securities and Exchange Commission. The fund is required to publish its daily net asset value and to transact at that price. The mutual fund held by the Plan is deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTES TO THE FINANCIAL STATEMENTS

5. FAIR VALUE MEASUREMENTS (Continued)

Assets measured at fair value by level, within the fair value hierarchy, are comprised of the following at December 31, 2016:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Sponsor company common stock			\$ 48,229,522
Mutual fund	\$ 204,204		
	<u>\$ 204,204</u>	<u>\$</u>	<u>\$ 48,229,522</u>

Assets measured at fair value by level, within the fair value hierarchy, are comprised of the following at December 31, 2015:

<u>Description</u>	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>
Sponsor company common stock			\$ 39,290,192
Mutual fund	\$ 163,736		
	<u>\$ 163,736</u>	<u>\$</u>	<u>\$ 39,290,192</u>

Following is a reconciliation of activity for 2016 for the fair value of the Plan's Level 3 assets for the year ended December 31, 2016:

Balance, beginning of year	\$ 39,290,192
Realized gains	634,210
Unrealized gains	10,620,472
Shares contributed	1,582,543
Benefits paid to participants (shares redeemed by the Company)	(3,802,423)
Other shares redeemed by the Company transferred to the mutual fund	(95,472)
Balance, end of year	<u>\$ 48,229,522</u>

6. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of The Great Lakes Companies, Inc.'s common stock, the parent company of the Plan's sponsor, The Great Lakes Construction Co. Therefore, these transactions qualify as party-in-interest.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts. Upon such termination of the Plan, the interest of each participant's account will be distributed to such participant or his or her beneficiary at the time prescribed by the Plan agreement and the IRC.

NOTES TO THE FINANCIAL STATEMENTS

8. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated September 17, 2013, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC and that the Plan and the related trust were tax exempt as of the financial statement date.

9. RISKS AND UNCERTAINTIES

The Plan investments consist primarily of the Company's common stock, which is exposed to various risks, such as interest rate, market, and credit risks, as well as valuation assumptions based on earnings, cash flows, and other such techniques. Due to the level of risk associated with the investment in common stock and to uncertainties inherent in estimates and assumptions, it is at least reasonably possible that changes in the value of the common stock will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
