AT&T Alascom Savings Plan for Teamsters Represented Employees
Notes to Financial Statements
December 31, 2016

NOTE 1. DESCRIPTION OF PLAN

The following is a brief description of AT&T Alascom Savings Plan for Teamsters Represented Employees (the Plan). Participants should refer to the Plan document for a complete description of the Plan's provisions.

The Plan was established effective January 1, 1997, for the benefit of General Teamsters Local 959 represented employees of Alascom, Inc. d/b/a AT&T Alaska (the Company). The Plan is a defined contribution plan subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective at the end of business on December 31, 2016, the Plan was merged into the AT&T Retirement Savings Plan (ARSP). All participant accounts were transferred to one of the eleven ARSP funds available. Under the ARSP, participants contribute through payroll allotments and matching contributions are based on the provisions of the respective plan. Additional information and a summary of the key differences between the Plan and the ARSP are available in the Plan's prospectus supplement. Assets of the Plan, including notes receivable from participants were transferred to the ARSP trustee in early January 2017 and are included in the Transfers to other qualified savings plans line of the Statement of Changes in Net Assets Available for Benefits.

An employee became eligible to participate in the Plan at the beginning of each month after the completion of one year of service. Participation was elective and was exercised by means of authorizing contributions to the Plan of not less than 1% and not more than 75% of pre-tax earnings, as defined by the Plan. Pre-tax contributions were not exceed limitations set by the Internal Revenue Service (IRS). The Company matched 66 2/3% of participant contributions for an amount up to 6% of the participant's pre-tax contributions.

Employees who were age 50 or older on or before December 31, 2016 could have been eligible to make pre-tax contributions beyond the IRS pre-tax limit. The 2016 catch-up contribution limit set by the IRS was $6,000. No Company contributions were made on catch-up contributions.

Participants were always fully vested in their own contributions and became fully vested in their respective share of the Company's contributions after three years of service.

Loans could have been available to the participants subject to the approval of the Plan administrator. Participants were allowed to borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 minus the highest outstanding balance on all loans during the preceding 12 months, or 50% of their vested account balance. The term of the loan was not exceed five years. The loans were collateralized by the balance in the participant's account and bore interest at the prime rate plus 1%. Principal and interest were paid in equal installments each payroll period.

Upon early retirement at the age of 55, or if the participants attained the normal retirement age of 65, or termination, a participant with an account balance could have elected an immediate lump-sum payment or defer the distribution until age 70 1/2. Hardship and non-hardship withdrawals were available upon request and approval for active participants.

Investment Options

All contributions were invested by Wells Fargo Bank, N.A. (the Trustee) according to the options elected by the participants.

Plan Expenses

Expenses of administering the Plan were paid by the Company, except for participant loan fee costs, which was paid by the participant.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan are prepared under the accrual method of accounting.

Payment of Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a distribution is recorded.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 3 for further discussion of fair value measurements. Mutual funds are valued on quoted market price, which represent the net asset value of shares held by the Plan at year-end. The common/collective trust is valued at net asset value as determined by the issuer.

Purchases and sales of securities are recorded on the trade date. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Plan management has evaluated subsequent events through June 22, 2017, the date the financial statements were available to be issued.

NOTE 3. FAIR VALUE MEASUREMENTS

Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, defines fair value, establishes a framework for measuring fair value and expands disclosures about fair value measurements. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). ASC 820 includes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.

Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability.

Level 2 inputs include the following:

- Quoted prices for similar assets and liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in markets that are not active
- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals);
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

The Plan had no assets at December 31, 2016.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2015:

	Plan Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 18,750,904	–	–	$ 18,750,904
Total assets in fair value hierarchy	$ 18,750,904	$ –	$ –	$ 18,750,904
Investments measured at net asset value				
Collective Stable Return Fund [(a)]				2,951,519
Total assets at fair value				$ 21,702,423

(a) This category includes a common/collective trust fund that is designed to deliver safety and stability by preserving principal and accumulating earnings. This fund is primarily invested in guaranteed investment contracts and synthetic investment contracts. Participant-directed redemptions have no restrictions; however, any Plan sponsor or Plan fiduciary initiated withdrawal from the fund will require a 12-month written notice of the intent to withdraw assets from the fund. At the discretion of the Trustee, the notification periods identified for withdrawals may be waived. Redemptions or exchanges of fund shares may be delayed or suspended for up to 12 months, or even longer if the Trustee obtains an exemptive order or other appropriate relief from the Comptroller of the Currency, as defined in the Declaration of Trust for the fund.

NOTE 4. INVESTMENTS

All investment information disclosed in the accompanying financial statements, including investments held and notes receivable from participants at December 31, 2015, and net appreciation in fair value of investments, interest income, dividends, and interest income on notes receivable from participants and transfers to affiliated plans for the year ended December 31, 2016, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Trustee.

NOTE 5. INCOME TAX STATUS

The Plan has received a determination letter from the IRS dated November 22, 2013, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (IRC) and therefore the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC, and therefore believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require Plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there were no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 6. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments were shares of mutual funds managed by Wells Fargo Funds Management, an affiliate of the Trustee. The Trustee was also the record-keeper as defined by the Plan, and therefore, these transactions qualified as party-in-interest and were exempt from the prohibited transaction rule.
