Report of Independent Auditors

To the Plan Administrator of the
DIRECTV 401(k) Savings Plan

We have audited the accompanying financial statements of DIRECTV 401(k) Savings Plan, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statement of changes in net assets available for benefits for the year ended December 31, 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in conformity with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of DIRECTV 401(k) Savings Plan at December 31, 2016 and 2015, and the changes in its net assets available for benefits for the year ended December 31, 2016, in conformity with U.S. generally accepted accounting principles.

NOTE 1. PLAN DESCRIPTION

The following descriptions provide only general information. Detailed provisions covering participant eligibility, participant allotments from pay, participant withdrawals, participant loans, employer contributions and related vesting of contributions and plan expenses are provided in the plan texts and prospectuses. The DIRECTV 401(k) Savings Plan (the Plan), was a defined contribution plan of DIRECTV (the Company). In connection with the July 2015 merger with AT&T Inc. (AT&T), DIRECTV became a wholly-owned subsidiary of AT&T. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective at the end of business on December 31, 2016, the Plan was merged into the AT&T Retirement Savings Plan (ARSP). Assets of the Plan, including notes receivable from participants were transferred to the ARSP trustee in early January 2017 and are included in the Transfers to other qualified savings plans line of the Statement of Changes in Net Assets Available for Benefits. All participant accounts were transferred to one of the eleven ARSP funds available. Under the ARSP, participants contribute through payroll allotments and matching contributions are based on the provisions of the respective plan. Additional information and a summary of the key differences between the Plan and the ARSP are available in the Plan's prospectus supplement.

Individual accounts were maintained for each participant. Each participant's account was maintained to reflect: (i) credits for contributions into the Plan, (ii) credits for the Company's applicable matching contributions including true-up receivable, (iii) charges for loans taken and credits for repayments to those loans, (iv) charges for any withdrawals from the Plan, (v) an allocation of earnings or losses from applicable fund performance, and (vi) a periodic charge for the Plan's administrative expenses.

Participants were vested immediately in their contributions plus actual earnings thereon. Vesting in the Company matching contributions was based on years of service. For Company matching contributions made on or after December 1, 2010, participants became fully vested after two years of service. For all Company matching contributions made before December 1, 2010, participants became fully vested after three years of service. Forfeited Company contributions, if any, were used to reduce future Company contributions to the Plan.

The Plan provided that if a participant separated from service with the Company as a result of retirement, the participant may have elected to receive their vested interest in their account balance in either a lump sum or installments. If the participant separated as a result of death or disability, their vested interest in their account balance was paid in a lump sum payment.

At December 31, 2016 and 2015, the Plan assets included forfeited Company contributions that totaled \$114 and \$529, respectively. During the year ended December 31, 2016, the forfeitures used to reduce employer contributions were \$2,815. Forfeitures at December 31, 2016, were included in the assets transferred to the ARSP trustee in January 2017 and will be used to reduce future employer contributions made to the ARSP.

Dividends on shares in the AT&T Stock Fund could have either been reinvested in the AT&T Stock Fund on a quarterly basis, or paid into a short-term interest bearing fund for distribution before the end of the year. Interest earned on dividends held in the short-term interest bearing fund were used to purchase additional units of the AT&T Stock Fund in the participant's account. During 2016, Plan participants elected to receive \$80 in dividend distributions. This amount was included in benefit payments on the Plan's Statement of Changes in Net Assets Available for Benefits.

Each participant was entitled to exercise voting rights attributable to the AT&T shares allocated to their account and was notified by the Company prior to the time that such rights may be exercised. Subject to the fiduciary provisions of ERISA, the trustee did not vote any allocated shares for which instructions had not been given by a participant. The trustee voted any unallocated shares in the same proportion as it voted those shares that were allocated to the extent the proportionate vote was consistent with the trustee's fiduciary obligations under ERISA. Participants had the same voting rights in the event of a tender or exchange offer.

Although it had not expressed any intention to do so, the Company reserved the right to terminate the Plan at any time subject to the provisions set forth in ERISA. Upon such termination, the participants' rights to the Company's contributions vested immediately, and the account balances were to be fully paid to the participants.

The Plan allowed participants to borrow from their vested account balances, subject to certain limitations. The loans, secured by the balance in the participant's account, bore interest at the rate of 1 percent over the Prime Rate as published in Reuters (which rate is fixed at the inception of the loan), and maturities generally could not exceed four years (except for residential loans where maturities extend to 15 years, effective July 1, 2010). The loans matured between 2017 and 2031 at interest rates ranging from 4.25% to 9.25%.

Notes to Financial Statements **(Dollars in Thousands)**

The trustee of the Plan was State Street Bank and Trust Company (State Street). Additional Plan information was provided to the participants by the Company in the form of a Summary Plan Description.

Investment management fees were incurred against each fund option held by the Master Trust, which effectively reduced the fund's investment performance. All administrative expenses of the Plan, including but not limited to record keeping, trustee and audit fees were paid by participants in the plan through a monthly fee assessment.

NOTE 2. ACCOUNTING POLICIES

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with generally accepted accounting principles in the United States of America (or GAAP).

The Plan participated in the DIRECTV Savings Plan Group, Inc. Master Trust (the Master Trust). All of the Plan's investments were held in the Master Trust. See Note 4 for further discussion of the Master Trust. The Plan's investment in the Master Trust is presented at fair value, which has been determined based on the Plan's interest in the net assets of the Master Trust reflecting all of its investments at fair value. Investments in securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the year. If no sale was reported on that date, they are valued at the last reported bid price. Shares of mutual funds are valued based on quoted market prices, which represent the net asset value of shares held at year-end. The fair values of participation units held in collective trusts are based on the net asset values reported by the fund managers as of the Plan's financial statement dates and recent transaction prices. Purchases and sales of securities held by the Master Trust are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net investment income from the Master Trust includes the Plan's interest in the Master Trust's gains and losses on investments bought and sold as well as held during the year less investment management and administrative expenses.

The preparation of financial statements in conformity with GAAP requires management to make estimates that affect the reported amounts of net assets available for benefits and changes therein. Management bases its estimates on historical experience and on various other factors that are believed to be reasonable under the circumstances. Due to the inherent uncertainty involved in making estimates, actual results reported in future periods may be affected by changes in those estimates.

Notes Receivable from Participants Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued, but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees were recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a distribution is recorded.

Benefit payments to participants are recorded upon distribution.

NOTE 3. FAIR VALUE MEASUREMENTS

Accounting Standards Codification 820, *Fair Value Measurement*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access. |
| Level 2 | Inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets and liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted market prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. |

Notes to Financial Statements (Continued)
(Dollars in Thousands)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The valuation methodologies described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in the methodologies used at December 31, 2016 and 2015.

See Note 4 for fair value hierarchy for the Master Trust's and Plan's investments.

NOTE 4. INFORMATION CONCERNING THE MASTER TRUST AND FAIR VALUE MEASUREMENTS

The Master Trust was created pursuant to a trust agreement between the Company and State Street, as trustee of the funds, to permit the commingling of plan assets for investment and administrative purposes. The assets of the Master Trust and the Plan are held by State Street. Upon completion of the merger of the Plan into the ARSP, the Plan was terminated and therefore no longer participated in the Master Trust. As of December 2015 and for the year ended December 31, 2016, the DIRECTV 401(k) Savings Plan was the only Plan in the Master Trust.

The following tables summarize the net assets and net investment income of the Master Trust.

Net Assets of the Master Trust at December 31,

	<u>2015</u>

¹ The short-term collective trust is designed to provide safety of principal, daily liquidity, and a competitive yield by investing in high quality money market instruments.

² The stable value funds primarily invest in investment contracts offered by major banks, insurance companies, and other financial institutions. It seeks to provide stability of principal and interest, and to achieve higher returns over time than money market funds.

³ The fixed income funds primarily invest in high quality bonds and other fixed income securities, including U.S. government obligations, corporate bonds, mortgages and asset-backed securities. It seeks to track the performance of the Barclays Capital Aggregate Bond Index.

⁴ The balanced fund primarily invests in inflation sensitive equities, commodities, treasury inflation protected securities (TIPS) and emerging market inflation-linked bonds. It seeks to provide returns above inflation as calculated by the U.S. Consumer Price Index over a market cycle.

⁵ The large cap equity funds invest primarily in U.S. company stocks, with the objective of providing long-term growth of capital or providing results that correspond to the total return performance of the S&P 500 Index.

⁶ The small/mid cap funds invest primarily in U.S. smaller capitalization equity securities and some mid-capitalization equity securities, and certain of these funds are designed to approximate the performance of the Russell 2500 Index, or generally to seek long-term capital appreciation through the fund's investment strategy.

⁷ The international equity funds invest primarily in established foreign companies or companies of emerging markets outside the U.S. and the funds are designed to approximate the performance of the MSCI Emerging Markets Index or the MSCI All Country World ex-U.S. Index.

⁸ The Target Retirement Funds seek their objectives by investing in a set of underlying SSgA collective trust funds representing various assets classes, such as stocks, real estate investment trusts, commodities interests and fixed-income securities. Each Fund's asset allocation becomes more conservative as it approaches its target retirement date.

Each collective trust provides for daily redemptions by the Plan at reported net asset values per share, with no advance notification requirement.

NOTE 5. RISKS AND UNCERTAINTIES

The Plan invested in the Master Trust which utilized various investments. Investments, in general, are exposed to various risks, such as interest rate risk, credit risk, liquidity, and overall market volatility. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is reasonably possible that significant changes in the values of investment securities could occur in the near term and that such changes could have a material effect on the Plan's financial statements and participants' account balances.

NOTE 6. PARTIES-IN-INTEREST TRANSACTIONS

Plan assets were invested in AT&T common stock through the Master Trust. Prior to the Plan merging with the ARSP and at December 31, 2015, the Plan, through the Master Trust, held \$406,054 and \$346,227 in AT&T and DIRECTV common stock. Because the Company is the plan sponsor, transactions involving the Company's stock qualify as party-in-interest transactions. In addition, certain investments held by the Plan and Master Trust are managed by State Street and Voya Financial as trustee and record keeper, respectively, as defined by various agreements. Therefore, these transactions and fees paid to these entities qualify as parties-in-interest transactions. All of these transactions are exempt from the prohibited transactions rules.

NOTE 7. TAX STATUS

The Plan obtained its latest determination letter on August 7, 2014, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (the Code). The Plan has been amended since the effective date of the determination letter, however, the Company and Plan management believe that the Plan currently is designed and being operated in compliance with the applicable requirements of the Code and is, therefore, not subject to federal income taxes under present income tax laws. Accordingly, no provision for federal income taxes has been made in the accompanying financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2015, to the Form 5500:

	2015
Net Assets Available for Benefits per the financial statements	\$ 2,253,802
Distributions payable to participants	(134)
Net Assets Available for Benefits per the Form 5500	<u>\$ 2,253,668</u>

The following is a reconciliation of the change in net assets available for benefits for the year ended December 31, 2016, per the financial statements to the net income reported in the Form 5500:
