FOR THE YEARS ENDED DECEMBER 31, 2016 AND 2015

Note A - Description of Plan

The following description of the Integrated Medical Systems International, Inc. (the Company) 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan established by Integrated Medical Systems International, Inc. under the provisions of Section 401(a) of the Internal Revenue Code (IRC), which includes a qualified cash or deferred arrangement as described in Section 401 (k) of the IRC; for the benefit of eligible employees of the Company. To be eligible to participate in the Plan, an employee must have attained eighteen (18) years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Plan Termination. The Plan was terminated effective May 8, 2014. No new participant contributions were made to the Plan after May 8, 2014. Active participants became fully vested in their accounts on this date and were eligible for a lump sum distribution. In accordance with accounting principles generally accepted in the United States of America, the Plan has changed its basis of accounting from the ongoing plan basis to the liquidation basis on May 8, 2014. The liquidation basis of Plan assets approximates fair value.

Participants' Accounts. Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching contributions, as well as an allocation of plan earnings. The allocation of plan earnings is based on the proportion that each participant's account balance has to the total of all participants' account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. No new participant contributions were made to the Plan after the Plan's Termination.

Notes Receivables from Participants. No new loans are allowed after the Plan's Termination effective May 8, 2014. Existing loans are secured by the balance in the participant's account and bear an interest rate of 4.25%. Loans provide for a fixed rate of interest equal to the prime interest rate plus one percent. The Plan Administrator determines whether the interest rate is commercially reasonable at the time it approves the loan. The loans provide at least quarterly payments under a level amortization schedule not to exceed five years. Only one loan may be outstanding at any time.

Forfeitures. Forfeitures by inactive, non-vested participants first reduce the Plan's ordinary and necessary administration expenses for the Plan year and any remaining forfeitures offset the matching contribution and reduce non-elective contributions. At December 31, 2016 and 2015, remaining prior to termination, forfeited accounts totaled \$8,980 and \$76,464, respectively.

Payment of Benefits. Upon Termination of the Plan, active participants became fully vested in their accounts and were eligible for a lump sum distribution. The Plan no longer permits withdrawals due to circumstances of financial hardship, in accordance with provisions specified in the Termination Plan document.

Note B - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of Integrated Medical Systems International, Inc. 401(k) Profit Sharing Plan (the Plan) have been prepared in accordance with accounting principles generally accepted in the United States of America. As of December 31, 2016, and 2015, the financial statements are prepared on the liquidation basis of accounting.

Investments are presented at fair value in accordance with Accounting Standards Codification (“ASC”) Topic 820 *Fair Value Measurements and Disclosures* (Note 3). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are reflected as of the trade date. Dividend income is recorded on the ex-dividend date. Interest income is recorded when earned.

Financial Statement Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investments and Investment Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the plan’s gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued interest. Interest income is recorded on the accrual basis. The loans are secured by the balance in

the participant's account and bear interest rates which are commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through payroll deductions. No allowance for credit losses has been recorded as of December 31, 2016 and 2015. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Benefits

Benefits are reported in the year paid.

Administrative Fees

Administrative expenses recorded in the Plan represent investment advisory, professional and other recordkeeping fees paid directly from the Plan. Investment advisory and professional fees may be paid from forfeitures. Loan fees and other administrative fees related to benefit payments and contract administration are deducted directly from the participants' accounts.

Accounting Standards Update

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update ("ASU") 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*, which among other things, amends Accounting Standards Codification (ASC) 820, *Fair Value Measurements*, to remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset per share practical expedient. The ASU is effective for reporting periods beginning after December 15, 2015. This standards update is to be applied retrospectively.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962); Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part III is not applicable to this plan. Part I prescribes that Fully Benefit-Responsive Investment contracts should be reported at contract value. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics, and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are applied retrospectively.

Date of Management's Review

Plan management has evaluated subsequent events through September 12, 2017, which is the date the financial statements were available to be issued.

Note C - Information Certified by the Trustee

The following information included in the accompanying financial statements and supplemental schedule was obtained from information supplied to the plan administrator and certified as complete and accurate by Charles Schwab Bank, trustee of the Plan:

- Investments at fair value
- Net appreciation in fair value of investments
- Notes receivable from participants
- Schedule of Assets (Held at End of Year)

Note D - Fair Value Measurements

FASB ASC Section 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs consist of unadjusted quoted prices for identical assets in active markets that the plan has the ability to access.

Level 2 – Inputs consist of 1) quoted prices for similar assets in active markets, 2) quoted prices for identical or similar assets in inactive markets, 3) inputs other than quoted prices that are observable, and 4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset has a specified (contractual) term, the level 2 input must be observable for substantially the full term.

Level 3 – Inputs consist of unobservable inputs where there is little or no market activity, and the reporting entity makes estimates and assumptions related to the pricing of the asset including assumptions regarding risk.

The assets fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note D – Fair Value Measurements – Continued

The following is a description of the valuation methodologies used for assets measured at fair value.

Self-directed brokerage accounts and mutual funds– Valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

2016	Fair Value	Fair Value Measurements Using		
		Level 1	Level 2	Level 3
Mutual funds	\$ 12,821,884	\$ 12,821,884	\$ -	\$ -
Self-directed brokerage account	<u>2</u>	<u>2</u>	<u>-</u>	<u>-</u>
Investments measured using fair value hierarchy	12,821,886	<u>\$ 12,821,886</u>	<u>\$ -</u>	<u>\$ -</u>

Investments measured at NAV:

Common collective trusts (a)	<u>276,228</u>
Total investments at fair value	<u>\$ 13,098,114</u>

2015	Fair Value	Fair Value Measurements Using		
		Level 1	Level 2	Level 3
Mutual funds	\$ 13,521,347	\$ 13,521,347	\$ -	\$ -
Self-directed brokerage account	<u>65,191</u>	<u>65,191</u>	<u>-</u>	<u>-</u>
Investments measured using fair value hierarchy	13,586,538	<u>\$ 13,586,538</u>	<u>\$ -</u>	<u>\$ -</u>

Investments measured at NAV:

Common collective trusts (a)	<u>321,876</u>
Total investments at fair value	<u>\$ 13,908,414</u>

(a) Certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits. There are no unfunded commitments for these investments, they are valued daily, and there are no redemption restrictions.

Note F - Plan Termination

Effective May 9, 2014 Integrated Medical Systems International Inc. was purchased by STERIS Corporation and the Plan was terminated. As a result, all active participant balances became fully vested. On May 10, 2016, the Plan received a favorable determination letter from the Internal Revenue Service regarding its termination.

Note G - Party in Interest Transactions

Certain members of management and the Plan Administrator are eligible participants who have made elective deferrals to the Plan; therefore, these transactions qualify as party-in-interest transactions.

Note H - Plan Tax Status

The Plan uses an Internal Revenue Service approved prototype plan document which exempts the Plan from federal income taxes under Section 401 of the Internal Revenue Code. The Plan is amended as required to comply with the latest changes in pension law. No provision for income taxes is included in these financial statements.

The Plan follows accounting standards relating to uncertainty of income tax positions. The Plan administrator has assessed whether there were any uncertain tax positions that may give rise to income tax liabilities and determined that there were no such matters requiring recognition in the accompanying financial statements. The Plan files information returns under U.S. federal jurisdiction. With few exceptions, the Plan is no longer subject to U.S. federal tax examinations for years before 2013. There were no differences between the net assets available for benefits and changes in net assets available for benefits per the financial statements and Form 5500 as of December 31, 2016 and 2015.

Note J - Risks and Uncertainties

The Plan provides for various investment options. Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the values of investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
