Note 1. Plan Description

The following brief description of the Oberweis Dairy, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan is a defined contribution plan covering substantially all employees of Oberweis Dairy, Inc. (the Company) who are 21 years of age and have completed two months of service. Such employees are eligible to participate in the Plan on the first day of the first, fourth, seventh, and tenth month of the plan year following two months of service. To be eligible for the Company profit-sharing contributions, employees must be eligible to participate in the Plan, as defined, have completed at least 1,000 hours of service during the plan year and be employed by the Company as of the last day of the plan year. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions: Each year, participants may contribute up to the lesser of 50 percent of pre-tax annual compensation, as defined in the Plan, or the maximum allowed by the Internal Revenue Service (IRS). Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. The Company may, at its own discretion, make matching 401(k) contributions equal to 50 percent of a participant's contributions up to a maximum of 2 percent of covered compensation. All such matching contributions are invested in the various funds in proportion to the participant's investments in such funds. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollovers). The Company may also, at its own discretion, make profit sharing contributions to the Plan to be allocated to each eligible participant, as defined, in proportion to the employee's deferrals for all eligible employees. During 2016, the Company made $66,000 of annual discretionary matching contributions. The annual discretionary match is allocated on a pro-rata share of the participant's deferrals during the year.

Participant accounts: Each participant's account is credited with the participant's contribution, and allocations of (a) the Company's profit sharing and discretionary matching, if any, contributions, and (b) plan earnings. Each participant's account is charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balance or compensation, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their contributions and earnings thereon. Vesting in the Company's matching 401(k) contribution portion of the participants' accounts occurs at a rate of 33-1/3 percent per year. A participant is 100 percent vested after three years of credited service. Vesting in the Company's profit sharing contribution portion of the participants' accounts occurs at a rate of 20 percent per year after the second year of service. A participant is 100 percent vested in the discretionary profit sharing contribution after six years of credited service.

Excess contributions payable: Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2016 and 2015 excess contributions, in the amount of $37,654 and $53,471, respectively, to the applicable participants prior to March 15, 2017 and March 15, 2016, respectively.

Note 1. Plan Description (Continued)

Payment of benefits: On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or equal installments for a stated period not to exceed life expectancy. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited accounts: At December 31, 2016 and 2015, forfeited nonvested accounts totaled $783 and $5,965, respectively. Forfeitures occurring during the plan year will be used to pay plan expenses or reduce Company matching and profit sharing contributions for the plan year following the plan year in which the forfeitures occur. During 2016, forfeitures of $8,613 were used to reduce Company contributions. Forfeitures were not used to pay plan expenses during 2016.

Investment options: Upon enrollment in the Plan, a participant may direct employee contributions in a variety of investment choices as more fully described in the Plan's literature. Participants may change their investment options at any time.

Notes receivable from participants: Participants may borrow from this account $1,000 to $50,000, limited to 50 percent of their vested account balance. Participants may only have two outstanding loans at any given time. The loans are secured by the balance in the participant's account and bear interest at prime (3.75 and 3.50 percent at December 31, 2016 and 2015, respectively) plus 1 percent. Loan terms range from one to five years, unless it is for the purchase of a primary residence, for which the term will not exceed the usual repayment period required by commercial lenders for similar loans. Interest rates on current loans range from 4.25 percent to 10.25 percent. Principal and interest are paid through payroll deductions.

Note 2. Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis in conformity with accounting principles generally accepted in the United States of America (GAAP) in accordance with the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC).

Accounting estimates: The preparation of financial statements in conformity with GAAP requires the Plan’s management to make estimates and assumptions that affect the amounts reported as net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities at the date of the financial statements and accompanying notes. Actual results could differ from those estimates.

Interest-bearing cash: The Plan deposits cash in financial institutions and, at times, such balances may be in excess of the Federal Deposit Insurance Corporation’s insurance limits.

Investment valuation and income recognition: The Plan’s investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan’s committee determines the Plan’s valuation policies utilizing information provided by the custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in the fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Note 2. Significant Accounting Policies (Continued)

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued interest. Interest income on notes receivable from participants is recorded when it is earned. Related fees are paid by the participants. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan payments and the Plan Administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits: Benefits are recorded when paid.

Reclassifications: Certain prior year amounts have been reclassified for consistency with the current period presentation.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 2, 2017, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Current and Former Custodians

The following is a summary of the investment information as of December 31, 2016 and 2015, and for the year ended December 31, 2016, included throughout the Plan's financial statements and supplemental schedules, that was prepared by or derived from information provided by Capital Bank and Trust, the current custodian as of December 31, 2016, and for the period from August 21, 2016 through December 31, 2016, and MG Trust Company, LLC, the former custodian, as of December 31, 2015 and from January 1, 2016 through August 20, 2016, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the current and former custodians that information provided to the Plan Administrator by the current and former custodians related to the following information is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

The following information has been certified by the custodians:

Net appreciation in fair value of investments	397,010	

Note 4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1. Inputs to the valuation methodologies are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodologies include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodologies are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Shares of registered investment companies: Valued at quoted market prices from nationally recognized securities exchanges.

Interest-bearing cash: Recorded at cost, which approximates fair value.

Note 4. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 14,205,671	$ -	$ -	$ 14,205,671
Interest-bearing cash	1,204,295	-	-	1,204,295
Investments at fair value	$ 15,409,966	$ -	$ -	$ 15,409,966

	Assets at Fair Value as of December 31, 2015			
	Level 1	Level 2	Level 3	Total
Shares of registered investment companies	$ 14,089,264	$ -	$ -	$ 14,089,264
Interest-bearing cash	1,244,137	-	-	1,244,137
Investments at fair value	$ 15,333,401	$ -	$ -	$ 15,333,401

Changes in Fair Value Levels

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the end of the reporting period.

Plan management evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2016, there were no transfers in or out of Levels 1, 2 or 3.

Note 5. Related-Party and Party-in-Interest Transactions

Plan investments are shares of registered investment companies managed and held in trust by Capital Bank and Trust, the current custodian and trustee. Therefore, these investment transactions qualify as party-in-interest transactions. In addition, certain administrative functions are performed by the trustee or employees of the Company for which no compensation is received from the Plan. Certain other administrative expenses are paid by the Company on behalf of the Plan.

Certain plan investments are securities offered by Oberweis Securities, Inc., an entity with common ownership to the plan sponsor. Therefore, these transactions qualify as party-in-interest.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100 percent vested in their accounts.

Note 7. Tax Status

On March 31, 2014, the IRS stated that the prototype adopted by the Plan, as then designed, qualified under Section 401(a) of the Internal Revenue Code (IRC). The Plan has been amended since adoption of the prototype. The Plan has not received a determination letter specific to the Plan itself; however, the Plan Administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan provides for various investment options. These investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 9. Prohibited Transactions

The Plan Administrator has concluded that during 2015, $39,593 of salary deferrals were not deposited within the period required under the DOL's regulations. The DOL considers late deposits to be prohibited transactions. The plan sponsor filed Form 5330 and paid applicable excise tax for 2015 late deposits. The excise tax payments were made from the plan sponsor's assets and not from the assets of the Plan.
