1. Description of the Plan

The following description of the Melroe Savings and Investment Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering eligible employees, as defined by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Fidelity Management Trust Company ("Fidelity") is the trustee and record keeper of the Plan and the Plan's assets are part of the Doosan Master Trust ("Master Trust") maintained by Fidelity.

The Benefits Oversight Committee (the "Committee") administers the Plan on behalf of the plan sponsor, Clark Equipment Company (the "Company"). The Committee designs and approves changes to the Plan. The Committee selects and approves the Plan's investment options. Participants direct investments among the primary investment options. The Plan is intended and operated to satisfy the requirements of ERISA Section 404(c).

Participation

All individuals employed by the Company, and whose terms of employment are governed by a collective bargaining agreement with Local Union Number 560 of United Steelworkers Union are eligible to participate in the Plan upon completion of at least one year of service, as defined in the Plan.

Contributions

Eligible employees electing to participate in the Plan may make monthly pre-tax basic contributions from 1% to 6% of their compensation, as defined by the Plan. Any savings over 6%, up to an additional 44% of compensation, are considered supplemental contributions. Employee contributions are subject to limitations as defined by the Internal Revenue Code ("IRC"). Participants may change their contribution amounts at any time by contacting Fidelity.

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds, money market funds, self directed brokerage accounts, and a collective trust fund.

The Company makes matching contributions to the Plan equivalent to 50% of the amount of the basic contributions made by participating employees. Company matching contributions are invested in the same funds and in the same proportions as the participant contributions.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's matching contribution (if applicable) and plan earnings, net of investment management fees, and charged with distributions and allocations of plan losses. Allocations are based on

1. Description of the Plan (Continued)

participant earnings or account balances, as defined. The benefit to which a participant is entitled is equal to the benefit that can be provided from the participant's vested account.

Vesting
Participants are immediately vested in 100% of all participant and Company contributions plus earnings thereon.

Notes Receivable from Participants
The Plan allows participants the option of borrowing against their available fund balances. The minimum amount of any participant loan, at origination or renewal, is $500 and the maximum loan amount shall not exceed the lesser of 50% of the participant's vested fund balance or $50,000. The $50,000 maximum loan amount, however, is reduced by the excess of the highest outstanding balance of loans during the preceding year over the outstanding balance of loans on the origination date. Participants are required to repay loans and interest in installments, at least quarterly, over the term of the loan, generally ranging from one to five years. The loans are secured by the balance in the participants' accounts and bear a fixed interest rate of prime at the time of the loan, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Administrative Costs
The Company pays substantially all significant administrative expenses of the Plan.

Payment of Benefits
Upon termination of employment, retirement, disability, death, or attainment of age 70½ distributions of participant account balances may occur. Distributions are made in the form of a single lump sum payment. Participants also have the option to defer the distribution of benefits if their vested account balance is greater than $3,500.

2. Summary of Accounting Policies

New Accounting Standards
In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ('ASU") 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent). The ASU removes certain disclosures and the requirement to categorize within the fair value hierarchy investments for which fair value is measured using the net asset value per share practical expedient provided by Topic 820, Fair Value Measurement. The ASU is effective for fiscal years beginning after December 15, 2016, with early adoption permitted. The ASU should be applied retrospectively to all periods presented. Management has elected to adopt this guidance for the year ended December 31,2016.

In July 2015, the FASB issued ASU 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and to provide certain disclosures. Contract value is now the only required measure for fully benefit-responsive

investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies disclosures of the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks for disclosure purposes. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively to all periods presented. Management has elected to adopt Part II for the year ended December 31, 2016.

Basis of Accounting
The accounts of the Plan are maintained on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Actual results could differ from these estimates.

Valuation of Investments in Master Trust
Plan investments are part of the Master Trust, which provides unified investment management. Fidelity invests plan assets in various trust investment options at the direction of plan participants and as required by the Plan. Separate participant accounts are maintained by investment option. These accounts record contributions, withdrawals, transfers, earnings and changes in market value.

The Master Trust reports investments at fair value. See Note 5 below for further discussion on fair value.

Security Transactions and Investment Income
Realized gains or losses on security transactions are recorded on the trade date. Realized gains or losses are the difference between the proceeds received and the security's unit cost. Unrealized gains and losses are the gains and losses on investments held at year end. Dividend income is recorded on the ex-dividend date and interest income is recorded when earned.

The Statements of Changes in Net Assets Available for Benefits present interest in investment income of the Master Trust, which includes realized and unrealized gains and losses and dividend and interest income, in accordance with the policy of stating investments at fair value.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits
Benefits are recorded when paid.

3. Investment in the Doosan Master Trust (Unaudited)

The Plan's investments are in the Master Trust which was established for the investment of assets of the Plan and two other Company defined contribution plans. The assets of the Master Trust are held by Fidelity. Each participating retirement plan has a divided interest in the Master Trust. Fidelity maintains separate accounting of all contributions, benefit payments and expenses and allocates income earned and received or losses incurred by the Master Trust on the basis of the adjusted value of each plan at year end. At December 31, 2016 and 2015, the Plan had a 24.9% participation in the Master Trust.

The following investments in the Master Trust and the net appreciation in fair value of investments, and interest and dividend income in the Master Trust are certified by Fidelity to be complete and accurate. Fidelity has also certified the Plan's proportionate share of such items to be complete and accurate. The Master Trust financial statements are prepared on the modified cash basis of accounting while the Plan's financial statements are prepared on the accrual basis of accounting.

5. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

5. Fair Value Measurements (Continued)

At December 31, 2016 and 2015, all of the Plan's assets are held in the Master Trust. The investment assets in the Doosan Master Trust are recorded at fair value. The investments in the Master Trust are further discussed in Note 3.

Following is a description of the valuation methodologies used for underlying assets in the Master Trust measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Trust at year end, as determined by the administrator of the fund.

Self-directed brokerage accounts: Valued at the NAV of the assets in which it participates at year-end. The NAV is the value of account assets, based on closing prices on an active market, less fund liabilities divided by the number of shares outstanding.

Money market funds: Funds invest in high quality, short-term securities that are quoted in an active market. The fund manager has assigned a unit price of $1.

Collective trust funds: Valued at NAV of units of the collective fund. The NAV is used as a practical expedient to estimate fair value. The practical expedient would not be used if it is determined to be probable that the funds will sell the investment for an amount difference from the reported net asset value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, of the Master Trust's underlying assets at fair value as of December 31, 2016 and 2015:

	Assets at Fair Value as of December 31, 2016			
	Level 1	**Level 2**	**Level 3**	**Fair Value**

Investments at fair value	$ 147,334,820	$ 141,770,609	$ --	$ 307,180,391

(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following table summarizes investments for which fair value is measured using the NAV per share practical expedient as of December 31, 2016 and 2015. There are no participant redemption restrictions for these investments; the redemption notice period is applicable only to the Plan.

	Fair Value at December 31, 2016	Fair Value at December 31, 2015	Unfunded Commitments	Other Redemption Restrictions	Redemption Notice Period
Common collective trust funds*	$ 49,495,448	$ 17,973,939	None	None	None

* Represents investment in the Wells Fargo Stable Value Funds C and Q which are 100% invested in the Wells Fargo Stable Value Fund G. The fund seeks to provide investors with a moderate level of stable income without principal volatility. The fund primarily invests in investment contracts, including guaranteed investment contracts (GICs) and security-backed contracts issued by insurance companies and other financial institutions. The holdings in these funds is considered to have an indirect investment in fully benefit responsive contracts, which should be measured at contract value and can be used to approximate fair value as practical expedient.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination of the entire Plan by the Company, all affected participants shall remain fully vested in their accounts and shall be entitled to a distribution of their respective account balances.

7. Risks and Uncertainties

Through the Master Trust, the Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

8. Party-in-Interest Transactions

As of December 31, 2016 and 2015, certain plan investments held in the Master Trust are shares of mutual funds, and other investments managed by Fidelity. Fidelity is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions, but are not deemed to be prohibited transactions.

9. Tax Status

On May 27, 2016, a favorable determination letter was received from the Internal Revenue Service indicating that the Plan and related trust satisfied the requirements for qualification under the appropriate sections of the IRC. Although the Plan has been amended since receiving the

determination letter, the plan administrator believes the Plan was qualified and the related master trust was tax-exempt as of December 31, 2016.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

10. Subsequent Events

The Plan has evaluated subsequent events through September 29, 2017 which is the date financial statements were available to be issued.
