Independent Auditors' Report

To the Participants and Administrator of the
Clark Equipment Company Melroe Division
Gwinner, North Dakota Plant
Hourly-Rate Employees' Pension Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Clark Equipment Company Melroe Division Gwinner, North Dakota Plant Hourly-Rate Employees' Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2015, and the related statement of changes in accumulated plan benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6 which was certified by JPMorgan Chase Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2016 and 2015, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

Actuarial Assumptions for January 1, 2016 Funding Valuation

Discount rate sponsor elections

• Segment rates or full yield curve	Segment	
• Look-back months	4	
	<u>Stabilized rates</u>	<u>Nonstabilized rates</u>
• First 5 years	4.43%	1.34%
• Next 15 years	5.91%	4.03%
• Over 20 years	6.65%	5.06%

Mortality sponsor elections

• Healthy participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA
• Disabled Participants	Revenue Ruling 96-7 table for participants who became disabled after 1994.

Other economic assumptions

• Salary increases	Not applicable.
• Flat-dollar benefit increases	Not applicable.
• Social Security wage base	Not applicable.
• Expected investment return	7.40% per year for 2014 and 6.80% per year for 2015.
• Expenses	PBGC premiums added to normal cost.

Rationale for Economic Assumptions

- **Expected investment return** - Based on the median simulated 20-year investment return for the plan's target mix using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook. Further adjusted to reflect return for trust paid expenses (47 basis points) and active management (72 basis points).

Unpredictable contingent event assumptions	Not applicable.

Table of Sample Rates

Attained age	Percentage	
	Ultimate Withdrawal	Disability incidence
20	11.25%	0.030%
25	9.00%	0.043%
30	6.10%	0.064%
35	4.35%	0.098%
40	3.45%	0.158%
45	3.05%	0.259%
50	2.80%	0.448%
55	0.00%	0.845%
60	0.00%	1.204%

The rates of withdrawal used for the first three years of service are 30%, 20%, and 15%, respectively. Thereafter, the rates vary by age, as shown above.

Rationale for Demographic Assumptions

- **Withdrawal** - Developed based on an experience study undertaken in 2013 using data from 2008 - 2012. Experience for this period is expected to be representative of anticipated future experience. The assumption is reviewed annually for reasonability.
- **Disability Incidence** - The disability incidence table is based on the Conference of Consulting Actuaries 1985 Pension Disability Study Class 1 rates. The plan's relatively small size would not support a credible disability study.
- **Retirement Age** - Based on an experience study undertaken in 2013 using data from 2008 – 2012 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- **Benefit Commencement Age** - Based on an experience study undertaken in 2013 using data from 2008 – 2012. This assumption incorporates the fact that many employees retire prior to normal retirement age.
- **Spouse Assumptions** - Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married and spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.
- **Form of Payment** - Based on an experience study undertaken in 2013 using data from 2008 – 2012 and the expectation that the future election patterns not differ significantly from the period studied.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods for Funding****Asset Methods**

The asset valuation method is an average of the adjusted market value for each year during the last 2 years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.
- Benefit payments due January 1st are paid in December and as a result have been removed from the liabilities as of January 1st.

• Accrued benefit	The service multiplier times the credited service.	
Normal retirement		
• Eligibility	First day of the month following the later of attainment of age 65 or completion of 5 years of participation.	
• Benefit	Service multiplier times credited service.	

Schedule SB, Part V — Summary of Plan Provisions

Early retirement	
• Eligibility	The first day of the month following the attainment of age 55 and completion of 10 years of credited service.
• Benefit	Normal retirement benefit reduced by 4/9th of 1 percent for each full month between the commencement date and normal retirement age.
Late retirement	
• Eligibility	First of any month after the participant's normal retirement date.
• Benefit	Same as normal retirement; however, participants receive the combination of accrual of benefits after normal retirement and the actuarial increase for deferred retirement.
Deferred vested	
• Eligibility	Termination for reasons other than death or retirement after completing 5 years of service.
• Benefit	Same as normal retirement or, for participants with 10 or more years of credited service, early retirement.
Disability	
• Eligibility	Employees with at least 10 years of credited service becoming totally and permanently disabled for a period of 6 months or longer.
• Benefit	The normal retirement benefit plus an additional temporary benefit equal to the normal retirement benefit. The temporary benefit is payable until the employee is eligible for unreduced Social Security or attains age 65.
Pre-retirement death	
• Eligibility	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.
• Benefit	Surviving spouses of deceased married vested participants are eligible to receive a death benefit of 55% of the participants benefit after adjusting by a factor of 90 percent plus or minus ½ percent for each year the spouse is older or younger, respectively, than the employee; this adjustment cannot exceed 100 percent.
Form of benefits	
• Automatic form for unmarried participants	A single life annuity.
• Automatic form for married participants	A 55% joint and survivor annuity.
• Optional forms	Other forms of payment are available.
• Optional form conversion factors	The factors for converting a benefit from a life annuity are described in Table A of the plan document.

Miscellaneous

- | | |
|--------------------|---|
| • Maximum benefits | Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2016, the limit is \$210,000. |
|--------------------|---|

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated effective January 1, 2016, are included in this valuation.

- **Most recent plan amendments included:** The plan was restated as of January 1, 2016.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* Late retirement actuarial increases apply to participants who defer retirement beyond age 65. Participants are valued assuming that they receive the combination of accrual of benefits after age 65 and the actuarial increase for deferred retirement.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent :** The plan does not have any unpredictable contingent event benefits.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Clark Equipment Company Melroe Division Gwinner, North Dakota Plant Hourly-Rate Employees' Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2015, and the related statement of changes in accumulated plan benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6 which was certified by JPMorgan Chase Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2016 and 2015, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of the Plan

The following brief description of the Clark Equipment Company Melroe Division Gwinner, North Dakota Plant Hourly-Rate Employees' Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan document for complete information.

General

The Plan is a defined benefit noncontributory pension plan covering substantially all hourly-rate employees of the Gwinner, North Dakota Plant (the "Plant") of Clark Equipment Company (the "Company"), represented by the United Steelworkers International Union AFL-CIO, Local 560, formerly the Paper, Allied-Industrial, Chemical and Energy Workers International Union and its Local No. 7-0560.

The Plan is maintained under a Collective Bargaining Agreement (the "Agreement") which became effective on December 6, 2014.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Pension Benefits

The normal retirement age is 65 with 5 years of vested service. The monthly pension benefit is calculated as a set rate multiplied by the number of years of credited service. The current rate for retirement taken in 2016 and 2015 is \$41.00 for each year of credited service. The Plan permits early retirement at ages 55 to 64 and 11 months at a reduced benefit; however, 10 or more years of credited service are required to receive early retirement benefits.

Benefits are payable in the form of a life only annuity with monthly payments beginning at retirement, or employees may elect to receive reduced pension benefits with a 55% joint and survivor annuity. The Plan also provides pre-retirement spousal benefits in the event of the death of a vested active employee who has not achieved eligibility for pension benefits and for terminated vested employees. If employees terminate before rendering five years of service, they forfeit the right to receive their accumulated plan benefits.

Active employees with ten or more years of credited service who become permanently and totally disabled receive monthly disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid from the time it is determined that the employee is eligible for such payments until normal retirement age. At normal retirement age, disabled participants begin receiving normal retirement benefits earned as of the date they became disabled.

2. Summary of Accounting Policies

New Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and to provide certain disclosures. Contract value is now the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies disclosures of the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks for disclosure purposes. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively to all periods presented. Management has elected to adopt Part II for the year ended December 31, 2016.

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

The fair value of the Plan's interest in the Clark Equipment Company Pension Trust (the "Master Trust") is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income or loss, less actual distributions and allocated and actual administrative expenses.

The Master Trust records purchases and sales of securities on a trade date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's proportionate share of the Master Trust's gains and losses on investments bought and sold as well as held during the year.

Expenses

Substantially all expenses of the Plan, except the Pension Benefit Guaranty Corporation ("PBGC") premiums, are paid by the Master Trust and are allocated to the Plan as a reduction to its interest in the earnings of the Master Trust. PBGC premiums are paid by the Master Trust and are specific to the Plan.

Benefit Payments

Benefit payments are recorded when paid.

Actuarial Matters

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits

expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died and present employees or their beneficiaries. Benefits payable under all circumstances are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits at January 1, 2016 and 2015 was determined by the consulting actuary. The actuarial present value results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the actuarial present value of accumulated plan benefits at January 1, 2016 were as follows:

Valuation method	– Projected Unit Credit Method
Life expectancy	– Healthy: Mercer Modified RP-2014 tables for blue collar employees
	Disabled: RP-2000 Disabled
Discount rate	– 6.90%
Expected retirement age for active participants	–Various ages from 55 to 70
Form of benefits	–Various based on actual experience

The significant actuarial assumptions used in the actuarial present value of accumulated plan benefits at January 1, 2015 were as follows:

Valuation method	– Projected Unit Credit Method
Life expectancy	– Healthy: Mercer Modified RP-2014 tables for blue collar employees
	Disabled: RP-2000 Disabled with Adjustments
Discount rate	– 7.10%
Expected retirement age for active participants	–Various ages from 55 to 70
Form of benefits	–Various based on actual experience

Clark Equipment Company

Hourly-Rate Employees' Pension Plan
Notes to Financial Statements
December 31, 2016 and 2015

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated benefits at the date of the financial statements. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through September 29, 2017, the date the financial statements were available to be issued.

3. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

At December 31, 2016 and 2015, all of the Plan's investments are held in the Master Trust. The assets in the Master Trust are recorded at fair value.

Clark Equipment Company
Melroe Division Gwinner, North Dakota Plant
Hourly-Rate Employees' Pension Plan
Notes to Financial Statements
December 31, 2016 and 2015

Following is a description of the valuation methodologies used for the underlying assets in the Master Trust measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Commingled funds: Valued at the current unit value of the fund at the end of the year, as determined by the administrator of the fund. The current unit value is the value of the fund assets, based on the closing prices on an active market, less fund liabilities divided by the number of shares outstanding. The current unit value is a reasonable exit price, but it is not quoted in an active market. These investments are classified as Level 2.

Short-term investment fund: The fund invests in various high quality short-term debt securities, some of which may not have a quoted market price. The fund manager has valued the fund with a \$1 unit price. These investments are classified as Level 2.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Master Trust's underlying investments at fair value as of December 31, 2016 and 2015:

Investments at Fair Value as of December 31, 2016

- (a) Represents investment in common collective trust funds, whose investment objective is to provide current income, long-term capital preservation, and long-term capital appreciation by using a multi-manager, multi-style approach. Through its sub-advisors, the funds are primarily invested in U.S. dollar-denominated investment grade and government securities, publicly traded companies operating in developed and emerging markets outside the U.S., common stock of large cap companies in the U.S., and small to mid-sized U.S. companies. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

The fair values of the funds in the Master Trust shown above reflect the proceeds anticipated should the funds be sold. There are no restrictions on the redemption of the funds, nor are there any unfunded commitments related to these investments.

4. Funding Policy

It is the Company's policy to make annual contributions to the Plan in amounts ranging from the minimum necessary to satisfy the funding requirements of ERISA to the maximum tax deductible contributions allowed by the Internal Revenue Code ("IRC"). In accordance with ERISA, minimum funding requirements have been met for the years presented.

5. Plan Termination

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan be terminated will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

6. Investment in Master Trust

At December 31, 2016 and 2015, the assets of three of the Company's separate defined benefit pension plans are included in the Master Trust, for which the trustee is JPMorgan Chase Bank N.A. (the "Trustee"). The Trustee maintains separate accounting of all contributions, benefit payments and expenses and allocates income received by the Master Trust on the basis of the adjusted value of each plan at year end. Each pension plan has an undivided interest in the assets of the Master Trust. At December 31, 2016 and 2015, the Plan's interest in the Master Trust was approximately 22.25% and 21.99%, respectively.

The following investments and receivables and the net appreciation in fair value of investments, interest, and dividend income are certified by the Trustee to be complete and accurate. The Trustee has also certified the Plan's proportionate share of such items to be complete and accurate. The Master Trust's financial statements are prepared on the modified cash basis of accounting, while the Plan's financial statements are prepared on the accrual basis of accounting.

Assets held by the Master Trust as of December 31 were as follows:

	2016	2015
Investments, at fair value		
Commingled funds	\$ 302,197,550	\$ 277,773,028
Short term investment fund	2,873,282	2,537,875

Net investment income for the Master Trust for the years ended December 31 was as follows:

Investment income:		
Net appreciation (depreciation) in fair value of investments		
Commingled funds	\$ 23,798,567	\$ (4,982,009)

7. Party-in-interest Transactions

Through the Master Trust, certain investments are funds managed by JPMorgan Chase Bank N.A. JPMorgan Chase Bank N.A. is the trustee as defined by the Plan and, therefore, these transactions are party-in-interest transactions, but are not deemed prohibited transactions. Through the Master Trust certain investments are managed by Mercer Global Investments, Inc. ("MGI"). MGI is related to the Plan's actuary, Mercer, by common ownership, therefore these transactions are party-in-interest transactions but are not deemed prohibited transactions.

8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 12, 2013, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. The Plan has been amended since receiving the determination letter. However, the Company believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.
