Doosan Pension Plan Number One

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Doosan Pension Plan Number One (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, the statement of accumulated plan benefits as of December 31, 2015, and the related statement of changes in accumulated plan benefits for the year ended December 31, 2015, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America. This includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by JPMorgan Chase Bank, N.A., the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2016 and 2015, and for the years then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2016 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

Doosan Pension Plan Number One

Notes to Financial Statements

December 31, 2016 and 2015

1. Description of the Plan

The following brief description of the Doosan Pension Plan Number One (the “Plan”) is provided for general information purposes. Participants should refer to the plan document for complete information.

History

On November 30, 2007, Doosan Infracore International, Inc. (the “Company”) purchased from Ingersoll-Rand plc (“IR”) its Bobcat, Utility Equipment, and Attachment businesses. As defined in the purchase agreement, employees and former employees of these IR businesses became employees and former employees of the Company, and the related pension assets and liabilities for these individuals were to be transferred to the Plan.

Effective June 30, 2016, Doosan Infracore International, Inc. merged into Clark Equipment Company with Clark Equipment Company being the surviving corporation. For the time period prior to June 30, 2016, “Company” means Doosan Infracore International, Inc. For the time period from June 30, 2016 onwards, “Company” means Clark Equipment Company and any successor to Clark Equipment Company that elects, by action of its Board of Directors, to adopt the Plan.

On July 1, 2011, the Plan became a multiple employer plan. On that date, approximately 80 employees were moved from the Company to Doosan Information and Communications America, LLC (“DSIA”), another employer which is not considered to be under control of the Company. Per regulations governing multiple employer defined benefit plans, the plan assets were removed from the Master Trust. The consulting actuary calculates each employer’s obligation separately, but either company could be liable for required contributions. Doosan Infracore International, Inc. and DSIA (“the Companies”) are both plan sponsors.

General

The Plan is a defined benefit plan covering United States employees of most U.S. subsidiary companies of the Company not covered by other defined benefit pension plans and employees of DSIA. Participation in the Plan begins at the date of employment. As of January 1, 2010, new hires of the Company are no longer eligible to participate in the Plan, except for certain hired employees who were previously eligible to participate in the Clark Equipment Company Melroe Division Bismarck, North Dakota Hourly-Rate Employees’ Pension Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Pension Benefits

The normal retirement age is 65 with 5 years of vested service, subject to variations for specific subsidiaries. The monthly pension benefit is based on annual compensation, years of credited service, and Social Security benefit. Variations of this formula apply to employees of specific subsidiaries of the Company. Participants are eligible for early retirement at age 55 having completed 15 years of service, subject to variations for specific subsidiaries. Employees electing early retirement receive reduced pension benefits based on the difference between the normal retirement date and the date when pension payments begin. Variation of reduction in benefit payments is dependent on subsidiaries. Employees who become totally and permanently disabled with 15 years of credited service are also eligible for a disability benefit, the calculation of which is subject to variations for specific subsidiaries. The Plan also provides for surviving spousal benefits, in accordance with provisions of the Plan.

2. Summary of Significant Accounting Policies

New Accounting Standards

In July 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-12, Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and to provide certain disclosures. Contract value is now the only required measure for fully benefit-responsive investment contracts. Part II eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. Part II also simplifies disclosures of the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks for disclosure purposes. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. The ASU is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Part II is to be applied retrospectively to all periods presented. Management has elected to adopt Part II for the year ended December 31, 2016.

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Expenses

Certain expenses of the Plan are offset by plan earnings, including investment advisory and trustee fees. Other expenses paid out of plan assets.

Benefit Payments

Benefit payments are recorded when paid.

Actuarial Matters

Accumulated plan benefits are those future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to retired or terminated employees or their beneficiaries, beneficiaries of employees who have died and present employees or their beneficiaries. Benefits under the Plan are based on employees' highest compensation during their credited service and other factors of credited service in accordance with the terms of the plan document. The accumulated plan benefits for active employees are based on this formula for the five years ending on the date as of which the benefit information is presented (the valuation date). Benefits payable under all circumstances are

Doosan Pension Plan Number One

Notes to Financial Statements

December 31, 2016 and 2015

included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated plan benefits at January 1, 2016 and 2015 was determined by the consulting actuary. The actuarial present value results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The significant actuarial assumptions used in the actuarial present value of accumulated plan benefits at January 1, 2016 were as follows:

Valuation method	– Projected Unit Credit Method
Life expectancy	– Healthy: Adjusted RP-2014 tables with generational improvements under the Mercer Social Security 2007 scale and white collar adjustments Disabled: RP-2000 Disabled with Adjustments
Discount rate	– 6.90%
Expected retirement age for active participants	–Various ages from 55 to 70
Form of benefit	–Various based on actual experience
Salary increase	–3.75%

The significant actuarial assumptions used in the actuarial present value of accumulated plan benefits at January 1, 2015 were as follows:

Valuation method	– Projected Unit Credit Method
Life expectancy	– Healthy: Adjusted RP-2014 tables with generational improvements under the Mercer Social Security 2007 scale and white collar adjustments Disabled: RP-2000 Disabled with Adjustments
Discount rate	– 7.30%
Expected retirement age for active participants	–Various ages from 55 to 70
Form of benefit	–Various based on actual experience
Salary increase	–3.75%

Doosan Pension Plan Number One

Notes to Financial Statements

December 31, 2016 and 2015

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities and the actuarial present value of accumulated benefits at the date of the financial statements. Actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through September 29, 2017, the date the financial statements were available to be issued.

3. Fair Value Measurements

GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for the Plan's investments at December 31, 2016 and 2015. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Doosan Pension Plan Number One
Notes to Financial Statements
December 31, 2016 and 2015

Commingled funds: Valued at the current unit value of the fund at the end of the year as determined by the administrator of the fund. The current unit value is the value of the fund assets based on the closing prices on an active market less fund liabilities divided by the number of shares outstanding. The current unit value is a reasonable exit price, but it is not quoted in an active market. These investments are classified as Level 2.

Short-term investment fund: The fund invests in various high quality short-term debt securities, some of which may not have a quoted market price. The fund manager has valued the fund with a \$1 unit price. These investments are classified as Level 2.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

<u>2016</u>				
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>

common stock of large cap companies in the U.S., and small to mid-sized U.S. companies. There are no unfunded commitments, redemption frequency restrictions, or other redemption restrictions.

The fair values of the funds in the Plan and in the Master Trust shown above reflect the proceeds anticipated should the funds be sold. There are no restrictions on the redemption of the funds, nor are there any unfunded commitments related to these investments.

4. Funding Policy

It is the Companies' policy to make annual contributions to the Plan in amounts ranging from the minimum necessary to satisfy the funding requirements of ERISA to the maximum tax deductible contributions allowed by the Internal Revenue Code ("IRC"). In accordance with ERISA, minimum funding requirements have been met for the periods presented.

5. Plan Termination

The Companies have the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event the Plan is terminated, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation ("PBGC") if the Plan is terminated. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's benefits. However, the PBGC does not guarantee all types of benefits and the amount of benefit protection is subject to certain limitations.

Whether all participants receive their benefits should the Plan be terminated will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits and may also depend on the level of benefits guaranteed by the PBGC.

Certain investments were managed by JPMorgan Chase Bank N.A. JPMorgan Chase Bank N.A. is the trustee as defined by the Plan and, therefore, these transactions are party-in-interest transactions, but are not deemed prohibited transactions. Through the Plan's trust certain investments are managed by Mercer Global Investments, Inc. ("MGI"). MGI is related to the Plan's actuary, Mercer, by common ownership, therefore these transactions are party-in-interest transactions but are not deemed prohibited transactions.

8. Tax Status

The Internal Revenue Service has determined and informed the Companies by letters dated March 27, 2014, that the Plan and related trust are designed in accordance with the applicable sections of the IRC. For the years ended December 31, 2016 and 2015, the Company believed that the Plan was designed and operated in compliance with the applicable requirements of the IRC.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment

Doosan Pension Plan Number One
Notes to Financial Statements
December 31, 2016 and 2015

securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

• Over 20 years	6.65%	5.06%

Mortality sponsor elections

- Healthy participants Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA.

417(e) lump sums

For participants where the 417(e) minimum lump sum applies, liabilities are determined based on the underlying annuity used by the plan to determine the lump sum amount, rather than valuing the lump sum payment. This annuity is valued based on funding interest rates rather than 417(e) rates and current year 417(e) unisex mortality.

Other economic assumptions

- Salary increases 3.75% per year.
- Flat-dollar benefit increases Not applicable.
- Social Security wage base Not applicable.
- Inflation 2.50% per year.
- Expected investment return 7.40% per year for 2014 and 6.80% per year for 2015.
- Expenses PBGC premiums added to normal cost.

Rationale for Economic Assumptions

- **Salary increase** – Based on the 2013 experience study
- **Inflation** – It is based on long-term inflation assumption published by Mercer Investment Consulting in their *Capital Market Outlook*.
- **Expected investment return** – Based on the median simulated 20-year investment return for the plan's target mix using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook. Further adjusted to reflect return for trust-paid expense (47 basis points) and active management (72 basis points).

Demographic assumptions

- Withdrawal See table of sample rates.
- Disability incidence 1985 Class 1 Unisex; see table of sample rates.

50	7.10	0.448
55	0.00	0.845
60	0.00	1.204

Rationale for Demographic Assumptions

- **Withdrawal** – Developed based on an experience study undertaken in 2013 using data from 2008 - 2012. Experience for this period is expected to be representative of anticipated future experience. The assumption is reviewed annually for reasonability.
- **Disability incidence** – The disability incidence table is based on the Conference of Consulting Actuaries 1985 Pension Disability Study Class 1 rates. The plan's relatively small size would not support a credible disability study.
- **Retirement age** – Based on an experience study undertaken in 2013 using data from 2008 – 2012 and the expectation that the future retirement patterns and circumstances of the employer will not differ significantly from the period studied.
- **Benefit commencement age** – Based on an experience study undertaken in 2013 using data from 2008 – 2012.
- **Spouse assumptions** – Because the employer does not have enough credible experience to analyze spousal demographics, the assumptions regarding percent married and spouse age difference at benefit commencement are based on the actuary's experience with many plans and discussions with employer representatives.
- **Form of Payment** – Based on an experience study undertaken in 2013 using data from 2008 – 2012. 90% of future vested deferred and future disabilities are assumed to elect

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

to receive an immediate lump sum. The remaining 10% are assumed to defer payment until their assumed benefit commencement date. Upon reaching their assumed commencement date, 90% are assumed to elect to receive a lump sum while 10% are assumed to elect the 50% joint and survivor annuity.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods**Actuarial Methods for Funding*****Asset Methods – DII***

The asset valuation method is an average of the adjusted market value for each year during the last 24 months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Asset Methods – DSIA

The asset valuation method is fair market value. Market value is allocated to this de minimis participating sponsor based on funding target liability as of the valuation date.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.
- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Schedule SB, Part V — Summary of Plan Provisions

Early retirement	
• Eligibility	<p><u>Active after January 1, 2003:</u> Upon separation if vested.</p> <p><u>Active prior to January 1, 2003:</u> The first day of the month following attainment of age 55 and completion of 15 years of credited service.</p>
• Benefit	<p><u>Active after January 1, 2003:</u> Normal retirement benefit reduced by 0.3% for each whole calendar month that the commencement date precedes normal retirement date, but the reduction cannot exceed 85%.</p> <p><u>Active prior to January 1, 2003:</u> Normal retirement benefit reduced by 0.3% for each whole calendar month that the commencement date precedes normal retirement date.</p>
Late retirement	
• Eligibility	First of any month after the participant's normal retirement date.
• Benefit	Normal retirement benefit considering credited service and earnings to actual retirement date.
Deferred vested	
• Eligibility	Termination for reasons other than death or retirement after completing 5 years of service.
• Benefit	<p><u>Active after January 1, 2003:</u> Same as normal and early retirement benefits.</p> <p><u>Active prior to January 1, 2003:</u> For employees with 15 years of vesting service, normal retirement benefit reduced by 0.694% per month for the first 60 months and 0.347% per month thereafter for commencement prior to normal retirement date. Payment cannot commence prior to age 55.</p>
Disability	
• Eligibility	Employees with at least 15 years of vesting service becoming totally and permanently disabled for a period of 6 months or longer prior to January 1, 2004.
• Benefit	Normal retirement benefit as of disability retirement date.
Pre-retirement death	
• Eligibility	Death while eligible for normal, early, postponed or deferred vested retirement benefits, with a surviving spouse.

Schedule SB, Part V — Summary of Plan Provisions

• Benefit	<p><u>Active after January 1, 2003:</u> One-half of normal retirement benefit calculated as if participant separated from service on his/her date of death, survived to an annuity starting date elected by the beneficiary (in the case of spousal beneficiaries) or an immediate annuity starting date (in the case of non-spouse beneficiaries) and elected a single life annuity with 120 guaranteed monthly payments. The beneficiary also may elect a lump sum payment.</p> <p><u>Active prior to January 1, 2003:</u> For employees who prior to August 23, 1984 had (i) reached age 55 with 10 years of service, or (ii) reached age 50 with 20 years of service, or (iii) completed 25 years of service, surviving spouses receive one-half of the single life annuity otherwise payable the first day of the month following death; the benefit is reduced 0.3% per month for commencement prior to age 65, but the reduction will not exceed 50%.</p> <p>For other employees, the QJSA is paid.</p> <p>For terminated vested employees, the benefit is reduced by ½% for each year the surviving spouse is covered by the death benefit, but the reduction cannot exceed 10%.</p>
Form of benefits	
• Automatic form for unmarried participants	<p><u>Active after January 1, 2003:</u> Normal form is a single life annuity with 120 guaranteed monthly payments for single participants.</p> <p><u>Active prior to January 1, 2003:</u> The normal form is a single life annuity for single participants.</p>
• Automatic form for married participants	A 50% joint and survivor annuity.
• Optional forms	Optional forms include 75% and 100% contingent annuities, a 15-year certain and continuous annuity, a social security level income annuity, and unlimited lump sums (lump sums are limited to \$10,000 for participants that terminated prior to January 1, 2003).
• Optional form conversion factors	Optional form conversion factors for benefits other than a lump sum or social security level income annuity are contained in Tables A – C of the plan document. Lump sum benefits are calculated by multiplying the single life annuity benefit by 120. However, the lump sum benefit or social security level income annuity payable cannot be less than the actuarial equivalent benefit determined under the assumptions set forth in Section 417(e) of the Code.
Miscellaneous	
• Maximum compensation	Compensation for any 12-month period used to determine accrued benefits may not exceed the limits in IRC Section 401(a)(17) for the calendar year in which the 12-month period begins. This limit is indexed annually. For 2016, the limit is \$265,000.
• Maximum benefits	Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually. For 2016, the limit is \$210,000.

Schedule SB, Part V — Summary of Plan Provisions**Benefits Included or Excluded**

Unless noted below, all benefits provided by the plan, as restated January 1, 2012 and last amended effective December 18, 2015, are included in this valuation.

- **Most recent plan amendments included:** Amendment effective December 18, 2015
- **Plan amendments excluded:** None
- **Late retirement increases:**
 - Active participants: The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½.
 - Deferred vested participants: Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.
- **IRC Section 436 benefit restrictions:**
 - Unpredictable contingent event benefits: This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - Plan amendments: See above.
 - Prohibited payments: Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - Benefit accruals: The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** Scheduled benefit increases effective after the end of the current plan year are excluded from minimum funding requirements.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.

Plan Provision Changes Since Prior Valuation

Maximum compensation amounts and maximum benefit amounts under IRS rules are the same for 2015 to 2016.

Schedule SB, line 24 — Change in Actuarial Assumptions

- Interest discounts and mortality rates were updated from 2015 to 2016 in accordance with PPA.
- The expected rate on return of assets decreased from 7.40% to 6.80%.
- The expense component of normal cost increased from \$66,915 to \$71,024 to reflect our expectations for the current plan year.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
