Sealed Air Corporation 401(k) Thrift Plan

Notes to Financial Statements

December 31, 2016 and 2015

1. Description of the Plan

The following brief description of the Sealed Air Corporation 401(k) Thrift Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General

The Plan is a defined-contribution plan covering certain employees of Sealed Air Corporation (the Company) and certain participating subsidiaries. Eligible employees include all full-time and part-time employees who are normally scheduled to work 1,000 or more hours per year, except those who are covered by certain collective bargaining agreements, certain nonresident aliens, leased employees or independent contractors, temporary or part-time employees who are scheduled to work less than 1,000 hours per year and do not complete 1,000 hours of service in a prescribed 12 month period, and employees working at specific divisions, departments, or other business units of the Company that are not covered by the Plan. An employee becomes eligible to participate in the Plan on the first day of employment, except for certain part-time employees who must complete 1,000 hours of service before becoming eligible to participate. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Retirement Committee is responsible for oversight of the Plan. The Retirement Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performances and is appointed by and reports to the Organization and Compensation Committee, which is a subset of the Company’s Board of Directors.

Contributions

Each year, participants may contribute from 1% to 20% of their annual compensation, as defined in the Plan. Participant contributions may be made on a before-tax basis by salary deduction and, in addition, for certain collectively bargained employees, on an after-tax basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% on a pre-tax basis of eligible compensation and their contributions invested in the Vanguard Target Retirement Funds which most closely corresponds with the participant’s retirement date until changed by the participant.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

The Company will make matching contributions equal to 100% of each participant's contributions up to a maximum of 3% of each participant's compensation, and an amount equal to 50% of each participant's contributions up to the next 2% of each participant's compensation, as defined. Certain participants are covered by collective bargaining agreements that do not provide for the Company's matching contributions. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, Company matching contributions, and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the master trust (see Note 3). Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of \$500, up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account. The loan interest rate is set at prime rate, as defined. Principal and interest are paid ratably through payroll deductions.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Employer matching contributions made from and after January 1, 2013 are 100% vested. Employer matching contributions made before 2013 becomes vested primarily based on years of service. A participant is 100% vested in those pre-2013 employer matching contributions upon the earliest of the employee's attainment of the age 60, disability, death or completion of 24 months of credited service.

1. Description of the Plan (continued)

Forfeitures

At December 31, 2016 and 2015, forfeited non-vested accounts totaled \$26,698 and \$5,282, respectively. Forfeited accounts will be used to reduce future employer contributions. During the years ended December 31, 2016 and 2015, forfeitures of \$592,588 and \$238,205, respectively, were used to reduce Company contributions.

Benefits

Upon termination of employment, as defined, or at certain later times provided for in the Plan, a participant may elect to receive either a lump sum cash payment equal to the value of the participant's vested interest in his or her account, or in the form of monthly, semi-annual or annual cash installment payments. When being paid a lump sum, participants with an account balance that has an investment in the Sealed Air Common Stock Fund, participants may elect to receive the investment distributed in whole shares of Sealed Air Corporation common stock rather than cash.

Administrative Expenses

Substantially all the costs of administering the Plan are paid by the participants and are recorded in the financial statements of the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become 100% vested in their employer contributions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Sealed Air Corporation 401(k) Thrift Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

Payment of Benefits

Benefits are recorded when paid.

Valuation of Investments and Income Recognition

Investments held by the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Master Trust's valuation policies utilizing information provided by the investment advisers, trustees, and insurance company. See Note 4 for discussion on fair value measurements.

Purchases and sales of securities in the Master Trust are reflected on a trade-date basis. Interest income is recorded in the Master Trust on the accrual basis. Dividends are recorded in the Master Trust on the ex-dividend date. The Plan's interest in the Master Trust investment income includes Master Trust's gains and losses on investment bought and sold, as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2016 or 2015. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

New Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in the ASU remove the requirement to categorize within the fair value hierarchy investments whose fair values are measured using the net asset value per share (or its equivalent) as a practical expedient. Further, the new guidance removes certain disclosure requirements for investments measured using the net asset value per share practical expedient. ASU No. 2015-07 is effective for annual reporting periods beginning after December 15, 2015. Management has adopted ASU No. 2015-07 retrospectively for the year ended December 31, 2016. The Plan now presents the investment valued at NAV practical expedient disclosure required by ASU 2015-07 below the fair value hierarchy table for 2016 and 2015 in Note 4, "Fair Value Measurements". There were no other impacts on the financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965): (Part I) Fully Benefit-Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient*. Part I of the ASU eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive investment contracts. Part II of the ASU eliminates the requirements to disclose individual investments that represent 5 percent or more of net assets available for benefits and the net appreciation or depreciation in fair value of investments by general type. It also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further,

Sealed Air Corporation 401(k) Thrift Plan

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies (continued)

the disclosure of information about fair value measurements shall be provided by general type of plan asset. Part III of the ASU allows a plan with a fiscal year end that doesn't coincide with the end of a calendar month to measure its investments and investment-related accounts using the month end closest to its fiscal year end. The ASU is effective for fiscal years beginning after December 15, 2015. Parts I and II are to be applied retrospectively. Part III is to be applied prospectively. Management has adopted Parts I and II of the ASU as of December 31, 2016. Part III is not applicable to the Plan. The adoption of ASU 2015-12 resulted in the reclassification of an adjustment from fair value to contract value for a fully benefit-responsive common collective trust fund within the statement of net assets available for benefits as of December 31, 2015. There were no other impacts on the financial statements.

3. Investment Information Certified by the Trustee

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2016 and 2015, and net appreciation (depreciation) in fair value of investments, interest from investments, dividends, investment expenses and interest from participant notes receivable, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee.

Investments are held by Fidelity Management Trust Company under a nondiscretionary Master Trust Agreement. The Plan's investments are jointly held with the assets of the Profit-Sharing Plan of Sealed Air Corporation in the Master Trust. Financial information relating to those investments, including investment income, realized and unrealized appreciation and investment expenses, is included in the accompanying financial statements based on information certified by the trustee. Each participating plan has a divided interest in the net assets of the Master Trust depending on the individual investments selected by or for the participants in each plan.

The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2016 and 2015, the Plan's interest in the net assets of the Master Trust was approximately 67.4% and 67.5%, respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the Plan based upon the monthly balances invested by each plan.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability

4. Fair Value Measurements (continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the NAV. Participant transactions (purchase and sales) may occur daily.

market funds. There are no unfunded commitments at December 31, 2016 or 2015. The fund has a daily redemption frequency and redemption notice period.

5. Income Tax Status

The Internal Revenue Service (the “IRS”) has determined and informed the Company by a letter dated April 3, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (the “Code”). Once qualified, the Plan is required to operate in accordance with the Code to maintain its qualification. The Plan has filed for a new determination letter on the January 1, 2017 restated Plan document.

During 2016, the Company identified that certain eligible compensation was excluded in determining contributions to the Plan. Corrective contributions to participant accounts, including lost earnings, have been identified and quantified by the Company. The Company filed a Voluntary Correction Program (“VCP”) submission with the IRS, which further detailed these matters. As a result, the Company made contributions of \$141,405 in October 2016 in resolution of this issue. This item did not have a material effect on the Plan’s net assets available for benefits, and the Company does not expect the VCP submission to affect the Plan’s tax status.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions.

6. Related Party Transactions

Certain Master Trust investments are shares of funds managed by Fidelity. Fidelity is the trustee as defined by the Master Trust and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees incurred by the Master Trust for the investment management services are included in net appreciation in fair value of the investment as they are paid through revenue sharing, rather than a direct payment. As described in Note 3, the Master Trust made a direct payment to the third party administrator of \$163,848 and \$528,916 during the years ended

The Master Trust also invests in shares of Sealed Air Common Stock Fund. These transactions qualify as exempt party-in-interest transactions.

8. Subsequent Events

Management evaluated subsequent events for the Plan through October 2, 2017, the date the financial statements were available to be issued.

Effective January 1, 2017, the Plan implemented several changes: the participant deferral cap was raised from 20% to 75% of eligible compensation; the auto-enrollment deferral rate for new participants was increased from 3% to 5%; and certain auto-escalation clauses will be implemented later in 2017.
