1. DESCRIPTION OF PLAN

The following description of Southwest Ohio ENT Specialists, Inc. 401(k) Retirement Plan and Trust (the Plan) provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan established by Southwest Ohio ENT Specialists, Inc. (the Company or Plan Sponsor), and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). Participation in the Plan is entirely voluntary. An eligible employee is any person employed by the Company meeting the minimum requirements of 18 years of age and one year of service in which the employee has worked 1,000 hours or more.

Contributions - Participants may contribute to the Plan up to 100% of pretax compensation. Participants may increase or decrease the amount of their contributions to the Plan quarterly, based on the Plan year. The Company is required to make a qualified nonelective contribution of 3% of pretax compensation for all participants. The Company may, but is not required to, make discretionary matching contributions and discretionary profit sharing contributions to the Plan in an amount determined annually by the Board of Directors. Company qualified non-elective contributions were $231,162 in 2016 and $246,070 in 2015. Discretionary profit sharing contributions were $434,015 and $438,045 in 2016 and 2015, respectively. Participants direct the investment of their contributions and Company contributions into one or more funds currently available through the Plan.

Participants' Accounts - Each participant's account is credited with its proportionate share of employee elective deferrals, the Plan sponsor's discretionary matching contributions, and the Plan's earnings. Allocations of discretionary contributions and Plan earnings are based on participants' elective deferrals or account balances, as provided in the Plan Agreement. Each participant is entitled only to the benefits that can be provided from that participant's account.

Vesting - Participants are immediately vested in their contributions and Company qualified nonelective contributions plus earnings thereon. Participants' vested interests in all other Company contributions plus earnings thereon increase from 20% after the first year of service to 100% after the fifth year.

Notes Receivable from Participants - Participants may borrow from their account a minimum of $1,000 up to a maximum of the lesser of $50,000 or 50% of their vested account balance. Loan transactions are treated as transfers between an investment fund and the loan fund. Loans must be repaid within five years except loans used for the purchase of a principal residence must be repaid within 30 years. Each loan is secured by the vested account balance in the participant's account and bears a rate of interest commensurate with the local prevailing rates as set by the plan administrator. Interest rates range from 4.25% to 4.5% at December 31, 2016.

Payment of Benefits - Upon termination of employment, participants receive vested interests either in a lump-sum amount or over a period of time not to extend beyond the participant's life expectancy (or the life expectancy of the participant and his designated beneficiary). There were no benefits payable to terminated participants at September 30, 2016 and 2015.

Forfeiture Accounts - Forfeitures may first be used to reduce the amount of any legally permitted expenses incurred in connection with the administration of the Plan which are not otherwise paid by the Sponsor. Forfeitures are then used to reduce the Sponsor's future matching contributions. Forfeited nonvested accounts at December 31, 2016 and 2015 are $0. Employer contributions were reduced by $7,066 in 2016 and $5,424 in 2015 from forfeited nonvested accounts.

Tax Status - The trust established under the Plan to hold the Plan's assets is qualified pursuant to the applicable sections of the Internal Revenue Code (IRC) and, accordingly, the trust's net investment income is exempt from income taxes. The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2008 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving its acceptance under Section 401 of the IRC, the plan administrator and Plan sponsor believe that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Tax years 2013 and later remain open and subject to examination.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

The Plan has evaluated subsequent events through September 29, 2017, the date the financial statements were approved and authorized by the plan administrator.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts and disclosures of net assets available for benefits as of the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the participants' account balances and the amounts reported in the statement of net assets available for benefits.

Investment Contracts - Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would normally receive if they were to initiate permitted transactions under the terms of the Plan.

ASU 2015-12 clarifies that the measurement and presentation requirements of a fully benefit-responsive investment contract apply only to direct investments. The Plan has an indirect investment in a guaranteed investment contract for the Principal Stable Value Fund, which is a collective investment trust held by Union Bond & Trust Company, as trustee, at December 31, 2016 and 2015. Therefore the statements of net assets available for benefits presents the fair value of the investment contracts.

Investment Valuation and Income Recognition - The Plan's investments in securities are stated at fair value determined using year-end market prices which represent the net asset value of shares held by the Plan. Principal Trust Company provides market prices to the Plan. Unrealized gains or losses are allocated to participants' accounts. Security transactions are recorded on trade dates; the specific-identification method is used in computing gains or losses. Investment income is stated net of investment fees.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest.

Payment of Benefits - Benefits are recorded when paid.

Expenses of the Plan - The Company has elected to pay certain administrative expenses of the Plan in excess of forfeitures and provides administrative services at no cost to the Plan. If not paid by the Company, administrative expenses become a liability of the Plan. Administrative expenses paid from the Plan are fees charged to each participant for fund management, managed account fees, and distribution processing.

3. INVESTMENTS

The following information included in the Plan's financial statements and supplemental schedule as of and for the years ended December 31, 2016 and 2015 was obtained from data prepared by Principal Trust Company, the trustee of the Plan. The plan administrator has obtained certification from the trustee that such information is complete and accurate. The following represents the fair values of the investments in the separate identifiable funds administered by the trustee:

	2016	2015
Investments, at fair value	$ 16,460,840	$ 16,076,293
Interest and dividends	63,118	65,603
Net appreciation in fair value of investments	1,223,515	19,062

4. FAIR VALUE MEASUREMENTS

The Plan's measurement of fair value for assets and liabilities are based on the framework established in the fair value accounting guidance. The framework is based on the inputs used in valuation, gives the highest priority to quoted prices in active markets, and requires that observable inputs be used in the valuations when available. The three levels of the hierarchy are as follows:

Level 1: observable inputs such as unadjusted quoted prices in active markets for identical assets or liabilities

Level 2: inputs other than quoted prices included in active markets that are observable either directly or indirectly

Level 3: unobservable inputs in which there is little or no market data, which requires the Plan to develop its own assumptions

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Pooled separate accounts: Most of the pooled separate accounts invest in mutual funds or stocks having observable level 1 quoted prices. While the underlying asset values are quoted prices, the net asset value (NAV) of a separate account is not publicly quoted. The pooled separate account real estate fund invests mainly in commercial real estate and mortgage loans with unobservable level 3 pricing inputs. The fair value of the underlying investments is estimated using discounted cash flow valuation methods and independent appraisals.

Registered investment companies: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the United States Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common stocks within brokerage account: Valued at the closing price reported on the active market on which the individual securities are traded.

Common/Collective trust: Guaranteed investment contract is valued based on the net asset value at which the plan transacts with the fund.

For those assets with fair value measured using Level 3 inputs, the plan administrator and trustee determine the fair value measurement policies and procedure. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation

methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts		$ 10,010,040	$ 558,581	$ 10,568,621

*In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

6. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds or units of bank common trust funds managed by the trustee (or affiliates of the trustee) of the Plan. Therefore, these transactions qualify as party-in-interest transactions.

7. PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.
