Notes to Financial Statements

December 31, 2016 and 2015

NOTE A--DESCRIPTION OF PLAN

The following description of the TAG Family of Companies (the "Company") Premier 401(k) Plan ("Plan") provides only general information. Participants should refer to the Plan Document for more complete details of the Plan's provisions.

General
The Plan is a defined contribution plan covering all full-time employees of the Company who have three (3) months of service and are 18 years of age or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions
Each year, participants may contribute up to the maximum percentage allowable not to exceed the limits of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make a matching contribution to the Plan; however, it is not required to do so. The percentage of contributions to be matched is to be determined by the Company and allocated to participants at the end of the Plan year. Participants must be employed on the last day of the year in order to receive matching contributions. Additional profit sharing amounts may be contributed at the option of the Company's board of directors and are invested as directed by each participant. Contributions are subject to certain limitations.

There were no employer matching or profit sharing contributions for the years ended December 31, 2016 and 2015.

Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution (if any) and (b) Plan earnings, and reduced by allocations of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A--DESCRIPTION OF PLAN--Continued

Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants
Participants may borrow a minimum of $1,000 up to a maximum of $50,000, or 50% of their vested account balance, whichever is less. The loans are collateralized by the balance in the participant's account and bear interest at rates equal to the current prime rate plus one percentage point. The interest rates on outstanding loans ranged from 4.25% to 4.5% for the years ended December 31, 2016 and 2015. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits
On termination of service for any reason (death, disability, termination or retirement), a participant may receive a lump-sum amount equal to the value of the participant's vested interest in his or her account, or various annuity options.

Forfeited Accounts
At December 31, 2016 and 2015, forfeited non-vested accounts totaled $58 and $94, respectively. These accounts may be used to reduce future employer contributions.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts of assets, liabilities, and changes therein. Accordingly, actual results may differ from those estimates.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note C for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as a distribution based upon the terms of the plan document. Related fees are recorded as administrative expenses and are expenses when they are incurred.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in the net appreciation (depreciation) of fair value of investments.

Change in Accounting Policy

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit-responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient.

NOTE B--SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES--Continued

Change in Accounting Policy--Continued

Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 31, 2015 and should be applied prospectively, with early application permitted.

Management has adopted Parts I and II. Accordingly, the amendments were retrospectively applied resulting no changes in net assets available for benefits or the changes in net assets available for benefits. Part III is not applicable to this Plan.

NOTE C--FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value) in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No level 1 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Level 2 Fair Value Measurements

The fair value of pooled separate accounts is based on quoted prices in less active, dealer or broker markets. Fair values are primarily obtained from third-party pricing services for identical or comparable assets.

NOTE C--FAIR VALUE MEASUREMENTS--Continued

Level 3 Fair Value Measurements

The guaranteed interest accounts with an insurance company and common/collective trusts are not actively traded and significant other observable inputs are not available. Thus, the fair value of the guaranteed interest account and common/collective trusts are determined by discounting the related cash flows based on current yields of similar instruments with comparable durations, considering the credit-worthiness of the issuer.

For those assets with fair value measured using Level 3 inputs, the Plan administrator determines the fair value measurement policies and procedures in consultation with Principal Life Insurance Company. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015.

		Fair Value Measurements Using:

NOTE D--INVESTMENTS

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the following information was certified by Principal Life Insurance Company for the years ended December 31, 2016 and 2015, and was not subjected to any auditing procedures:

a. Total investments as shown in the accompanying statements of net assets available for benefits of $3,229,192 and $2,944,475 as of December 31, 2016 and 2015, respectively.

b. Net investment gain (loss) as shown in the accompanying statements of changes in net assets available for benefits of $182,124 and $(14,906) for the years ended December 31, 2016 and 2015, respectively.

During 2016 and 2015, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), appreciated (depreciated) in value, as follows:

	2016	2015
Pooled separate accounts	$ 125,856	$ (5,417)
Common/collective trusts	56,253	(9,511)
Guaranteed interest accounts	15	22
	$ 182,124	$ (14,906)

The Plan assets at December 31, 2016 are maintained by Principal Life Insurance Company ("Principal") and Principal Trust Company ("Principal Trust" under the following types of accounts:

Pooled separate accounts are a discretionary type of investment vehicle. A separate account is established for each participant, whereby each participant has the option of choosing from a wide selection of Principal sponsored mutual funds.

Common/collective trusts are investment vehicles that generally invest in affiliated and unaffiliated mutual funds. Investment returns on these accounts fluctuate with changes in interest rates and other market conditions.

NOTE D--INVESTMENTS--Continued

The guaranteed interest accounts are held in Principal's general account. The principal and compounded interest are guaranteed over a defined term, either three or five years. Interest rates in 2016 on the funds offered ranged from 0.67% to 0.76% depending on the term selected.

NOTE E--GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY

In 2015 and 2016, the Plan offered an investment into a fully benefit-responsive guaranteed investment contract with Principal totaling $488,568 and $296,009 at December 31, 2016 and 2015, respectively. Principal maintains the contracts in a common/collective trust account. The account is credited with actual earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The contract meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Principal, represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The Plan's ability to receive amounts due is dependent on Principal's ability to meet its financial obligations. Principal's ability to meet its contractual obligations may be affected by future economic and regulatory developments.

Certain events limit the Plan's ability to transact at contract value with Principal. Such events include the following: (a) amendments to the plan documents (including complete or partial termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA, or (e) premature termination of the contract.

NOTE E--GUARANTEED INVESTMENT CONTRACT WITH INSURANCE COMPANY--Continued

The Plan administrator does not believe that the occurrence of any such value event, which would limit the Plan's ability to transact at contract value with Plan participants, is probable.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

NOTE F--PLAN TERMINATIONS

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the Company contribution portion of their account.

NOTE G--TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014, that the Plan and related trust, under Principal Life Insurance Company and Principal Trust Company, are designed in accordance with applicable sections of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has any uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service or the U.S. Department of Labor. The Plan is subject to routine audits by federal taxing authorities; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to tax examinations for years prior to 2013.

NOTE H--RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE I--RELATED PARTY TRANSACTIONS
