Note A – Description of Plan

The following description of the Regal Automotive Group 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established effective May 1, 1994 and amended and restated January 1, 2017. All employees of Regal Automotive Group (the "Company" or the "Employer"), with exception of union employees, are eligible to participate after attaining the age of 21 and upon completion of 60 days of service. Employees become participants on the first day of the month coinciding with or next following the date they satisfy the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration

The accounting records are maintained by the Company. The Plan's assets are held and managed Great-West Life & Annuity Insurance (the "Trustee"). Contributions are held by the Trustee, who invests cash received, interest and dividend income, as directed by the participant, and makes distributions to participants.

Contributions

Participants may contribute up to 100% for December 31, 2016 and 2015 of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code (IRC) limitations. The maximum employee deferral for the years ended December 31, 2016 and 2015 was $18,000. A participant who has attained the age of 50 may also make catch up contributions, subject to IRS limitations of $6,000 for December 31, 2016 and 2015.

For participants who have one year of service or more, the Company may make matching contributions at its discretion as a percentage of the participant's elective deferrals to the Plan. For the year ended December 31, 2016 the Company matched contributions at a rate of 50% for the first 4% of employee deferrals. Employees enter the Plan for matching and discretionary contributions the first day of the month following one year of service. The Company may also make non-elective contributions to the plan. During the years ended December 31, 2016 and 2015, the Company did not make a non-elective contribution.

The Plan also allows participants to contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their contributions and Employer contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and the Company's matching or non-elective contribution amounts, if applicable. Each participant's account shall be allocated earnings, gains, expenses, and losses with respect to the investments of the participant's account. Allocations of Plan earnings or losses are based on each participant's investment fund balance in proportion to the total investment fund balance.

Note A – Description of Plan (continued)

Vesting

Participants are vested immediately in their contributions plus actual earnings or losses thereon. Vesting in non-elective employer contributions and employer matching contributions is based on years of continuous service. A participant is 100% vested upon death, disability, retirement age, or after six years of credited service as follows:

Years of Services	Vesting Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Distribution of Benefits

On termination of service due to death or retirement, upon reaching the age of 59½ or for a qualifying hardship, a participant may elect to receive either a lump-sum or installment amounts equal to the value of the participant's vested interest in his or her account, as defined in the Plan agreement. If the participant's vested account balance exceeds $1,000, the Plan will allow the participant to elect when to commence distribution or permit a direct rollover to another qualified plan or IRA. If the vested account balance does not exceed $1,000, the Plan will distribute the balance in a lump-sum.

Notes Receivable from Participants

Participant loans are not permitted by the Plan.

Forfeitures

At December 31, 2016 and 2015, forfeited non-vested accounts totaled approximately $17,000 and $23,000, respectively. These accounts will be used to pay Plan expenses and future Company discretionary non-elective or matching contributions with any remaining amount. During the year ended December 31, 2016, the Company used approximately $25,000 to reduce Company contributions.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and nonforfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Account Policies

Basis of Presentation

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which exempts investments measured using the net asset value (NAV) practical expedient in ASC 820, Fair Value Measurement, from categorization within the fair value hierarchy. The guidance requires retrospective application and is effective for public business entities for fiscal years, and interim periods within those years, beginning after December 15, 2015. For all other entities, the guidance is effective for fiscal years, and interim periods within those years, beginning after December 15, 2016. Early adoption is permitted. Management elected to early adopt the provisions of this new standard. Accordingly, the amendment was retrospectively applied resulting in changes to the footnote disclosures related to fair value measurements in Note B.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965): Part (I) Fully Benefit-Responsive Investment Contracts, Part (II) Plan Investment Disclosures, Part (III) Measurement Date Practical Expedient*. This three-part standard simplifies employee benefit plan reporting with respect to fully benefit- responsive investment contracts and plan investment disclosures, and provides for a measurement-date practical expedient. Parts I and II are effective for fiscal years beginning after December 15, 2015 and should be applied retrospectively, with early application permitted. Part III is effective for fiscal years beginning after December 15, 2015 and should be applied prospectively. Accordingly, the amendments were retrospectively applied resulting in changes to the footnote disclosures related to fully benefit-responsive investments. Accordingly, the amendments were retrospectively applied resulting in changes to the footnote disclosures related to fully benefit-responsive investments in Note G. Part III is not applicable to this Plan.

As described in the Code *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the Code), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the Code, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. See Note G for further details.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Note B – Summary of Significant Account Policies (continued)

Valuation of Investments

The Plan's investments in mutual funds are stated at fair value, which is based on quoted market prices at year-end as reported by the Trustee. See discussion at Note G on valuation of the fixed income annuity contract.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

The administrative expenses of the Plan are either paid by the Plan or the Company.

Fair Value Measurements

The Code has established establishes a framework for measuring fair value, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note B – Summary of Significant Accounting Policies (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016 and 2015:

	Fair Value Measurements at Reporting Date Using:		
	Assets Measured at Fair Value at 12/31/2016	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)
Mutual funds	$ 3,765,344	$ 3,765,344	$ -
Investments at fair value	$ 3,765,344	$ 3,765,344	$ -

	Fair Value Measurements at Reporting Date Using:		
	Assets Measured at Fair Value at 12/31/2015	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)
Mutual funds	$ 3,462,093	$ 3,462,093	$ -
Investments at fair value	$ 3,462,093	$ 3,462,093	$ -

Note C – Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustee, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustee that the information provided to the Plan Administrator by the Trustee as of December 31, 2016 and 2015, and for the year ended December 31, 2016, is complete and accurate. Such information includes all investments, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note D – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 31, 2014, stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2014.

Note E – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note F – Party-In-Interest

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain mutual funds and the fixed income annuity contract is managed by the Trustee. Transactions related to this investment qualify as party-in-interest transactions. Fees paid to the Trustee by the Plan for investment services amounted to approximately $13,000 during the year ended December 31, 2016.

Note G – Fully Benefit-Responsive Investment Contracts

Fully benefit-responsive investment contracts, at contract value, on the statement of net assets consist of the following investment(s):

		December 31, 2016	December 31, 2015
Investment Type	Investment name	Contract value	Contract value
Fixed Income Annuity Contract	Key Guaranteed Portfolio Fund	$ 975,003	$ 741,606

The Plan is invests in a fully benefit-responsive investment group fixed income annuity contract (the Fund). The Fund is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. As described in Note B, because the fixed income annuity contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the fixed income annuity contract. The investments are included in the financial statements at contract value as reported to the Plan by the Fund. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The fixed income annuity contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Note G – Fully Benefit-Responsive Investment Contracts (continued)

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Fair value of the investment contract at December 31, 2016 and 2015 closely approximates contract value and such, there is no adjustment reflected in the accompanying Statements of Net Assets Available for Benefits.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan,) (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures of spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exempt under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring. The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note H – Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

Subsequent events have been evaluated through August 15, 2017 which is the date the financial statements were available to be issued.

Effective January 1, 2017, the Plan was amended and restated create a 4% automatic enrollment for all new participants. The automatic deferral rate will increase 1% on the 1st day of the Plan year and be capped at 8%.
