NOTE 1 – DESCRIPTION OF THE PLAN

The following brief description of The Quality Castings Company Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit pension plan covering substantially all employees of The Quality Castings Company (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was amended in December 2005 in order to freeze participation in the Plan effective December 1, 2005, so that participation is limited to participants in the Plan as of December 1, 2005 and employees hired prior to December 1, 2005 and who satisfy the service requirements set forth by the Plan document. Employees hired on or after December 1, 2005 shall not be eligible to participate in the Plan, including, effective June 1, 2014, those employees with prior service.

Contributions and Funding Policy

The Company's funding policy is to, at a minimum, contribute an amount as determined by the Plan's actuary that will be sufficient to maintain the minimum funding standard in accordance with ERISA. The Company may make discretionary contributions above this amount.

Pension Benefits

Employees with five or more years of service are entitled to monthly pension benefits beginning at the normal retirement age (65), equal to the product of years of service at date of termination times the following factor:

\$	4.00	if date of termination	01/01/1974 - 12/31/1974
\$	5.00	if date of termination	01/01/1975 - 12/31/1977
\$	7.00	if date of termination	01/01/1978 - 12/31/1978
\$	8.50	if date of termination	01/01/1979 - 12/31/1979
\$	10.00	if date of termination	01/01/1980 - 12/31/1984
\$	11.00	if date of termination	01/01/1985 - 11/30/1989
\$	12.00	if date of termination	12/01/1989 - 02/29/1992
\$	13.00	if date of termination	03/01/1992 - 12/31/1994
\$	14.00	if date of termination	01/01/1995 - 06/30/1998
\$	15.00	if date of termination	07/01/1998 - 02/28/2002
\$	16.00	if date of termination	03/01/2002 - after

The Plan also permits early retirement at ages 55 to 64 and the benefit is actuarially reduced to reflect early commencement. Benefits are in the form of a life annuity, including 75% and 50% joint and survivor and lump-sum payment under certain circumstances.

Death and Disability Benefits

If an active or terminated participant died after August 23, 1984 with at least one hour of service after January 1, 1976, prior to benefit commencement, while survived by spouse and while vested, a life annuity is payable to the surviving spouse. Active employees with at least ten years of service who retire due to total or permanent disability are entitled to a life annuity equal to the accrued benefit as of the disability retirement date.

Vesting

Participants become 100% vested in accrued benefits after five years of credited service.

Administrative Expenses

Trustee fees and other administrative expenses, such as legal and professional fees are paid by the Plan. Pension Benefit Guarantee Corporation ("PBGC") premiums are paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth by ERISA. In the event the Plan terminates, the pension fund would be applied to purchase participants' accrued benefits as set forth by the Plan document.

If the Plan terminates, certain benefits are insured by the PBGC. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Information about the Plan, including present and future benefits, vesting and PBGC benefit guarantee provisions is contained in a summary document available from the Plan administrator.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may vary from those estimates.

Fair Value of Financial Instruments

Fair value estimates are made at a specific point in time based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Investment Valuation and Income Recognition

All assets of the Plan are held and invested by FirstMerit Bank, N.A., now a part of Huntington Bank, N.A, the Plan trustee ("Trustee"). The investments are presented by the Trustee at fair market value as of the year-end.

Investment income consists of interest and dividend income and net appreciation (depreciation) of investments. The net appreciation (depreciation) in the fair value of investments consists of realized gains or losses and the unrealized appreciation (depreciation) on those investments. Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Realized gains and losses from security transactions are reported based on historical cost.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments and distributions that are attributable, under the Plan's provisions, to the service the employees have rendered.

The actuarial present value of accumulated plan benefits is determined by an actuarial firm, and is the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money and probability of payment between the valuation date and the expected date of payment. The significant actuarial assumptions used in the actuarial computations as of December 31, 2016 and 2015 are as follows:

- (a) Mortality table – RP-2000 Combined for 2016 and 2015
- (b) Discount rate – segment rates as follows:

	2016	2015
Segment 1	4.16%	4.43%
Segment 2	5.72%	5.91%
Segment 3	6.48%	6.65%

For the years ending December 31, 2016 and 2015, the discount rates applied to the Plan by the actuary consisted of three segment rates, or interest rates, that apply to benefits paid during three time periods:

- Segment 1: payments that occur within the first five years from the valuation date
- Segment 2: payments that occur between years five and twenty from the valuation date
- Segment 3: payments that occur twenty or more years after the valuation date

Additional assumptions used in the actuarial computations as of December 31, 2016 and 2015 include employee turnover, marital and retirement rate assumptions, as well as, withdrawal rates. These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Payment of Benefits

Benefits are recorded when paid.

Income Taxes

THE QUALITY CASTINGS COMPANY
PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

The Income Taxes Topic of the Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") requires the Plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing authorities. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2016 and 2015 and for the years then ended, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions.

Subsequent Events

The Plan has evaluated subsequent events through September 26th, 2017, the date the financial statements were available to be issued.

NOTE 3 – INFORMATION PREPARED AND CERTIFIED BY THE TRUSTEE (UNAUDITED)

The following is a summary of the unaudited information regarding the Plan, included in the Plan's financial statements, which was prepared by the Trustee, as of and for the years ended December 31, 2016 and 2015, and furnished to the Plan administrator. The Plan administrator has obtained certifications from the Trustee as of and for the years ended December 31, 2016 and 2015, that such information is complete and accurate.

	2016	2015
Investments, at fair value	\$ 11,373,067	\$ 10,974,415
Accrued investment income receivable	\$ 49,117	\$ 49,509
Interest income	\$ 80,737	\$ 78,758
Dividend income	\$ 244,806	\$ 263,179
Net appreciation (depreciation) of investments	\$ 645,572	\$ (500,943)

NOTE 4 – INVESTMENTS

The Plan's investments, as directed by the Company, are held by the Trustee.

Fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the Plan uses a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 – Observable inputs such as quoted prices in active markets;
- Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions.

THE QUALITY CASTINGS COMPANY
PENSION PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. Valuation methodologies used for assets and liabilities measured at fair value are as follows:

- Interest-bearing cash: Money market funds are valued based on the underlying investments traded on the active market.
- Government securities and corporate debt obligations: Valued at prices for similar securities. Securities are traded on an active market, but are not traded on a daily basis.
- Common stock and mutual funds: Determined by quoted market prices on active markets.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date. There have been no changes in methods from prior years.

The following tables set forth, by level within the fair value hierarchy, the Plan's assets at fair value as of:

NOTE 5 – PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are a money market fund managed by the Trustee. In addition, the Plan owns shares of Huntington Bancshares Inc. common stock, therefore, these transactions qualify as party-in-interest. Fees paid by the Plan for the investment management services and other professional fees amounted to \$31,690 and \$36,804 for the years ended December 31, 2016 and 2015, respectively. There are also indirect fees deducted directly from investment earnings of the Plan.

NOTE 6 – TAX STATUS

The Plan has obtained a favorable determination letter dated August 8, 2016 from the Internal Revenue Service that the Plan is exempt from federal income taxes. The Plan has not been amended since receiving the determination letter.
