INDEPENDENT AUDITOR'S REPORT

To the Participants of the Dex One Retirement Account and
Plan Administrator

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Dex One Retirement Account (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2015, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certification from the trustee as of December 31, 2016 and 2015 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 1 - DESCRIPTION OF PLAN

The following brief description of the Dex One Retirement Account (the "Plan") is provided for general information purposes only. Participants should refer to the Plan Document for more complete information.

General: In July 1998, Dex One Corporation ("Dex One"), formerly known as R.H. Donnelley Corporation ("RHD"), separated from The Dun & Bradstreet Corporation ("D&B") and became an independent public company. Prior to the separation from D&B, Dex One's employees were participants in The Dun & Bradstreet Retirement Account (the "D&B Plan"). Effective July 1, 1998, Dex One established the Plan and all eligible Dex One employees who participated in the D&B Plan became participants in the Plan. Qualified service with D&B and its partially or wholly-owned subsidiaries was counted for purposes of eligibility, vesting and benefits under the Plan. Retired and terminated Dex One employees with vested benefits at June 30, 1998 maintained their membership in the D&B Plan. Effective January 31, 2006, Dex One merged with Dex Media, Inc., which became a direct wholly-owned subsidiary of Dex One. Dex Media, Inc. maintains a separate pension plan for Dex Media, Inc. employees. As of January 1, 2007, certain benefits accrued under the DonTech Retirement Account were merged into the Plan. Effective April 30, 2013 Dex One merged with SuperMedia Inc. and the merged entity changed its name to Dex Media, Inc. ("Dex Media", the "Company" or "Plan Sponsor").

The Plan is a non-contributory cash balance defined benefit plan established to provide pension benefits to eligible employees of the Company. The Plan is funded by contributions from the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA") and certain sections of the Internal Revenue Code ("IRC").

During 2015, the Plan experienced a partial plan termination due to a reduction in active plan participants in excess of 20 percent. The reduction in active plan participants was attributable to involuntary terminations during 2014 and 2015. All participants affected by the partial plan termination were fully vested.

Trustee and Administration of the Plan: The trustee of the Plan is State Street Bank and Trust Company, ("State Street" or "Trustee"), and the Plan participates in the Dex Media Inc. Master Trust ("Master Trust") for which State Street is the trustee. State Street holds all assets of the Master Trust in accordance with provisions of the master trust agreement with the Company.

The Plan administrator is the Dex Media Employee Benefits and Asset Management Committee ("EBAMC") (collectively "Plan Administrator"), which was appointed by the Compensation and Benefits Committee of Dex Media's Board of Directors. The EBAMC has the authority to select, retain, monitor and discharge recordkeepers and is responsible for administering the Plan, including day to day functions, benefit payments, and claims and for executing amendments. Additionally, the EBAMC has authority to remove and/or instruct the Trustee, establish and maintain a funding and investment policy, and select and monitor investment managers and funds.

Participation and Eligibility: As of December 31, 2008, the Plan is closed to new participants. Prior to December 31, 2008, employees of the Company became eligible for participation on the first day of the month following attaining age 21 and completing one Period of Service as defined in the Plan Document.

Benefits for Employees: Effective December 31, 2008, the Company froze the Plan and all future benefit accruals ceased; however, interest credits on participant account balances under the account balance formula continue until the commencement of benefit payments. In addition, years of service for vesting and early retirement benefit eligibility continue as long as participants remain employed by the Company. No compensation paid to an employee after December 31, 2008 shall be included in the determining a participant's average final compensation.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Benefits under the Plan are calculated based on years of service and percentage of total annual compensation. This “cash balance benefit” is an annual benefit equal to a retirement account balance converted to an actuarially equivalent life annuity at retirement. The retirement account is comprised of an initial retirement amount converted as of December 31, 1996 (if applicable) plus monthly pay and interest credits through December 31, 2008 plus monthly interest credits through the benefit commencement date. The percentage of compensation that was used to determine the monthly pay credits ranged from 3.0% to 12.5% depending on the participant’s age and years of service. Benefits for certain employees who were participants in the predecessor D&B Plan and who met certain “grandfathered” criteria are determined based on the participant’s average compensation and years of service (“final average pay formula”), as further described in the Plan Document.

Benefit payments will be based on the individual cash balance account or the grandfathered final average pay formula, if applicable, as of the benefit commencement date. Benefits are paid in the form of a life annuity for unmarried participants and a 50% joint and survivor annuity for married participants, unless an alternative form of payment is elected. Early retirement benefits are available in a reduced amount any time after age 55 and completion of ten years of service, based on certain factors and tables included in the Plan Document.

Effective on or after March 28, 2005, if a participant with a vested benefit greater than \$1,000 but less than \$5,000 does not elect a lump-sum distribution or a direct rollover into another qualified account, the Plan will pay the distribution as a direct rollover to an individual retirement account designated by the EBC. Amounts \$1,000 or less are automatically paid in a lump-sum to the participant.

Death and Disability Benefits: If an employee with at least 5 years of vesting service becomes totally and permanently disabled while in active service, the employee can elect to receive their monthly benefit immediately or defer payment to a later date. When an employee dies, the full value of the employee’s account is payable to their beneficiary in the form of a monthly annuity.

Vesting: Employees with at least one hour of service after December 31, 2007 are fully vested in plan benefits upon completion of 3 years of service as required under The Pension Protection Act of 2006 (the “Act”), or upon reaching age 65. For purposes of vesting, a year of service is awarded after completing a Period of Service as defined in the Plan Document.

Funding Policy: Contributions are actuarially determined and funded in accordance with the provisions of ERISA. The Company’s funding policy is to contribute an amount at least equal to the minimum legal funding requirement established by ERISA. For the Plan periods ended December 31, 2016 and 2015, there is no funding required under the ERISA minimum funding requirements, and the Company elected not to make any contributions to the Plan.

Termination of the Plan: Although the Company has not expressed any intention to do so, it may terminate the Plan at any time. The rights of all affected employees to benefits accrued upon termination are nonforfeitable. Upon termination, the accrued benefits of all affected participants shall become allocated in accordance with the guidelines prescribed by the Plan and ERISA and its related regulations.

If the Plan terminates, whether that be voluntary, involuntary or distressed, certain benefits under the Plan are insured by the PBGC, a U.S. Governmental agency. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor’s pension benefits. However, the PBGC does not guarantee all types of benefits provided by covered plans and the amount of benefit protection is subject to certain limitations.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency at that time of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting: The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("GAAP").

Investment Valuation and Income Recognition: The Plan's interest in the Master Trust investments are stated at fair value. See Note 5, *Fair Value Measurements*, for additional information. Purchases and sales of the Plan's interest in Master Trust's investments are recorded on a trade-date basis. The Plan presents in the Statements of Changes in Net Assets Available for Benefits the Plan's interest in the Master Trust's investment gain (loss), which consists of the Plan's pro rata interest in realized gains (losses), the unrealized appreciation (depreciation) of the investments, dividend and interest income, and expenses. Dividend income of the Master Trust is recorded on the ex-dividend date. Interest income of the Master Trust is recorded on the accrual basis. Fees paid by the Master Trust for investment management services are reflected as a reduction of the investment return earned by such investments.

Actuarial Present Value of Accumulated Plan Benefits: Accumulated plan benefits are those estimated future periodic payments, including lump sum distributions that are attributable under the Plan's provisions for services rendered by the employees as of the valuation dates. See Note 3, *Actuarial Present Value of Accumulated Plan Benefits*, for additional information. Accumulated plan benefits include benefits expected to be paid to employees or their beneficiaries upon retirement, death, disability or termination. Benefits for retired, terminated and disabled employees or their beneficiaries are based on each former employee's credited service prior to his or her termination or retirement date. Accumulated plan benefits for active employees are based on each employee's credited service preceding the valuation date. Benefits payable under all circumstances noted above are included in the computation of the actuarial present value of accumulated plan benefits to the extent that they are deemed attributable to employee service rendered through the valuation date.

The Plan's actuary estimates the actuarial present value of accumulated plan benefits. This is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The effect of any plan amendments on accumulated plan benefits is recognized at the time such amendments are approved.

Estimates: The preparation of financial statements in conformity with GAAP requires the Plan Administrator to make significant estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from those estimates. The most significant of these estimates relates to the determination of the accumulated plan benefits and the Plan's funded status. See Note 1, *Description of Plan – Funding Policy* and Note 3, *Actuarial Present Value of Accumulated Plan Benefits* for additional information. Actual results could differ from these estimates and such differences could be material.

DEX ONE RETIREMENT ACCOUNT
NOTES TO FINANCIAL STATEMENTS
December 31, 2016 and 2015

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Concentrations, Risks and Uncertainties: Investments held through the Master Trust consist of various investments in corporate common and foreign stock, registered investment companies, U.S. government securities (including U.S. Government bonds, government mortgage backed securities, index-linked government bonds, short-term bills and notes and guaranteed commercial paper), corporate debt (including corporate bonds, commercial mortgage backed securities, asset backed securities, collateralized mortgage obligations and commercial paper), collective trusts, hedge funds and certain derivative instruments. See Note 6, *Derivative Financial Instruments*, for additional information on the Master Trust investments in derivative financial instruments. Investments and derivative instruments, in general, are exposed to various risks, such as interest rate, credit, market, liquidity, currency and overall market volatility risk. Due to the level of risk associated with certain investments and derivative instruments and their level of uncertainty, it is at least reasonably possible that changes in the values of investments and derivative instruments may occur in the near term and such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the funded status of the Plan.

The Master Trust invests in securities with contracted cash flows, such as asset backed securities, collateralized mortgage obligations and commercial mortgage back securities, including securities backed by subprime mortgage loans. The value, liquidity and related income of securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the amounts reported in the financial statements.

The Pension Protection Act of 2006 imposes certain benefit restrictions for qualified defined benefit plans that do not meet certain funding thresholds. A Plan's funded percentage is referred to as the Adjusted Funding Target Attainment Percentage ("AFTAP"). The 2016 and 2015 AFTAP for the Plan is 105.04% and 110.01%, respectively. Because the Plan's AFTAP met or exceeded the required threshold, the Plan was not subject to any benefit restrictions.

Benefit Payments: Benefits are recorded when paid. Amounts requested but not paid as of December 31, 2016 and 2015 were \$565,286 and \$89,818, respectively.

Expenses and Administrative Costs: The Plan's investment and administrative expenses are generally paid by the Plan or through the Master Trust as provided for in the Plan and trust documents. The plan expenses paid or payable from the Plan's assets were \$1,269,145 and \$879,857 for the years ended December 31, 2016 and 2015, respectively. Expenses paid through the Master Trust for investment related activities for the years ended December 2016 and 2015 were \$2,308,127 and \$2,571,203, respectively. These expenses are allocated to the participating plans and are a component of the Plan's interest in the Master Trust's net investment income as reported in the Statements of Changes in Net Assets Available for Benefits. All other expenses not paid by the Plan are paid by the Company.

Subsequent Events: The Board of Directors of Dex Media Holdings, Inc. has approved a resolution to merge all four qualified pension plans (Dex One Retirement Account, Dex Media, Inc. Pension Plan, SuperMedia Pension Plan for Management Employees, and SuperMedia Pension Plan for Collectively-Bargained Employees) into a single new plan. Effective January 1, 2017, the assets and obligations attributable to the Plan were merged into the Consolidated Pension Plan of Dex Media, Inc. All participants and beneficiaries became participants and beneficiaries of the Consolidated Pension Plan of Dex Media, Inc. The new merged pension plan will remain frozen and closed to new participants.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Effective January 1, 2017 the Company's name changed from Dex Media, Inc. to Dex Media Holdings, Inc., and on June 30, 2017, Dex Media Holdings, Inc. acquired YP Holdings, a leading marketing solutions and search platform provider. The combined company, called DexYP, will operate as a privately held company.

The plan administrator has evaluated subsequent events for recognition and disclosure October 2, 2017, which is the date the financial statements were available to be issued.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

The actuarial present value of accumulated plan benefits as of December 31, 2015 is as follows:

Actuarial present value of accumulated plan benefits	
Vested benefits	
Participants currently receiving benefits	\$ 66,798,941
Participants with deferred benefits	39,205,844
Other participants	<u>11,954,828</u>
	117,959,613
Nonvested benefits	<u>64,491</u>
Total actuarial present value of accumulated plan benefits	<u>\$ 118,024,104</u>

The change in the actuarial present value of accumulated plan benefits for the year ended December 31, 2015 is as follows:

Actuarial present value of accumulated plan benefits	
as of December 31, 2014	\$ 115,518,849
Increase (decrease) during the year attributable to:	
Benefits accumulated and (gains) losses	174,190
Change in actuarial assumptions*	5,161,838
Interest accumulation	5,905,113
Benefits paid	<u>(8,735,886)</u>
Net increase	<u>2,505,255</u>
Actuarial present value of accumulated plan benefits	
as of December 31, 2015	<u>\$ 118,024,104</u>

* Assumption changes included annual updates to cash balance conversion rates; change in investment return; change in mortality tables; and change in cash balance interest crediting rate.

NOTE 3 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (Continued)

The significant actuarial assumptions used in the valuations as of December 31, 2015 were as follows:

Mortality:

- RP-2014 fully generational mortality tables for employees and healthy annuitants with a 2006 base, using projection scale MP-2016
- RP-2014 fully generational mortality tables for disabled retirees with a 2006 base, using projected scale MP-2016

Retirement age: Graded from age 50 to 70

Expected long term rate of return on investments: 6.00% gross, reduced to 4.91% after adjustment for PBGC premiums and administrative expenses

Cash balance interest crediting rate: 3.00%

Cash balance conversion rate: 4.44%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. An actuarial valuation of the Plan's accumulated plan benefits as of December 31, 2016 has not been completed as of the date of the financial statements.

NOTE 4 - MASTER TRUST (UNAUDITED)

The Plan and the Dex Media Inc., Pension Plan (collectively "Dex Plans") investment assets are held in a trust account at State Street, the trustee, and consist of an undivided interest in an investment account of the Master Trust. The SuperMedia Pension Plan for Management Employees and the SuperMedia Pension Plan for Collectively Bargained Employees also participate in the Master Trust. The assets of the Master Trust are invested in a variety of investments and derivative instruments; however, certain assets of the Master Trust have been attributed to only the Dex Plans. The net investment income of the investment assets is allocated by the trustee to the Dex Plans based upon the net investment income of the specific interests of the Dex Plans. Additionally, the Dex Plans' interest in the Master Trust was adjusted for transactions that were specifically identifiable to the Dex Plans including contributions, payments to participants and certain expenses. The Statements of Net Assets Available for Benefits reflects the Plan's interest in the Master Trust, which represented 20% and 21% interest as of December 31, 2016 and 2015, respectively.

NOTE 5 - FAIR VALUE MEASUREMENTS

Fair value is the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted market prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include quoted market prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs reflect management's judgments of the assumptions that market participants would use in pricing an asset or liability and the valuation methodology are deemed unobservable and significant to the fair value measurement.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is description of the valuation methodologies used for assets measured at fair value within the Master Trust at December 31, 2016 and 2015. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Collective trusts (including a collective trust – short term investment fund): The net asset value of each fund is calculated based on a compilation of primarily observable market information. The unit of value of the fund is calculated by dividing the fund's net asset value on the calculation date by the number of units of the fund that are outstanding on the calculation date. The number of units of the fund that are outstanding is derived from observable purchase and redemption activity in the fund. The short term investment fund's primary objective is to provide an investment vehicle for cash reserves while offering a competitive rate of return. High quality securities are used in this fund. The funds provide for daily redemptions at the reported unit value.

U.S. government securities (which includes U.S. government bonds, government mortgage backed securities, index-linked government bonds, guaranteed commercial paper, and short-term bills and notes): U.S. government securities are stated at fair value based on multiple pricing services, based on a bid evaluation process using observable, market-based inputs effective the last day of the plan year (Level 2 inputs).

Corporate bonds: Corporate bonds are stated at fair value based on a bid evaluation process using observable, market-based inputs effective the last day of the plan year (Level 2 inputs).

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

Registered investment company: The shares of registered investment companies are stated at fair value as quoted on a recognized securities exchange in an active market which represents the net asset value of the shares held by the Plan at year end (Level 1 inputs).

Other fixed income (including corporate debt, which includes commercial mortgage backed and asset backed securities, collateralized mortgage obligations and municipal bonds): Corporate debt is stated at fair value based on a bid evaluation process using observable, market-based inputs effective the last day of the plan year (Level 2 inputs).

Derivatives (including cash margin on futures, open futures, futures margin paid/received, and interest rate swaps): Fair value on cash margins held on futures has been determined to approximate the deposit account balance held in cash collateral pools, as no discounts for credit quality or liquidity were determined to be applicable (Level 2 inputs). Fixed income futures include combination of 5, 10 and 20 year U.S. Treasury bond futures that are stated at fair value as priced on a settlement basis, or the price for the contract as set by the exchange at the end of each day's trading. The pricing is provided by an independent industry-recognized pricing source that typically supplies prices via automated transmissions (Level 1 inputs). The interest rate swaps portfolio is stated at fair value based on a mid-evaluation process using observable, market-based inputs (Level 2 inputs).

Hedge funds: Valued at net asset value (NAV) as determined and reported by the general partners of the fund and validated by third-party service providers. Additionally, the hedge funds are audited annually.

As of December 31, 2016, the Plan had no unfunded commitments related to its hedge fund investment class. In general, the terms and conditions upon which the Master Trust may redeem funds from its hedge fund class of investments are as follows (percentages are based on invested capital), with the exception of the Valinor Capital Partners Offshore, Ltd. Fund, which has a gate imposed by the hedge fund manager such that no redemptions are permitted for the first year. The Master Trust's interest in this fund was \$4.9 million and \$0 as of December 31, 2016 and 2015.

The following table summarizes investments in hedge funds measured at fair value based on net asset value per share as of December 31, 2016 and 2015.

	<u>2016</u>	<u>2015</u>	<u>Notice Period</u>
Monthly	12%	9%	15 to 90 days

Semiannual	3%	3%	60 days
Liquidating	3%	3%	**

**As fund managers sell assets, the Master Trust receives its prorated share of the sale.

The Master Trust holds hedge fund investments that are made through limited partnership interests in various hedge funds that employ different trading strategies. As of December 31, 2016 and 2015, no hedge fund made up more than 3% and 3% of the total Master Trust assets, respectively. In addition, the Master Trust has redemption rights with respect to hedge fund investments that range up to three years. Examples of strategies followed by the hedge funds include directional, relative value and event driven strategies. A directional strategy entails taking a net long or short position in a market, with an opinion on the direction the market will move. Relative value seeks to take advantage of mispricing between two related and often

NOTE 5 - FAIR VALUE MEASUREMENTS (Continued)

correlated securities with the expectation that the pricing discrepancy will be resolved over time. Relative value strategies typically involve buying and selling related securities. An event driven strategy uses different investment approaches to profit from reactions to various events. Typically, events can include acquisitions, divestitures or restructurings that are expected to affect individual companies and may include long and short positions in common and preferred stocks, as well as debt securities and options.

The preceding valuation methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believe its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. The Plan has established a policy of recognizing transfers between levels in the fair value hierarchy as of the end of a reporting period.

The following table present the level within the fair value hierarchy of the Master Trust's assets and liabilities measured at fair value on a recurring basis as of December 31, 2016 and 2015:

NOTE 6 - DERIVATIVE FINANCIAL INSTRUMENTS

As of and for the year ending December 31, 2016 and 2015, the Master Trust used derivative financial instruments in the normal course of its investing activities to hedge against adverse changes in the market and to achieve overall investment portfolio objectives. These financial instruments include interest rate swaps and futures contracts.

The Master Trust is subject to master netting agreements, or netting arrangements, with certain counterparties. These agreements govern the terms of certain transactions and reduce the counterparty risk associated with relevant transactions by specifying offsetting mechanisms and collateral posting arrangements at prearranged exposure levels. Master netting agreements are specific to each different asset type; therefore, they allow the company to close out and net its total exposure to a specified counterparty in the event of a default with respect to any and all the transactions governed under a single agreement with the counterparty.

At December 31, 2016 and 2015, the Master Trust held 4 interest rate swap agreements with the counterparties, with total notional amounts of approximately \$11 million and \$575 thousand, respectively. According to the terms of the interest rate swap agreements, value is based on the difference between a fixed interest rate and a variable interest rate, reflected in the most current yield curve, over an agreed period of time. The fixed interest rate is established at the beginning of the transaction, while the variable rate used is based primarily on the London Interbank Offered Rate.

NOTE 6 - DERIVATIVE FINANCIAL INSTRUMENTS (Continued)

The interest rate swaps in an asset position were \$11,331,169 and \$530,990 at December 31, 2016 and 2015, respectively, and interest rate swaps in a liability position were \$11,331,000 and \$575,000 at December 31, 2016 and 2015, respectively, resulting in a net asset position of \$169 and (\$44,010) at December 31, 2016 and 2015, respectively. Collateral on interest rate swaps was \$0 as December 31, 2016 and 2015. The net position and collateral on interest rate swaps is recorded at fair value on the statement of net assets available for benefits in Plan interest in the Dex Media, Inc. Master Trust, with changes in fair values reported in the statement of changes in net assets available for benefits in net investment gain from Plan interest in the Dex Media, Inc. Master Trust.

On behalf of the Master Trust, investment managers enter into various futures contracts to economically hedge investments in domestic securities. These contracts are agreements between two parties to buy or sell a security or financial interest at a set price on a future date and are standardized and exchange-traded. Upon entering into such a contract on behalf of the Master Trust, the investment manager is required to pledge to the broker an amount of cash or securities equal to the minimum "initial margin" requirements of the exchange on which the contract is traded. Pursuant to the contract, the investment manager agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as variation margins and are recorded on a daily basis by the Trustee as realized gains or losses equal to the difference in the value of the contract between daily closing prices.

The following tables present open futures contracts at December 31, 2016 and 2015. The fair values presented in these tables include cumulative appreciation (depreciation) of futures contracts, but only the current day's variation margin receivable/payable is reported in the net assets of the Master Trust.

NOTE 6 - DERIVATIVE FINANCIAL INSTRUMENTS (Continued)

The Master Trust's investment policy statement does not allow the use of derivatives to leverage the portfolios or for speculative purposes. The use of derivatives is not believed to materially increase the credit or market risk of the Master Trust's investments, although futures contracts may be subject to risk of loss in excess of daily variation margin, and swap agreements involve elements of credit market and documentation risk or if the counterparty is unable to meet the terms of the contracts. This is mitigated by the posting of collateral by the counterparty and monitored against the contract terms.

The net appreciation (depreciation) by type of derivative as reported by the Master Trust is as follows for the years ended December 31, 2016 and 2015, respectively:

	<u>2016</u>	<u>2015</u>
Interest rate swaps	\$ (20,114) ^(a)	\$ (1,825,720) ^(a)
Fixed income futures	9,716,637 ^(a)	578,428 ^(a)

(a) Reported in net appreciation (depreciation) in fair value of the Master Trust's investments which is included in investment income as reported in the Plan's interest in Master Trust's net investment income.

NOTE 7 - INFORMATION CERTIFIED BY THE TRUSTEE (UNAUDITED)

All investment information for the Plan disclosed in the financial statements as of December 31, 2016 and 2015, and for the years then ended, was obtained or derived from the information provided to the Plan administrator and certified as complete and accurate by the Trustee. This information has not been audited by independent accountants.

NOTE 8 - INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated December 15, 2016 that the Plan and related trust are designed in accordance with applicable sections of the IRC. Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

In accordance with GAAP, Plan management is required to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2016 and 2015, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2013.

Parties-in-interest are defined under Department of Labor ("DOL") regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. The Master Trust invests in collective trusts managed by State Street Bank and Trust Company as of December 31, 2016 and 2015. As such, these investments qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules. Amounts paid by the Plan to parties in interest included fees paid for investment management, administrative, legal, audit and actuarial services. These transactions are also exempt from the prohibited transaction rules.

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the cash balance interest crediting rate from 3.25% to 3.00% for 2016-2018 and 4.00% thereafter.
- A change in the cash balance annuity conversion mortality assumption from the 2015 plan year IRC section 417(e)(3) mortality table to the 2016 plan year IRC section 417(e)(3) mortality table.
- A change in the assumed expenses payable from the trust to equal the actual prior year administrative expenses plus current PBGC premiums.

The above changes were made to better reflect the anticipated plan experience. The funding assumption changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.

Valuation of Plan Assets

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Schedule SB, line 24—Change in Actuarial Assumptions

The funding valuation reflects the following assumption changes:

- A change in the cash balance interest crediting rate from 3.25% to 3.00% for 2016-2018 and 4.00% thereafter.
- A change in the cash balance annuity conversion mortality assumption from the 2015 plan year IRC section 417(e)(3) mortality table to the 2016 plan year IRC section 417(e)(3) mortality table.
- A change in the assumed expenses payable from the trust to equal the actual prior year administrative expenses plus current PBGC premiums.

The above changes were made to better reflect the anticipated plan experience. The funding assumption changes did not reduce the funding shortfall more than the thresholds stated in Internal Revenue Code Section 430(h)(5), so approval of the Commissioner is not required.
