5 Years and Over	100%

Participants become 100% vested in Company matching and discretionary profit sharing contributions in the event of normal retirement at age 65, disability, death, or if the Plan is terminated or partially terminated.

Forfeitures

Forfeitures of Company contributions can be applied to reduce future Company contributions and to pay administrative expenses of the Plan. Forfeitures become available to the Plan as of the earlier of the last day of the Plan year in which a former employee incurs five consecutive one-year breaks in service or a distribution of the participant's entire vested account balance occurs. For the years ended December 31, 2016 and 2015, forfeitures in the amounts of \$7,013 and \$3,278, respectively, were applied to reduce employer contributions.

Payment of Benefits

Upon termination of service, retirement at age 65, death, disability, or attainment of age 59 1/2, a participant or their beneficiary, in the event of death, is entitled to a distribution of their vested account balance, as defined by the Plan. Distributions from the Plan are payable in the form of a lump sum payment. Partial withdrawals are only permitted for in-service participants after attainment of age 59 1/2 and for required minimum distributions as defined by the Code. Upon proof, to the satisfaction of the plan administrator, of an immediate and heavy financial need, contributed deferral amounts may be withdrawn for a hardship purpose. Distributions are subject to the applicable provisions of the Plan Agreement. In all cases, certain income tax penalties may apply to withdrawals or distributions prior to age 59 1/2.

Participant Loans

Participants may borrow up to 50% of their vested account balance, not to exceed \$50,000 without regard to the intended use of the funds. The minimum loan amount is \$1,000 and the participant can hold one outstanding loan at any given time. The loans are collateralized by the participant's vested account balance and bear interest rates comparable to those offered by financial institutions. Loans for reasons other than the purchase of a primary residence are to be repaid within five years. Loan principal, along with interest, is repaid through payroll deductions. Loans become due immediately upon termination of the participant's employment.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. In addition, certain distribution processing, loan administration and management fees are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments. For the years ended December 31, 2016 and 2015, the Company elected to pay a portion of the Plan expenses.

Note 2: Summary of Accounting Policies

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting. All expenses of administration may be paid from the Plan unless paid by the employer.

Investments held by a defined contribution plan are required to be reported at fair value, except for investments in fully benefit responsive investment contracts. Contract value is the relevant measure for that portion of the net assets available for benefits of a defined contribution plan attributable to any fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (GAAP) requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments in are reported at fair value, except for fully benefit - responsive investment contracts, which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisors, trustees and custodians. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

In July 2015, FASB issued ASU 2015-12, Defined Contribution Plans (Topic 962), (Part 1) Fully Benefit Responsive Investment Contracts, (Part II) Plan Investment Disclosures, (Part III) Measurement Date Practical Expedient. Part I eliminates the requirements to measure the fair value of fully benefit-responsive investment contracts and provide certain disclosures. Contract value is the only required measure for fully benefit-responsive contracts. Part II eliminates the requirements to disclose individual investments that represent 5% or more of net assets available for benefits and the net appreciation or

depreciation in fair value of investments by general type. Part II also simplifies the level of disaggregation of investments that are measured using fair value. Plans will continue to disaggregate investments that are measured using fair value by general type; however, plans are no longer required to also disaggregate investments by nature, characteristics and risks. Further, the disclosure of information about fair value measurements shall be provided by general type of plan asset. Parts I and III are not applicable to the Plan. ASU 2015-12 is effective for fiscal years beginning after December 15, 2015, with early adoption permitted. Parts I and Part II are to be applied retrospectively. In 2016 the Plan adopted ASU 2015-12 Part II which is applied retrospectively.

Plan management does not believe that the adoption of the provisions of ASU 2015-12 had a material impact on the financial statements.

Date of Management's Review

The Plan has evaluated subsequent events through October 4, 2017, the date which the financial statements were available to be issued. There were no events or transactions that occurred during the period that materially impacted the amounts or disclosures in the financial statement.

Note 3: Investment Information Certified by the Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the plan administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by John Hancock Life Insurance Company (John Hancock), except for comparing such information certified by the custodian to information included in the Plan's financial statements and supplemental Schedule H, line 4i, Schedule of Assets Held For Investment Purposes.

The following information was derived from data certified by the custodian as being complete and accurate as of December 31:

	<u>2016</u>	<u>2015</u>
Pooled Separate Accounts, At Fair Value	\$ 9,970,033	\$ 9,675,471

TOTAL INVESTMENTS	<u><u>\$ 10,002,463</u></u>	<u><u>\$ 9,707,483</u></u>

The custodian also certified to the completeness and accuracy of \$655,845 and \$(131,498) of net appreciation (depreciation) in fair value of investments for the years ended December 31, 2016 and 2015, respectively.

Note 4: Fair Value Measurements

Financial Accounting Standard Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access at the measurement date.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable for the asset or liability, significant to the fair value measurement, and include situations where there is little, if any, market activity for the asset or liability. The inputs into the determination of fair value are based upon the best information in the circumstances and may require significant management judgment or estimation.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2016 and 2015.

Interests in Pooled Separate Accounts: The fair value of the participation units owned by the Plan in the pooled separate accounts is based on the net assets of the underlying pool of securities on the last business day of the Plan year as determined by John Hancock. Redemptions may occur on a daily basis. The use of net asset value as fair value is deemed appropriate as the interests in pooled separate do not have finite lives, unfunded commitments relating to these types of investments, or significant restrictions on redemptions.

Guaranteed Interest Account: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Average crediting interest rates range from .54% to 1.04%.

Note 4: Fair Value Measurements (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2016 and 2015:

Investments at Fair Value as of December 31, 2016:

Note 5: Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions and to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination participants will become 100% vested in their employer contributions.

Note 6: Risks and Uncertainties

Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable that changes in value of investment securities will occur in the near term, and, that such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Note 7: Tax Status

The Company adopted a non-standardized Profit Sharing prototype plan, which received a favorable opinion letter from the Internal Revenue Service (IRS) on August 7, 2001. The IRS determined that the Plan, as then designed, was in compliance with the applicable requirements of the Code. The Plan has been amended since receiving the opinion letter, and the Plan was restated January 1, 2016. The underlying prototype plan has received an opinion letter from the IRS dated March 31, 2014 stating that the form of the Plan is qualified under section 401 of the IRC, and therefore the trust is tax exempt. The plan administrator believes that the Plan is designed and is currently operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

The Plan is subject to the examination by taxing authorities of any uncertain tax positions taken. In accordance with FASB ASC 740 - Income Taxes, management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that required adjustment to the financial statements. Therefore, no provisions or liabilities for income taxes have been included in the financial statements. With a few exceptions, the Plan is no longer subject to U.S. federal and state income examinations by tax authorities for the years before 2013.

Note 8: Party-In-Interest and Related Party Transactions

Certain Plan Investments are interests in registered investment companies managed by John Hancock Life Insurance Company. John Hancock is the custodian as defined by the Plan. The Company provides certain accounting and administrative services to the Plan for which no fees are charged. Fees are paid by the Plan for administrative expenses to John Hancock and other third party administrators of the Plan. Fees incurred by the Plan for the investment management services are included in the net appreciation (depreciation) in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. As described in Note 2, the Plan made direct payment of certain administrative expenses of \$6,070 and \$4,868 for the years ended December 31, 2016 and 2015, respectively, which were not covered by revenue sharing. The trustee of the Plan is a participant in the Plan. Such transactions qualify as party - in - interest transactions which are exempt from the prohibited transaction rules.
