1. DESCRIPTION OF PLAN

The following is a brief description of the Zoladz Construction Co., Inc. 401(k) Savings Plan (the Plan) provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution retirement plan as permitted under Section 401(k) of the Internal Revenue Code with a Roth feature, covering eligible employees of Zoladz Construction Co., Inc. (the Company and Plan Sponsor); Zoladz Construction Management, and Autumn Contracting LLC. The Plan is funded by employee and employer contributions. A portion of administrative expenses may be paid by the Plan. Administrative expenses not paid by the Plan are paid by the Plan Sponsor. At December 31, 2016, the assets of the Plan were maintained in investment funds held by John Hancock Life Insurance Company (John Hancock). At December 31, 2015, the assets of the Plan were maintained in investment funds held by Nationwide Trust Company, FSB (Nationwide). The Plan is intended to conform to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and subsequent legislation, where applicable.

Eligibility

Employees must complete 3 months of service, as defined, to be eligible to participate in the employee deferral provisions of the Plan. An employee must also complete a year of service, as defined, to receive employer matching contributions and additional discretionary employer contributions.

Contributions

Participants may authorize an elective deferral contribution in an amount equal to a percentage of the contributing employee's compensation as defined by the Plan, not to exceed the maximum annual limitations as provided by the Internal Revenue Code. Participants who are age 50 or older before the end of the plan year are permitted to make an additional “catch-up” contribution. This contribution was limited to $6,000 in 2016 and 2015. Roth deferral contributions are also allowed. The employer matching contribution is equal to 20% of employee deferrals for the first 5% of eligible compensation and 40% of employee deferrals for the next 5% of eligible compensation. Additional non-elective contributions may be made at the discretion of the employer. Participants may also contribute amounts representing distributions from other qualified pension plans.

Investments

Participants direct the investment of employee and employer contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

Vesting

Participants are immediately 100% vested in their elective deferral contributions plus actual earnings thereon. Participants are 20% vested in employer matching contributions and profit sharing contributions after two years of service, as defined, with a 20% annual increase in each of the next four years.

1. DESCRIPTION OF PLAN (Continued)

Forfeitures
Forfeited nonvested accounts are first used to offset plan expenses and then used to reduce employer matching contributions. At December 31, 2016 and 2015, forfeited nonvested accounts totaled $340 and $2,294, respectively. Forfeitures of $6,759 and $14,629 were used to offset employer contributions to the Plan during the year ended December 31, 2016 and 2015, respectively.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000, up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. Loans are permitted only in circumstances that satisfy the safe-harbor definition of a hardship expense. Loan terms range from one to five years, but may exceed five years for the purchase of a primary residence. The loans are collateralized by 50% of the vested balance in the participant's account and bear interest at a rate as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Participant Accounts
Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) plan investment earnings (losses) and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Withdrawals and Distributions
Distributions will be made as soon as administratively feasible following the date on which a distribution is requested or is otherwise payable. The normal retirement date is the date upon which a participant reaches age 60. Hardship distributions are not permitted under the Plan. Participants may receive their accumulated vested benefits held by the Plan's custodian upon termination of employment or elect to keep their vested balance in excess of $5,000 in the Plan. If the participant elects to keep his or her vested interest in the Plan, the participant's account will continue to receive its share of earnings and losses. Participants who have reached age 59 ½ may take in-service distributions.

Plan Termination
Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become fully vested in the company contribution portion of their account.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting
The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties
The Plan's assets include various types of investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to the value of such investments, changes in the values of investments will occur and such changes could materially affect the amounts reported in the accompanying financial statements.

Payment of Benefits
Benefits are recorded when paid.

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the terms of the Plan Document.

Income Taxes
The Internal Revenue Service has determined and informed the Company by a letter dated March 31, 2014 that the Plan and related trust are designed in accordance with the applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

3. FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at December 31, 2016, as well as investment income and investment transactions for the period from September 1, 2016 through December 31, 2016, has been derived from information provided by John Hancock, the Custodian of the Plan, and has been certified by them as complete and accurate. The Plan's assets at December 31, 2015, as well as investment income and investment transactions for the period from January 1, 2015 through September 1, 2016, has been derived from information provided by Nationwide, the prior Custodian of the Plan, and has been certified by them as complete and accurate.

4. FAIR VALUE MEASUREMENTS

The Plan uses various valuation techniques in determining fair value. FASB ASC Section 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2015.

Mutual Funds: Valued based on quoted market prices in active markets.

Collective Investment Trust: The collective investment trust consists of conventional and synthetic investment contracts, which are valued as follows:

- The fair value of conventional investment contracts is determined using a discounted cash flow methodology where the individual contract cash flows are discounted at the prevailing interpolated yield curve rate as of year-end.

- Individual assets of the synthetic investment contracts include domestic and foreign fixed income securities and investments in investment companies or collective investment trusts. When available, the fair value of fixed income securities is based on quoted prices of identical assets in active markets. When quoted prices are not available, the first priority is to obtain prices from third party pricing methodologies and to confirm they are utilizing observable market information. Their methodologies vary by asset class and include inputs such as estimated cash flows, benchmark yields, reported trades, broker quotes, credit quality, industry events and economic events.

4. FAIR VALUE MEASUREMENTS (Continued)

- The collective investment trust does not have any unfunded commitments relating to their investments, nor any restrictions on redemptions. Participant-directed redemptions can be made daily and do not have a redemption notice period.

Pooled Separate Accounts: Contain investments in fixed securities, such as asset or mortgage-backed securities and corporate bonds, and in mutual funds that hold such investments. One account invests mainly in commercial real estate and includes mortgage loans which are backed by associated properties. The net asset values of the separate accounts are not publicly quoted. The value of the underlying investments is used in determining the net asset value of each separate account. Underlying fixed securities have observable pricing inputs, including quoted prices for similar assets in the active or non-active markets.

Pooled separate accounts can be redeemed on a daily basis and there are no restrictions. There are no unfunded commitments.

The methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts, at net asset value				$ 3,837,720

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2015:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 3,334,132	$ -	$ -	$ 3,334,132
Collective investment trust				294,495
Total investments				$ 3,628,627

5. PARTY-IN-INTEREST TRANSACTIONS

Investment income (losses) on assets managed by Nationwide amount to $161,964 and $(15,501) for the period from January 1, 2016 through August 31, 2016 and the year ended December 31, 2015, respectively. For the period from September 1, 2016 through December 31, 2016, the Plan invested in shares of pooled separate accounts managed by John Hancock. John Hancock acts as the Plan's custodian, therefore, these transactions qualify as party-in-interest. Investment losses on these assets amounted to $(6,050).

Notes receivable from participants of $56,317 and $65,154, with interest rates ranging from 4.25% to 5.25% for the years ended December 31, 2016 and 2015, respectively, also qualify as party-in-interest. Interest income on these notes was $803 and $3,931 for the years ended December 31, 2016 and 2015, respectively.

6. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the statements of changes in net assets available for benefits per the financial statements to Form 5500 for the years ended December 31, 2016 and 2015:

	2016	2015
Change in net assets available for benefits per the financial statements	$ 192,300	$ 193,187
Change in adjustment from contract value to fair value for fully-benefit responsive investment contracts	-	(2,405)
Change in net assets available for benefits per Form 5500	$ 192,300	$ 190,782
